Formula Sun Sports and Super Sports — The Best Ever in Dayboating

Formula designs and delivers exactly what dayboaters want in 2007 – all-around good times with family and friends. Formula's emphasis on cockpit size and versatility creates more space for everyone with generous seating shaped for comfort. The aft lounge, complete with tables, is the gathering place for fun-loving groups, and the integrated wetbar is always ready to serve refreshments. Running across open water in today's best dayboat, each fast, solid ride is an exciting new adventure.

Significant high-tech updates for '07 include an iPod™/MP3 port at every cockpit dash. Along with the 10-disc CD option, an iPod docking station in the cabin is another up-to-the-minute advantage. The hand-held waterproof remote is a convenient new feature to control cockpit courtesy lighting. Also, with the Sun Sport TV option and 12-volt TV system, in-range telecasts can be received out on the water. LED swim platform courtesy lighting is now included on all SS models, and the larger models are newly equipped with pull-up swim platform cleats for easy boarding.

Sun Sport décor is ultra smart, yet practical every day, introducing all-new fabrics, textured Ultraleather™ lounges and subtly patterned custom carpet for '07. The new Flagship color is Black Cherry, a beautiful metallic Imron® in today's sophisticated, deeper shades. Select exterior graphics for your 2007 Sun Sport or Bowrider from an astounding 21 different choices.

2007 Super Sports power up to a faster pace with exhilarating multi-step hull performance, sleek design lines and solidly superior offshore construction. Luxurious interiors now include cabinetry with high-gloss, Deep Cherry woodgrain finish. That, together with new décor elements presented in three appealing color palettes, defines top-of-the-line excellence. Also, Ralph Lauren fabrics are featured as a handsome new Super Sport upgrade with an imaginative nautical flair. Another attractive Super Sport option is American Cherry woodgrain finish flooring in galley areas. Create your prestigious Super Sport from 17 different exterior graphic selections — the one in complete accord with your personal style.

Formula Sun Sports and Super Sports... Simply the Best!

FORMULA

A remarkable tradition of excellence has earned Formula the prestigious reputation as the best designed, best constructed pleasure boat today. After completing fifty years of successful powerboat production, the Vic Porter family, owners of Formula since 1976, continue to focus on achieving top quality in each Formula, from the sporty SS lineup to the magnificent Yachts.

President Scott Porter along with three brothers and a sister work together as committed owner/managers, leading Formula in daily operations. Vic Porter, who began his first boat company in 1958, serves as Chairman.

The Porter family has enjoyed boating over the years and understands the important difference of expertly designed, high-quality features, top-notch performance and responsive, customer-oriented service. Maximum personal satisfaction for Formula owners continues to be the Porter family goal.

The Formula Difference

Advanced Production Standards Result in Top Quality

Formula's entire manufacturing facility focuses on excellence

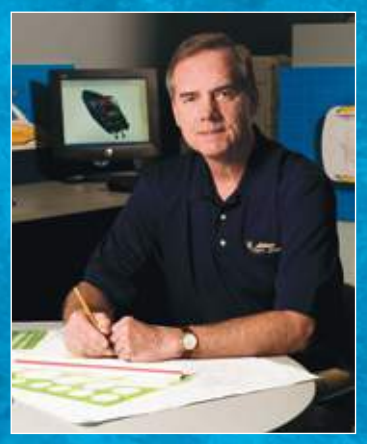
- A 575,000 square foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. A state-of-the-art, 85,000 square-foot expansion was recently completed, keeping Formula on the leading edge of manufacturing processes.
- Advancing technology is consistently utilized to improve Formula powerboats and ensure superior quality.
- Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

Employee teams accomplish continual product improvement for Formula owners.

- On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them.
- An on-site training program, C.O.R.E. (Champions of Reaching Excellence), expands and sharpens Formula employees' personal and professional developmental skills.
- Each time they boat, Formula owners benefit from employee-generated product reliability.

Design Excellence Teams Up with Precision Engineering

John Adams blends form and function to perfection.



- For over thirty-five years as exclusive designer, Adams has been creating Formulas with sleek, distinctive styling, award-winning performance and superior quality.
- Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.
- Adams' expertise elevates Formula Sun Sports and Super Sports to ever higher levels of beauty, comfort and innovative practicality.

CAD/CAM technology plus R&D expertise ensure your Formula's superior quality.

- Using state-of-the-art CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.
- Dimensions and positioning of components and systems are determined for precise fit.
- Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mock-ups are built to fine-tune ergonomics and space utilization.

- Computer Numerically Controlled (C-N-C) routers are programmed to cut panels, acrylic, Corian and other components, maintaining accuracy to within thousandths of an inch.
- Sidewalls, headliners, cabinets and coaming panels meet exactly with unparalleled fit and finish.

Formula Sun Sports and Super Sports Move Out with Responsive, Spirited Performance

Formula Sun Sports deliver performance with a sharp, exciting edge.

- Whether at a fast or leisurely pace, proven deep-V hull technology delivers a stable, comfortable ride.
- Handling is responsive and tracking is right on.
- The solid feel is a result of Formula's superior design and structure.

Formula Super Sports utilize FAS³Tech® hull technology for a fast, smooth ride.

- Both the 400 and 370 Super Sports are equipped with the same advanced hull technology as Formula's high-performance FAS³Techs.
- The fast, stable ride and ready handling attest to expertly engineered step, chine, strake and keel pad placement.
- The one-piece fiberglass structural grid, Formula's custom triaxial fiberglass and AME 5000® resin throughout provide maximum integrity.

Superior Materials and Construction Expertise Ensure Lasting Beauty and Durability

Individual lamination schedules result in the smooth, reflective Formula finish.

- Formula is famous for producing the highest quality finish in the industry through the consistent use of top-grade materials, following layering procedures exactly and also by the systematic maintenance of all molds on a rigorous schedule.

- Patterned fiberglass shapes, produced through in-house Gerbercutter® technology, are layered with resin to build each component.
- Divinycell® structural foam adds lightweight strength in specific areas as opposed to balsa construction that absorbs water when improperly applied, and utilizing Coremat® prevents surface print-through.
- By allowing a part to remain in its mold the optimal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

Formula's unique suspended stringer system ensures your Sun Sport's integrity.

- Each Sun Sport hull is reinforced with a custom-engineered matrix constructed of Perma Panel™, which is not susceptible to decay-causing fungi.
- Cut precisely by C-N-C routers, the matrix is encapsulated in resin and laminated to the hull while suspended on jigs. This eliminates contact distortion and creates a level base for exact component fit.
- Hull cavities are filled with structural foam, increasing integral strength and producing a quiet, solid ride.

Super Sport grid structure is molded fiberglass for maximum strength offshore.

- The Super Sport matrix is a multiple span, continuous fiberglass grid molded in one piece and bonded to the hull with Plexus® adhesive.
- Using AME® 5000 resin along with custom woven fiberglass for maximum strength, the custom grid is constructed in the same way as the Formula FAS²Tech® matrix.
- Structural foam injected into the grid adds integrity and also results in a solid, quieter ride.

Top quality AME® 5000 resin assures your Formula's long-lasting beauty.

- Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.
- Your Formula will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

Pultrusion reinforcement adds critical structural strength.

- During Cruiser construction, custom-fabricated fiberglass shapes are positioned under fuel tanks and engines and along interior gunwales.
- Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.

Formula joins the deck and hull utilizing superior procedures for rugged durability.

- Plexus®, an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.
- The deck and hull joint is also bolted together with ¼˝ stainless steel truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.
- This unyielding structure is vital offshore where wave action takes its toll on all but the strongest construction.

Demanding Standards Assure Componentry and Hardware Dependability

Formula tests all proposed components to assure reliability.

- New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.
- If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

316L stainless steel rails are a top-grade finish for your Formula.

- All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- Anything less will not keep its like-new appearance.

Superior hardware installation provides integrity you can count on.

- When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- All other deck hardware is bolted securely, not screwed down, to effect solid construction.
- A flexible O-ring around each hardware fastener creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when reseated.
- All fasteners are chrome-plated stainless steel.

Exacting Techniques Result in Reliable On-Water Electrical Systems

Formula installs dependable, deep-cycle batteries for superior reliability.

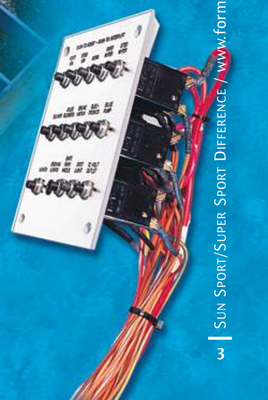
- Deep-cycle batteries are standard in all Sun Sports and Super Sports.
- Deep-cycle batteries can be charged repeatedly without losing strength — another way built-in reliability keeps you on the water.

All Formula electrical systems are designed to give uninterrupted service.

- Formula individually secures each wiring connection with a visible crimp instead of using pre-insulated connectors common in the industry.
- The crimped connection is insulated with double-walled shrink tubing — the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion while the outer wall prevents shorts.
- For longer runs, color-coded wires are routed through flexible conduit for protection and security.
- Instrument panels are easily removed to access dash wiring connections.

E-T-A® circuit breakers protect your systems from excess electrical current damage.

- "Push-push" switch design disconnects and resets the circuit.
- Circuit breaker security enhances electrical component reliability.
- Circuit breakers eliminate the need to stock a variety of fuses.



FORMULA'S VERSATILE COCKPITS ARE ERGONOMICALLY CORRECT AND EXECUTED TO PERFECTION

Versatile cockpits are designed for enjoyable times together.

- Comfortable, U-shaped lounge seating with tables and filler cushions converts to a large sun lounge.
- The integrated wetbar with hinged Corian® countertop, molded sink, cooler storage and trash receptacle is a convenient center for refreshments any time.
- Throughout the cockpit polished stainless steel drink holders are within easy reach.

Sun Sport and Super Sport helm design achieves correct ergonomics for you.

- Constructing full-scale mockups for each new model finalizes correct human dimensions.
- The helm provides easily viewed, comfortably reached shifters, throttles, gauges and switches.
- Backlit, waterproof rocker switches provide easy recognition and systems control.

The specially engineered helm seat accommodates two in comfort.

- With the generous, double-wide command seat, both captain and companion enjoy the view at the helm.
- Both well-padded hinge-up seats offer the individual option of sitting, standing, or leaning back against the upright seat.

Superior cockpit seating is designed for relaxed comfort.

- Formula is regarded as the leader in expertly designed and executed seating.
- Human dimension criteria are utilized to achieve correct proportions and contouring.
- Separate, pre-shaped foam components are placed in each seat to provide optimal lumbar and leg support.

Eliminating wood in the cockpit provides lasting durability.

- StarLite® XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- Seat cores are either rotocast plastic or formed fiberglass, creating a virtually indestructible framework.
- Eliminating wood structure extends the cockpit's like-new appearance into the future.

Specialized foam makes the difference in dry cockpit seating.

- Advanced Dri-Fast® polyurethane foam is used throughout the Formula cockpit.
  - Instead of being trapped, water freely drains through the foam, eliminating soggy seats.

Rugged, transportation-grade cockpit upholstery looks new far longer.

- Formula upholstery holds its shape and resists tears due to its extra density and premium-grade backing material.
- Top grade vinyl accents are color-permeated and coordinate with the exterior Imron® colors.
- Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.

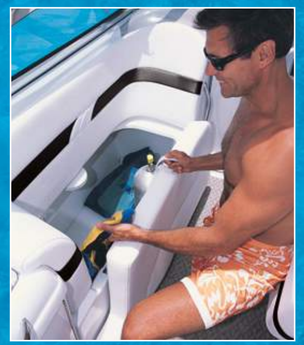
Computerized consistency and skilled sewing combine to create Formula upholstery's sculpted appearance.

- A computer-based GERBERcutter® cuts upholstery pieces accurately and consistently.
- Assembled by Formula's skilled sewers, patterns come together in complex designs, finished with hand-guided topstitching, the hallmark of finest quality.
- Specialized thread, Tenara® by Gore™ used in sewing exterior vinyl upholstery, does not deteriorate from exposure to sunlight, cleaning agents or saltwater.

GORE Tenara® SEWING THREAD

There's plenty of room for your gear in a Formula SS cockpit.

- Smooth fiberglass storage areas, free of exposed wood or carpet, protect your gear from unwanted moisture.
- Special compartments for lines, fenders and PFDs keep the cockpit clutter free.



Sun Sports and Super Sports offer safe, easy access to the foredeck.

- Formula's beautifully curved windshields are designed with a center walk-through to the foredeck.
- The steps are properly proportioned, and protective railing offers safe access.
- This popular feature is a real plus in handling forward lines and for docking and anchoring.

Formula engine rooms are well laid out for easy access and inspection.

- At the touch of a switch, a large section of the aft cockpit sole is raised for easy entry to the engine room.
- Important safety features include an engine room fume detector and the automatic fire extinguishing system.
- Formula thru-bolts all engine installations using heavy duty engine mounts with angled aluminum backing plates while some lesser-quality manufacturers simply lag-bolt motor mounts directly to engine room stringers.

SS INTERIORS PRESENT UNIQUE FEATURES AND LUXURIOUS DESIGN ELEMENTS

Ultraleather™ cabin lounge seating provides practical luxury.

- Comfort, beauty and function combine to create the perfect setting for relaxation and entertainment.
- Ultraleather has the appearance and rich, supple feel of fine leather.
- It is surprisingly tough and durable — spills wipe up easily.

Formula cabin design offers first-class amenities.

- Slip-resistant cabin entry steps, constructed with high-tech Lonseal, are a stylish, practical feature.
- The floor plan maximizes cabin storage while keeping the layout sleek and flowing.
- A satisfying variety of designer décor selections complements your choice of exterior graphic color.
- Upscale lounges with beautifully coordinated pillows and draperies, high-gloss wood tables, sculptured carpeting create a luxurious environment of the highest quality.
- Super Sports also offer a custom quilted bedspread with matching pillow shams, bed linens and towel sets as additional fine furnishings of the highest quality.

Precise, high-gloss cabinetry reflects the look of fine furniture.

- Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- The ultra contemporary Super Sport cabinetry finished in high-gloss deep cherry wood grain.
- Cabinetry is securely bolted in place with metal brackets, while internally thru-bolted angle aluminum ensures enduring integrity.
- Top-quality recessed knob or stainless steel ring latches keep doors and drawers closed under way.
- All SS drawers are solid, dovetailed hardwood construction.
- Genuine Corian® countertops, hand-crafted by Formula with beautifully rounded edges, are smooth and seamless — easy to clean and care for.
- Stoves and trash receptacles are cleverly concealed in the Corian countertop.

AUDIO VISUAL SYSTEMS INCLUDE THE VERY LATEST IN TECHNOLOGY

The latest in sound system technology enhances your listening enjoyment.

- Formula installs a top-quality AM/FM/CD stereo system with marine-grade speakers in each Sun Sport and Super Sport.
- Each Formula sports an iPod™/MP3 port at the helm, and with the 10-disc CD changer package, the iPod docking station in the cabin charges the player while giving you complete playlist control from stereo remotes.
- Available cockpit subwoofers enhance your stereo's low-frequency response and present full, rich sound underway.
- A crystal-clear digital signal and complimentary six-month subscription to Sirius Satellite Radio ensures static-free reception.

SIRIUS SATELLITE RADIO

Formula researches the latest in LCD flatscreen technology to provide the ultimate viewing experience.

- Formula seeks out A/V components capable of ensuring superior performance.
- Premium LCD TV technology delivers a rich, razor-sharp picture.
- In hardtop-equipped 400 Super Sport, the cockpit flatscreen monitor option with wireless technology frees you to watch television anywhere on or near your boat.

FORMULA'S UNIQUE IMRON® PROCESS RESULTS IN A VIBRANT FINISH THAT FAR SURPASSES ALL OTHERS

- Executed with DuPont Imron, a durable all-weather urethane, Formula graphics excel in design, quality and lasting beauty.
- Formula offers the widest range of color selections and designs to personalize your powerboat.
- Complicated preparation, patterning and masking procedures are involved in each different color application.
- Imron-finished graphics never chalk or fade as compared to colored gelcoat; Imron retains its original, like-new brilliance and glossy surface year after year.

