2008 SENÉCA BY JAYCO

A NEW CLASS
OF MOTORHOMES
You don’t have to sacrifice the spacious comfort you enjoy to get an easy-to-drive touring vehicle. The Seneca motorhome gives you both. Its maneuverability makes driving a pleasure, even on narrow or winding city streets. And the richly appointed interiors are reminiscent of a fine hotel suite.

1 The Seneca is very comfortable to drive, thanks to the maneuverability of its 53-degree turning radius and the visibility offered by the large windshield and sloped hood.

2 Everything about the cabinetry says quality, from the Northridge Maple to the full extension ball-bearing drawer glides.

3 Decorative bronze lighting, such as the chandelier above the dinette, adds an elegant glow to the interior.

Celebrating 40 Years of Liveability
The Jayco story began in 1968 with a humble desire to build more comfortable and practical ways for families to explore the world together. Jayco has grown to become the largest privately owned manufacturer of recreation vehicles in North America. While our product line is more diverse than ever before, every unit we build shares a common attribute — liveability. Because we believe every journey should be easy to enjoy.
LUXURY OF CLASS A
MANEUVERABILITY OF CLASS C

SENeca HD™
Standard Paint

SENeca ZX™
Standard Paint

Optional Premium Paint SENEca HD™ & ZX™

Dark Chestnut Premium Paint
Racing Red Premium Paint
Stretch out and really relax — the Seneca HD is available in four spacious floorplans, ranging in size from a 35' single slide to a 37' triple slide. Each is furnished with a queen bed plus a leather hide-a-bed sofa to easily accommodate guests. You’ll also appreciate the many upscale touches including radius-cornered J-stone™ solid surface countertops and plenty of raised panel cabinetry with bronze hardware. What’s more, all this interior comfort is carefully designed inside an easy-to-drive Class C motorhome. With the Seneca HD, you can maneuver through whatever travel routes are in your plans.
1 Practicality mixes with beauty in the Seneca’s homestyle kitchen, which is equipped with a 3-burner range, J-Stone™ solid surface countertops and optional convection microwave.

2 Bronze fixtures, a mirrored medicine cabinet and glass shower doors add sophistication to the bathroom.

3 A decorative headboard accents the luxurious queen bed with pillow-top mattress, quilted bedspread and pillow shams. Halogen bronze reading lights further enhance the bedroom’s ambiance.
If you wouldn’t dream of traveling without your toys, the Seneca ZX is the Class C for you. Think of it as a luxury home with an attached garage. The 90” x 96” power lift tailgate provides ample space for a couple of motorcycles or ATVs. And when you’re not riding, you’ll be enjoying the incredibly comfortable interior with many of the same furnishings and features found in the Seneca HD.

Enjoy TV viewing as you move about the Seneca ZX, thanks to the 19” LCD TV with swivel base.

Fully adjustable recliners in the cab help keep you comfortable, as does the cozy queen bunk.

The garage is lockable to keep your equipment secure at all times, and includes convenient overhead storage. The optional folding sofas provide additional seating.

The power lift tailgate has a 1,600-pound capacity, making it simple to move your motorcycles or ATVs from the ground to the garage in just seconds. Plus, the garage is lockable to keep your equipment secure at all times.
You may have discovered that a Class A motorhome can be just too big to get where you want to go, especially when it involves narrow roads or lots of tight turns. That’s why the streamlined size of the Seneca Class C motorhome is such a smart choice. Both the Seneca HD and Seneca ZX offer a 53-degree turning radius and set-back axle for maximum maneuverability.

To further enhance the Seneca’s driving ease, it’s designed with a long list of features to boost visibility and safety. In fact, if it weren’t for the luxurious living space, you might think you were simply driving a light duty truck.

**Safety Details**

1. Visibility from the cab is maximized by the large windshield and sloped hood, allowing you to see objects as close as 13 feet from the bumper.

2. The Seneca’s 53-degree turning radius means negotiating tight corners won’t throw you any curves.

**EASY TO MANEUVER COMFORTABLE TO DRIVE**

You may have discovered that a Class A motorhome can be just too big to get where you want to go, especially when it involves narrow roads or lots of tight turns. That’s why the streamlined size of the Seneca Class C motorhome is such a smart choice. Both the Seneca HD and Seneca ZX offer a 53-degree turning radius and set-back axle for maximum maneuverability.

