This 1986 brochure cover inspired our 2015 literature.
For 45 years, Jayco has helped create generations of family fun, and over the course of that time, fun still looks remarkably the same. From campfires to fishing, from relaxing to eating, fun has the same feel generations later—and all with a Jayco RV nearby. Today, we’re the largest family-owned RV manufacturer in the world, and our promise is to continually strive to build family-friendly products that will outlast just about everything but your memories. Join us in our generations of family fun.

On the cover: The 1986 brochure artwork, illustrated by Tim MacDonald, was part of a successful ad campaign. These illustrations inspired the 2015 Jayco brochure covers, which are live re-creations of Tim’s artwork.

**Part travel trailer, part Swiss army knife**, the 2015 Jayco Jay Feather is packed with everything your family needs in an ultra lite, expandable design, meaning you can live large, tow small and fold out for loads of fun.

**AT THE CAMPSITE**

Jay Feather is a hybrid model, blending the comforts of a hardwall travel trailer with all the fun that tent camping provides. Our tent system sets up in four easy steps.

1. Unlatch the bed platform.
2. Guide the bed platform down (far left).
3. Insert the bed bow brace (left).
4. Make the bed!

**ON THE ROAD**

When it’s time to pack up, room-making tent ends fold in for a more compact design. Jay Feather’s travel-friendly lengths and legendary lightweight floorplans make this travel trailer towable by most minivans, crossovers and SUVs.* Independent rubberized suspension and E-Z Lube axles complete this towable package.

* Consult with your authorized automobile manufacturer or vehicle owner’s manual; some models require a tow package.
Jay Feather SLX makes it fun to live lightly. For 2015, Jayco’s newest ultra lite travel trailer is available in both 7-foot-wide and 8-foot-wide models. Weighing in at under 3,500 pounds, the 7-foot-wide Jay Feather SLX is towable by most minivans and crossovers*, delivering everything you need for your next on-the-go adventure. Meanwhile, our 8-foot-wide models are packed with upgraded features such as a 3-burner cooktop with oven, double bowl kitchen sink with high-rise faucet, and four stabilizer jacks.

* Consult with your authorized automobile manufacturer or vehicle owner’s manual; some models require a tow package.
**THE SUPER TOWABLE 7’ SLX**

- **TRAVEL LENGTH**: 18' 4" - 21' 10"
- **WEIGHT**: 2,540-3,330 lbs.
- **SLEEPS**: 3-8

The 2015 Jay Feather lineup is bursting with space-making floorplans. From full-featured kitchens to family-friendly dinettes, from multiple tent ends to a select model king bed slideout, Jay Feather is redefining the lightweight category with its wall-to-wall features.
Jay Feather tents feature a vinyl material that packs up well and resists mold, mildew, scratches and cracks. Plus, when Mother Nature puts up a fuss, enjoy the spacious interiors with the tents closed.

*The weights of certain options and/or option packages are not included in the UVW listed in the specification charts.

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as “Dry Weight,” UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options, or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco offers a weight label to each RV which lists weight information for that vehicle. See specifications chart above.
WE START WITH ONE OF THE INDUSTRY’S strongest foundations

Jayco builds on custom-sized frames, designed specifically for each floorplan. Other manufacturers use stock frames, stretching and welding the frame to fit.

Full-width outriggers: We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 ft.) to better support the weight of the wall.

Norco NextGen frame: Jay Feather features the industry’s strongest strength-to-weight ratio thanks to a Norco NextGen frame made of high-strength, low-alloy sheet steel, huck bolts and an interlocking design (n/a SLX).

Integrated A-frame: The A-frame runs through the main frame, preventing the hitch from buckling like competing tact-welded designs.

so we can build the industry’s most reliable RV

THE MAGNUM TRUSS ROOF SYSTEM
50 percent stronger

In a side-by-side comparison test, Jayco’s exclusive Magnum Truss Roof System withstood 4,500 lbs. — 50 percent more than other roofs. The difference?

1. The walls and floor are vacuum bonded using 15-18 minutes of 144 tons of pressure to ensure a strong bond. (SLX floors feature screwed construction with wood joists.)
2. Lightweight materials, like welded aluminum frames with metal backers, and Jay Feather’s innovative, aerodynamic profile increase towability.
3. Extra-wide corner seals on the entry doors, baggage compartment and window seals prevent leaks.
4. Jay Feather’s water-repellent vinyl tent material resists mildew, mold, scratches and cracks, while the double-stitched design adds strength.
5. A reversed-cambered support system creates a durable structure rated to hold 1,100 lbs., while a permanent tent-to-bunk attachment system with channel locks eliminates misplaced poles.
6. The hook tent frame creates more headroom in the bunk area compared to competing tents.
7. Jayco uses crowned wood trusses, solid-wood studs and oversized nail plates to maximize the roof’s load capacity.
8. Then, we screw down 3/8” roof decking at every seam, a process that is more durable than stapled construction.
9. Finally, our one-piece, sidewall-wrapped DiFlex II material provides the ultimate in leak protection.

**Jay Feather SLX**

**standard exterior equipment**
- TuffShell vacuum-bonded laminated sidewalls, front, rear and end walls
- Vacuum-bonded laminated bed platforms with reverse-cambered support (expandables)
- Deluxe graphics package with gray exterior fiberglass color
- Magnus Truss Roof System
- One-piece seamless DiFlex II roof material
- Box tube style frames with integrated A-frame
- Amber patio light with interior switch
- Heavy-duty entrance step with no-slip treads
- 620 dark-tinted windows
- Aluminum rims (7' wide models only)
- E-Z Lube axles
- Radial tires
- Impact-resistant wheel wells
- Front diamond plate
- Double-wide corner mold extrusions
- Water-repellent, scratch-resistant vinyl tent material with zipper windows (expandables)
- Painted shepherd’s hook tent frame (expandables)
- Permanently attached tent-to-bed base design (expandables)
- Self-supporting, lockable tent ends with 1,100-lb. capacity (expandables)
- 30-amp service
- Stabilizer jacks (2) (expandable models)

**standard interior equipment**
- Screwed-and-glued cabinetry
- Ball bearing drawer guides, 75-lb. capacity with full extension
- 2-burner cooktop range (3-burner in 8' wide models)
- High-definition laminate countertop with rounded bull-nosed edges
- Plywood dinette, bunk and bed bases
- 4" high-density dinette cushions
- Diamondflor vinyl flooring
- 8,000-BTU side-mounted air conditioner (13,500-BTU roof-mount in 8' wide models)
- Denver Mattress brand bunk mats (expandables)
- Full-height shirt wardrobes in front walk-around queen bedroom models
- Bathroom roof vent
- Bath skylight
- Shower curtain (select models)

**customer value package (mandatory)**
- 4 cu. ft. Norcold refrigerator (6 cu. ft. in 8' wide models)
- 6-gal. gas/electric DSI Atwood water heater
- Patio awning (elec. awning in 8' wide models)
- Microwave oven
- Oven
- Range hood (select models)
- Denver Mattress brand bunk mats (expandables)
- 4" high-density dinette cushions
- Microwave oven
