Sun Voyager

Enjoy the Voyage of a Lifetime
Gulf Stream’s exclusive sun room slideout, which is getting rave reviews from many RVers, is available on various floorplans ranging in length from 30 to 38 feet. First in the industry this innovative sun room gives you a wide range of sight from the curb side of the coach and opens up the coach to eliminate that boxed-in feeling that other motorhomes give you. Gulf Stream makes you feel at home by introducing other residential features like hardwood cabinetry, residential hardware, deluxe carpet, a flatscreen television or optional 30” LCD with Gulf Stream’s own G-sound, residential lighting fixtures, large refrigerator with optional icemaker, and free standing dinette and recliner.

Meal preparation is a pleasure in the Sun Voyager with plenty of large hardwood cabinets and drawers, generous counter space, 3-burner stove, 2-door 2-way refrigerator and convection microwave.

**Ergonomic...**

**Optional Electronics Package**
- 30” LCD
- Low-profile Satellite
- GPS / MP3 System
**OPTIONAL BEDROOM COMPUTER WORKSTATION**

**Available in Models 8378, 8377, 8388**

---

**BATHROOM...**

Sun Voyager bathrooms have hardwood cabinets and durable laminate countertops providing all the storage and workspace needed to prepare for the day. The one piece shower features a skylight for maximum headroom and natural lighting.

---

**SPACIOUS BEDROOMS...**

The bedrooms in select Sun Voyager models feature Gulf Stream’s Two-Zone Living Concept. By adding a sitting area in the bedroom we have increased the amount of useful daytime living area by 30%. With this arrangement you have the ability to close off the bedroom area from the rest of the coach to give you privacy and the peace and quiet you deserve.

Many bedrooms also offer washer/dryer hookups for the optional washer/dryer appliance, an optional computer desk/vanity, flat screen television and more wardrobe storage than you would imagine.
Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

Seamless, carpeted, galvanized steel storage compartments safely cradle your valuables. Rust protective paint and foam sealed for extended life and a quiet ride.

Dual metal H-Ducted air conditioning system with foil bubble wrapped insulation for superior climate control.

Excellent Weathering - Maintaining the vehicle’s quality appearance enhances its resale value.

Tear Resistance - Flexroofs hard abuse resistant finish resists tearing, a condition that can cause leaks and lead to expensive repair.

Low Maintenance - Road grime can easily be removed with normal cleaning maintenance. Rubber chalking due to solar breakdown of the roof surface is eliminated, preserving the original appearance and resale value of the vehicle.

Stain Resistance - Fiberglass Flexroof is designed to resist staining and maintain its quality appearance.

Structural Integrity - Unlike conventional EPDM rubber roof membranes, Flexroof is a structural component of the roof system.

Textured Fiberglass - Helps dissipate heat and prevents tree limbs from tearing or scratching your roof.

Comfort Plus furniture by Gulf Stream Coach features residential styling, solid construction, total comfort and a comprehensive warranty.

Gulf Stream offers true flush floor slide out rooms to give you more headroom in the slide and eliminates the step up into the slide room that you will experience in many of our competitors motorhomes.

Gulf Stream VS. Brand A

Cool Down Comparison

- At 15 minutes, Gulf Stream cooled 7 degrees cooler.
- At 30 minutes, Gulf Stream cooled 7 degrees cooler.
- At 1 hour, Gulf Stream cooled 9 degrees cooler.

Finally, empirical data demonstrating the efficiency and performance of a roof air conditioning system versus a floor air conditioning system. Winner: Roof air conditioning by Gulf Stream.
Unlike traditional plywood and foam seating Comfort Plus dinette seating features the strength of steel and the comfort of a sprung cushion.

**Cradle of Strength**

1. Seamless Fiberglass Roof For Greater Energy Efficiency and Dependability.
2. Luan Decking for Additional Strength.
3. Molded, High Density EPS (Expanded Polystyrene) Roof Brick Insulation - Provides Consistent Insulation Value as well as Superior Dimensional Rigidity.
4. One-Piece Formed Aluminum Air Conditioning Duct, Completely Surrounded By EPS Insulation.
5. Bubble-Wrapped Foil Insulation Provides Superior Insulation and Helps Prevent Condensation.
6. Rugged Welded Tubular Aluminum Roof Framing.
7. Rugged Heavy-Gauge Tubular Aluminum, Fixture Welded to Form the Sidewall Framing.
8. High-Density EPS Tubular Aluminum, Fixture Welded to Form the Sidewall Framing.
9. Interior Wall Panels Securely Laminated to Sidewall Framing.
11. High-Quality Stain-Resistant Carpeting Available in Designer Coordinated Colors.
13. Seamless Structurewood Floor Decking Laminated to Steel Floor Structure Assures a Quiet, Long-Lasting Rigid Floor.
15. Heavy-gauge Steel I-Beam Floor Truss System Provides the Strongest Foundation in the Industry.
16. Seamless Layer of Galvanized Steel Securely Attached to the Steel Floor Framing.
17. Galvanized Steel Used to Form Each Storage & Holding Compartment.
18. Durable All-Weather Carpeting Completes Each Accessible Storage Compartment, Providing Extra Protection for Luggage and Valuables.
19. Rust-Prohibitive Paint Coating Applied to All Steel Framing Assures Corrosion and Rust Protection.
20. The Industry’s Strongest, Most Spacious Exterior Storage Compartments.

**All Steel Overhead Structure**

**TAKE THE TIME TO COMPARE...**

and you will see the exceptional value of a Gulf Stream Coach.

The Cradle of Strength super strength truss system is unmatched in the RV industry. The structural subfloor foundation begins by welding a network of integrated steel trusses to the chassis rail. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis rail, these trusses are individually tested to withstand 6,000 pounds each. An all steel overhead structure installed above the cockpit brings strength and rigidity to the upper portion of the coach providing a safe strong platform to install a TV that will not break free in an impact while maximizing overhead storage.
Rain or Shine
Comfort without worry.

Patented Sun Room Design...

Open panoramic views, natural lighting and spacious freestanding dinette are just a few of the benefits of the Gulf Stream sun room. More important, is the peace of mind knowing the sun room’s skylights are designed to protect the interior from damaging UV light, prevent leaks and aid in climate control.

- Designed by Gulf Stream exclusively for slideout rooms.
- Curb style installation virtually eliminates leaks.
- Both top and bottom glazes are formed of unbreakable polycarbonate.
- The outer glaze is tinted to minimize solar heat gain. The bottom glaze is clear.
- Collectively, both glazes eliminate 97% of the damaging UV light.
- All walls and ceiling of the sun room are insulated for thermal and sound control.
- Every window and skylight in the sun room is equipped with a day/night shade.
