# 1999 SUNRISE SERIES

**SUNRISE SE** 

SUNRISE

### You've never seen a

The 1999 Itasca Sunrise series provides more of what you're looking for in a motor home. More room, comfort, value and choices. The Sunrise SE and Sunrise lineup includes six widebody, basement storage models to choose from, each one offering something different. So if you haven't seen a Sunrise lately, take a look. You're bound to find one that works for you.

#### **SUNRISE**

Our three Sunrise models offer widebody comfort and full basement, pass-through storage at a very attractive price. You'll even find a slideout available on the 35C, featuring our revolutionary **STORE MORE** Hydraulic Slideout System, which allows you to quickly increase interior space without having to sacrifice storage. You'll also appreciate our **POWERLINE**™ Energy Management System, available on the 32T and 35C. This fully automated system has the ability to run two high efficiency air conditioners and numerous electrical loads at the same time when utilizing 30 amp. service by monitoring the usage of 120 volt power and redistributing it as needed.

The bathroom includes a shower with skylight, easy-cleaning vinyl flooring, recessed towel rack and plenty of cabinet space.

Sunrise goes far beyond custom-crafted furniture and professionally designed fabrics and carpet. For maximum comfort, each model features a 31/4" thick roof with ducted roof AC. All cabinets feature solid wood doors.

### Sunrise like this before.

#### **SUNRISE SE**

Our three Sunrise SE models offer travelers the perfect combination of comfort and floorplan flexibility in a value priced motor home with basement storage (not to mention heated holding tanks).

The available Comfort and Convenience Package includes halogen lights in the lounge overhead cabinets, make-up lights in the bathroom, a wall clock and beveled wood edging on the galley and dinette countertops, just to name a few items.

Like all Sunrise models, the Sunrise SE includes many features you won't find on most other manufacturer's motor homes, like a seamless fiberglass roof and select appliances mounted to steel tie-downs for added safety.

The available workstation quickly pulls out, providing the perfect working environment for a laptop computer.

This bedroom features a TV shelf. an innerspring mattress and dual shirt closets with nightstands below. Professionally designed fabrics nicely coordinate with the cabinetry.

#### SUNRISE SERIES DECOR OPTIONS

All fabrics selected for use in the Sunrise series must pass a series of tests to ensure strength and durability. Just one example is the double rub test, which mechanically simulates a person getting in and out of a seat up to 30,000 times to see how the fabrics wear.

Our professional interior designers pride themselves on selecting color schemes and patterns that will look great for years to come.

## Choose from Over 20 Floorplan Combinations.

While our smooth, one-piece fiberglass exterior is certainly good looking, the advantages of this design go far beyond mere aesthetics. This outer skin is laminated to a rigid lauan backing material. A layer of block foam insulation is applied over this backing material. This insulation is then routed to embed the welded aluminum framework. The result is one of the most durable, rigid sidewall constructions in the industry.

Thanks to our exclusive SIDEMORE Hydraulic Slideout System design you don't have to sacrifice storage space when you purchase a slideout. Inside and out, you'll enjoy easy access compartments with a surprisingly generous amount of room for your gear. You won't find undersized or non-functional storage areas behind our compartment doors. (Others install compartment doors solely for aesthetic purposes.) We added convenience by equipping the fully hinged and insulated belt-line storage doors with a single handle latch for easy one-handed opening.

#### SUNRISE

Nowhere is floorplan flexibility more evident than in the 30A. Floorplan options include an available forward facing couch with twin swivel chairs in the living area.

32T

This sensible floorplan includes plenty of living and storage space. A large wardrobe is conveniently located across the aisle from the bathroom.

35C

Our largest Sunrise includes an available slideout in the living area and a double wardrobe.

Sunrise SE's contemporary styling includes eye catching graphics and an aerodynamic front end. An available awning provides cover from the elements and easily retracts to the aluminum awning rail when not in use.

Many possible floorplan configurations, along with a unique angled galley set this model apart.

#### **SUNRISE SE**

#### 26P

Travel is more convenient with easy cleaning vinyl flooring and large amounts of interior storage space. Includes a queen or available twin beds.

#### 31B

The roomy living area comes complete with couch, swivel chair and dinette. Includes a queen or available twin beds.

Standard Standard Vinyl Vinyl Flooring Plank Flooring Note: Dimensions shown are for sleeping space only and dashed lines denote overhead storage areas.

- NA Not Available
- Not all options available in combination. See dealer for details.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.
- The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.
- † Available mid-August 1998
- s Standard
- O Optional

  \*\* See your dealer for complete warranty documentation information.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

### A Few More Details.

## 1999 SUNRISE. IT'S A FEATURE PRESENTATION.

- Select appliances are secured with steel tie-downs, an exclusive Winnebago Industries safety feature. It's not something we're required to do. It just makes sense.
- Interior paneling is laminated with a unique hot melt adhesive proven to resist moisture and delamination.
- The Sunrise vehicles are truly versatile. One example of this is the 3<sup>1</sup>/<sub>4</sub>" thick roof, which has an R factor of 14.62. The roof's one-piece fiberglass outer skin adds structural integrity, doesn't expand and contract like rubber membranes, and is far more durable. This design is so strong, it's backed by a 10-year parts and labor limited warranty.
- To maintain the highest quality, Winnebago Industries manufactures the majority of the components found in the Sunrise series. All components which aren't manufactured by Winnebago Industries must pass a series of stringent quality control tests before being specified for use in our motor homes.
- Safety features include pantograph windshield wipers for better cleaning, center brake light and an available Videoman® rearview monitor with audio feature on several models.
- Our popular exterior entertainment center includes a pullout table, AM/FM cassette with auto reverse or an available AM/FM CD player.
- Superior Warranty Coverage:

Transferable 12 month/15,000 mile limited warranty. 36 month/36,000 mile warranty on structure.\*\* 1 yr. Premium Roadside Assistance from Winnebago Industries. 10 yr. roof material limited warranty – parts and labor.

Winnebago Industries has been designated a "Qualified Vehicle Modifier" by Ford Motor Company. The

QVM program promotes high standards for manufacturers who build motor homes on Ford chassis, and we are proud to be one of the first motor home manufacturers to qualify. Meeting QVM standards is a part of our policy of continuous quality improvement.

## CONSIDER IT AN ADVANCED EDUCATION IN MOTOR HOMES.

There's much more to buying a motor home than simply finding one with comfortable furniture and inviting interior fabrics (although those things are important). In fact, we recommend people spend as much time examining the motor home's "unseen" features as they do looking over the interior appointments. For instance, there's a great deal you can learn about how well a motor home is constructed by simply looking inside the storage compartments.

To help make your buying decision easier, we've put together a user-friendly guide which lists the most important things you should be looking for in a motor

home, no matter what make or model it is. "The Guide" also highlights the importance of meeting (and exceeding) industry standards, explains Winnebago Industries' one-of-a-kind construction process and details our industry-leading warranty and care programs. So ask for "The Guide" the next time you visit your Winnebago Industries dealer. This "advanced education" will definitely pay off down the road.

Seat belts are your most important hookup. Always buckle up.
