Surpasses your expectations but doesn’t exceed your budget.
Surpasses your expectations but doesn't exceed your budget.
What’s in a name? In the case of Damon’s Challenger motorhome, there’s quite a lot. This luxurious motor coach questions the idea that luxury has to cost a fortune. And it answers with an emphatic, “No way!” With a full basement and multiple pass-through storage compartments for packing more of your favorite things…an appealing, upscale interior with lots of comfortable room… and a range of luxuries you’d normally find on much more expensive motorhomes, no one offers you so much for so little as Damon does with the 2006 Challenger.

**Fresh for ’06.**

A new Lippert® room slideout system adds incredible roominess to the living area.

Challenger’s stylish new gelcoated front fiberglass cap, plus newly designed headlights and hood, provide a fresh, contemporary appearance.

You’ll appreciate the increased storage with larger wrap-around cabinets in the front overhead, new overhead cabinets in the bedroom slideouts, new cabinets over the entry door and giant pass-through storage in the full basement.

Beautifully crafted antique brass kitchen and bath fixtures, cabinet door pulls and knobs and interior lighting packages in the bedroom, bath and living room slide add to Challenger’s luxurious décor.

Three elegant new décor fabrics, Cobble Hill, Jasmine Pearl and Mineral Frost, give you more decorator choices.

A windshield privacy shade keeps the light out and provides privacy.

The kitchen galley now boasts a handy cutting board for the sink.

A big new 19-inch color TV is a most-wanted option in the bedroom.

In all, we’ve built in 20 important improvements to our 2006 Challenger. That’s 20 more reasons to choose one of America’s most popular motorhomes.
No one offers you so much.
Damon is the only manufacturer to utilize a high-quality, easy-care Carrier® roof-mounted air conditioner with a programmable remote-controlled thermostat.

Solid, all-aluminum sidewall and roof construction assure a stronger, lighter weight motorhome.

It’s easy to keep your kitchen supplies organized in Challenger’s huge pantry. It features adjustable shelves and roll-out drawers.

**Fresh for ’06.**

Challenger motorhomes now come standard with heated, side-mounted power mirrors plus a convenient backup monitor system with audio.

All cabinet doors are handcrafted with rich, solid wood for durability and long-lasting beauty. And there are new overhead cabinets in the bedroom slideout and new cabinet doors in the bath and kitchen.

The new Lippert® hydraulic leveling jack system is fully automated up and down. Touchpad controls make it even easier to operate.

Optional ultra leather captain’s chairs are soft and comfortable, plus they wear longer than traditional cloth chairs.

Challenger furnishes computer connections (AC/DC outlets and a modem phone jack) under the dash to make it easier than ever to get e-mail and surf the Internet wherever you may be.

The comfy bedroom offers lots of storage, plus mini blinds and a bedside TV as options.

A spacious pantry with sliding drawers offers convenience and more storage space.

A skylight showers the bathroom with sunlight. A beautiful handcrafted wood medicine cabinet and mirror add luxury.
Luxury is always standard.
Now comes the fun part — choosing your favorite fabrics, wood styles, floor plans and other options. So design away! And have fun!

Paint
Challenger's deluxe exterior graphics packages feature a bold and contemporary design with clean graphics and a new optional paint style for 2006.

So is quality construction.
Quality construction starts with the chassis. And Challenger uses only the finest: either a robust, rugged Ford® or Workhorse® chassis, depending on the floor plan you choose.

Deluxe Graphics
Beige Metallic
Queen bed. Private bath. Large booth dinette.
Two sofas. Living room slideout. Private bath.

Aluminum Framing
All wall openings for doors, windows and other components are framed in aluminum tubing with welded joints. This strengthens the coach body. The 5/8 inch welded aluminum header provides additional strength in slide room openings.

Steel Truss Supports
Using the engineering techniques perfected in bridge construction, the angled supports in our sidewalls provide additional stability and strength.

Steel Firewall

Engine
Choice of two tough, dependable engines: coaches on a Workhorse chassis are powered by an 8.1-liter, V-8 engine; coaches on the Ford chassis come with a 6.8-liter, V-10 engine.

Utilities
Challenger's heated holding tanks and fully contained plumbing systems let you travel virtually any time of the year. Tanks are mounted horizontally for easier servicing and maintenance.

Basement and Storage

Above is an actual chassis with sidewall framing. Structure may vary by floor plan.
If it seems like most of our motorhomes are loaded with features, you’re right. It’s part of our “Value by Design” way of doing business. You see, we become more efficient when we offer more of your favorite amenities standard. Construction is more streamlined. And you get more motorhome. For less. This is just one of the ways we design more value into every motorhome we manufacture.

In addition, unlike many of our competitors who produce motorhomes, towables and other products, the sole focus of our business is Class A motorhomes. We believe this simplifies our manufacturing process and helps us focus on doing a single job exceptionally well. Doing that job well also means using only high-quality materials, components and state-of-the-art construction techniques. All told, it’s what we call, “Value by Design.”

Value by Design. It’s more than a slogan; it’s our way of delivering more motorhome for your money.
Challenger standard specifications and features

### BATHROOM
- Vinyl tile flooring
- Shower with surround
- Shower door
- Skylight in shower
- Power vent
- Foot-flush toilet
- Wallpaper border
