a rare gem

From the crisp, clean exterior design to the well-appointed interior, the 2003 Ultimate Advantage is everything a luxury motor coach should be.

This year’s model lineup includes four unique floorplans that are each designed to maximize your living and bedroom space, including a triple slideout on the new 40K. If storage space is what you’re looking for, you’ll find it in the Ultimate Advantage. Its innovative Ulti-Bay™ chassis offers incredibly responsive driving and handling characteristics with an impressively smooth ride, as well as large, accessible basement storage. We continue to raise the bar with improved cockpit ergonomics, a compressed air center and available full body exterior paint.

With all this, plus the finest amenities and Winnebago Industries’ renowned craftsmanship, it’s easy to see why the 2003 Ultimate Advantage is making waves in the luxury motor coach market.

The cockpit puts you in total command with an ergonomic design that surrounds you with fingertip convenience. Standard, upscale features include an electronic compass with outdoor thermometer, stereo with a built-in 6-disc CD changer, built-in Sony® color rearview monitor and roof-mounted air horns. For added comfort, the SmartWheel™ steering wheel is wrapped in soft leather, tilts and telescopes for perfect positioning. It also incorporates the windshield wiper, cruise, courtesy blink lights and headlight dimmer controls for easy access. Bus-style power sunvisors are standard and the front privacy curtain features pull cords for easy opening and closing.

Enjoy the inner beauty of a distinguished luxury coach. You’ll find only the finest interior furnishings, including premium Villa furniture (with available leather upgrades). We took special care to place the overhead lights for optimal illumination.

The available TripTek™ computer displays trip information on the rearview monitor, including: distance to scheduled destination, time to destination, distance traveled, time traveled, fuel economy and a handy pre-trip checklist.

Villa leather cab seats feature electric, adjustable lumbar support and 6-way power-assist seat pedestals for maximum comfort. The passenger area includes a convenient slider window and a powered stepwell cover which provides flooring in front of the passenger seat for comfort while traveling.

A leather love seat provides a cozy spot and is J-shaped for added comfort. (Available on the 38K and 40K)

Take comfort in always knowing where you are and where you’re going. An Alpine® GPS navigational system pinpoints your precise location and is available on every model.
If you thought you needed an extra excuse to stay in and enjoy the exquisite surroundings, check out the entertainment choices. The standard 25" television is fully enhanced with crystal clear 5-channel Surround™ Sound for full theater enjoyment. An available In-Motion RV digital satellite system with receiver or available RV digital satellite dish can enhance your programming options. You can even watch a show when you’re not connected to shoreline or generator power, thanks to the standard 1,500 watt inverter/charger.
Creating a sumptuous feast or a quick snack is easy with the well-equipped galley. Upscale features include a 30" microwave/convection oven, solid-surface countertops, an available G.E. Advantium™ Speedcook microwave oven and even an available dishwasher (Model 36C). The molded, Swanstone™ solid-surface sink is stain-resistant for easy cleanup. It features a single-control Moen® faucet with pull-out sprayer and a separate Everpure® faucet for purified drinking water. Beautiful Portsmouth Oak, Concert Cherry or Washed Maple woodgrain cabinetry features dovetail construction and a beautiful catalyzed finish typically reserved for exclusive home cabinetry.

The Rest Easy™ Multi-Position Lounge offers unsurpassed seating flexibility and comfort.
1. It starts as a plush couch.
2. Touch the button and it becomes a relaxing recliner with pull-out ottoman.
3. Touch the button again and it's a 60" x 75" bed. Rest Easy is available in leather or fabric.

Customize your galley with two refrigerator choices. A large, double-door refrigerator/freezer comes standard. This choice includes a slideout side pantry for additional dry goods storage. Or you can choose a 4-door refrigerator/freezer (shown here) if you prefer to keep more cold and frozen foods on hand. Both models include a standard icemaker.

The available, keyed security vault has its own concealed location. It provides a safe place to keep important documents and valuables.
This available, multi-function dining table seats two comfortably, expands to accommodate four and doubles as a convenient computer desk or hobby area.

A walk-through design creates a spacious bathroom area. Added conveniences include a residential-height porcelain toilet, ceramic tile floorcovering, a solid-surface sink, an adjustable Moen® brass showerhead and a fold-down shower seat (NA 40K).

The standard dining table provides a spacious dining area for two and quickly expands to accommodate four place settings when entertaining guests.

The standard, rear slideout opens wide to create a magnificent bedroom with a residential-size, walk-around queen-size bed. Stretch out and relax while watching the 19" color TV or drift off to sleep listening to the available rear stereo. For your storage convenience, a spacious, cedar-lined wardrobe is provided, along with underbed storage. The 40K even includes a convenient bedroom lavatory.

