When you are ready for a premium diesel pusher motor home, look no further than the 2003 Itasca Horizon. It sets the standard for performance and comfort that today's diesel enthusiasts demand. Starting with a proven Freightliner® chassis designed exclusively for diesel pusher motor homes, the Horizon features a powerful 330-hp Caterpillar® turbo charged engine (300-hp Cummins on 32TD), advanced air suspension, and an Allison® 3000 MH 6-speed electronic transmission for incredibly responsive ride and handling, and plenty of hill-climbing power. Premium residential features such as TrueAir™, PowerLine™, OnePlace™ and the RV Radio™ make it easy to call the 2003 Itasca Horizon your home on the road.

The Itasca Horizon is the perfect place to relax or share time with friends. The StoreMore™ slideout system not only expands your living space, it also allows interior overhead cabinets to extend with the slide room. This increases storage capacity without impeding on headroom. Enjoy superior climate control with TrueAir™ Residential Central Air Conditioning. Fully adjustable vents located in the ceiling let you control airflow throughout the coach. A heat pump is standard to help warm your Horizon on cool mornings without using the furnace. For increased thermal efficiency, dual-glazed windows are standard. Three wood grain choices give your coach a custom look and a catalyzed topcoat process keeps the cabinets looking great for years. Plus, day/night pleated shades let you choose your level of light and privacy.

Residential-style innerspring cushion seats make the BenchMark™ Full Comfort Dinette our most comfortable dinette ever. The seats flip up for easy access to the large storage space below and quickly convert into a comfortable bed.

**INTERIOR DECORS**

- **PROVENCE BLUE**
- **HARVEST TAPESTRY**
- **CARRARA CREAM**
- **PORTSMOUTH OAK WOODGRAIN**
- **CONCERT CHERRY WOODGRAIN**
- **WASHED MAPLE WOODGRAIN**
YOU’LL FEEL RIGHT AT HOME WITH HORIZON’S USER-FRIENDLY FEATURES. The galley includes solid-surface countertops and a 30” residential microwave/convection oven with a cook sensor feature that automatically selects the power level and cooking time to help you prepare the perfect meal every time. The G.E. Advantium™ Speedcook oven is also available. The Swanstone™ double-bowl sink accommodates large pots and pans and its solid-surface easily wipes clean. The sink also includes a Moen® single-control faucet with pull-out sprayer. A separate faucet provides water from an Everpure® water purification system.

A DOUBLE-DOOR REFRIGERATOR with an icemaker and a convenient slideout pantry come standard. A four-door refrigerator (shown) is also available. Select the available 1,500 watt inverter/charger and you can even make ice when you’re on the road.

THIS ELEGANT DINING TABLE is standard on most models (NA 32TD). It’s a perfect setting for two people and can easily expand to accommodate four.

THIS HOOP-BASE LOUNGE CHAIR is a comfortable swivel/rocker/recliner with the added bonus of a footrest. Best of all, it can easily be moved to your favorite spot when you’re not traveling.

THE AVAILABLE COMBINATION WASHER/DRYER features multiple wash, time and temperature cycles to accommodate most fabrics (NA 32TD).

IF YOU LIKE EVEN MORE FLEXIBILITY with your living space, choose the multi-function table. It provides dining for two, expands to seat four and is ideal as a computer workstation or hobby area. (Available on the 36LD, 39QD and 39WD).
WHETHER YOU'RE SETTLING IN FOR THE EVENING OR ENTERTAINING GUESTS, the Horizon surrounds you in comfort and convenience. Stitchcraft and Flexsteel® furniture invite you to stretch out and relax. It can be covered with the available, soft UltraLeather HP™ for added luxury. Watch videos on the 25” TV and VCR, or expand your options with the available digital satellite dish or the available DVD player. The experience is further enhanced when you choose the available 5-channel QSurround™ sound system. A standard 300 watt inverter or the available 1,500 watt inverter/charger with remote panel allows you to watch the front and bedroom TVs without needing shoreline or generator power.

SINK INTO THE COMFORT of the high-back driver and passenger cab seats. Both chairs swivel and recline, and feature lumbar support, making them perfect for a long day on the road. Popular upgrades include UltraLeather HP (shown) and six-way power seat pedestals. A powered stepwell cover panel creates a convenient, flat floor at the touch of a button.

TOTAL CONTROL. It's the feeling you get behind the wheel of the Horizon. Controls are strategically positioned for easy operation. These include the electronic transmission touch pad and the mirror controls that are located on the driver's trim panel for quick access. The steering wheel conforms to fit you perfectly with both tilt and telescoping adjustments. The dash includes an electronic compass with outdoor thermometer and a Sony® rearview color monitor with one-way audio for easier backing and maneuvering. Power sunshades help block the sun and a front privacy curtain comes with a convenient pull cord.

THE REST EASY™ MULTI-POSITION LOUNGE provides unmatched seating flexibility and comfort (NA 32TD). 1. It starts as a plush couch with a convenient flip-down center cushion that doubles as a beverage tray with dual drink holders and a storage area. 2. At the touch of a button, it becomes a relaxing recliner with a pull-out ottoman. 3. Touch the button again and it's a contoured 75” x 60” bed.