FORMULA SUN SPORTS AND SUPER SPORTS ARE DESIGNED, BUILT, TESTED AND PROTECTED TO ENSURE FORMULA OWNER SATISFACTION

NMMA Certification of all Formulas is a reassuring safety factor.

NMMA® CERTIFIED using ABYC standards

- As a charter member of the National Marine Manufacturers Association, Formula has always been committed to product integrity.
- The safety of owners is of primary importance to Formula.
- NMMA certification to ABYC standards is displayed in each Formula and should be a determining factor when considering other boats.

The final QAP inspection assures ultimate quality in your Formula.

- During the Quality Assurance Program inspection, both corporate and production personnel thoroughly evaluate your Formula.
- Fit and finish details are examined from a customer's point of view.
- Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each model.

Test tank evaluation of each Formula assures turn-key delivery.

- Working through an extensive checklist, all instruments, systems and accessories are tested.
- Engines are powered up to verify proper operation.
- A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.
- In addition, Formula maintains an extensive on-water testing program to ensure the ongoing improvement of the Formula line.

Formula Guard protects your boating investment.

FORMULA GUARD® 5-YEAR LIMITED PROTECTION PLAN

- The Formula Guard protection plan protects your boating investment with a 10-year structural warranty.
- A five-year limited protection plan under Formula Guard covers engine/outdrive, accessories and components, including labor and materials.
- Formula Guard is transferable during the first five years of ownership, increasing your Formula's value.
- For detailed information visit our website at www.formulaboats.com.

Formula Reliability Centers ensure excellent service for your Formula.

FORMULA RELIABILITY CENTER®

- Formula works with dealerships to provide quick, expert service, keeping Formula boaters happy and on the water.
- Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- Dealers are well informed regarding Formula product so they can provide timely, expert technical and mechanical service.

The Formula Difference

Compare this Formula Difference checklist to any other boat offered on the market today.

You'll soon find that the best way to improve your boating experience is in your own Formula for 2007.

available with Ralph Lauren Fabric Package

400 SS

Ralph Lauren Fabric Package with
High-Gloss Deep Cherry Cabinetry and Morocco Corian®

240 Bowrider Standard Equipment

240 Bowrider Exterior

- NMMA Certification
- Transferable 5-Year Formula Guard Limited Protection Plan
- Imron® graphic A or B w/cockpit accent striping
- High-density fiberglass-reinforced polyurethane structural hull matrix
- Foam-filled hull cavities
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Concealed fiberglass anchor locker w/316L stainless steel beach ladder
- Stainless steel hardware & 316L stainless steel welded rails
- Stainless steel fuel fill w/integral vent
- Tinted, tempered curved-glass windshield w/center walk-thru
- Windshield wiper
- Polished air horn
- 316L stainless steel transom grab rails & ski/wakeboard swivel-head rope mount
- Transom-mounted stereo remote control
- Transom-mounted outdrive switches
- Extended integrated swim platform w/concealed 316L stainless steel swim ladder & pull-up cleats
- Portside transom trunk storage

240 Bowrider Cockpit

- Continuous molded fiberglass deck & cockpit liner
- Dash panels w/burl wood finish & brushed metallic finish
- Complete Livorsi® illuminated instrumentation, domed w/chrome bezels
- Dash panel-mounted Ritchie® compass
- Digital depth sounder
- Side-mount shift/throttle control w/trim switch
- Safety ignition stop switch w/tether
- Dino™ tilt steering wheel w/burl & brushed metallic accents
- Bennett® hydraulic trim tabs
- Auxiliary 12V outlet
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Kenwood AM/FM/CD stereo w/high-power output, dash-mounted full-feature remote control, four 100W 6 ½˝ 2-way marine-grade speakers
- Six-month subscription to Sirius™ Satellite digital broadcast
- iPod™/MP3 port
- Thirteen polished stainless steel drink holders
- Cockpit/swim platform courtesy lights
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- Dual-position twin bucket seating
- L-shaped aft lounge seating w/Igloo® cooler below
- Aft-facing sun lounge—converts to full-length sunpad
- Removable cockpit table

- Molded fiberglass wetbar w/stainless steel sink, Corian® countertop, concealed trash receptacle, fire extinguisher & 316L stainless steel safety rail
- Demand water system
- Battery on/off switch
- In-floor ski & wakeboard storage
- Custom patterned cockpit carpet
- Bow & cockpit covers in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™

240 Head Compartment

- Continuous molded fiberglass liner
- Curved, one-piece locking door
- Portable head unit
- Carbon monoxide detector

240 Bowrider Engine Room

- Single engine installation
- Motorized hatch lift
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted engine mounts
- Remote oil filter
- Marine battery w/retainer
- Active & passive galvanic corrosion protection systems
- Bilge blowers
- Automatic bilge pump
- Polished stainless steel props

240 Bowrider Available Equipment

- Imron Flagship graphic w/full hullside color
- Imron Flagship Elite graphic design
- Polished stainless steel bow docking lights
- Ski/wakeboard swivel-head rope pylon
- Custom polished 316L stainless steel sport arch w/mast light & wakeboard swivel-head rope mount
- VHF radio w/antenna
- Garmin® GPS navigational system w/172C color chart plotter
- SmartCraft™ instrumentation system (on Mercury engine packages only)
- SmartCraft instrumentation w/DTS digital throttle & shift control system (on Mercury engine packages only)

- 200W cockpit subwoofer
- Bow seating filler cushions
- Transom shower
- 12V inflator for towable floats w/storage pouch
- Manual porcelain head unit w/10-gallon holding tank & dockside pumpout
- Manual porcelain head unit w/10-gallon holding tank & Y-valve for macerator discharge or dockside pumpout
- Gray water holding system
- Engine freshwater flush system
- Extra battery w/selector switch
- Captain's Call™ exhaust diverter
- Bimini top in color-matched non-fading Sunbrella acrylic fabric w/SeaMark vinyl undercoating
- Front & side curtains w/easy-mount zipper connectors & aft cockpit enclosure in color-matched non-fading Sunbrella acrylic fabric w/SeaMark™ vinyl undercoating

260 Bowrider Standard Equipment

260 Bowrider Exterior

- NMMA Yacht Certification
- Transferable 5-Year Formula Guard Limited Protection Plan
- Imron® graphic A or B w/cockpit accent striping
- Pressure-treated Perma Panel™ structural hull matrix
- Foam-filled hull cavities
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Concealed fiberglass anchor locker
- Stainless steel hardware & 316L stainless steel welded rails

- Stainless steel fuel fill w/integral vent
- Two port lights w/screens
- Tinted, tempered curved-glass windshield w/center walk-thru
- Windshield wiper
- Polished air horn
- Ski/wakeboard swivel-head rope pylon
- Transom-mounted stereo remote control
- Transom-mounted outdrive switches
- Extended integrated swim platform w/concealed 316L stainless steel swim ladder
- Transom shower

260 Bowrider Cockpit

- Continuous molded fiberglass deck & cockpit liner
- Dash panels w/burl wood finish & brushed metallic finish
- Complete Livorsi® illuminated instrumentation, domed w/chrome bezels
- Ritchie® compass
- Digital depth sounder
- Shift/throttle control w/trim switch
- Safety ignition stop switch w/tether
- Dino™ tilt steering wheel w/burl & brushed metallic insets
- Bennett trim tab switches & indicators
- Auxiliary 12V outlet
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Kenwood® AM/FM/CD stereo w/high-power output, changer control & four 100W 6 ½˝ 2-way marine-grade speakers
- Six-month subscription to Sirius™ Satellite digital broadcast
- iPod™/MP3 port
- Thirteen polished stainless steel drink holders
- Cockpit/swim platform courtesy lights
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction

- Twin command seating w/dual-position helm & companion seats
- Port lounge w/ integrated storage
- Bow seating w/filler cushions
- Forward in-floor wakeboard storage
- Starboard storage locker
- U-shaped aft lounge seating w/storage
- Dual-height cockpit table w/filler cushion

- Molded fiberglass wetbar w/integrated sink, Corian® countertop, concealed trash receptacle, 17 ½˝-quart Igloo® cooler & integral 316L stainless steel safety rail
- Demand water system
- Fire extinguisher
- Battery selector switch
- In-floor ski storage
- Concealed fender storage w/two fenders
- Custom patterned cockpit carpet
- Transom door
- Bimini top in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™ vinyl undercoating
- Bow tonneau cover in color-matched non-fading Sunbrella acrylic fabric w/SeaMark
- Cockpit cover in color-matched non-fading Sunbrella acrylic fabric w/SeaMark vinyl undercoating

260 Bowrider Head Compartment

- Continuous molded fiberglass liner
- Curved, one-piece locking door
- Portable head unit
- Molded fiberglass vanity w/stainless steel sink
- Carbon monoxide detector

260 Bowrider Engine Room

- Single engine installation
- Motorized hatch lift
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted engine mounts
- Remote oil filter
- Two marine batteries w/retainers
- Active & passive galvanic corrosion protection systems
- Bilge blowers
- Automatic bilge pump
- Bennett® hydraulic trim tabs
- Stainless steel props

260 Bowrider Available Equipment

- Imron Flagship graphic w/full hullside color
- Imron Flagship Elite graphic design
- Polished stainless steel bow docking lights
- Polished stainless steel windshield frame

- Custom polished 316L stainless steel sport arch w/mast light & ski tow eye
- VHF radio w/antenna
- SmartCraft™ instrumentation system (on Mercury engine packages only)
- SmartCraft instrumentation w/DTS digital throttle & shift control system (on Mercury engine packages only)
- 12V inflator for towable floats w/storage pouch
- Manual porcelain head unit w/18-gallon holding tank & dockside pumpout
- Manual porcelain head unit w/18-gallon holding tank & Y-valve for macerator discharge or dockside pumpout
- VacuFlush® unit w/18-gallon holding tank & dockside pumpout
- Gray water holding system
- Engine freshwater flush system
- Captain's Call™ exhaust diverter
- Front & side curtains w/easy-mount zipper connectors & aft cockpit enclosure in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating

- American Cherry woodgrain-finish flooring
- 7,000 BTU reverse cycle air conditioner w/digital climate control
- Kenwood AM/FM/CD stereo w/changer control, dash-mounted full-feature remote control, 720W amplification, two additional 6 ½˝ 2-way marine-grade speakers, 10-disc CD changer, iPod docking station & 200W cockpit subwoofer
- 15˝ LCD TV/monitor/DVD player w/antenna & cable connection
- 12V inflator for towable floats w/storage pouch
- VacuFlush® unit w/holding tank & Y-valve for macerator discharge
- Gray water holding system
- Electric windlass w/chain counter, 75´ chain & polished stainless steel anchor
- 5˝ remote-control spotlight
- Remote-control halogen spotlight
- Offshore bow rail
- Stainless steel bow docking lights
- Polished stainless steel windshield frame
- Radar arch w/mast light, polished stainless steel windshield frame and offshore bow rail
- VHF radio w/antenna
- Garmin® GPS navigational system w/172C color chart plotter
- SmartCraft™ SC 5000 multi-system monitor (on Mercury engine packages only)
- SmartCraft SC 5000 multi-system monitor w/DTS digital throttle & shift control system (on Mercury engine packages only)
- Engine freshwater flush system
- Cockpit alcohol stove
- 120V/12V stainless steel drawer-style refrigerator
- 5 KW/120V Kohler® low-CO emissions gas generator w/battery
- Captain's Call™ exhaust diverter
- Front & side curtains w/easy-mount zipper connectors & aft cockpit enclosure in color-matched non-fading Sunbrella acrylic fabric w/SeaMark vinyl undercoating

370 Super Sport Standard Equipment

370 Super Sport Exterior

- NMMA Yacht Certification
- Transferable 5-Year Formula Guard Limited Protection Plan
- Imron® Standard graphic & cockpit accent striping
- FAS®Tech® hull
- Foam-filled continuous molded fiberglass structural grid
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Concealed electric windlass w/chain counter, 150´ chain, & polished stainless steel anchor
- Stainless steel hardware & 316L stainless steel welded rails
- Stainless steel fuel fills w/integral vents
- Four Bomar® cabin venting hatches w/screens
- Six polished stainless steel port lights w/screens
- Nonskid foredeck center walkway
- Tinted, tempered curved-glass windshield w/center walk-thru and polished stainless steel frame
- Windshield wipers
- Radar arch w/mast light
- Polished air horn
- Transom-mounted stereo remote control
- Extended integrated swim platform w/concealed 316L stainless steel swim ladder & pull-up cleats
- Transom shower w/hot & cold controls
- Molded fiberglass transom trunk w/pneumatic lifts, fender rack & four fenders, line storage & integrated table & cushion storage
- 120V shorepower w/galvanic isolator & monitor, & two 30-amp cords
- Polished stainless steel shorepower & cable TV & telephone hookups, & polished chromed city water inlet

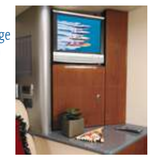
370 Super Sport Cockpit

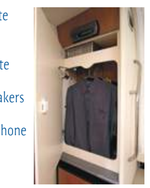
- Continuous molded fiberglass deck & cockpit liner
- Molded fiberglass in-dash deck access steps w/316L stainless steel handrail
- Dash panels w/burl wood finish & brushed metallic finish
- Complete Livorsi® illuminated instrumentation, domed w/chrome bezels
- Ritchie® compass
- Raymarine™ digital depth sounder
- Raymarine ST-60 digital depth display
- Livorsi shifters/throttles w/in-handle trim switch
- Safety ignition stop switches w/tethers
- Dino™ tilt steering wheel w/genuine mahogany & leather
- Dash locker
- Auxiliary 12V outlet
- Bennett® trim tab switches & indicators
- Fingertip trim switches
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Dash-mounted full-feature stereo remote control
- Four 100W arch-mounted 6 ½˝ 2-way marine-grade speakers w/200W subwoofer
- iPod™/MP3 port
- Twelve polished stainless steel drink holders
- Cockpit/swim platform courtesy lights w/hand-held remote control
- Integral 316L stainless steel safety rails
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- Twin command seating w/dual-position helm & companion seats

- Port lounge
- U-shaped aft lounge seating w/storage
- Aft sun lounge package w/two dual-height tables & sun pad inserts
- Two custom Sunbrella® cockpit pillows
- Molded fiberglass wetbar w/integrated sink, Corian® countertop, 120V/12V brushed stainless steel refrigerator, 17 ½˝-quart Igloo® cooler, in-counter trash receptacle & 120V GFCI outlet
- Fire extinguisher
- Disconnect switches for auxiliary & starting batteries
- Battery parallel emergency switch
- Custom patterned cockpit carpet
- Pneumatic-assist transom door
- Bimini top, front & side curtains w/easy-mount zipper connectors & extended aft cockpit enclosure in color-matched non-fading Sunbrella acrylic fabric w/SeaMark™ vinyl undercoating
- Cockpit cover in color-matched non-fading Sunbrella acrylic fabric w/SeaMark vinyl undercoating

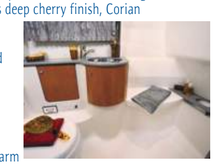
370 Super Sport Cabin

- Sliding/locking cabin door
- Custom patterned carpet
- Curved Ultraleather™ sofa seating w/dual-height, high-gloss solid wood dining tables & filler cushions
- Custom décor pillows & draperies
- In-floor dining table/filler cushion storage
- Entertainment center in high-gloss deep cherry finish w/Corian countertop & 15˝ LCD TV/DVD w/dockside access cord
- 16,000 BTU reverse cycle air conditioner w/digital climate control
- 120V & 12V electrical panels
- Hanging locker w/automatic light
- Kenwood AM/FM/CD stereo w/changer control, dash-mounted full-feature remote control, 720W amplification, 10-disc CD changer & iPod docking station
- Six-month subscription to Sirius™ Satellite digital broadcast
- Two 100W 6 ½˝ 2-way marine-grade speakers
- Aft cabin stateroom/queen-size berth w/ full-width storage, cable TV receptacle, phone jack & 120V & 12V outlets
- Individual reading lights





