#LET5JAYCO

When you travel with Jayco, fun is the only thing on the agenda. That's because we go the extra mile so you can live in the moment. From comfortable, amenity-packed floorplans to weather-shielding insulation and superior frame construction, you'll have everything you need to adventure every day and make yourself at home every night. Let's get away. Let's make it count. Let's Jayco—and make memories that last a lifetime.

Generations of Family Fun
If it's not done well, it's not worth doing. That was Jayco founder Lloyd Bontrager’s philosophy. He thought that his family deserved a better RV—and that yours does, too. One that’s sturdy, carefully designed and built to last. Nearly 50 years later, his legacy lives on—in the Jay Flight.

Discover America’s No. 1-selling travel trailer.

JAY FLIGHT THROWBACK

Here’s our 2005 Jay Flight brochure cover—the year we first became America’s best-selling travel trailer.

When towing isn’t a concern, you’re free to have fun. And the lightweight Jay Flight SLX is the perfect place for it. Durable construction, brand-name appliances and comfortable sleeping options make the memories even sweeter.
Jay Flight
Follow the fun
There’s something for everyone with the 2016 Jay Flight lineup. With models ranging from 23 to 38 feet, our family-friendly floorplans offer options you’ll love—at a value that’s unbeatable.

Main interior key:
1. Interior LED lighting
2. Decorative lighting above dinette and on slideout wall
3. Vented windows on slideout end walls
4. Storage under booth dinette with sliding trays
5. Wood-look vinyl flooring
6. 8-cubic-foot refrigerator
7. Large 60/40 sink with high-rise faucet
8. Directional and closeable A/C ducts
9. Hardwood cabinet framing with mortise-and-tenon joints

Popular Jay Flight options

Black tank flush • 80-gallon fresh water capacity • Rear ladder • Refrigerator door inserts (select models)
Hardwood drawer fronts • Porcelain toilet

</table>

**Unloaded Vehicle Weight (UVW):** Sometimes referred to as “Dry Weight.” UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

**Gross Vehicle Weight Rating (GVWR):** GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

**Cargo Carrying Capacity (CCC):** CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tanks, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

**Hitch Weight (HW):** The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. JAYCO offers a weight label to each RV which lists weight information for that vehicle. See specifications chart above.

**CAMPING APPROVED:**

Real-world tested, ready for fun

From our camping families to yours—Jay Flight is designed for maximum fun. In fact, our crew tests each Jay Flight floorplan with loads of real-world camping supplies—279 pounds of everything you’d need for a Jay Flight adventure. From cereal boxes to grill skewers, we make sure there’s a place—and space—for it all.
Settle in and stay awhile

Set up camp—in style—with the 2016 Jay Flight Bungalow. A 96-inch interior height and a 102-inch wide-body construction mean there’s plenty of space to stretch. And with standard residential features including an 18-cubic-foot refrigerator with ice maker, ceiling fan and 60-inch sliding patio door, it won’t take long to feel right at home.

**Main Interior Key:**
1. Wood-look blinds
2. Residential refrigerator
3. Free-standing range
4. Large panoramic windows
5. 40-inch TV
6. Fireplace
7. Wood-look vinyl flooring
8. Interior LED lighting
9. Raised-panel, hardwood doors with mortise-and-tenon joints

We know that your family fun rides on our commitment to quality. So we go the extra mile to make products that last—and stand behind them longer than anyone in the business.

**THE JAYCO DIFFERENCE**

When you go with Jayco, you get one of the industry’s strongest frames and rock-solid construction.

1. **Hand-tucked and glued fiberglass insulation** increases the insulation value near the 2-inch x 2-inch wooden studs; competitors use a blanket-insulation technique.

2. **An optional fiberglass package** offers a smooth, sleek look; front walls are vacuum-bonded for added durability, while the sidewalls and rear walls are pinch rolled, for an affordable combination.

3. **Magnum Truss Roof System** withstands 4,500 pounds—50 percent more than other roofs; by using ⅜-inch plywood decking (n/a on Jay Flight SLX) at every seam, we offer higher durability than competitors’ stapled construction; a one-piece, sidewall-wrapped DiFlex II material provides the ultimate in leak protection.

4. **Durable floors** feature ⅝-inch tongue-and-groove plywood (n/a on Jay Flight SLX) on 2-inch x 3-inch wooden joists, wrapped with a protective moisture barrier to keep the elements at bay.

5. **Galvanized steel wheel wells**, not found on competing models, reduce heat loss and prevent damage in case of road debris.

**JAYCO’S ROOF vs OTHER ROOFS**

4,500 POUNDS ON A JAYCO ROOF VS. OTHER ROOFS

THE MAGNUM TRUSS ROOF SYSTEM

50 percent stronger
**WE START WITH ONE OF THE INDUSTRY’S STRONGEST FOUNDATIONS**

Many competitors modify or weld stock frames, which can weaken the integrity of your foundation. Jayco’s custom-manufactured frames offer higher strength and durability.

**Full-width outriggers**: We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 feet) to better support the weight of the wall.

**I-class cambered structural steel I-beams**: Jayco uses a unique molded, one-piece design to prevent the unit from twisting; competing three-piece I-beams can warp over time at the welded seams.

**Integrated A-frame**: The A-frame runs through the main frame, preventing the hitch from buckling—a common issue in competing tack-welded designs; seasonal travel trailers have a detachable hitch in lieu of an integrated A-frame.

---

**JAY FLIGHT BUNGALOW EXCLUSIVE**

6. A unique residential-style atrium profile creates a more home-like feel; vented windows and a 60-inch patio door maximize your comfort

7. A detachable hitch lets you remove the hitch during long-term stays
