It includes things like an upgraded stereo with DVD, air conditioner and stabilizer jacks. But whichever way you go, Pioneer lets your family camp in comfort and stay within your budget.

Abundant Cargo Storage gives you more room for your equipment, toys, and the ton of stuff families need to camp. And it makes loading and unloading a breeze.

TO OUR CUSTOMERS...
To make sure that you get the maximum satisfaction out of your recreational vehicle purchase, there are several things you should know:

1. Learn all you can about the travel trailer or fifth wheel you're planning to buy. Don’t rely on word of mouth. Get the facts about the actual trailer length, width, unloaded weight with options, Gross Vehicle Weight Rating, and Cargo Carrying Capacity. These are usually available in the manufacturer’s sales literature or from the Cargo Carrying Capacity Label located in each trailer. Be sure to check this information before you decide which unit to buy.

2. Verify the towing capacity of your tow vehicle. If you don’t know, or aren’t sure, you can ask at your automotive dealership. Be sure to match its tow rating to the loaded (not dry) weight of your trailer. Include the weight of water, additional accessories, clothing, food, and gear. To help Fleetwood travel trailer customers estimate this total weight, our Gross Vehicle Weight Ratings reflect the maximum weight of the trailer when fully loaded for camping. Be sure the weight of the tow vehicle plus the weight of your trailer do not exceed the Gross Combined Weight Rating of the tow vehicle.

Taking these simple steps before you buy will help ensure that your trailer and tow vehicle combination is just what you wanted.

See you on the trail!