- Complete galley in high-gloss deep cherry finish w/storage & hardwood dovetailed drawers, full Corian countertop, polished stainless steel sink, concealed 120V/12V refrigerator, concealed electric stove w/safety shut-off switch, microwave oven & concealed trash receptacle
- Demand water system
- Water level gauge
- 120V water heater w/heat exchanger
- Molded fiberglass private head compartment w/molded fiberglass vanity w/lower doors in high-gloss deep cherry finish, Corian countertop trim, polished stainless steel sink, porcelain Flush and Forget® VacuFlush® head unit w/holding tank & dockside pumpout, separate shower area w/molded-in seat & exhaust fan
- Built-in WalVac® sweeper system
- Fire extinguisher
- Cabin bilge pump w/high water alarm
- Carbon monoxide detectors



370 Super Sport Engine Room

- Twin engine installation
- Motorized hatch lift
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted engine mounts
- Starting marine batteries w/retainers
- 80-amp battery charger
- Active & passive galvanic corrosion protection systems
- Low-noise rotary bilge blowers
- Two automatic bilge pumps
- Bilge high water alarm
- Bennett hydraulic trim tabs
- External stainless steel tie bar
- 7.3 KW/120V Kohler® low-CO emissions gas generator w/battery or 7.6 KW/120V Westerbeke™ diesel generator w/sound shield & battery
- Stainless steel props

370 Super Sport Available Equipment

- Imron Flagship graphic w/full hullside color
- Imron Flagship Elite graphic design
- Flagship Designer graphic—available w/Ralph Lauren Fabric package
- Ralph Lauren Fabric package w/custom quilted bedspread, pillow shams, bed linens & towels
- American Cherry woodgrain-finish flooring
- Custom quilted bedspread w/matching pillow shams
- Bed linens & towels
- 15˝ LCD TV/monitor/DVD player for aft cabin entertainment module
- Stainless steel security safe
- VacuFlush unit for macerator discharge or dockside pumpout
- Gray water holding system
- Concealed quick-disconnect coiled-hose freshwater anchor/transom wash-down system
- SeaKey™ Volvo Penta satellite communication/boat data/security system
- Remote-control halogen searchlight
- Stainless steel bow docking lights
- VHF radio w/antenna
- Sirius™ Satellite Radio Marine Weather service (available w/Raymarine E-Series navigational systems only)
- Raymarine GPS navigational system w/E80 color chart plotter
- Raymarine GPS navigational system w/24˝ dome-array radar & E80 color radar display/chart plotter
- Raymarine GPS navigational system w/RayPilot ST6002, 24˝ dome-array radar & E80 color radar display/chart plotter
- SmartCraft™ SC 5000 multi-system monitor (on Mercury engine packages only)
- SmartCraft SC 5000 multi-system monitor w/DTS digital throttle & shift control system (on Mercury engine packages only)
- Captain's Call™ exhaust diverter
- Engine freshwater flush system

400 Super Sport Standard Equipment

400 Super Sport Exterior

- NMMA Yacht Certification
- Transferable 5-Year Formula Guard Limited Protection Plan
- Imron® Standard graphic & cockpit accent striping

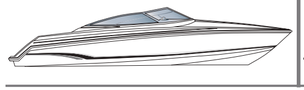
Formula Sun Sports and Super Sports

Imron® Color Selections

Your selection of an exterior color accent reflects your personal taste. Formula's use of Imron®, a DuPont urethane enamel, will keep your graphic beautiful year after year, maintaining its original clarity and brilliance.

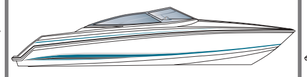
Formula Sun Sports are available in ten different standard color/graphic design combinations. Optional Flagship solid hull graphics are offered in seven different colors. The optional Elite Flagship graphic design is available in four different color combinations. Super Sports are available in five different standard color/graphic designs and also seven optional Flagship solid hull graphics. Optional Elite Flagship graphic designs are available in four different color combinations. New for 2007 is the Flagship Designer Graphic, available exclusively with the Ralph Lauren Fabric package.

Sun Sport Graphic A

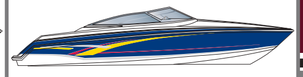


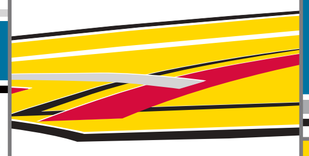
- Gulfstream
- Yellow
- Black Onyx
- Sapphire Blue
- Bright Red

Sun Sport Graphic B



Sun Sport Flagship Elite





- Yellow Metallic

- Red Metallic

- Black Onyx Metallic

- Sapphire Blue Metallic

Sun Sport Flagship

- Black Cherry Metallic
- Gulfstream Metallic
- Yellow Metallic
- Silver Diamond Pearl
- Black Onyx Metallic
- Sapphire Blue Metallic
- Bright Red Metallic

Formula reserves the right to make product changes and improvements throughout the model year.

Super Sport

Super Sport Flagship

- Black Cherry Metallic
- Gulfstream Metallic
- Yellow Metallic
- Silver Diamond Pearl
- Black Onyx Metallic
- Sapphire Blue Metallic

FORMULA 2007...

Formula Lineup

The Formula powerboat lineup includes Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech® models. If you want exhilarating speed, get into a Formula FAS³Tech, ranging from 27 to 38 feet. The 382 is pictured at the bottom. The Sun Sport series ranges from 24 to 33 feet including three bowrider models, while the 370 SS and the 400 SS are the sleek Super Sports. The 370 Super Sport is pictured second from bottom. PC boating is luxury cruising at its best, ranging from 27 to 40 feet. The 37 PC is pictured second from top. The Formula Yacht, which includes the 48 and 45, pictured at top, is today's elite choice in premier yachting. Call ***1.800.736.7685*** to receive a free brochure, or visit your nearest Formula dealer to see the new Formula models for 2007.

Formula Gear

Formula Gear and Accessories are top-quality items featuring the impressive Formula logo. If you like up-to-date colors and styling, visit your Formula dealer for a free catalog, order online at the Formula Gear website, ***www.formulagear.com***, or call ***1.800.736.7685*** to receive your free Gear catalog from Formula.

FORMULA GEAR

You're in command. Boat safely, take a boating education course and get a vessel safety check for your boat. For more information, contact The United States Coast Guard Auxiliary at 800.368.5647 or www.cgaux.org, or The United States Power Squadrons at 888.FOR.USPS or www.usps.org.

Formula Website

Formula's website is continually updated with new features, text and pictures. Check out the latest Formula dealer and owner events, boat care articles, owner forum and Formula's company history. You can also order a catalog or visit the feedback/e-mail section with comments or suggestions. Formula is at your fingertips! You will find Formula online at: *www.formulaboats.com* and formulagear.com.

Click on these sites to see the newest and best of Formula!

The Formula Showroom®

Continually updated Formula software creates a comprehensive display of the 2007 lineup. This program, The Formula Showroom, helps make the exciting process of choosing your Formula graphics, options and finance program much easier! Find it in the "Build Your Formula" section at *www.formulaboats.com* or see your Formula dealer for details.

Formula Action

The Formula *Action* is a news publication filled with company and product updates, new model information and owner boating experiences. The *Action* is mailed to Formula owners and is also available at your Formula dealership, or call ***1.800.736.7685*** to receive a free copy.

Formula DVD

The 2007 Formula DVD features Formula Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech powerboats in exciting action along with a brief Formula facility walkthrough. Call ***1.800.736.7685*** to receive your free DVD.

Super Sport Bimini top

Super Sport Bimini top with front, side and extended aft cockpit enclosure

Formula Canvas

Formula custom-fitted canvas features color-matched, non-fading Sunbrella® acrylic fabric w/SeaMark® vinyl undercoating. Canvas packages include 316L stainless steel framework, weather-resistant YKK zippers and the Formula name embroidered on the boot.

Sun Sport cockpit cover and bow tonneau cover (BR models only)

Formula reserves the right to make product changes and improvements throughout the model year.

FORMULA, THUNDERBIRD AND THE THUNDERBIRD LOGO ARE REGISTERED TRADEMARKS OF PORTER, INC

FORMULA FAS³TECH® — THE PERFORMANCE TO SPEED UP YOUR LIFESTYLE

There's absolutely no other sensation like racing over open water in high-performance mode. Formula FAS³TECHS thrive on that go-for-it action. Expert marine engineering gears a 2007 FAS³TECH to rush over the waves with absolute confidence. The reinforced hull and custom fiber-glass grid structure are built to exact specifications that hold up for the long run. Likewise, the multiplane bottom configuration is crucial to attain high-speed stability for a controlled, solid ride.

At the helm, the Livorsi® Monster speedometer, tachometer and Redline gauges set in the carbon-fiber-finish instrument panel are sure to whet your urge to be off and running. The McLeod® race-inspired bolsters power electrically to the correct adjustment for driver and companion, maximizing individual comfort and security. The McLeod footrests in the 353 and 382 also power for personal fit. The aft lounge is contoured for comfortable support — all seating is top grade in materials and precision construction.

FAS³TECH cabins are redefined for 2007 with dramatic lighting, metallic silver inserts in the luxurious Ultraleather™ seating, brushed metallic-finish paneling on cabinetry, and Black Quartz Corian® countertops and tables. The effect is spectacular.

Best of all, you can place your personal stamp on a FAS³TECH by choosing your combination of colors and graphics from 18 different offerings. Or step up to your choice of four top-of-the-line Platinum Imron® designs that incorporate powerful graphic effects.

FORMULA FAS³TECH... HIGH-PERFORMANCE ACTION LIKE NO OTHER!

A remarkable tradition of excellence has earned Formula the prestigious reputation as the best designed, best constructed pleasure boat today. After completing fifty years of successful powerboat production, the Vic Porter family, owners of Formula since 1976, continue to focus on achieving top quality in each Formula, from the sporty SS lineup to the magnificent Yachts. President Scott Porter along with three brothers and a sister work together as committed owner/managers, leading Formula in daily operations. Vic Porter, who began his first boat company in 1958, serves as Chairman.

The Porter family has enjoyed boating over the years and understands the important difference of expertly designed, high-quality features, top-notch performance and responsive, customer-oriented service. Maximum personal satisfaction for Formula owners continues to be the Porter family goal.

The Formula Difference

Advanced Production Standards Result in Top Quality

Formula's entire manufacturing facility focuses on excellence

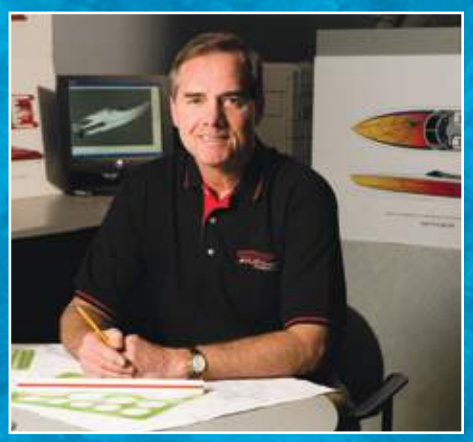
- A 575,000 square foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. A state-of-the-art, 85,000 square-foot expansion was recently completed, keeping Formula on the leading edge of manufacturing processes.
- Advancing technology is consistently utilized to improve Formula powerboats and ensure superior quality.
- Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

Employee teams accomplish continual product improvement for Formula owners.

- On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them.
- An on-site training program, C.O.R.E. (Champions of Reaching Excellence), expands and sharpens Formula employees' personal and professional developmental skills.
- Each time they boat, Formula owners benefit from employee-generated product reliability.

Design Excellence Teams Up with Precision Engineering

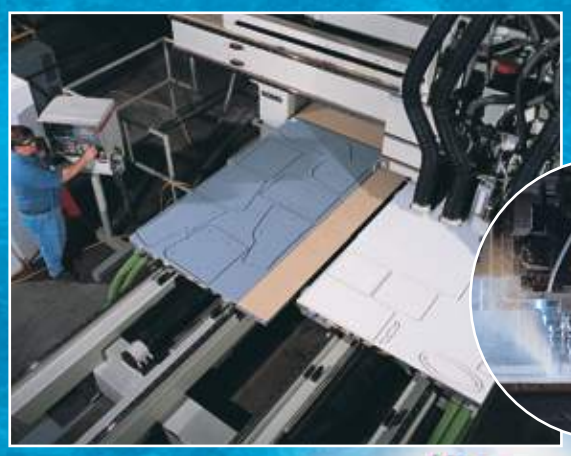
John Adams blends form and function to perfection.



- For over thirty-five years as exclusive designer, Adams has been creating Formulas with sleek, distinctive styling, award-winning performance and superior quality.
- Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.
- Formula FAS³Tech® is renowned for speed, stability and structural integrity offshore plus the most spectacular production graphics available.

CAD/CAM technology plus R&D expertise ensure your Formula's superior quality.

- Using state-of-the-art CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.
- Dimensions and positioning of components and systems are determined for precise fit.
- Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mock-ups are built to fine-tune ergonomics and space utilization.



- Computer Numerically Controlled (C-N-C) routers are programmed to cut panels, acrylic, Corian and other components, maintaining accuracy to within thousandths of an inch.
- Sidewalls, headliners, cabinets and coaming panels meet exactly with unparalleled fit and finish.

FAS³Tech®

Formula's Advanced Speed Stability & Structural Technology

Formula FAS³Techs® move out with fast, exhilarating performance

FAS³Tech Speed equals FAS³T Formulas.

- The Goal: increase Formula's legendary deep-V speed without sacrificing safety or handling.
- The Result: the FAS³Tech hull, custom designed and engineered for each Formula performance model.

The exclusive FAS³Tech hull is the scientific Formula for performance excellence.

- Extensive testing has proven that the FAS³Tech hull is not just another "step bottom," but rather a complex multiplane hull unlike any other.
- FAS³Tech hull design delivers speed increases of 5 to 6 miles per hour over conventional deep-V hulls with identical weight and power.

FAS³Tech Stability is the ride you have been looking for.

- The FAS³Tech hull provides superior pitch and roll stability and a softer reentry.
- Stability is achieved through step location and specific shape and placement of strakes, pads and chines.

FAS³Tech Hull Structure can take it out on big water.

- Company engineers worked directly with a fiberglass manufacturer in designing Formula's custom triaxial fiberglass to achieve maximum hull strength and rigidity.
- Reorienting the fiberglass to Formula specifications increased strength by 14% over standard triaxial fiberglass.
- AME® 5000 resin, known for its strength and resiliency, is applied exclusively throughout lamination.

Top quality AME® 5000 resin assures your Formula's long-lasting beauty.

- Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.
- Your Formula will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

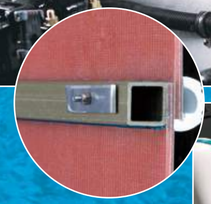
Superior materials and construction expertise ensure lasting beauty and durability

Individual lamination schedules result in the smooth, reflective Formula finish.

- Formula is famous for producing the highest quality finish in the industry through the consistent use of top-grade materials, following layering procedures exactly and also by the systematic maintenance of all molds on a rigorous schedule.
- Patterned fiberglass shapes, produced through in-house Gerbercutter® technology, are layered with resin to build each component.
- Divinycell® structural foam adds lightweight strength in specific areas as opposed to balsa construction that absorbs water when improperly applied, and utilizing Coremat® prevents surface print-through.
- By allowing a part to remain in its mold the optimal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

Formula's unique custom-engineered matrix ensures that each FAS³Tech is built to hold its own offshore.

- Each hull is reinforced with a custom-engineered matrix that is much stronger than the usual stringer system.
- A FAS³Tech's internal framework is a continuous-molded, one-piece fiberglass grid bonded to the hull with Plexus® adhesive.
- The grid system, composed of woven fiberglass and AME 5000 resin, is filled with structural foam.
- Multiple spans in the grid are designed to distribute load forces over the entire hull.
- Rugged durability is vital offshore where wave action takes its toll on all but the strongest construction.

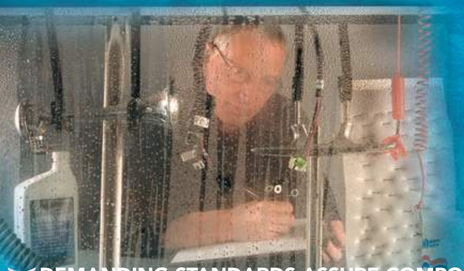


Pultrusion reinforcement adds critical structural strength.

- During FAS³Tech construction, custom-fabricated fiberglass shapes are positioned along interior gunwales.
- Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.

