LUXURY DIESEL MOTORHOMES FROM NATIONAL RV

Tradewinds Motorhomes - Experience The Finest

The road beckons, and you're eager to embark on new adventures. National RV is here to get you there.

Backed by over thirty years of experience in making travel dreams come true, our top-of-the-line Tradewinds offers an extensive array of outstanding features and amenities, unmatched by anything close to its price. Virtually everything you could ask for in a quality diesel motorhome is standard. That's value. And that's exactly what you've come to expect from National RV.

Tradewinds features color-coordinated, professionally designed interiors that pamper you with sumptuous fabrics and carpeting.

To make your time on the road truly pleasurable, each Tradewinds has a spacious slide-out room with your choice of appointments. Whichever slide-out you choose, whether it's the booth dinette or the new galley slide, you'll really love your new motorhome.

Picture yourself in the lap of luxury. Designer lighting really opens up the interior. Relax in the recliner swivel chair as you listen to your favorite CD, or tune in a show on the 19" color TV with remote control and VCR. Admire countertops crafted of elegant Corian - and a choice of oak or optional walnut interior with raised panel cabinet doors.

What a great way to travel!

Each slide-out room incorporates an exceptionally strong engineered steel framework and a trouble-free electric glide system. Extensive weather sealing and insulation are used throughout.

Model 7370

Discover Luxury At Every Turn

All three of Tradewinds' expansive floor plans feature slide-out rooms which instantly gain extra living area. Model 7370 features an attractive dinette with storage drawers below the seats, or an optional free-standing table and chairs.

Tradewinds' special hutch with mirrored back and Corian top provides additional counter space, as well as the convenience of extra storage near the galley. Handsome oak or walnut trim is utilized throughout.

Model 7370

Ergonomically Designed Driver's Compartment

In a Tradewinds, you'll always have an excellent feel for the road. The comfortable driver's seat (power optional) adjusts to your favorite position. All gauges are easily viewed, including the rear vision camera. Enjoy remarkable visibility through the large curved windshield with Rosen see-through sun visors.

Convenient Flip-Up Table

Tradewind's flip-up table serves both the passenger chair and swivel rocker, then tucks out of sight when it's no longer required. To further cater to your comfort, every Tradewinds boasts dramatic pleated day/night shades, valances and lambrquins throughout the living area.

Catering To Your Comfort

National RV goes way beyond the obvious to ensure pleasurable travelling. All of our Tradewinds floor plans are incredibly spacious, and this year, we've added a new front entry (Models 7371 and 7372) to provide even more room, so you'll feel completely at home while you're on the road.

Over and above a full complement of standard features, you can select from options to customize Tradewinds to reflect your personal style. For instance, with our optional leather package, the passenger seat, power driver's seat, sofa and rocker-recliner all benefit from the pleasant feel and unique beauty of genuine leather faced upholstery. Options also include the convenience of a concealed washer/dryer to simplify those laundry chores.

New Galley-Slide

On Models 7371 and 7372, the entire galley slides out, providing an expansive area for meal preparation. In every Tradewinds, the galley is spacious and thoughtfully arranged, incorporating ample counter and cupboard space. Luxurious Corian counter tops surround you in our wrap-around galley (shown with optional counter top extension). Among the standard amenities are a porcelain sink with single-lever faucet, G.E. Spacemaker convection/microwave oven, plus a coffee maker.

Refrigerator Choices

Choose an 8 cubic foot refrigerator with slide-out pantry, or optional 10 cubic foot side-by-side unit with ice maker.

Model 7371

Model 7371

Spacious Master Suites And Much, Much More

Tradewinds' expansive master suite is highlighted by a designer bedspread over the ultra-comfortable queen size bed. Decorative beveled glass mirrors contribute to the feeling of spaciousness, and attractive day/night shades featuring designer valances with Corian accents are ideal for light control and privacy.

Stretch out and feel pampered! National RV has thought of everything, building in plenty of storage space, including convenient night stands which incorporate the enduring beauty of easy-care Corian tops.

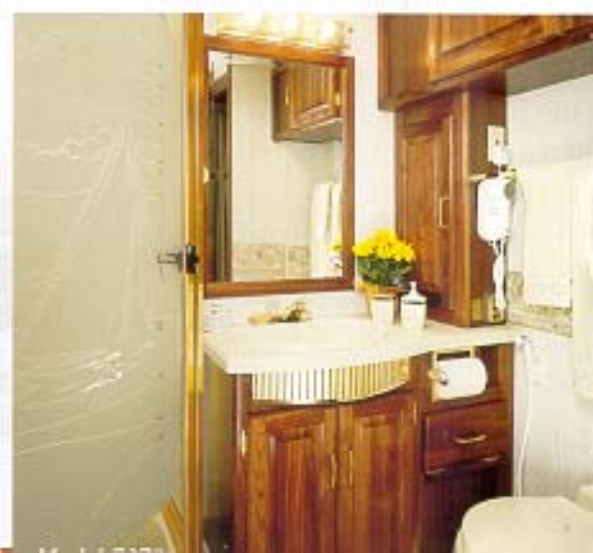

Hide-A-Bed Fold Down Sofa

When you need additional sleeping space for friends and family, you can instantly convert the hide-a-bed sofa into a comfortable bed.

Luxurious Garden Baths

Tradewinds' garden baths are offered in two plans, highlighted by a new version with a separate toilet room. Both baths inspire you to relax with the ambiance of a skylight, while beveled mirrors further open up the room. The extra-large one-piece Neo-Angle tub/shower is ready to provide a leisurely hot bath at the end of the day. Storage is abundant, and there's a handy cedar-lined closet. Corian lav tops are featured, and we've installed a built-in hair dryer for your convenience. The porcelain toilet includes a spray attachment, and there's a powered roof vent.

Quality Built, From Roof To Road

Tradewinds gets off to a solid start with its Freightliner custom chassis. To power your progress, we've provided a Caterpillar 300 HP turbocharged diesel engine and an Allison 6-speed World Transmission with electronic shifter. Full air suspension and full air brakes are standard.

Next, National RV engineers utilized an all-steel Duraframe™ subfloor construction for an enduring foundation. Incorporating a laminated steel framed floor and exterior walls, each Tradewinds is literally surrounded in steel.

High gloss gel-coat is used exclusively on the molded front and rear fiberglass caps and exterior walls. The underbelly is laminated, insulated, and undercoated for exceptional weather protection. Each Tradewinds is thoroughly insulated, including dual pane windows. A steel framed laminated rubber roof protects from above, and every joint is weather-sealed.

The dump/fill station area is easy to access and use. It includes a water pressure gauge and regulator, black tank flush, and city water fill. Soap and towel dispensers are provided for your convenience.

A 2000 watt inverter/converter turns power from four 6-volt deep cycle batteries into 110-volt AC. When you connect to 50 amp service, both air conditioners can run simultaneously.

Massive storage compartments provide a safe, secure place to stow all manner of items, large and small.
