FUNNY HOW A SIMPLE CHANGE OF SCENERY CAN CHANGE YOUR ENTIRE OUTLOOK.
Whether it’s a quick getaway or a cross-country tour, stress takes a holiday once you head out in your Expedition. You’ve got the great outdoors to explore, and plenty of scenic real estate to enjoy indoors, too. Your living space increases with triple, quad and full-wall slide-outs. The feeling of spaciousness is heightened with 7-foot ceilings and large windows that flood the coach with natural light. The tension of work, schedules and deadlines soon becomes a dim memory.

Quality

There’s no cutting corners. Skilled craftsmen build every Fleetwood RV for maximum durability and longevity.

THE ENTEERTAINMENT SYSTEM is second to none, with a 26” Samsung® LCD HDTV (select models) and a 5.1 Dolby home theater system that includes surround sound, DVD, CD and an AM/FM radio. Now that’s entertainment.

THE PASSENGER’ SEAT is covered with supple UltraLeather™ that looks and feels like leather, but resists stains and cleans easier. An optional electric footrest lets you kick your feet up, while the power adjustments position the chair just right.

THE ERGONOMIC COCKPIT wraps around you to put all the controls within easy reach. The driver’s area has been designed for comfort, even on those marathon drives. Add optional power visors to reduce the sun’s glare.

Why Buy Expedition?
Spacious Living
The floor plans are designed to maximize the roomy feeling, and the tall ceilings and slides provide even more space.

Name Brand Appliances/Electronics
From the galley to the entertainment system to the bedroom, you'll find name brand appliances, electronics and furnishings.

Top-of-the-line Components
Expedition is outfitted with the finest, from the plush, padded carpeting to the cedar-lined wardrobe in the bedroom suite.

Superior Ride and Handling
Fleetwood diesel coaches have earned a reputation for excellent handling, road manners and comfort.

Contemporary Interior Décor
The décor is so stylish, it causes many people to remark, “This is nicer than my house.”
THE CABINETRY features warm wood, finished with elegant, brushed nickel hardware. Inside, the cabinets are deep enough to accommodate full-size dishes. The lining prevents scratching and reduces noise.

THE DINETTE is underneath an oversized picture window, so you can enjoy a view of the setting sun and your spaghetti dinner at the same time. How about a game of checkers afterward? Right below the seat is a pull-out drawer that’s the perfect place to store games.

THE UNDER-COUNTER TV/DVD PLAYER (optional) lets you watch your favorite morning show while you brew some coffee. The 10” LCD TV monitor flips down and swivels to the best vantage point. It includes a CD player and AM/FM radio.

You’ll recognize the brands on all the appliances in the galley, like the GE® convection microwave oven and the Norcold® refrigerator. More household names are found around the coach, such as Samsung®, Restonic® and DuPont®. What this means is that the quality of the appliances and electronics is first-rate, matched only by the superior components. Expedition boasts solid surface countertops and Flexsteel® furniture draped in luxurious Ultraleather®. Clearly, you’ll travel in the best of company.

Trust

More people trust Fleetwood. After all, we’ve spent over 50 years perfecting RVs, earning the loyalty of generations of RVers.

EXPEDITION
THE GALLEY is fully equipped to help you whip out meals quickly. The convection microwave cooks faster than a standard oven, and the cooktop offers three burners. The galley sink offers clean, drinkable water, thanks to the whole coach water filtration system.

FULL-EXTENSION DRAWERS allow you to store things at the very back. There's even a super-deep pots & pans drawer that's big enough for your jumbo spaghetti pot.

THE UNDER SINK STORAGE holds everything you need to keep your coach sparkling clean. Company's coming and you want to show your Expedition off!

SOLID SURFACE COVERS fit neatly over the galley sink and range to provide more countertop space instantly. And they're made of the same solid surface material as the countertops, so they are also non-porous and highly resistant to stains and scratches.

THE REFRIGERATOR AND PANTRY keep all your foodstuffs in one place. The Norcold® refrigerator offers 12 cu. ft. of space, and the four-door design allows you to keep pizza boxes or party trays inside. The pantry features pull-out baskets for fast snack access when the munchies strike.
THE WASHER/DRYER (optional) ensures that you'll never run out of clean clothes to wear. And it's cleverly concealed behind the cabinetry.

We're truly passionate about the RV lifestyle. Fleetwood was founded by RV enthusiasts, and that tradition continues today.

Getting away doesn't have to mean leaving your sense of style behind. With a polished, contemporary interior design, Expedition closely resembles a spread in your favorite high-end home décor catalog. The fabrics, flooring and wood cabinetry all work splendidly together. Special touches like the detailed molding and designer-look lighting fixtures make it seem like a well-appointed home. Expedition is proof that camping really can be elegant.

Passion

We're truly passionate about the RV lifestyle. Fleetwood was founded by RV enthusiasts, and that tradition continues today.

EXPEDITION
THE LCD TV AND DRESSER creates your own private space for relaxing. After you put your clean laundry away in the dresser, you can kick your feet up in the recliner (38V model only), and enjoy a movie on the Samsung® 19" high-definition TV.