Formula joins the deck and hull utilizing superior procedures for rugged durability.

- Plexus®, an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.
- The deck and hull joint is also bolted together with 1/4" stainless steel truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.
- This unyielding structure is vital offshore where wave action takes its toll on all but the strongest construction.



Demanding standards assure componentry and hardware dependability

Formula tests all proposed components to assure reliability.

- New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.
- If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

316L stainless steel rails are a top-grade finish for your Formula.

- All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- Anything less will not keep its like-new appearance.

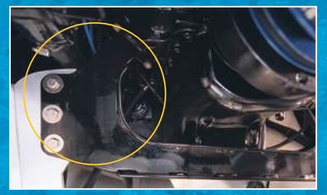
Superior hardware installation provides integrity you can count on.

- When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- All other deck hardware is bolted securely, not screwed down, to effect solid construction.
- A flexible O-ring around each hardware fastener creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when reseated.
- All fasteners are chrome-plated stainless steel.

FAS³Tech® engine room features prove offshore performance

Each FAS³Tech engine room features custom-style rigging as standard.

- The UMPCO cushioned loop clamp proven in the aerospace industry secures hoses and wiring harness conduit, maintaining a clean, orderly appearance.
- Formula's meticulous routing of wiring and hoses facilitates troubleshooting.



Formula FAS³Tech engine mounts mean maximum security.

- Formula thru-bolts all FAS³Tech engines using heavy, angled aluminum race-style engine mounts.
- In high-performance boating, lesser methods of securing engines are inadequate.
- Important safety features include an engine room fume detector and the automatic fire extinguishing system.

FAS³Tech exhaust systems are engineered for maximum performance without the ear-splitting roar.

- Formula utilizes CORSA's™ polished stainless steel exhaust system, diverting the exhaust through the transom silencer tips, as well as through the propeller hub.
- Multiple exhaust points means minimal restriction and virtually no loss of power.
- CORSA's Captain's Call™ exhaust diverter system is also available for the ultimate in harbor noise reduction.

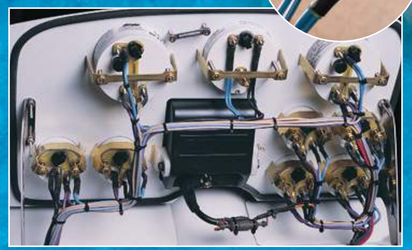
Exacting techniques result in reliable on-water electrical systems

Formula installs dependable, deep-cycle batteries for superior reliability.

- Deep-cycle batteries are standard in all FAS³Techs.
- Deep-cycle batteries can be charged repeatedly without losing strength — another way built-in reliability keeps you on the water.

All Formula electrical systems are designed to give uninterrupted service.

- Formula individually secures each wiring connection with a visible crimp instead of using pre-insulated connectors common in the industry.
- The crimped connection is insulated with double-walled shrink tubing – the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion while the outer wall prevents shorts.
- For longer runs, color-coded wires are routed through flexible conduit for protection and security.
- Instrument panels are easily removed to access dash wiring connections.



E-T-A® circuit breakers protect your systems from excess electrical current damage.

- "Push-push" switch design disconnects and resets the circuit.
- Circuit breaker security enhances electrical component reliability.
- Circuit breakers eliminate the need to stock a variety of fuses.

FAS³Tech's offshore cockpits are ergonomically correct and executed to perfection

Formula FAS³Tech® helm features attain the highest quality in design and control.

- At the helm, carbon-fiber-finish panels are sparked by stainless steel bezels on race-style gauges.
- Livorsi™ precision engine controls are key to the Formula speed scene.
- The McLeod® offshore bolsters snugly support and cushion the body, adjusting incrementally by pressing a button.
- McLeod-designed footrests in the 382 and 353 also adjust for completely individualized ergonomics.

Superior cockpit seating is designed for relaxed comfort.

- Formula is regarded as the leader in expertly designed and executed seating.
- Human dimension criteria are utilized to achieve correct proportions and contouring.
- Separate, pre-shaped foam components are placed in each seat to provide optimal lumbar and leg support.

Eliminating wood in the cockpit provides lasting durability.

- StarLite® XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- Seat cores are either rotocast plastic or formed fiberglass, creating a virtually indestructible framework.
- Eliminating wood structure extends the cockpit's like-new appearance into the future.

Specialized foam makes the difference in dry cockpit seating.

- Advanced Dri-Fast® polyurethane foam is used throughout the Formula cockpit.
- Instead of being trapped, water freely drains through the foam, eliminating soggy seats.

Rugged, transportation-grade cockpit upholstery looks new far longer.

- Formula upholstery holds its shape and resists tears due to its extra density and premium-grade backing material.
- Top-grade vinyl accents are color-permeated and coordinate with the exterior Imron® colors.
- Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.

GORE Tenara SEWING THREAD

Computerized consistency and skilled sewing combine to create Formula upholstery's sculpted appearance.

- A computer-based GERBERcutter® cuts upholstery pieces accurately and consistently.
- Assembled by Formula's skilled sewers, patterns come together in complex designs, finished with hand-guided topstitching, the hallmark of finest quality.
- Specialized thread, Tenara® by Gore™ used in sewing exterior vinyl upholstery, does not deteriorate from exposure to sunlight, cleaning agents or saltwater.

There's plenty of room for your gear in a FAS³Tech cockpit.

- PFDs and other gear stow in side compartments.
- The aft seat hinges forward to access additional smoothly finished storage.
- The 382 and 353 sunpad trunk offers shorepower hookup along with cord and line storage.

FAS³Tech® Interiors Present Luxurious Design and Sleek Features

Ultraleather™ cabin lounge seating provides practical luxury.

- The bow berth and lounge are upholstered in white Ultraleather.
- Comfort, beauty and function combine to create the perfect setting for relaxation and entertainment.
- Ultraleather has the appearance and rich, supple feel of fine leather.
- It is surprisingly tough and durable — spills wipe up easily.

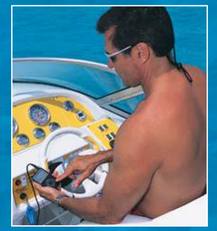
Contemporary FAS³Tech cabinetry fits precisely.

- Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- Cabinetry is securely bolted in place with metal brackets, and strong latches keep doors closed under way.
- A stainless sink is installed in a genuine, Corian® countertop with beautifully rounded edges.

Audio Visual Systems Include the Very Latest in Technology

The latest in sound system technology enhances your listening enjoyment.

- Formula installs a top-quality AM/FM/CD stereo system with marine-grade speakers in each FAS³Tech.
- Each Formula sports an iPod™/MP3 port at the helm, and with the 10-disc CD changer package, the iPod docking station in the cabin charges the player while giving you complete playlist control from stereo remotes.
- Available cockpit subwoofers enhance your stereo's low-frequency response and present full, rich sound underway.
- A crystal-clear digital signal and complimentary six-month subscription to Sirius™ Satellite Radio ensures static-free reception.



SIRIUS SATELLITE RADIO

Formula researches the latest in LCD flatscreen technology to provide the ultimate viewing experience.

- Formula seeks out A/V components capable of ensuring superior performance.
- Premium LCD TV technology delivers a rich, razor-sharp picture.

Formula's Unique Imron® Process Results in a Vibrant Finish That Far Surpasses All Others

- Executed with DuPont Imron, a durable all-weather urethane, Formula graphics excel in design, quality and lasting beauty.
- Formula offers the widest range of color selections and designs to personalize your powerboat.
- Complicated preparation, patterning and masking procedures are involved in each different color application.
- Imron-finished graphics never chalk or fade as compared to colored gelcoat; Imron retains its original, like-new brilliance and glossy surface year after year.

Formula FAS³Tech® are Designed, Built, Tested and Protected to Ensure Formula Owner Satisfaction

NMMA Certification of all Formulas is a reassuring safety factor.

- As a charter member of the National Marine Manufacturers Association, Formula has always been committed to product integrity.
- The safety of owners is of primary importance to Formula.
- NMMA certification to ABYC standards is displayed in each Formula and should be a determining factor when considering other boats.

NMMA® CERTIFIED using ABYC standards

Test tank evaluation of each Formula assures turn-key delivery.

- Working through an extensive checklist, all instruments, systems and accessories are tested.
- Engines are powered up to verify proper operation.
- A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.
- In addition, Formula maintains an extensive on-water testing program to ensure the ongoing improvement of the Formula line.

The final QAP inspection assures ultimate quality in your Formula.

- During the Quality Assurance Program inspection, both corporate and production personnel thoroughly evaluate your Formula.
- Fit and finish details are examined from a customer's point of view.
- Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each model.

Formula Guard protects your boating investment.

- The Formula Guard protection plan protects your boating investment with a 10-year structural warranty.
- A five-year limited protection plan under Formula Guard covers engine/outdrive, accessories and components, including labor and materials.
- Formula Guard is transferable during the first five years of ownership, increasing your Formula's value.
- For detailed information visit our website at www.formulaboats.com.

FORMULA GUARD 5 YEAR LIMITED PROTECTION PLAN

Formula Reliability Centers ensure excellent service for your Formula.

- Formula works with dealerships to provide quick, expert service, keeping Formula boaters happy and on the water.
- Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- Dealers are well informed regarding Formula product so they can provide timely, expert technical and mechanical service.

FORMULA BY THUNDERBIRD RELIABILITY CENTER

The Formula Difference

Compare this Formula Difference checklist to any other boat offered on the market today.

You'll soon find that the best way to improve your boating experience is in your own Formula for 2007.

- Advanced production standards result in top quality
- Design excellence teams up with precision engineering
- Formula FAS³Techs® move out with fast, exhilarating performance
- Superior materials and construction expertise ensure lasting beauty and durability
- Demanding standards assure componentry and hardware dependability
- FAS³Tech engine room features prove offshore performance
- Exacting techniques result in reliable on-water electrical systems
- FAS³Tech's offshore cockpits are ergonomically correct and executed to perfection
- FAS³Tech interiors present luxurious design and sleek features
- Audio visual systems include the very latest in technology
- Formula's unique IMRON® process results in a vibrant finish that far surpasses all others
- Formula FAS³Techs are designed, built, tested and protected to ensure Formula owner satisfaction

271 FAS³Tech®

271 FAS³Tech® Specifications

LOA	27´1˝	8.25 m
Maximum Beam	8´3˝	2.51 m
Approximate Weight	5,685 lbs	2,579 kg
Cabin Headroom	4´5˝	1.35 m
Fuel Capacity	105 gal	397 L
Water Capacity	19 gal	72 L
Holding Tank Capacity	2.6 gal	9.8 L
Bridge Clearance (Light Load)	4´11˝	1.5 m
Draft	34˝	.86 m
Deadrise	24°	24°

Platinum Series Imron® Design
"Blaze" (top) and "Spyder" (bottom)

271 FAS³Tech Standard Equipment

271 FAS³Tech Exterior

- NMMA Yacht Certification
- Transferable 5-year Formula Guard Limited Protection Plan
- Silver Series three-color Imron® design #1, #2 or #3 in Sunrise, Montego or Bayport
- FAS³Tech hull
- Foam-filled continuous molded fiberglass structural grid
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Stainless steel hardware & 316L stainless steel welded rails
- Stainless steel fuel fill w/integral vent
- Two Bomar® cabin venting hatches w/screens
- Tinted, tempered curved-glass windshield
- Concealed air horn
- Transom-mounted stereo remote control
- Integrated swim platform w/316L stainless steel swim ladder

271 FAS³Tech Cockpit

- Continuous molded fiberglass deck & cockpit liner
- Dash panels w/blue, red or yellow carbon-fiber finish
- Livorsi® Monster & Redline backlit instrumentation, domed w/polished chrome bezels
- Ritchie® compass
- Digital depth sounder
- Livorsi shifter/throttle w/in-handle trim switch
- Fingertip trim override switch
- Safety ignition stop switch w/tether
- Tilt steering wheel w/blue, red or yellow accent inserts
- Dash locker w/vanity mirror
- Auxiliary 12V outlet
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Dash-mounted full-feature stereo remote control
- iPod™/MP3 port
- Two 100W 6 ½" 2-way marine-grade speakers
- Polished stainless steel drink holders
- Courtesy lighting
- Integral 316L stainless steel safety rails
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- McLeod® electric-assist offshore-style bolsters
- Aft lounge seating for four w/storage beneath
- Side coaming storage
- Fire extinguisher
- Battery parallel emergency switch
- Battery disconnect switches for starting & auxiliary batteries
- Custom cockpit carpet w/sculptured FAS³Tech logo
- Cockpit cover in color-matched non-fading Sunbrella™ acrylic fabric w/SeaMark™ vinyl undercoating

271 FAS³Tech Cabin

- Sliding/locking cabin door
- Ultraleather™ double bow berth
- Ultraleather lounge seating
- Décor pillows
- Entertainment center w/stainless steel sink, water system & 25-quart Igloo™ cooler
- Kenwood® remote control AM/FM/CD stereo w/changer control & two 160W 4˝x10˝ 2-way marine-grade speakers
- Six-month subscription to Sirius™ Satellite digital broadcast
- Portable head unit w/dockside pumpout
- Carbon monoxide detector

271 FAS³Tech Engine Room

- Single engine installation
- Motorized hatch lift
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted race-style engine mounts
- Two marine batteries w/battery retainers
- Active & passive galvanic corrosion protection systems
- Low-noise rotary bilge blowers
- Automatic bilge pump
- Bilge high water alarm
- Bennett® hydraulic trim tabs
- Stainless steel lab-finished 4-blade prop
- CORSA's™ polished stainless steel exhaust system w/silencer tips

271 FAS³Tech Available Equipment

- Gold Series four-color Imron design #1, #2 or #3 in Sunrise, Montego or Bayport
- Stainless steel bow docking lights
- VHF radio w/antenna
- SmartCraft™ instrumentation system (on select Mercury engine packages only)
- SmartCraft instrumentation w/DTS digital throttle & shift control system (on select Mercury engine packages only)
- 9˝ widescreen ceiling-mounted flip-down LCD monitor/DVD player w/gameports, memory stick reader and headphones
- Kenwood AM/FM/CD stereo w/high power output, changer control, dash-mounted full-feature remote control, 720W amplification, 10-disc CD changer, iPod docking station, two additional 6 ½" 100W 2-way marine-grade speakers & 200W cockpit subwoofer
- Demand water system w/transom shower
- Head unit w/Y-valve for macerator discharge or dockside pumpout
- Engine freshwater flush system
- Captain's Call™ exhaust diverter
- Bimini top in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating
- Bimini front & side connectors & aft curtain in color-matched non-fading Sunbrella acrylic fabric w/Seamark vinyl undercoating

292 FAS³Tech Standard Equipment

292 FAS³Tech Exterior

- NMMA Yacht Certification
- Transferable 5-year Formula Guard Limited Protection Plan
- Silver Series three-color Imron® design #1, #2 or #3 in Sunrise, Montego or Bayport
- FAS³Tech hull
- Foam-filled continuous molded fiberglass structural grid
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Concealed fiberglass anchor locker
- Stainless steel hardware & 316L stainless steel welded rails
- Stainless steel fuel fill w/integral vent
- Two Bomar® cabin venting hatches w/screens
- Tinted, tempered curved-glass windshield
- Concealed air horn
- Transom-mounted stereo remote control
- Integrated swim platform w/concealed 316L stainless steel swim ladder

292 FAS³Tech Cockpit

- Continuous molded fiberglass deck & cockpit liner
- Dash panels w/blue, red or yellow carbon-fiber finish
- Livorsi® Monster & Redline backlit instrumentation, domed w/polished chrome bezels
- Ritchie® compass
- Digital depth sounder
- Livorsi shifters/throttles w/in-handle trim switch
- Fingertip trim override switches
- Safety ignition stop switches w/tethers
- Tilt steering wheel w/blue, red or yellow accent inserts
- Dash locker w/vanity mirror
- Auxiliary 12V outlet
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Dash-mounted full-feature stereo remote control
- iPod™/MP3 port
- Four 100W 6 ½" 2-way marine-grade speakers
- Polished stainless steel drink holders
- Courtesy lighting
- Integral 316L stainless steel safety rails
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- McLeod® electric-assist offshore-style bolsters
- Aft lounge seating for four w/storage beneath
- Side coaming storage
- Fire extinguisher
- Battery parallel emergency switch
- Battery disconnect switches for starting & auxiliary batteries
- Custom cockpit carpet w/sculptured FAS³Tech logo
- Cockpit cover in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™ vinyl undercoating

292 FAS³Tech Cabin

- Sliding/locking cabin door
- Ultraleather™ double bow berth
- Ultraleather lounge seating
- Décor pillows
- Entertainment center w/stainless steel sink, demand water system & 25-quart Igloo® cooler

2007 COLORS AND GRAPHIC DESIGNS

Step up in the world of high-performance boating with Formula 2007 FAS³Tech®, the ultimate personal statement on the water!

