### Setting the Standard in Motor Home Quality.

Fleetwood® prototypes are exposed to thousands of miles of durability testing. Those components that don’t survive are redesigned until they do. This sets our standard in safety and durability.

Reliable TuffPEX® plumbing runs throughout each vehicle creating a durable seal on all internal tubing. TuffPEX® assures water flow and functions in the coldest of temperatures. The TuffPEX® system is an industry leader in quality plumbing.

To assure a strong, weather-resistant structure, Fleetwood Vacu-bonds® all sidewalls, floors and ceilings to durable aluminum or steel frames. The Vacu-bond® process is unmatched by many competitors.

Fleetwood sinks and shelves are designed to handle full-size kitchenware. Few competitors can say the same.

**Name Brand Components.** Spartan®, Dupont®, Panasonic®, GE®, Flexsteel®, Moen®, Onan®, Norcold® and Dometic® to name a few. We gather the best name brands in the industry to create a superior coach for you.