To further enhance the Seneca’s driving ease, it’s designed with a long list of features to boost visibility and safety. In fact, if it weren’t for the luxurious living space, you might think you were simply driving a light duty truck.

**Safety Details**

1. All Seneca models are constructed on a 22,000-pound Chevy™ Kodiak® chassis for maximum cargo carrying capacity. It sports a Duramax® V8 turbo diesel engine with 6-speed Allison® 1000 Series automatic transmission, power anti-lock brakes with power steering and all-wheel ABS (Anti-lock Braking System).

2. Enjoy peace of mind while on the road with quality highway tread tires and Alcoa® aluminum rims.

3. The optional built-in back-up camera and monitor provide an added layer of safety.

4. Heated and lighted, the large remote side mirrors with 6” x 7” convex sections boost safety by giving you a better view.
Seneca motorhomes are constructed with high quality materials using production techniques perfected over the past 40 years. Count on yours to look good, perform well for years and provide excellent resale value.

1. TuffShell™ vacuum-bonded laminated sidewalls add heavy-duty performance without heavy weight.

2. Smooth gel-coat fiberglass sidewalls create a surface that is both easy to maintain and abrasion resistant.

3. 3/16" plywood board adds strength to the sidewalls and roof.

4. Bead foam insulation (R-25 roof, R-9 floor, R-9 walls) helps keep the living space more comfortable.

5. Welded tubular aluminum sidewall framework offers lightweight durability.

6. One-piece, TuffShell™ vacuum-bonded laminated fiberglass roof is 5 inches thick.

7. Central air conditioning features dual foam insulated ducts for improved airflow and cooling.

8. The vinyl ceiling is padded to help deaden sound and provide a quieter interior.

9. Heavy-duty, retractable entrance steps are electric powered for ease of use.

10. Unitized, 1 1/2" laminated floor puts a firm foundation underfoot.

11. 3/8" Structurwood® flooring adds another layer of strength.

12. Carpet pad provides enhanced durability and comfort.

13. Attractive, easy-care carpet helps create a homelike interior.

14. One-piece underbelly covering greatly reduces drag for better fuel economy and protects from grime and road debris.

15. Electric slideout systems increase your living space with the push of a button.

16. Our Carefree® 12V Eclipse electric patio awning is quick and easy to use and provides shade for your outdoor gatherings.

17. Tinted safety glass windows cut down on glare.

18. Floor trusses under the Seneca create more storage space for all your travel needs.

19. Molded fiberglass front & rear caps are reinforced and dent resistant.

20. Diamond Shield™ clear protection film protects paint and finish from damaging road debris or weathering.
Standard Bathroom Equipment

- 19" High Definition LCD TV
- Decorative headboard
- Halogen oil-rubbed bronze reading lights
- Large wardrobe in bedroom
- Pillow shams (2) (queen bed)
- Pleated night shades
- Queen bed with pillow-top mattress

Unloaded Vehicle Weight (UVW): Sometimes referred to as “Dry Weight,” UVW means the typical weight of this motorhome as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, LP gas, options, or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the motorhome, including the UVW plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, LP gas, tools, other cargo and dealer-installed accessories that can be carried by the motorhome. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

It is important for your safety and enjoyment that you are aware of the weights and tow ratings of the RV you select. Consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek professional instruction. Jayco affixes a weight label to each RV to get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. Refer to that label to verify the vehicle will meet your requirements.

- $2,000 trip interruption reimbursement

We Back What We Build.
The Jayco Co-Pilot Warranty is a manufacturer’s limited warranty. It comes from the people who build Jayco recreation vehicles to the people who buy them. Each Jayco is warranted to the original purchaser for twenty-four (24) months or twenty-four thousand (24,000) miles (mileage limitation applies to motorized products only), whichever occurs first, from the original date of purchase against defects in materials and workmanship. Jayco’s limited warranty is not transferable. Go ahead and compare the Jayco warranty with other manufacturers’ warranties. You’ll find it’s the best in the business!

For a copy of the limited warranty with full terms and conditions, ask your local Jayco dealer.