2007 Formula FAS³Tech performance boats can be ordered in a variety of different colors and graphic selections. Three Imron® design levels — Silver, Gold and Platinum — are offered to provide more choice in performance graphics. In addition, all FAS³Techs sport metallic silver vinyl accents in the cockpit.

SILVER IMRON DESIGNS #1, #2 AND #3

Silver Imron Designs #1, #2 and #3, which are standard on all FAS³Tech models, include three triple-color selections: Montego, Sunrise and Bayport. Each Imron design incorporates coordinating colors on cockpit bolsters, rear seating and sunpads.

GOLD IMRON DESIGNS #1, #2 AND #3

Gold Imron Designs #1, #2 and #3 feature solid hullside Imron and include three four-color selections: Montego, Sunrise and Bayport. Each Imron design incorporates coordinating colors on cockpit bolsters, rear seating and sunpads.

PLATINUM DESIGNS

The 382 and 353 FAS³Techs are available in the new exclusively designed Spyder and Blaze graphics in addition to Acceleration and High Voltage. Each offering includes a minimum of five Imron custom colors with special fading effects and clearcoat finish. Each design incorporates coordinating colors on cockpit bolsters and rear seating. Sunpads incorporate color-coordinated vinyls in a powerful graphic presentation.

FORMULA LINEUP

The Formula powerboat lineup includes Sun Sport, Super Sport, Cruiser, Yacht and FAS³TECH® models. If you want exhilarating speed, get into a Formula FAS³TECH, ranging from 27 to 38 feet. The 382 is pictured at the bottom. The Sun Sport series ranges from 24 to 33 feet including three bowrider models, while the 370 SS and the 400 SS are the sleek Super Sports. The 370 Super Sport is pictured second from bottom. PC boating is luxury cruising at its best, ranging from 27 to 40 feet. The 37 PC is pictured second from top. The Formula Yacht, which includes the 48 and 45, pictured at top, is today's elite choice in premier yachting. Call ***1.800.736.7685*** to receive a free brochure, or visit your nearest Formula dealer to see the new Formula models for 2007.

FORMULA GEAR

Formula Gear and Accessories are top-quality items featuring the impressive Formula logo. If you like up-to-date colors and styling, visit your Formula dealer for a free catalog, order online at the Formula Gear website, ***www.formulagear.com***, or call ***1.800.736.7685*** to receive your free Gear catalog from Formula.

FORMULA GEAR

YOU'RE IN COMMAND. BOAT SAFELY, TAKE A BOATING EDUCATION COURSE AND GET A VESSEL SAFETY CHECK FOR YOUR BOAT. FOR MORE INFORMATION, CONTACT THE UNITED STATES COAST GUARD AUXILIARY AT 800.368.5647 OR WWW.CGAUX.ORG, OR THE UNITED STATES POWER SQUADRONS AT 888.FOR.USPS OR WWW.USPS.ORG.

FORMULA WEBSITE

Formula's website is continually updated with new features, text and pictures. Check out the latest Formula dealer and owner events, boat care articles, owner forum and Formula's company history. You can also order a catalog or visit the feedback/e-mail section with comments or suggestions. Formula is at your fingertips! You will find Formula online at: *www.formulaboats.com* and formulagear.com.

Click on these sites to see the newest and best of Formula!

THE FORMULA SHOWROOM®

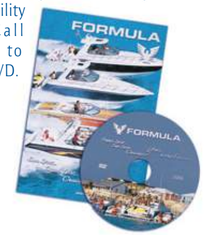
Continually updated Formula software creates a comprehensive display of the 2007 lineup. This program, The Formula Showroom, helps make the exciting process of choosing your Formula graphics, options and finance program much easier! Find it in the "Build Your Formula" section at *www.formulaboats.com* or see your Formula dealer for details.

FORMULA ACTION

The Formula *Action* is a news publication filled with company and product updates, new model information and owner boating experiences. The *Action* is mailed to Formula owners and is also available at your Formula dealership, or call ***1.800.736.7685*** to receive a free copy.

FORMULA DVD

The 2007 Formula DVD features Formula Sun Sport, Super Sport, Cruiser, Yacht and FAS³TECH powerboats in exciting action along with a brief Formula facility walkthrough. Call ***1.800.736.7685*** to receive your free DVD.



FAS³TECH BIMINI TOP

FORMULA CANVAS

Formula custom-fitted canvas features color-matched, non-fading Sunbrella® acrylic fabric w/SeaMark® vinyl undercoating. Canvas packages include 316L stainless steel framework, weather-resistant YKK zippers and the Formula name embroidered on the boot.

Formula Performance Cruisers — Where the Best Cruising Adventures Begin

A 2007 Formula Performance Cruiser combines graceful design and expert offshore construction for the best in cruising adventures. On open water, Formula's smooth, solid performance at lively speeds is deeply rewarding. Throughout the versatile cockpit and elegant interior, perceptive features assure luxurious residential living.

*E*ach PC cockpit is designed for friendly gatherings. Individually adjustable double helm seating is complemented by a portside lounge, and the U-shaped aft lounge includes stowable tables and filler cushions to create three different arrangements. Nearby, an integrated wetbar with expansive Corian® countertop is essential to pleasant outdoor entertaining. Remote control cockpit lighting and LED swim platform lighting are new for 2007, as well as the addition of pull-up cleats on the swim platform for easy boarding. Another great new feature on each PC is the iPod™/MP3 port at the helm. And, an iPod docking station in the cabin is an up-to-date addition to the 10-disc CD option.

*P*erformance Cruiser interiors are entirely new for 2007 with beautifully presented fabrics, upholstery and custom-patterned carpet complementing high-gloss, Deep Cherry finish cabinetry. Three new décor themes are offered for all models, and a special Ralph Lauren Fabric grouping with upscale nautical flair is available in 37 and 40 PCs. Each galley is complete with microwave, concealed electric stove, refrigerator and solid, dovetailed hardwood drawers. The expanse of Corian countertop, handcrafted by Formula, is ideal for entertaining. Lounges introduce an interesting texture with the unmistakably soft appeal of Ultraleather™. The custom carpet's subtle pattern works well with optional American Cherry woodgrain-finish flooring in galley areas.

*T*wo new metallic Imron® Flagship designs for 2007 are Black Cherry or the Designer Graphic available exclusively with the Ralph Lauren Fabric offering.

Formula Performance Cruisers… Begin Your Best Cruising Adventures Now!

FORMULA
FORMULA
FORMULA
34PC

A remarkable tradition of excellence has earned Formula the prestigious reputation as the best designed, best constructed pleasure boat today. After completing fifty years of successful powerboat production, the Vic Porter family, owners of Formula since 1976, continue to focus on achieving top quality in each Formula, from the sporty SS lineup to the magnificent Yachts.

President Scott Porter along with three brothers and a sister work together as committed owner/managers, leading Formula in daily operations. Vic Porter, who began his first boat company in 1958, serves as Chairman.

The Porter family has enjoyed boating over the years and understands the important difference of expertly designed, high-quality features, top-notch performance and responsive, customer-oriented service. Maximum personal satisfaction for Formula owners continues to be the Porter family goal.

The Formula Difference

ADVANCED PRODUCTION STANDARDS RESULT IN TOP QUALITY

Formula's entire manufacturing facility focuses on excellence

- A 575,000 square foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. A state-of-the-art, 85,000 square-foot expansion was recently completed, keeping Formula on the leading edge of manufacturing processes.
- Advancing technology is consistently utilized to improve Formula powerboats and ensure superior quality.
- Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

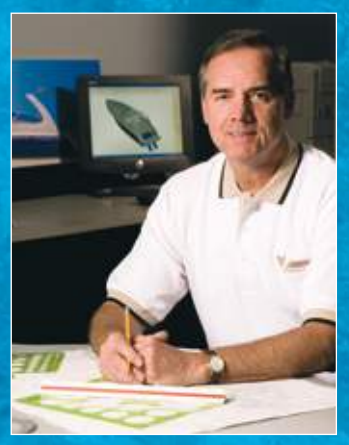
Employee teams accomplish continual product improvement for Formula owners.

- On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them.
- An on-site training program, C.O.R.E. (Champions of Reaching Excellence), expands and sharpens Formula employees' personal and professional developmental skills.
- Each time they boat, Formula owners benefit from employee-generated product reliability.

DESIGN EXCELLENCE TEAMS UP WITH PRECISION ENGINEERING

John Adams blends form and function to perfection.

- For over thirty-five years as exclusive designer, Adams has been creating Formulas with sleek, distinctive styling, award-winning performance and superior quality.
- Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.
- Adams' expertise elevates Formula Performance Cruisers to ever higher levels of beauty, comfort and innovative practicality.



CAD/CAM technology plus R&D expertise ensure your Formula's superior quality.

- Using state-of-the-art CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.
- Dimensions and positioning of components and systems are determined for precise fit.
- Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mock-ups are built to fine-tune ergonomics and space utilization.

- Computer Numerically Controlled (C-N-C) routers are programmed to cut panels, acrylic, Corian and other components, maintaining accuracy to within thousandths of an inch.
- Sidewalls, headliners, cabinets and coaming panels meet exactly with unparalleled fit and finish.

A FORMULA CRUISER MOVES OUT WITH RESPONSIVE, SPIRITED PERFORMANCE

- Formula cruising is fast, smooth, stable and dry.
- The deep-V hull design ensures a balanced running attitude and a comfortable, solid ride for all aboard.
- Cruise at your own pace, execute smart turns and slice through offshore waves with confidence.

Superior Materials and Construction Expertise Ensure Lasting Beauty and Durability

Individual lamination schedules result in the smooth, reflective Formula finish.

- Formula is famous for producing the highest quality finish in the industry through the consistent use of top-grade materials, following layering procedures exactly and also by the systematic maintenance of all molds on a rigorous schedule.

- Patterned fiberglass shapes, produced through in-house Gerbercutter® technology, are layered with resin to build each component.
- Divinycell® structural foam adds lightweight strength in specific areas as opposed to balsa construction that absorbs water when improperly applied, and utilizing Coremat® prevents surface print-through.
- By allowing a part to remain in its mold the optimal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

Formula's unique suspended stringer system ensures your PC's integrity.

- Each Cruiser hull is reinforced with a custom-engineered matrix constructed of Perma Panel™, which is not susceptible to decay-causing fungi.
- Cut precisely by C-N-C routers, the matrix is encapsulated in resin and laminated to the hull while suspended on jigs. This eliminates contact distortion and creates a level base for exact component fit.
- Hull cavities are filled with structural foam, increasing integral strength and producing a quiet, solid ride.

Top quality AME® 5000 resin assures your Formula's long-lasting beauty.

- Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.
- Your Cruiser will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

Pultrusion reinforcement adds critical structural strength.

- During Cruiser construction, custom-fabricated fiberglass shapes are positioned under fuel tanks and engines and along interior gunwales.
- Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.

Formula joins the deck and hull utilizing superior procedures for rugged durability.

- Plexus®, an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.
- The deck and hull joint is also bolted together with $\frac{1}{4}$″ stainless steel truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.
- This unyielding structure is vital offshore where wave action takes its toll on all but the strongest construction.

Demanding Standards Assure Componentry and Hardware Dependability

Formula tests all proposed components to assure reliability.

- New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.
- If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

316L stainless steel rails are a top-grade finish for your Formula.

- All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- Anything less will not keep its like-new appearance.

Superior hardware installation provides integrity you can count on.

- When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- All other deck hardware is bolted securely, not screwed down, to effect solid construction.
- A flexible O-ring around each hardware fastener creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when reseated.
- All fasteners are chrome-plated stainless steel.

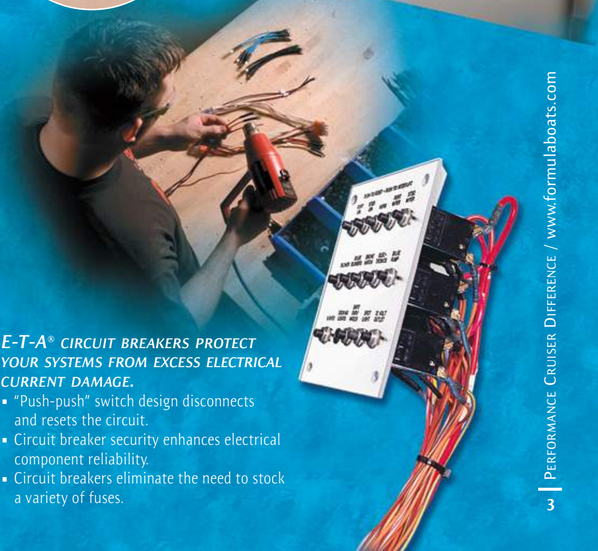
Exacting Techniques Result in Reliable On-Water Electrical Systems

Formula installs dependable, deep-cycle batteries for superior reliability.

- Deep-cycle batteries are standard in all Performance Cruisers.
- Deep-cycle batteries can be charged repeatedly without losing strength – another way built-in reliability keeps you on the water.

All Formula electrical systems are designed to give uninterrupted service.

- Formula individually secures each wiring connection with a visible crimp instead of using pre-insulated connectors common in the industry.
- The crimped connection is insulated with double-walled shrink tubing – the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion while the outer wall prevents shorts.
- For longer runs, color-coded wires are routed through flexible conduit for protection and security.
- Instrument panels are easily removed to access dash wiring connections.



E-T-A® circuit breakers protect your systems from excess electrical current damage.

- "Push-push" switch design disconnects and resets the circuit.
- Circuit breaker security enhances electrical component reliability.
- Circuit breakers eliminate the need to stock a variety of fuses.

FORMULA'S VERSATILE COCKPITS ARE ERGONOMICALLY CORRECT AND EXECUTED TO PERFECTION

Formula Cruiser cockpits are designed for comfort and pleasure.

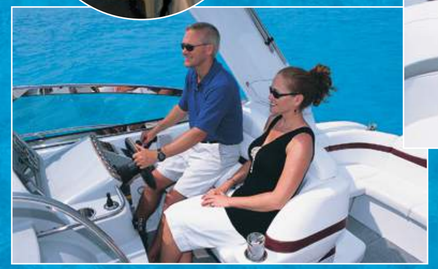
- Versatile, U-shaped lounge seating with tables and filler cushions converts to a large sun lounge.
- The integrated wetbar with hinged Corian® countertop, molded sink, cooler storage and trash receptacle is a convenient center for refreshments any time.
- Throughout the cockpit polished stainless steel drink holders are within easy reach.

Performance Cruiser helm design achieves correct ergonomics for you.

- Constructing full-scale mockups for each new model finalizes correct human dimensions.
- The helm provides easily viewed, comfortably reached shifters, throttles, gauges and switches.
- Backlit, waterproof rocker switches provide easy recognition and systems control.

The specially engineered helm seat accommodates two in comfort.

- With the generous, double-wide command seat, both captain and companion enjoy the view at the helm.
- Both well-padded hinge-up seats offer the individual option of sitting, standing, or leaning back against the upright seat.



Superior cockpit seating is designed for relaxed comfort.

- Formula is regarded as the leader in expertly designed and executed seating.
- Human dimension criteria are utilized to achieve correct proportions and contouring.
- Separate, pre-shaped foam components are placed in each seat to provide optimal lumbar and leg support.

Eliminating wood in the cockpit provides lasting durability.

- StarLite® XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- Seat cores are either rotocast plastic or formed fiberglass, creating a virtually indestructible framework.
- Eliminating wood structure extends the cockpit's like-new appearance into the future.

Specialized foam makes the difference in dry cockpit seating.