Launder your clothes at your convenience with the available, built-in combination washer/dryer. It includes nine wash, and three time and temperature programmable cycles to accommodate a wide variety of fabrics and garments.

The bedroom features a queen-size Sleep Number® Bed by Select Comfort®. Using the hand-held remotes on each side of the bed, you can quickly and independently adjust the mattress firmness level to your ideal level of comfort and support... your SLEEP NUMBER, which is The Key to a Perfect Night's Sleep!

The available, built-in central vacuum cleaner features a powered brush head, a full complement of accessories and a 30-ft. detachable hose that easily reaches the entire coach. There's also a VacPan® located at the base of the galley cabinets that whisk away sweepings without using any attachments. For exterior compartments, a second vacuum connection is located in the Ulti-Bay® storage area.

A keyless remote locks and unlocks the entry and compartment doors. The KeyOne™ System also allows these doors to be opened with a single, double-bitted key.

The Ulti-Bay® storage bays are spacious and include a pass-through section to accommodate oversized items, while the slideout trays make access even easier (NAS 34K). The storage bay doors feature gas struts and single-paddle latches with enlarged finger clearance for easy, one-handed operation.

For your outdoor enjoyment, we've included an exterior entertainment center. The AM/FM stereo with CD player is perfect for relaxing under the shade of the awning. It comes with a remote control and TV hookups.

StoreMore® is storage the way it is supposed to be. With the StoreMore slideout system, the driver-side front exterior storage bays actually move with the slideout for easy access, even with the slideout extended.

You'll love relaxing in the shade of the available Carefree® One-Touch™ patio awning. It extends and retracts electronically and is constructed with new anodized aluminum hardware that matches your coach's body color. The powered entrance door awning and manual rear window awnings provide additional shade and protection.

Major plumbing connections and service functions are well-positioned and clearly labeled for ease of operation. Tank and system levels can also be checked at the convenient exterior monitor panel. A hand-held showerhead, soap dispenser and paper towel holder are at hand for quick clean-ups. There are also powered reels available for your water supply hose and shoreline power cord.

POWERLINE
Keep your electrical system running smoothly even when operating your central air conditioning on 30-amp. shore power. The PowerLine™ Energy Management System monitors onboard 110-volt electrical usage and minimizes the nuisance of tripped campground circuits by regulating the operation of postontable electrical loads during periods of heavy usage. As demand is lowered, PowerLine automatically returns power to the secondary appliances and systems.

TRUE AIR
Precision climate control is assured thanks to Winnebago Industries' exclusive TrueAir™ Residential Central Air Conditioning. TrueAir utilizes superior cooling technology to supply optimum environmental control throughout the coach. At the heart of the system is a Coleman®-Mach® cooling unit located in the basement to provide a lower vehicle profile while reducing noise and eliminating condensation runoff. You'll also find this location is much easier to service and provides a lower center of gravity than traditional, roof-mounted air conditioning units. A heat pump comes standard so TrueAir can help keep your Ultimate Advantage warm on cool days without running the furnace.

ONE PLACE
The OnePlace Systems Center places important and frequently used switches, gauges, level indicators and controls in one convenient location so you can easily check them at a glance.
2003 Ultimate Advantage

exterior and chassis features

Mirrors Top-mounted electronic remote control mirrors feature both flat and convex surfaces that are strategically positioned to provide increased visibility and safety. Electronic defrost helps keep the oversized mirrors clear.

Service Points We designed the Ultimate Advantage to provide convenient access to service points such as the air cleaner, fluid fills and diagnostic plugs.

82.77" Wheel Track The Ultimate Advantage features an ultra-wide wheel track for better handling and increased stability.

Hitch A 10,000-lb. draw bar capacity trailer hitch is standard to accommodate towing needs.

Fiberglass Roof Ultimate Advantage features a one-piece fiberglass roof backed with a 10-year limited parts and labor roof skin warranty.

Insulated Roof Vents Roof vents improve circulation and are insulated for thermal efficiency.

Air Intake The engine air intake is positioned high on the sidewall to prevent road grime and debris from entering the engine air supply. This prolongs filter life and allows the engine to perform to its potential.

Air-line System Draining Draining the air-line system of condensation is recommended on all vehicles with air brakes and air suspension. Automatic system dryers and heated air system drains include remote lanyard controls so you'll never have to crawl under the chassis to perform this routine maintenance on your Ultimate Advantage.

Side Mounted Radiator The radiator is mounted on the side of the coach for improved airflow and cooling.

