EXPERIENCE THE FREEDOM YOU DESERVE

Engage in the luxurious craftsmanship of the Excursion, bathe in the beauty of the contemporary decor and embrace the freedom of the open road. Your Excursion awaits you.
**WHY BUY EXCURSION?**

**State-of-the-art Components** The Hide-Away 40” LCD HDTV in the 33A galley provides extra counter top space when it’s hidden in the “up” position. The optional Hide-A-Loft adds a drop-down queen bed to any Excursion Floorplan.

**Lavish Living Space** The wide body interior and 84” ceiling height are designed to maximize your available living space.

**Luxurious Gallery** The spacious galley shows off polished solid-surface countertops, residential refrigerator and glass-tile backsplash.

**Low Profile Design** With a lower profile design, the Excursion comfortably fits under a 12 ft. garage door but still maintains the interior height and space you’ve come to expect.

**Cummins® 300 HP Diesel Engine** The compact Excursion diesel pusher is equipped with 300 HP Cummins ISB 6.7L engine with exhaust brake, providing exceptional performance.
Both inside and out, there is a wide selection of colors, styles and finishes. From the moment you lay your eyes on an Excursion, the high-style graphics and décor collection welcome you with gracious beauty and contemporary design. We’ve paid attention to every detail. So wherever you are, you’ll feel right at home.

### ADDENDUMS

1. **GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of this fully loaded motorhome. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity.

2. **GAWR (Gross Axle Weight Rating)** is the maximum permissible loaded weight a specific axle is designed to carry.

3. **GCWR (Gross Combined Weight Rating)** is the value specified by the motorhome manufacturer as the maximum allowable loaded weight of this motorhome with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer’s manuals for complete information.

4. Length measured from front bumper to rear bumper (excludes accessories).

5. Excludes safety equipment and awnings.

6. Motorhomes feature a body width over 96” which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.

7. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

†† Minimum Towable Load is the available weight, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight can be added to your Towable Load. For example, if your coach is loaded to 1000 lbs less than maximum GVWR, your Towable Load increases accordingly.

* UVW and OCCC are found on the label containing the federal certification tag in each RV.

Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood RV has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle’s capacities are not exceeded.