- Advanced Dri-Fast® polyurethane foam is used throughout the Formula cockpit.
- Instead of being trapped, water freely drains through the foam, eliminating soggy seats.

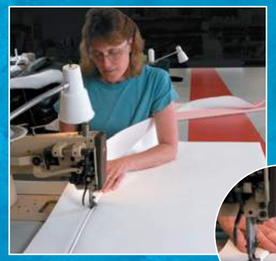
Rugged, transportation-grade cockpit upholstery looks new far longer.

- Formula upholstery holds its shape and resists tears due to its extra density and premium-grade backing material.
- Top grade vinyl accents are color-permeated and coordinate with the exterior Imron® colors.
- Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.

Computerized consistency and skilled sewing combine to create Formula upholstery's sculpted appearance.

- A computer-based GERBERcutter® cuts upholstery pieces accurately and consistently.
- Assembled by Formula's skilled sewers, patterns come together in complex designs, finished with hand-guided topstitching, the hallmark of finest quality.
- Specialized thread, Tenara® by Gore™ used in sewing exterior vinyl upholstery, does not deteriorate from exposure to sunlight, cleaning agents or saltwater.

GORE Tenara SEWING THREAD



There's plenty of room for your gear in a Formula PC cockpit.

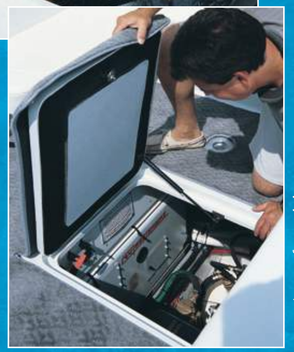
- Smooth fiberglass storage areas, free of exposed wood or carpet, protect your gear from unwanted moisture.
- Special compartments for lines, fenders and PFDs keep the cockpit clutter free.

Performance Cruisers offer safe, easy access to the foredeck.

- Formula's beautifully curved windshields are designed with a center walk-through to the foredeck on all Cruisers.
- The steps are properly proportioned, and protective railing offers safe access.
- This popular feature is a real plus in handling forward lines and for docking and anchoring.

Formula engine rooms are well laid out for easy access and inspection.

- At the touch of a switch, a large section of the aft cockpit sole is raised for easy entry to the engine room. A day hatch also allows quick checks in the larger PCs.



- Important safety features include an engine room fume detector and the automatic fire extinguishing system.
- Formula thru-bolts all engine installations using heavy duty engine mounts with angled aluminum backing plates while some lesser-quality manufacturers simply lag-bolt motor mounts directly to engine room stringers.

PC INTERIORS PRESENT UNIQUE FEATURES AND LUXURIOUS DESIGN ELEMENTS

Ultraleather™ cabin lounge seating provides practical luxury.

- Comfort, beauty and function combine to create the perfect setting for relaxation and entertainment.
- Ultraleather has the appearance and rich, supple feel of fine leather.
- It is surprisingly tough and durable — spills wipe up easily.

Formula cabin design offers first-class amenities.

- Slip-resistant cabin entry steps, constructed with high-tech Lonseal, are a stylish, practical feature.
- The floor plan maximizes cabin storage while keeping the layout sleek and flowing.
- A satisfying variety of designer décor selections complements your choice of exterior graphic color.
- Luxurious appointments include expansive lounges with beautifully coordinated pillows and draperies, high-gloss wood tables, sculptured carpeting and extensive lighting capabilities.

- Formula Cruisers also offer a custom quilted bedspread with matching pillow shams, bed linens and towel sets as additional fine furnishings of the highest quality.

Precise, high-gloss cabinetry reflects the look of fine furniture.

- Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- Ultra contemporary PC cabinetry in deep cherry wood grain finish is complete with solid hardwood, dovetailed drawers.
- Cabinetry is securely bolted in place with metal brackets, while internally thru-bolted angle aluminum ensures enduring integrity.
- Top-quality recessed knob or stainless steel ring latches keep doors and drawers closed under way.
- PC galley drawers are plentiful, and all are solid, dovetailed hardwood construction.
- Genuine Corian® countertops, hand-crafted by Formula with beautifully rounded edges, are smooth and seamless — easy to clean and care for.
- Stoves and trash receptacles are cleverly concealed in the Corian countertop.

AUDIO VISUAL SYSTEMS INCLUDE THE VERY LATEST IN TECHNOLOGY

The latest in sound system technology enhances your listening enjoyment.

- Formula installs a top-quality AM/FM/CD stereo system with marine-grade speakers in each PC.
- Each Formula sports an iPod™/MP3 port at the helm, and with the 10-disc CD changer package, the iPod docking station in the cabin charges the player while giving you complete playlist control from stereo remotes.
- Available cockpit subwoofers enhance your stereo's low-frequency response and present full, rich sound underway.
- A crystal-clear digital signal and complimentary six-month subscription to Sirius Satellite Radio ensures static-free reception.

SIRIUS SATELLITE RADIO

Formula researches the latest in LCD flatscreen technology to provide the ultimate viewing experience.

- Formula seeks out A/V components capable of ensuring superior performance.
- Premium LCD TV technology delivers a rich, razor-sharp picture.
- Mounting flat-panel screens on cabinetry doors allows Formula to optimize storage.
- Cabinetry-mounted screens adjust positions for viewing from different areas of the cabin.
- In hardtop equipped PCs, the cockpit television option with wireless technology frees you to watch television anywhere on or near your boat.

FORMULA'S UNIQUE IMRON® PROCESS RESULTS IN A VIBRANT FINISH THAT FAR SURPASSES ALL OTHERS

- Executed with DuPont Imron, a durable all-weather urethane, Formula graphics excel in design, quality and lasting beauty.
- Formula offers the widest range of color selections and designs to personalize your powerboat.
- Complicated preparation, patterning and masking procedures are involved in each different color application.
- Imron-finished graphics never chalk or fade as compared to colored gelcoat; Imron retains its original, like-new brilliance and glossy surface year after year.

PERFORMANCE CRUISERS ARE DESIGNED, BUILT, TESTED AND PROTECTED TO ENSURE ULTIMATE OWNER SATISFACTION

NMMA Certification of all Formulas is a reassuring safety factor.

- As a charter member of the National Marine Manufacturers Association, Formula has always been committed to product integrity.
- The safety of owners is of primary importance to Formula.
- NMMA certification to ABYC standards is displayed in each Formula and should be a determining factor when considering other boats.

NMMA® CERTIFIED with ABYC standards

The final QAP inspection assures ultimate quality in your Formula.

- During the Quality Assurance Program inspection, both corporate and production personnel thoroughly evaluate your Formula.
- Fit and finish details are examined from a customer's point of view.
- Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each model.

Test tank evaluation of each Formula assures turn-key delivery.

- Working through an extensive checklist, all instruments, systems and accessories are tested.
- Engines are powered up to verify proper operation.
- A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.
- In addition, Formula maintains an extensive on-water testing program to ensure the ongoing improvement of the Formula line.

Formula Guard protects your boating investment.

- The Formula Guard protection plan protects your boating investment with a 10-year structural warranty.
- A five-year limited protection plan under Formula Guard covers engine/outdrive, accessories and components, including labor and materials.
- Formula Guard is transferable during the first five years of ownership, increasing your Formula's value.
- For detailed information visit our website at www.formulaboats.com.

FORMULA GUARD 5-YEAR LIMITED PROTECTION PLAN

Formula Reliability Centers ensure excellent service for your Formula.

- Formula works with dealerships to provide quick, expert service, keeping Formula boaters happy and on the water.
- Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- Dealers are well informed regarding Formula product so they can provide timely, expert technical and mechanical service.

FORMULA RELIABILITY CENTER

- Continuous molded fiberglass deck & cockpit liner
- Molded fiberglass in-dash forward deck access steps w/316L stainless steel handrail
- Burl wood-finish dash panels
- Complete Livorsi® illuminated instrumentation, domed w/chrome bezels
- Ritchie® compass
- Digital depth sounder
- Shift/throttle controls w/trim switches
- Dino™ tilt steering wheel w/burl insets
- Bennett® trim tab switches & indicators
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Auxiliary 12V outlet
- Stereo volume control
- Two 100W arch-mounted 6 ½˝ 2-way marine-grade speakers
- iPod™/MP3 port
- Six polished stainless steel drink holders
- Cockpit/swim platform courtesy lights w/hand-held remote control
- Weather-resistant cockpit seating featuring Dri-Fast® foam & StarLite® XL synthetic marine panel construction
- Twin command seating w/dual-position helm & companion seats
- Port lounge
- L-shaped lounge seating w/fold-away aft lounge, dual-height table & sun pad insert
- Concealed fender storage w/two fenders
- Molded fiberglass wetbar w/stainless steel sink, Corian® countertop & 120V GFCI outlet
- Fire extinguisher
- Disconnect switches for auxiliary & starting batteries
- Battery parallel emergency switch
- Custom patterned cockpit carpet
- Bimini top, front & side curtains w/easy-mount zipper connectors & extended aft cockpit enclosure in color-matched non-fading Sunbrella® acrylic fabric w/SeaMark™ vinyl undercoating
- Cockpit cover in color-matched non-fading Sunbrella acrylic fabric w/SeaMark vinyl undercoating

27 PC Cabin

- Sliding/locking cabin door
- Custom patterned carpet
- Ultraleather™ U-shaped forward dinette lounge/double berth w/high-gloss solid wood table & filler cushions
- Custom décor pillows & draperies
- 120V & 12V electrical panels
- Kenwood® AM/FM/CD stereo w/high power output & two 100W 6 ½˝ 2-way marine-grade speakers
- Six-month subscription to Sirius™ Satellite digital broadcast
- Complete galley in deep cherry high-gloss finish w/storage and hardwood dovetailed drawers, full Corian countertop, polished stainless steel sink, concealed electric stove w/safety shut-off switch, concealed 120V/12V refrigerator, microwave oven & concealed in-counter trash receptacle
- Fire extinguisher
- Demand water system
- 120V water heater w/heat exchanger
- Aft double berth and privacy enclosure
- Linen storage
- Cedar-lined hanging locker
- Molded fiberglass private head compartment w/molded fiberglass vanity w/lower doors in deep cherry high-gloss finish, Corian counter, stainless steel sink, w/manual porcelain head unit w/holding tank & dockside pumpout, shower & exhaust fan
- Two carbon monoxide detectors

27 PC Engine Room

- Twin engine installation
- Motorized hatch lift
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted engine mounts
- Starting marine batteries w/battery retainers
- 50-amp battery charger
- Active & passive galvanic corrosion protection systems
- Low-noise rotary bilge blowers
- Automatic bilge pump
- Bilge high water alarm
- Bennett hydraulic trim tabs
- Stainless steel props

27 PC Available Equipment

- Imron Flagship graphic w/full hullside color
- American Cherry woodgrain-finish flooring
- Custom quilted bedspread w/matching pillow shams
- Bed linens & towels
- Entertainment group w/remote control 15˝ LCD TV/DVD, antenna, phone, & dockside access cords for cable TV & phone
- Entertainment group w/remote control 15˝ LCD TV/DVD & antenna, phone & dockside access cords for cable TV & phone, aft cabin remote control 15˝ LCD TV/DVD
- Kenwood AM/FM/CD stereo w/high power output, changer control, dash-mounted full-feature remote control, 720W amplification, 10-disc CD changer, iPod docking station & 200W cockpit subwoofer
- 10,000 BTU reverse cycle air conditioner w/digital climate control
- 1500W/120V cabin heater
- Manual porcelain head unit w/holding tank & Y-valve for macerator discharge or dockside pumpout
- VacuFlush® unit w/holding tank & dockside pumpout
- VacuFlush unit w/holding tank & Y-valve for macerator discharge or dockside pumpout
- Gray water holding system
- Electric windlass w/chain counter, 75´ chain & polished stainless steel anchor
- Polished 5˝ remote-control searchlight
- Polished stainless steel bow docking lights
- VHF radio w/antenna
- Garmin® GPS navigational system w/172C color chart plotter
- SmartCraft™ instrumentation system (on Mercury engine packages only)
- SmartCraft instrumentation w/DTS digital throttle & shift control system (on Mercury engine packages only)
- Engine freshwater flush system
- 5 KW/120V Kohler® low-CO emissions gas generator w/battery
- 5 KW Kohler diesel generator w/battery

31 PC Standard Equipment

31 PC Exterior

- NMMA Yacht Certification
- Transferable 5-Year Formula Guard Limited Protection Plan
- Imron® Standard graphic & cockpit accent striping
- Pressure-treated Perma Panel™ structural hull matrix
- Foam-filled hull cavities
- Chemically bonded & thru-bolted deck-to-hull joint
- Heavy-duty PVC gunwale w/stainless steel insert
- Integrated bow platform
- Electric windlass w/chain counter, 200´ chain & polished stainless steel anchor
- Concealed anchor davit w/fiberglass chain locker
- Polished 5˝ remote-control searchlight
- Stainless steel hardware & 316L stainless steel welded rails
- Stainless steel fuel fills w/integral vents
- Two Bomar® cabin venting hatches w/screens
- Forward Bomar cabin venting hatch w/integrated OceanAir rollout SKYscreen & privacy shade
- Six polished stainless steel port lights w/screens
- Nonskid deck center walkway & walk-around
- Two Dri-Fast® foam deck sun pads w/316L stainless steel rails
- Tinted, tempered curved-glass windshield w/center walk-thru
- Windshield wiper
- Radar arch w/mast light
- Polished air horn
- Integrated swim platform w/concealed 316L stainless steel swim ladder & pull-up cleats
- Transom shower w/hot & cold controls
- Molded fiberglass transom trunk w/pneumatic lifts, fender storage, four fenders, storage for cockpit tables & cushion
- 120V shorepower w/galvanic isolator & monitor & two 30-amp cords
- Polished stainless steel shorepower & cable TV & telephone hookups, & polished chromed city water inlet

31 PC Cockpit

- Continuous molded fiberglass deck & cockpit liner
- Molded fiberglass in-dash forward deck access steps w/316L stainless steel handrail
- Burl wood-finish dash panels
- Complete Livorsi® illuminated instrumentation, domed w/chrome bezels
- Ritchie® compass
- Digital depth sounder
- Livorsi shifters/throttles w/in-handle trim switch
- Dino™ tilt steering wheel w/burl insets
- Bennett® trim tab switches & indicators
- Fingertip trim switches
- Illuminated waterproof accessory rocker switches w/E-T-A® circuit breakers
- Auxiliary 12V outlet
- Stereo volume control
- Two 300W 6˝x9˝ 3-way marine-grade speakers & two arch-mounted 100W 6 ½˝ 2-way marine-grade speakers w/920W amplification

- Private forward stateroom w/double high-gloss deep cherry finish doors, centerline bed and stowage below
- Custom quilted bedspread w/matching pillow shams
- Bed linens & towels
- Forward cabin 15˝ LCD TV/DVD w/dockside access cord
- Individual reading lights
- Two forward stateroom hanging lockers w/automatic lights (port side includes two hardwood dovetailed drawers)
- Curved Ultraleather™ sofa seating w/dual-height, high-gloss solid wood dining table, filler cushion & two Ultraleather pedestal dining stools
- Custom décor pillows & draperies
- Cabinetry in deep cherry high-gloss finish
- 16,000 BTU reverse cycle air conditioner w/digital climate control
- Phone w/cord
- 120V & 12V electrical panels
- 20˝ LCD stereo TV/DVD in main salon w/dockside access cord
- Kenwood® AM/FM/CD stereo w/high power output, changer control, multi 10-disc CD changer, 8˝ subwoofer, dash-mounted full-feature remote control & iPod docking station
- Six-month subscription to Sirius™ Satellite digital broadcast
- Stereo volume control
- Two 300W 6˝x 9˝ 3-way speakers & two 100W 6 ½˝ 2-way speakers w/920W amplification
- Ultraleather aft cabin lounge/double berth w/filler cushions & privacy enclosure
- Removable high-gloss, deep cherry wood cocktail table
- Cedar-lined aft cabin hanging locker w/automatic light
- Built-in WalVac® sweeper system w/easy-access wall plate
- In-floor storage compartments

