CAMP SMART

When a model with a wetbath is selected, the sleeping space is not compromised in any way. Additionally, the rear overhead cabinetry, LED lighting, speakers and electrical components stay consistent as well.

The kitchen in the S offers a good deal of space with sink, glass-top stove, 3-way fridge, 12v/110/usb outlets, LED lighting and overhead cabinetry that provides storage while also housing the TV control panel. The operational front window with privacy screen allows for a gentle night breeze or fresh air into the kitchen.

THE T@B'S

wetbath models allow you enjoy the lite footprint of teardrop camping but without sacrificing your own personal toilet and shower. Complete with led lights, mirror, raindrop style glass door, shower head, toilet and access panel, this little wetbath covers all of the bases. Each come standard with the signature Alde heating package, 11 gal. fresh water tank, 6 gal. black water tank and 19 gal. gray water tank. The 19" LED TV is relocated from the door side to the shower wall – with recessed panel. The air conditioning unit in any wetbath model is moved from the floor to the ceiling and encased in a birch frame. <<

THE CLAMSHELL

provides the largest cooking area and storage capabilities within the T@B line. It is perfect for those that really enjoy doing nearly everything outdoors. The typical kitchen is equipped with a custom sink/2 burner stove combo, 12v Fridge, silverware drawer, T@B-logoed cutting board, 12v and 110 outlets, 19" LED TV, indoor/outdoor speakers and remote control. ⬅

BREAKAWAY
from the ordinary

FLOORPLANS

U The original T@B floor plan, which got its name from the U-Shaped seating area, features the largest sleeping space complete with overhead cabinetry in the rear. The front of the trailer offers an embedded sink, glass-top stove, wardrobe and cabinetry and/or a fridge.

L Do you like to pack a lot of stuff? Then the L is for you. The L-shaped countertop not only features the most counter space in the kitchen area (which comes complete with sink, stove and cabinetry) but the most cabinet space in the rear of the trailer as well – where there is floor to ceiling cabinetry.

Q What do you get when 2 T@Bs fall in love? A true hybrid of the L & U floor plans, the Q offers the kitchen features from the front of the L, while providing the sleeping/dining area from the U. Those superlatives have made the Q a very popular choice.

S Having a tough time committing without a bathroom? The S offers the traditional U kitchen and sleeping areas, but exchanges the wardrobe and AC for a wetbath. Please note, the sleeping area is not compromised whatsoever as the AC is mounted on the wall.

CS Do you love the outdoors a little more than the average Joe? Then the CS is for you! The Clamshell model originates from the traditional teardrop design where kitchen is contained in the back hatch. The front of the trailer features a bench & wardrobe in lieu of the standard kitchen space.

CS-S Whoever said you can't have your cake and eat it too? Take the CS and S and you get a clamshell with a wetbath! Now you can enjoy all of the benefits of the clamshell with the convenience of a toilet and shower. As with the S, the shower replaces the wardrobe and AC.

SPECS

Model	T@B U, S, L, Q	T@B CS, CS-S
Dry Weight (lbs.)	1670	1760
Tongue Weight (lbs)	155	165

•Heights and widths displayed are at max.

OPTIONAL FEATURES

Sight and Sound– AM/FM/DVD Stereo with Bluetooth™ streaming audio, 12v, 19" LED TV and speakers provide a great entertainment center for all of your audio and video needs.

Front Window– This popular option not only brings more natural light into the camper but it also offers the option to prop open the window and let the fresh breeze blow in. Complete with custom screen and shade.

Portal Window– This side window is the same size, and located in the same place (opposite wall), as the portal window on the door. Comes equipped with custom window shade.

Alde System– This revolutionary heat system not only provides hot water but central heat as well. Easy to maintain, the Alde functions on either LP or 110 power. Alde System – This revolutionary heat system not only provides hot water but central heat as well. Easy to maintain, the Alde functions on either LP or 110 power.

3-Way Fridge– This versatile 1.7 cubic foot fridge/freezer can operate off of 12 volt, LP or 110 power. Unit is not available in the outdoor clamshell kitchen.

Air Conditioning– Even with a 3-speed, dual direction fan, there are times and places that just need a cool blast of air for you to stay comfortable. This 5000 btu AC does just the trick!

•Features are standard on select models and packages. They may not be available on all units based on design.

CONTRAST

The kitchen in the Q and the L provides the most counter space of any T@B model. In addition to the glass 2-burner cooktop and sink, the kitchen area provides 12v, 110 and USB outlets, LED lighting, faux stainless countertops, overhead cabinetry and ample storage. The AC and 3-Way Fridge are popular options that are built directly into the cabinetry. The front window allows light to flood into the trailer while giving you a great view of the grounds where you are camping.

The kitchen in the U and S features a smaller counter area but compensates with either a closet (U) or wetbath (S). When the Bluetooth™ stereo or entertainment center is selected, the control panel is embedded in the overhead cabinetry. Every entry door is framed with a custom, sliding, accordion-style screen door.

MOST T@B models feature the U-Shaped dinette. The back of the main seat and table top both collapse to transform into a generous 70"x73" sleeping area. Every T@B interior, no matter the package selected, comes complete with real birch cabinetry, acrylic double-paned windows, custom accordion-style shade/screen combo, LED lighting, 3 speed/dual directional fan, faux stainless table top and your choice of cushions. <<

DO THE *unconventional*

ACCESSORIES

Visor– Looking for the perfect addition for your T@B? This visor slides into the keder rail - just like the tent and awning – and provides you just the right amount of shade to sit back and relax.

Awning– Are you looking for heavy duty performance from a light weight shelter? This roomy 13' x 8' x 8' awning does the trick – and packs down small to 8" diameter by 30"

Tent– Add some more living space to your T@B with this 12' x 7' x 8' custom screen-room. It also comes with 2 windows, a door and sealed floor.

It is pleasant to have been to a place the WAY A RIVER WENT.

HENRY DAVID THOREAU

SUPREME QUALITY & SERVICE

Our main priority at Little Guy Worldwide & Pleasant Valley is to build the highest quality and most practical teardrop trailer on the market. All of the materials and components that we employ are carefully selected with function, aesthetics and quality in mind. We strictly adhere to NFPA and Z240 guidelines and incorporate multiple quality control checkpoints of our own during the build. When each trailer has been completed, it is put through a comprehensive 88 point inspection process. Just as important as the initial build is how we handle our customers on the post-purchase. Every issue, without exception, is openly accepted and examined to ensure that the owner is 100% satisfied with their trailer. We pride ourselves on listening to you and ensuring that you are truly a happy camper!

THANK YOU

We appreciate your interest in the T@B teardrop travel trailer. When you purchase a teardrop, you are doing more than simply buying a trailer – you are buying the lifestyle. There are a few things to remember: 1) You will be very popular wherever you go 2) less is more and 3) size does matter. In parting, a teardrop trailer allows you to 'live free,' 'camp smart' and perhaps most importantly, 'be different.'

DEALER BODY

Our dealer body is the lifeblood of our organization. We encourage customers to purchase locally. Each dealership is independently owned and operated – free from any corporate requirements. Purchasing from your local dealer has multiple benefits. First and foremost, it allows a long and meaningful relationship to form. From the time of purchase to servicing your trailer to trading it in for your next one, your dealer will be best suited to take care of you. Whether it is proximity, state regulations or simple 'teardrop tips' your experience will be enhanced with a local connection. If you ever should have the need for upgrades or warranty work, the vast majority of our dealers can take care of that for you as well.
