Put your hands on the metal
feel the Monaco quality construction

Roadmaster RM8H/RM10H features:

1. Cummins®turbo diesel engine gives you power, efficiency and low maintenance.

2. 10,000 lb. hitch receiver lends powerful towing capacity.

3. Cushion air glide suspension system positions eight/ten shocks and eight/ten airbags outboard with auto-leveling for greater stability and a smoother ride.

4. Unique six-degree rear axle tilt perfectly aligns the engine, transmission and differential, minimizing stress on the drive-train and noise delivered to the coach.

5. Dual air brake system assures stopping power on steep grades. Anti-lock brakes help you stay in control.

6. Automatic Traction Control (ATC) takes over in slick conditions and applies torque to the wheels to reduce slippage and heighten control.

7. Propane tank, inverter, water heater and batteries are accessible for easy use and service.

8. Premium Goodyear tires ensure a safe and quiet ride.

9. Position of brake and accelerator pedals are easily adjustable to individual preferences.

10. Leather-upholstered six-way power seats with lumbar control help find the perfect position.

11. Semi-monocoque design, with its bridge-like superstructure, distributes stress evenly throughout the entire chassis.

12. Seamless one-piece molded crowned fiberglass roof covers steel framing, wood rafters, paneling and vapor barriers.

13. Sidewalls and roof with tubular steel framing offer superior strength.

RM10H Tag Axle available on certain floorplans. (See chart on page 21).