SIRIUS SATELLITE RADIO

- Complete galley in deep cherry high-gloss finish w/storage and hardwood dovetailed drawers, full Corian countertop, polished stainless steel sink, concealed 2-burner electric stove w/safety shut-off switch, 120V/12V refrigerator/freezer w/matching front panels, polished stainless steel microwave oven, coffee maker & concealed in-counter trash receptacle
- Fire extinguisher
- Demand water system w/one-point water fill for freshwater tank and/or city water
- Water level gauge
- 120V water heater w/heat exchanger
- Molded fiberglass private head compartment w/molded fiberglass vanity w/lower doors in deep cherry high-gloss finish, Corian counter, polished stainless steel sink, Flush and Forget® VacuFlush® head unit w/holding tank & dockside pumpout, separate stall shower w/hinged curved acrylic door, Corian seat & exhaust fan
- Cabin bilge pump w/high water alarm
- Two carbon monoxide detectors

40 PC Engine Room

- Twin engine installation
- Motorized hatch lift
- Integrated quick-access engine hatch
- Courtesy lighting
- Fume detector
- Automatic fire extinguisher
- Thru-bolted engine mounts
- Engine raw water strainers/seacocks
- Eco Sound EPS 1000™ exhaust system
- Three marine batteries w/battery retainers
- Disconnect switches for starting batteries
- Battery parallel emergency switch
- 80-amp battery charger
- Active & passive galvanic corrosion protection systems
- Low-noise rotary bilge blowers
- Automatic bilge pump
- Bilge high water alarm
- Bennett hydraulic trim tabs
- Bronze rudders & struts
- 7.3 KW/120V Kohler® low-CO emissions gas generator w/battery or 7.6 KW/120V Westerbeke™ diesel generator w/sound shield & battery
- 1 ¾˝ stainless steel Aquamet® 19 propeller shafts
- 4-blade nibral props

40 PC Available Equipment

- Imron Flagship graphic w/full hullside color
- Flagship Designer graphic—available w/Ralph Lauren Fabric package
- Ralph Lauren Fabric package w/custom quilted bedspread, pillow shams, bed linens & towels
- American Deep cherry woodgrain-finish flooring
- Aft cabin remote control 15˝ LCD TV/DVD
- Stainless steel security safe
- VacuFlush unit w/holding tank for macerator discharge or dockside pumpout
- Gray water holding system
- Remote 12V oil change system
- Concealed quick-disconnect coiled-hose freshwater anchor/transom washdown system
- Hydraulic swim platform/personal watercraft lift system w/hand-held remote control
- Cockpit hardtop w/Bomar venting hatches
- VHF radio w/antenna
- Raymarine GPS navigational system w/E80 color chart plotter
- Raymarine GPS navigational system w/48˝ open-array radar & E80 color radar display/chart plotter
- Raymarine GPS navigational system w/RayPilot ST6002, 48˝ open-array radar & E80 color radar display/chart plotter
- Sirius Satellite Radio Marine Weather service (available w/Raymarine E-Series navigational systems only)
- SmartCraft™ SC 5000 multi-system monitor (on select Mercury engine packages only)
- SmartCraft SC 5000 multi-system monitor w/DTS digital throttle & shift control system (on select Mercury engine packages only)
- SeaKey Volvo Penta satellite communication/boat data/security system
- Cockpit 120V ice maker or 12V refrigerator
- Wireless cockpit 15˝ LCD TV/monitor (available w/hardtop)

Formula Performance Cruiser

Color Selections

Your selection of an exterior color accent reflects your personal taste. Formula's use of Imron®, a DuPont urethane enamel, will keep your graphic beautiful year after year. Formula Cruisers for 2007 are available in nine color and design combinations in either the Flagship solid hullside graphic, the Standard Imron accent or the new Flagship Designer Graphic, available exclusively with the Ralph Lauren Fabric package in the 37 and 40 PCs.

Formula 2007 cabin decor perfectly complements your exterior color choice with tasteful designer expertise. Color themes for each boat have been designed and appointed with richly textured fabrics. High-gloss cabinetry in a deep cherry finish is complemented by Corian® countertop choices that coordinate with your color theme selection. Coordinating pillows, bed coverings and draperies complete the luxurious decor.

FORMULA 2007...

Formula Lineup

The Formula powerboat lineup includes Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech® models. If you want exhilarating speed, get into a Formula FAS³Tech, ranging from 27 to 38 feet. The 382 is pictured at the bottom. The Sun Sport series ranges from 24 to 33 feet including three bowrider models, while the 370 SS and the 400 SS are the sleek Super Sports. The 370 Super Sport is pictured second from bottom. PC boating is luxury cruising at its best, ranging from 27 to 40 feet. The 37 PC is pictured second from top. The Formula Yacht, which includes the 48 and 45, pictured at top, is today's elite choice in premier yachting. Call ***1.800.736.7685*** to receive a free brochure, or visit your nearest Formula dealer to see the new Formula models for 2007.

Formula Gear

Formula Gear and Accessories are top-quality items featuring the impressive Formula logo. If you like up-to-date colors and styling, visit your Formula dealer for a free catalog, order online at the Formula Gear website, ***www.formulagear.com***, or call ***1.800.736.7685*** to receive your free Gear catalog from Formula.

FORMULA GEAR

You're in command. Boat safely, take a boating education course and get a vessel safety check for your boat. For more information, contact The United States Coast Guard Auxiliary at 800.368.5647 or www.cgaux.org, or The United States Power Squadrons at 888.FOR.USPS or www.usps.org.

Formula Website

Formula's website is continually updated with new features, text and pictures. Check out the latest Formula dealer and owner events, boat care articles, owner forum and Formula's company history. You can also order a catalog or visit the feedback/e-mail section with comments or suggestions. Formula is at your fingertips! You will find Formula online at: ***www.formulaboats.com*** and formulagear.com.

Click on these sites to see the newest and best of Formula!

The Formula Showroom®

Continually updated Formula software creates a comprehensive display of the 2007 lineup. This program, The Formula Showroom, helps make the exciting process of choosing your Formula graphics, options and finance program much easier! Find it in the "Build Your Formula" section at ***www.formulaboats.com*** or see your Formula dealer for details.

Formula *Action*

The Formula *Action* is a news publication filled with company and product updates, new model information and owner boating experiences. The *Action* is mailed to Formula owners and is also available at your Formula dealership, or call ***1.800.736.7685*** to receive a free copy.

Formula DVD

The 2007 Formula DVD features Formula Sun Sport, Super Sport, Cruiser, Yacht and FAS³Tech powerboats in exciting action along with a brief Formula facility walkthrough. Call ***1.800.736.7685*** to receive your free DVD.

Cruiser Bimini top

Cruiser Bimini top with front, side and extended aft cockpit enclosure

Formula Canvas

Formula custom-fitted canvas features color-matched, non-fading Sunbrella® acrylic fabric w/SeaMark® vinyl undercoating. Canvas packages include 316L stainless steel framework, weather-resistant YKK zippers and the Formula name embroidered on the boot.

Formula reserves the right to make product changes and improvements throughout the model year.

Extraordinary Excellence — The Formula 45 Yacht

*B*oldly innovative design and superb craftsmanship predominate in the elegant new 45 Yacht. Advanced engineering attains smooth, sure performance at an exhilarating pace — the very essence of Formula yachting.

*T*he commanding 45 introduces an impressive coupe top design with a motorized sunroof, protecting the entire forward cockpit while also providing convenient access to the foredeck.

*I*nterior accommodations of the 45 inspire a sense of wonder and appreciation, indulging every expectation with splendid décor and elite furnishings.

Superlative Throughout — The New Formula 45 Yacht

2007

© Copyright 2007 by Porter, Inc.
FORMULA, THUNDERBIRD AND THE THUNDERBIRD LOGO ARE REGISTERED TRADEMARKS OF PORTER, INC.

A remarkable tradition of excellence has earned Formula the prestigious reputation as the best designed, best constructed pleasure boat today. After completing fifty years of successful powerboat production, the Vic Porter family, owners of Formula since 1976, continue to focus on achieving top quality in each Formula, from the sporty SS lineup to the magnificent Yachts. President Scott Porter along with three brothers and a sister work together as committed owner/managers, leading Formula in daily operations. Vic Porter, who began his first boat company in 1958, serves as Chairman.

The Porter family has enjoyed boating over the years and understands the important difference of expertly designed, high-quality features, top-notch performance and responsive, customer-oriented service. Maximum personal satisfaction for Formula owners continues to be the Porter family goal.

The Formula Difference

Advanced Production Standards Result in Top Quality

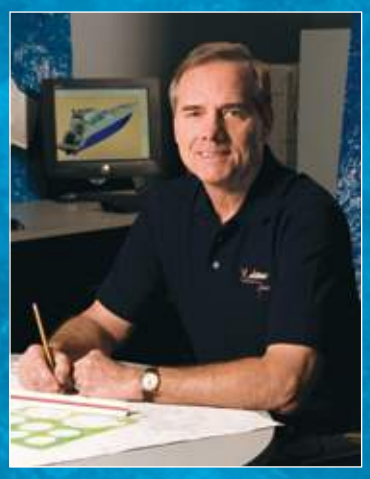
Formula's entire manufacturing facility focuses on excellence.

- A 575,000 square-foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. A state-of-the-art, 85,000 square-foot expansion was recently completed, keeping Formula on the leading edge of manufacturing processes.
- Advancing technology is consistently utilized to improve Formula powerboats and ensure superior quality.
- Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

Employee teams accomplish continual product improvement for Formula owners.

- On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them.
- An on-site training program, C.O.R.E. (Champions of Reaching Excellence), expands and sharpens Formula employees' personal and professional developmental skills.
- Each time they boat, Formula owners benefit from employee-generated product reliability.

Design Excellence Teams Up with Precision Engineering

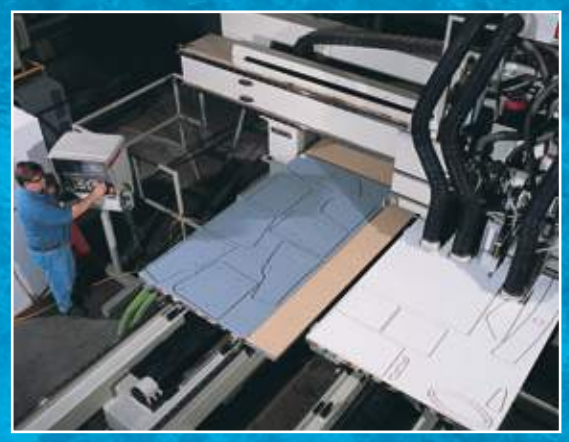


John Adams blends form and function to perfection.

- For over thirty-five years as exclusive designer, Adams has been creating Formulas with sleek, distinctive styling, award-winning performance and superior quality.
- Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.
- Adams' expertise elevates the Formula Yacht to ever higher levels of beauty, comfort and innovative practicality.

CAD/CAM technology plus R&D expertise ensure your Formula's superior quality.

- Using the latest CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.
- Dimensions and positioning of components and complex systems are determined for precise fit.
- Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mock-ups are built to fine-tune ergonomics and space utilization.
- Computer Numerically Controlled (C-N-C) routers are programmed to cut panels, acrylic, Corian and other components, maintaining accuracy to within thousandths of an inch.
- Sidewalls, headliners, cabinets and coaming panels meet exactly with unparalleled fit and finish.



A Formula Yacht Moves Out with Responsive, Spirited Performance

- A Formula Yacht is responsive, smooth, stable and dry.
- Each Yacht delivers excellent performance with the speed, acceleration and handling characteristics you expect in a Formula.
- The Yacht hull design ensures a balanced, running attitude and a comfortable, solid ride for all aboard.

SUPERIOR MATERIALS AND CONSTRUCTION EXPERTISE ENSURE LASTING BEAUTY AND DURABILITY

Individual lamination schedules result in the smooth, reflective Formula finish.

- Formula's famous for producing the highest quality finish in the industry through the consistent use of top-grade materials, following layering procedures exactly and also by the systematic maintenance of all molds on a rigorous schedule.
- Patterned fiberglass shapes, produced through in-house Gerbercutter® technology, are layered with resin to build each component.
- Divinycell® structural foam adds lightweight strength in specific areas as opposed to balsa construction that absorbs water when improperly applied, and utilizing Coremat® prevents surface print-through.
- By allowing a part to remain in its mold the optimal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

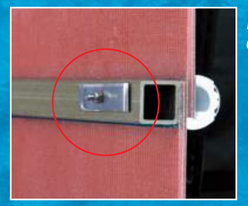
Top quality AME® 5000 resin enhances your Yacht's long-lasting beauty.

- Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.

- Your Yacht will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

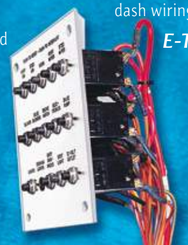
Formula Yacht grid structures are molded fiberglass for maximum strength offshore.

- The Yacht matrix is a multiple span, continuous fiberglass grid molded in one piece and bonded to the hull with Plexus® adhesive.
- Using AME 5000 resin along with custom woven fiberglass for maximum strength, the custom grid is constructed in the same way as the Formula FAS²Tech® matrix.
- Structural foam injected into the grid adds integrity and also results in a solid, quieter ride.



Pultrusion reinforcement adds critical structural strength.

- During Yacht construction, custom-fabricated fiberglass shapes are positioned along interior gunwales.
- Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.



Formula joins the deck and hull utilizing superior procedures for rugged durability.

- Plexus®, an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.
- The deck and hull joint is also bolted together with 1/4˝ stainless steel, truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.
- This unyielding structure is vital offshore where wave action takes its toll on all but the strongest construction.

DEMANDING STANDARDS ASSURE COMPONENTRY AND HARDWARE DEPENDABILITY

Formula tests all proposed components to assure reliability.

- New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.
- If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

316L stainless steel rails are a top-grade finish for Formula Yachts.

- All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- Anything less will not retain its like-new appearance.

Superior hardware installation provides integrity you can count on.

- When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- All other deck hardware is bolted securely, not screwed down, to effect solid construction.
- A flexible O-ring around each hardware fastener creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when reseated.
- All fasteners are chrome-plated stainless steel.

EXACTING TECHNIQUES RESULT IN RELIABLE ON-WATER ELECTRICAL SYSTEMS

Formula installs dependable, deep-cycle batteries for superior reliability.

- Deep-cycle diesel batteries are standard in the Formula Yacht.
- Deep-cycle batteries can be charged repeatedly without losing strength — another way built-in reliability keeps you on the water.

All Formula electrical systems are designed to give uninterrupted service.

- Formula individually secures each wiring connection with a visible crimp instead of using pre-insulated connectors common in the industry.
- The crimped connection is insulated with double-walled shrink tubing — the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion, while the outer wall prevents shorts.
- For longer runs, color-coded wires are routed through flexible conduit for protection and security.
- Instrument panels are easily removed to access dash wiring connections.

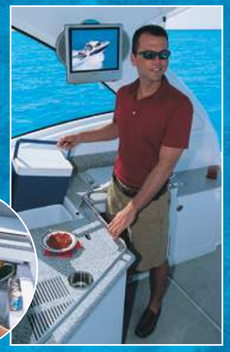
E-T-A® circuit breakers protect your systems from excess electrical current damage.

- "Push-push" switch design disconnects and resets the circuit.
- Circuit breaker security enhances electrical component reliability.
- Circuit breakers eliminate the need to stock a variety of fuses.
- The master electrical panel in the cabin and circuit breaker panels in the cabin and bilge provide further digital system monitoring.

FORMULA'S VERSATILE COCKPITS ARE ERGONOMICALLY CORRECT AND EXECUTED TO PERFECTION

Yacht cockpits are designed for comfort and pleasure.

- Versatile, surround lounge seating with tables and filler cushions converts to a large sun lounge.
- The integrated wetbar with Corian® counter-top, molded sink, cooler storage, trash receptacle and a refrigerator with ice maker is a convenient center for refreshments anytime.
- Throughout the cockpit, polished-stainless steel drink holders are within easy reach.



Yacht helm designs achieve correct ergonomics for you.

- Constructing full-scale mock-ups for each new model finalizes correct human dimensions.
- The helm provides easily viewed, comfortably reached shifters, throttles, gauges and switches.
- Backlit, waterproof rocker switches provide easy recognition and systems control.

The specially engineered helm seat accommodates two in comfort.