A 7,500 watt Onan® Quiet Diesel™ generator provides plenty of AC power. For added convenience, the generator slides out for easy servicing.

A great engine deserves a great transmission, and that's exactly what you'll find in the Allison® 3000 MH. This six-speed transmission features adaptive electronic technology that actually enables it to adjust the shifting pattern based on your driving style. This results in smoother shifts between gears and, best of all, improved mileage.

Dual Fuel Fills Fuel fills are located on both sides of the coach for convenient fueling from any pump.

Michelin® XZA2 tires are mounted on precision-machined, stylized aluminum wheels (XZ1A- 40K).

An optional, full-width rear mud guard helps deflect dust and small stones from the undercarriage and helps keep the coach and tow vehicle clean.

An auxiliary air supply with a detachable 50-ft. hose offers a ready supply of compressed air.

A 24-valve, 350-hp ISCh 8.3L Cummins® diesel engine is equipped with a waste-gated turbo-charger for improved power and efficiency. It is also equipped with a Jacobs Exhaust Brake™ which utilizes engine exhaust to slow the vehicle and promotes longer brake pad life. A four-point mounting system cradles the engine, isolating the coach from torque-induced vibration and noise. Basic service intervals for oil and filter changes are recommended at 15,000 miles or 12 months under normal conditions, which reduces routine maintenance costs.

A great engine deserves a great transmission, and that's exactly what you'll find in the Allison® 3000 MH. This six-speed transmission features adaptive electronic technology that actually enables it to adjust the shifting pattern based on your driving style. This results in smoother shifts between gears and, best of all, improved mileage.

This six-speed transmission features adaptive electronic technology that actually enables it to adjust the shifting pattern based on your driving style. This results in smoother shifts between gears and, best of all, improved mileage.

Some luxury motor coaches still use straight axle technology that is popular in heavy trucks. But the Ultimate Advantage includes an advanced independent front suspension that provides greater lateral stability, eliminates bump steer and allows each wheel to move independently through its range of motion. As a result, each tire maintains better contact with the road for a smooth ride similar to that of a luxury sedan.

- The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2” depending on chassis or equipment variations.
- Measurements are based on the most recent information available.
- See your dealer for specifications.
- Ultimate Advantage® floorplans feature a wide-body design — over 96”! In making your purchase decision, you should be aware that some states restrict scores on some or all states roads to 96” in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- Your motor coach’s load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor coach.
- Capacities shown are tank manufacturer’s listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to venting prevention device on tank.
- See your dealer for complete warranty information.
- Excludes towing and underbody damage.
- Windigo Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor coaches are based on the most recent information available.
ULTI-BAY CHASSIS

Ulti-Bay is Winnebago Industries’ exclusive monocoque chassis design that provides abundant mid-coach storage, impressive driving and handling performance, as well as 10,000 pounds of towing capacity.

Ulti-Bay combines front and rear Spartan® Custom Chassis elements with an advanced truss design that eliminates bulky, cumbersome center rails. To provide even more mid-coach storage, large components such as the water heater, furnace and holding tanks are located fore and aft of the mid-section to create large, unobstructed storage bays.

The Ulti-Bay chassis, combined with Winnebago Industries’ proven SuperStructure™ construction process, helps make the Ultimate Advantage one of the safest and most durable motor homes on the road. It’s all part of making the Ultimate Advantage the Ultimate Motor Home Experience.

**Ultimate Advantage features a tow bar rated at 10,000-lbs. capacity as a standard feature. Actual towing capacity can be further limited by other factors such as the weight of the vehicle as loaded and the type of towing to be performed. Check with your Ultimate Advantage dealer for additional towing specifications.**

Interlocking joint construction utilizes advanced aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitors’ designs which rely on screws to carry the weight.

Winnebago Industries invented and perfected Thermo-Panel® manufacturing. The result is an advanced composite construction which combines a low-maintenance, durable exterior panel with welded aluminum support substructures embedded in a high-density block foam insulation core to create a very strong, durable and lightweight sidewall.

Committed to service. We back our motor coaches with the best service after the sale in the industry.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts and labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

Recognized quality. Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products and sales and service support. Winnebago Industries has achieved the coveted Quality Circle award every year since its inception, the only major motor home manufacturer to do so.

All motor homes are not created equal. Learn more about what sets Winnebago Industries apart. Ask your dealer for this guide. It will help you learn what makes Winnebago Industries motor homes distinctly superior to other brands.

Warning: Joining WIT has been known to cause excessive fun. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor coaches. WIT is a great way to meet people and offers you:

- Caravans and rallies
- Local and state groups
- RV travel benefits

Seat belts are your most important hookup. Always buckle up.