THE BEDROOM SUITE offers plenty of room to unpack and relax, thanks to a 30" bed slide where many competitors only slide 18'. The bed is nothing short of dreamy. With a restful queen-size Restonic® innerspring mattress, a good nights sleep is moments away. Just be sure to flick off the remote generator switch on the bedside table before drifting off.

MIRRORED WARDROBE on the wall, who's the largest clotheshorse of them all? You can be, with plenty of closet space with built-in organizers.
The expressive, artistic graphics on the exterior of Expedition certainly make a grand impression. The ultra-smooth, fiberglass vacu-bonded walls feature full-body paint standard for a luxurious appearance. DuPont® paint is carefully applied in a two-stage process to ensure beautiful results, a longer life and easier maintenance.

* Each color is available in both Scheme 1 and Scheme 2 graphics. See your Fleetwood dealer or visit our website at www.fleetwoodrv.com to view all graphic and color choices.
**NOPE, IT’S NOT A FANCY HOME FURNISHINGS CATALOG.**

These fabrics and woods represent the most current tastes in interior design. And while you can’t order them for your home, you can have them in your Expedition. Just choose from three color palettes and two warm wood finishes.

IF ONLY TEENAGERS WERE THIS EASY TO Handle.

While the average teenager may not be responsive or well-mannered, your Fleetwood diesel certainly will be. The chassis has a 55-degree wheel cut to help you make tighter turns, and a lower center of gravity for a more stable, comfortable ride. Fleetwood’s patented Power Platform® is one reason it drives so well. Combine that with a Cummins® ISB 325HP 6.7L diesel engine and 750 foot pounds of torque, you’ve got the power to tame steeper hills. All without the engine hump or front engine noise of a gas model.

**ONE-PIECE WINDSHIELD** is a new feature this year, providing a panoramic, wide-open view without a center divider.

**STYLISH HEATED MIRRORS** look cool, but stay warm to prevent dew or frost build-up.

**AWNINGS** for the patio and entry door keep the sun’s rays from heating up your coach inside, and provide shade outside. (Electronic awnings optional.)

**DIAMOND SHIELD** (optional) protects your paint finish on the lower front cap from paint chips and damage caused by road debris, bug acids and weathering with a clear, 8 mil. urethane film.

**HIGH-MOUNTED TAILLIGHTS** are easy to see, even when you’re towing another vehicle. Tailgaters be gone!

**SIDE-SWING LUGGAGE DOORS** on selected compartments are new for 2008. They open to the side, instead of up, making it easier to access your gear.

**DUAL AIR CONDITIONING UNITS** are mounted on top to improve cooling, and create more room for storage below.

**4-POINT ELECTRIC LEVELING SYSTEM** levels your coach automatically with the push of a button.

**EXPEDITION**
THE MOST IMPORTANT FEATURE IN EXPEDITION: PEACE OF MIND.

Fleetwood engineers have designed dozens of safety features into Expedition. They've thought of everything from blind-spot cameras (optional) to help you change lanes safely, to the safety inspection checklist on the information center monitor. Combined with Fleetwood's superior construction, the result is a coach you can depend on for high quality and safety.

Safety

You've got precious cargo. So we've engineered dozens of innovative safety features into our motor homes to give you more peace of mind.

THE POWER PLATFORM® BECAUSE YOU HAVE A LOT RIDING ON THIS.

Fleetwood's patented Power Platform® is as strong as they come. It begins with two ten-inch steel I-beams welded to the chassis, with steel outriggers extending outward. Together, they create a basement for the fluid tanks and storage, while supporting the floor, walls and roof with a rigid metal frame. The 2008 models feature pass-through storage along with the EZ Store Compartment to provide an abundant amount of storage.

BASEMENT STORAGE features aluminum doors, constructed of heavy-duty molded polyethylene so you can hose the compartments out.

LARGE TOWING CAPACITY lets you tow most vehicles with ease.

PASS-THROUGH STORAGE is new for 2008. This large compartment is lined with heavy-duty polyethylene so you can hose it out easily.

HOLDING TANKS are enclosed between the upper and lower basement floors so they can be heated in cold weather to help prevent freezing.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

†† Drawings are for illustrative purposes only to highlight aspects of motor home construction. Actual motor home design depends on model and is subject to change.

Class A Diesel

**Model:** Freightliner® XC-Series

**Engine:** Cummins® ISBXT 6.7L

**Torque:** 750 lb-ft @ 2400 RPM

**Alternator:** 170 Amp Leece Neville®

**Transmission:** Allison® 3000 MH 6-Speed w/Electronic Shifter

**Horsepower:** 325HP

---

**Liquid Weight Reference:** Water (gal) = (8.3 lbs/3.8kgs) Fuel (gal) = 7.1 lbs/3.2 kgs) Propane (gal) = (4.2 lbs/1.9 kgs)

Metric Conversion:
- Multiply pounds x 0.453 to obtain kilograms.
- Multiply gallons x 3.785 to obtain liters.
- Multiply liters x 61 to obtain cubic inches.

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (CCC) cargo carrying capacity.

2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.

3. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer’s manuals for complete information.

4. Length measured from front bumper to rear bumper (excludes accessories).

5. Excludes safety equipment and awnings.

6. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.

7. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependent on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

**IMPORTANT— PLEASE READ:** Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.fleetwood.com or contact your local Fleetwood dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e. occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle’s capacities are not exceeded.