- With the generous, double-wide command seat, both captain and companion enjoy the view at the helm.
- Both well-padded hinge-up seats offer the individual option of sitting, standing, or leaning back against the upright seat.

Superior cockpit seating is designed for relaxed comfort.

- Formula is regarded as the leader in expertly designed and executed seating.
- Human dimension criteria are utilized to achieve correct proportions and contouring.
- Separate, pre-shaped foam components are placed in each seat to provide optimal lumber and leg support.

Eliminating wood in the cockpit provides lasting durability.

- StarLite® XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- Seat cores are either rotocast plastic or formed fiberglass, creating a virtually indestructible framework.
- Eliminating wood structure extends the cockpit's like-new appearance into the future.

Specialized foam makes the difference in dry cockpit seating.

- Advanced Dri-Fast® polyurethane foam is used throughout the Yacht cockpit.
- Instead of being trapped, water drains freely through the foam, eliminating soggy seats.

Rugged, transportation-grade cockpit upholstery looks new far longer.

- Formula upholstery holds its shape and resists tears due to its extra density and premium grade backing material.
- Top-grade vinyl accents are color-permeated and coordinate with the exterior Imron® colors.
- Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.

Computerized consistency and skilled sewing combine to create Formula upholstery's sculpted appearance.

- A computer-based GERBERcutter® cuts upholstery pieces accurately and consistently.
- Assembled by Formula's skilled sewers, patterns come together in complex designs, finished with hand-guided top stitching, the hallmark of finest quality.
- Specialized thread, Tenara® by Gore™ used in sewing exterior vinyl upholstery, does not deteriorate from exposure to sunlight, cleaning agents or saltwater. Tenara.

There's plenty of room for your gear in a Formula Yacht cockpit.

- Smooth fiberglass storage areas, free of exposed wood or carpet, protect your gear from unwanted moisture.
- Special compartments for lines, fenders and PFDs keep the cockpit clutter free.

Formula Yachts offer safe, easy access to the foredeck.

- Formula's beautifully curved windshields are designed with a center walk-through to the foredeck.
- The steps are properly proportioned, and protective railing offers safe access.
- This popular feature is a real plus in handling forward lines and for docking, anchoring or sunning on the deck.

The Yacht engine room is well laid out for easy access and inspection.

- At the touch of a switch, a large section of the aft cockpit sole is raised for easy entry to the engine room. A day hatch also allows quick checks.
- Important safety features include an engine room fume detector and the automatic fire extinguishing system.
- Formula employs I-beam-mounted motor beds thru-bolted to the engine room fiberglass matrix system. This rigid, exacting method allows precise engine alignment and provides a solid foundation for long lasting propeller shaft alignment.
- The latest in diesel technology with the highest horsepower range for this size vessel achieves higher cruising speed.

YACHT INTERIORS PRESENT UNIQUE FEATURES AND LUXURIOUS DESIGN ELEMENTS

Ultraleather™ cabin lounge seating provides practical luxury.

- Comfort, function and beauty combine to create the perfect, relaxed setting for friendly gatherings.
- Ultraleather has the appearance and rich, supple feel of fine leather.
- It is surprisingly tough and durable – spills wipe up easily.

Formula Yacht cabin designs offer first-class amenities.

- Slip-resistant cabin entry steps constructed with high-tech Lonseal are a stylish, practical feature.
- The floor plan maximizes cabin storage while keeping the layout sleek and flowing.
- A satisfying variety of designer décor selections complements your choice of exterior graphic color.
- Luxurious appointments include expansive lounges with beautifully coordinated pillows, draperies and blinds, high-gloss wood tables, patterned carpeting and extensive lighting capabilities.
- Formula Yacht décor also includes a custom quilted bedspread with matching pillow shams, bed linens and towel sets as additional fine furnishings of the highest quality.

Precise, high-gloss Yacht cabinetry reflects the look of fine furniture.

- Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- Cabinetry units are securely bolted in place with metal brackets, while internally thru-bolted angle aluminum ensures enduring integrity.
- The high-gloss, deep cherry-finish door and drawer fronts add richness throughout the cabin.
- All drawers are solid, dovetailed hardwood construction.
- Top-quality recessed knob or stainless steel ring latches keep doors and drawers closed underway.
- Genuine Corian® countertops, hand-crafted by Formula with beautifully rounded edges, are smooth and seamless – easy to clean and care for.
- The stove, trash receptacles and sinks are cleverly concealed under the expansive countertop.

AUDIO VISUAL SYSTEMS INCLUDE THE VERY LATEST IN TECHNOLOGY

The latest in sound system technology enhances your listening enjoyment.

- Formula installs a top-quality AM/FM/CD stereo system with marine-grade speakers in each Yacht.
- Each Formula sports an iPod/MP3 port at the helm, and with the 10-disc CD changer package, the iPod docking station in the cabin charges the player while giving you complete playlist control from stereo remotes.
- Available cockpit subwoofers enhance your stereo's low-frequency response and present full, rich sound underway.
- A crystal-clear digital signal and complimentary six-month subscription to Sirius™ Satellite Radio ensures static-free reception.

SIRIUS SATELLITE RADIO

Formula researches the latest in LCD flatscreen technology to provide the ultimate viewing experience.

- Formula seeks out A/V components capable of ensuring superior performance.
- Premium LCD TV technology delivers a rich, razor-sharp picture.
- The cockpit television option with wireless technology frees you to watch television anywhere on or near your Yacht.

FORMULA'S UNIQUE IMRON PROCESS RESULTS IN A VIBRANT SURFACE FINISH THAT FAR SURPASSES ALL OTHERS.

- Executed with DuPont Imron®, a durable all weather urethane, Formula graphics excel in design, quality and lasting beauty.
- Formula offers the widest range of color selections and designs to personalize your Yacht.
- Complicated preparation, patterning and masking procedures are involved in each different color application.
- Imron-finished graphics never chalk or fade as compared to colored gelcoat; Imron retains its original, like-new brilliance and glossy surface year after year.

DESIGNED, BUILT, TESTED AND PROTECTED TO ENSURE ULTIMATE OWNER SATISFACTION.

NMMA Certification of all Formulas is a reassuring safety factor.

NMMA CERTIFIED using ABYC standards

- As a charter member of the National Marine Manufacturers Association, Formula has always been committed to product integrity.
- The safety of owners is of primary importance to Formula.
- NMMA certification to ABYC standards is displayed in each Formula and should be a determining factor when considering other boats.

Test tank evaluation of each Formula assures turn-key delivery.

- Working through an extensive checklist, all instruments, systems and accessories are tested.
- Engines are powered up to verify proper operation.
- A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.
- In addition, Formula maintains an extensive on-water testing program to ensure the ongoing improvement of the Formula line.

The final QAP inspection assures the ultimate quality in your Formula Yacht.

- During the Quality Assurance Program inspection, both corporate and production personnel thoroughly evaluate your Formula.
- Fit and finish details are examined from a customer's point of view.
- Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each Yacht.

Formula Guard protects your boating investment.

- This valuable protection plan includes a 10-year structural warranty.
- A five-year limited protection plan under Formula Guard covers engine/outdrive, accessories and components, including labor and materials.
- Formula Guard is transferable during the first five years of ownership, increasing your Formula's value appreciably.
- For detailed information visit our website at www.formulaboats.com.

FORMULA GUARD 5-YEAR LIMITED PROTECTION PLAN

Formula Reliability Centers ensure excellent service for your Formula.

- Formula works with dealerships to ensure that quick, expert service keeps Formula boaters happy and on the water.
- Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- Dealers are well informed regarding Formula product so they can provide timely, expert technical and mechanical service.

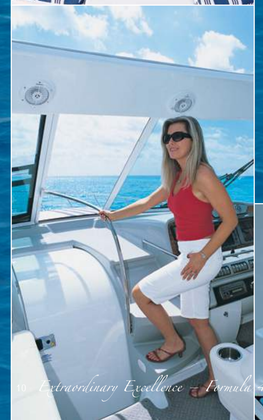
THE FORMULA 45 YACHT—

Boldly Innovative Design and Superb Craftsmanship



Formula proudly premieres the 45 Yacht, bold in design and striking in profile. Designer John Adams' vision is realized in this revolutionary yacht which joins the 48 in defining luxury yachting.

The 45 impresses with classic Formula lines, incorporating a stunning visual presentation with unparalleled, state-of-the-art construction, world-class craftsmanship, and the finest in materials and componentry. Lavish amenities and clever features abound, securing the 45's place in the elite yacht class.

The 45 Yacht commands attention at 48'2" overall with a roomy 13'11" beam. Perhaps its most striking feature is the coupe top design, integrated with a motorized sunroof. A truly unique aspect of its design, unprecedented in the industry, is the windshield, which reaches fully from deck to top with no forward roof bracing. No supports mar the view at the front or sides, affording a stunning panorama for those in the cockpit.

FORMULA 45 *Yacht*

Forward, comfortable, molded in-dash fiberglass steps with a 316L stainless handrail lead to the center windshield walk-thru door, providing ready access to the deck. Footing is sure, with nonskid surfaces surrounding twin sun pads with individual safety rails. The anchor windlass is concealed under a flush lid at the bow platform, along with the stainless steel anchor and coiled-hose, fresh water wash-down system. Bow rails with mid-level lifeline cables outlining the perimeter of the deck provide utmost safety on the water.

At mid-cockpit, the 45 Yacht's double-tiered, L-shaped cockpit wetbar/beverage center to starboard features a molded sink, refrigerator, available cockpit grill, ice chest and trash receptacle, cleverly concealed by a hand-crafted, Corian® countertop. The available cockpit wireless LCD TV/DVD with iPod™/MP3 port is a delightful feature that will provide hours of enjoyment on the water, while the six-speaker AM/FM/CD stereo, powered by a 300-watt amplifier and a 200-watt subwoofer, surrounds all aboard with high-fidelity audio.

At the helm are dual electronic engine monitor displays and fuel and rudder gauges, logically arranged and beautifully displayed. The captain will find all switches and electronic controls strategically positioned, achieving excellent helm ergonomics whether sitting, standing or leaning back against the double-wide command seat. Instrument panels are in a handsome mix of burl woodgrain and brushed metal and allow ample space to include the complete array of full-size Raymarine™ electronics that Formula offers and installs.

The beautifully curved windshield, with side vents and center walk-thru door with multi-positioning window, provides open-air ventilation, while the available 30,000 BTU cockpit air conditioner with strategically-positioned vents throughout is a welcome answer for those hotter boating days. A sculpted, curvilinear lounge on the port side, available in Ultraleather™, is proportioned so that two couples can enjoy conversation along with the experience of boating with the captain and first mate.

The 45 cockpit layout is designed especially for longer adventures as well as dayboating with friends and family. The comfortable seating arrangements promote a relaxed feel for creating new memories together. The versatile U-shaped lounge seating includes two Corian® tables for friendly gatherings, lunch or a quick snack on the water. The sun pads, when added to the lowered tables, are perfect for basking in the sun. Throughout the cockpit, storage is abundant in a smooth fiberglass finish. The built-in port and starboard lockers add essential dedicated storage for tables, canvas and PFDs.

The 45's expansive swim platform accommodates a personal watercraft or serves as a stage for an inflatable, if preferred. Launching and reboarding are easy with the optional hydraulic package for the platform. The aft trunk is accessed from the swim platform through a large curved fiberglass pneumatically-assisted hatch, complete with specially designed storage for fenders. The entire trunk raises for access to the walk-through engine room.

The cabin is entered through a curved acrylic sliding door. Elegant design and luxurious amenities make the entire presentation a masterpiece. Two generously-sized, custom HarbourView™ portlights with screens invite cooling breezes and a sweeping view to the horizon beyond. The high-gloss, deep cherry-finished cabinetry and textured fabrics throughout provide a rich, satisfied ambiance, and the available Ralph Lauren Fabric package with coordinating exterior deck sun pads and pillows elevates the décor to a new level. Lending natural light to both the salon and the galley by day are twin rectangular skylights uniquely designed into the ceiling. The custom-patterned carpet richens the atmosphere of the salon and staterooms.

Ralph Lauren Fabric Package

To starboard, the expansive U-shaped lounge upholstered in supple Ultraleather™ invites below decks entertaining. The high-gloss, inlaid cherry dining table is perfect for dining with friends, and is easily lowered and converted to a sleeping area with the filler cushions. Two upholstered pedestal dining stools oppose the lounge for added seating.

State-of-the-art technology delivers a true home-theater experience in the 45 salon with its 37" widescreen LCD TV/DVD player, Bose® Lifestyle® surround-sound DVD/CD player, iPod docking station, five double-cube speakers and a powered subwoofer, audio and video come to life. Everywhere you turn you will find luxury.

The contemporary L-shaped galley to port is created to encourage epicurean adventure. The high-gloss cherry-finished cabinet doors and drawer fronts are aesthetically pleasing, while the handcrafted dovetailed hardwood drawers are finely crafted and durable. Galley storage areas are more than generous, plus underneath is an in-floor pantry to hold supplies. The Corian® countertop, double-bowl stainless sink, large, upright refrigerator with separate freezer compartment, recessed two-burner range with Corian cover, brushed stainless steel convection/microwave oven, exhaust fan and concealed in-counter trash receptacle create a complete culinary workspace. The showcase display of tempered stemware, tumblers and a wine rack in a dramatically lit setting is perfect for those quieter moments. The American Cherry woodgrain-finish galley flooring is a beautiful touch.

High-Gloss Deep Cherry Cabinetry with Morocco Corian®

*F*orward, the owners' private stateroom enjoys complete privacy with a pocket entry door featuring a full-surface mirror. The spacious centerline bed offers roomy storage underneath plus four dovetailed hardwood drawers. Two hanging lockers, paneled with cedar, illuminate as the doors open. Overhead a Bomar® hatch features a roll-out SKYscreen and privacy shade. The owner can use this retreat to watch the flatscreen LCD TV/DVD player, or enjoy the cabin's audio system with Bose 161 speakers which produce lifelike stereo sound.

*T*he owners' exceptionally large, private head and separate shower compartments are entered from the stateroom only. The head compartment with vanity, to starboard, and shower area, to port, are separated to allow individual use. Superior amenities include a contoured, high-gloss cherry-finished vanity with Corian countertop, deep molded sink with wall faucet, Corian® flooring and a porcelain Flush and Forget® VacuFlush® head unit. The Corian seat, vanity drawer, overhead cabinetry storage and large wall mirror expand the master head's list of amenities. The separate shower offers an adjustable-height shower head, a curved Corian shower seat, mirrored storage cabinet and Corian flooring.

*T*he guest stateroom aft offers privacy with twin beds that cleverly convert to a queen-size berth with flip-out hideaway filler cushions. A large dovetailed hardwood drawer is located beneath each bed with additional trunk-style storage underneath, and there is also an illuminated, mirrored cedar-lined hanging locker. A flatscreen LCD TV/monitor/DVD player makes this an ideal location for video gaming.

A guest stateroom vanity in deep cherry-finish with Corian countertop and stainless steel sink is located to port. The adjoining private head compartment, complete with shower and porcelain Flush and Forget VacuFlush head unit, is convenient for day and overnight guests, reserving the master stateroom area exclusively for owners.

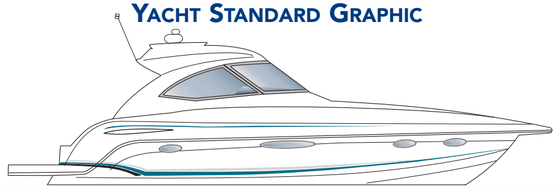
Exterior Color Selections

Selection of an exterior accent color reflects your personal taste. Imron®, a DuPont urethane enamel, will keep your graphic beautiful year after year. The Formula Yacht Flagship solid hullside graphics are available in five distinctive color choices. The standard Imron graphic is available in three color choices. New for 2007 is the Flagship Designer Graphic, available exclusively with the Ralph Lauren Fabric package.

Yacht Flagship Graphic

- Designer Graphic with Ralph Lauren Fabric package
- Black Onyx Metallic
- Black Cherry Metallic
- Gulfstream Metallic
- Silver Diamond Pearl
- Sapphire Blue Metallic

Yacht Standard Graphic



- Black Onyx
- Sapphire Blue
- Gulfstream