COLLECT, ANALYZE AND SAVE vehicle data with the available TripTek™ computer. Information displayed on your rearview monitor includes: distance to destination, time to destination, distance traveled, time traveled, fuel economy and a handy pre-trip checklist.
THE CEILING FAN that is available in the bedroom features adjustable speed control for your comfort. (NA 39QD, 39WD)

THE HORIZON IS LOADED with user-friendly conveniences such as the rechargeable flashlight and hand-held vacuum accessory package.

THE BATH AREA meets your needs with style. Upscale amenities include solid-surface countertops, a private toilet area (NA 32TD) and a wall-mounted hair dryer with night-light. The one-piece fiberglass shower includes a hand-held showerhead. A shower seat is also available.

YOU’LL ENJOY THE ROOMY DESIGN OF THE BEDROOM. The rear slideout allows for a large wardrobe and a walk-around, queen-size bed. There’s even a lavatory sink with cabinetry in the 39WD bedroom. Windows on both sides of the room provide excellent cross-ventilation while you watch the 19” TV, which tucks away in its own cabinet when not in use.

SLEEP NUMBER® The bedroom features a queen-size Sleep Number Bed by Select Comfort.® Using the hand-held remote on each side of the bed, you can quickly and independently adjust the mattress firmness level to your ideal level of comfort and support...your SLEEP NUMBER® which is The Key to a Perfect Night’s Sleep!™

HASCA OWNERS ARE RAVING about the RV Radio. Bigger buttons, more features and a larger display make it one of our most talked-about innovations. AM/FM stereo, cassette deck and CD player are all included. There’s even a built-in weather band to keep you informed of travel conditions when you’re on the road.

ENJOY PRECISION CLIMATE CONTROL thanks to Winnebago Industries® exclusive TrueAir Residential Central Air Conditioning. TrueAir utilizes superior cooling technology to supply optimum environmental control throughout the coach. At the heart of the system is a Coleman®-Mach® cooling unit. It is located in the basement to provide a lower vehicle profile while reducing noise and eliminating roof run-off from A/C related condensation. You’ll also find that this location is much easier to service and provides a lower center of gravity than less-advanced roof pod air conditioning units. On cool days, the standard TrueAir heat pump warms the coach, minimizing the need to use LP.

KEEP YOUR ELECTRICAL SYSTEM RUNNING SMOOTHLY even when operating the central air conditioning on 30-amp. shoreline power. The PowerLine Energy Management System monitors onboard electrical usage to minimize the nuisance of tripped campground circuit breakers. It restricts the operation of postonable electrical loads during periods of heavy usage. As demand is lowered, PowerLine automatically restores power to secondary appliances and systems so you can go about your business without worry.

THE ONEPLACE SYSTEMS CENTER brings important and frequently used switches, gauges and controls into one central location so you can easily check and operate multiple systems.
For many people, the chassis is a mere afterthought when buying a new motor home. But the truth is, the chassis has an incredible impact on your overall experience. As the motor home’s foundation, it affects the strength and integrity of nearly every component in the coach.

The Itasca Horizon is built exclusively on a Freightliner chassis. Freightliner has a solid reputation for providing top-quality motor home chassis. This reputation is justified when you experience the driving comfort, smooth ride and responsive handling of your Horizon. Top that with a network of over 350 chassis service centers—many open 24 hours a day, seven days a week—and you have real peace of mind knowing that you have a chassis that delivers outstanding overall performance and durability.

**THE AIR FILTER** and fluid level check points are thoughtfully located for easy service.

**THE FRESH AIR INTAKE** for the engine is positioned high on the sidewall. This prolongs filter life by reducing the amount of road dust and grime introduced into the airstream. A cleaner filter allows the engine to perform to its potential.

**DRAINING AIR-LINE SYSTEM** condensation is a recommended service procedure on all vehicles that utilize air brakes and air suspension. Horizon has automatic system dryers and heated air system drains that incorporate remote lanyard controls. This eliminates the need to crawl under the chassis to perform this routine maintenance function.

**EXTERIOR MIRRORS** feature an increased surface area for an expanded viewing range and are strategically positioned to optimize your field of vision.

**AN AUXILIARY AIR CONNECTION** with a detachable 50’ hose provides a ready source of compressed air.

**THE FRONT SLIDEROOM** of the Horizon incorporates Winnebago Industries’ innovative StoreMore slideout system. StoreMore storage compartments are large, well-lit and well-designed to accommodate bulky and odd-shaped items. Best of all, they move with the slideroom for easy access.
A RUGGED DIESEL ENGINE powers each Horizon for exceptional torque and economy. The 32TD includes a 300-hp ISB 5.9L Cummins diesel engine. All other models are powered by a 330-hp CFE 7.2L Caterpillar engine (shown here). Both engines feature advanced electronic controls for superior performance and fuel economy. The standard engine exhaust brake uses the engine to help slow the vehicle to promote longer brake life.

THE REAR AIR SUSPENSION SYSTEM places the air springs in a wide-track stance just inside the rear wheels. This is more efficient than less advanced multi-bag systems and offers optimum stability while protecting the air springs from road debris.

THE ALLISON 3000 MH 6-speed electronic-control transmission is a proven performer. Its innovative Smart Logic system learns your driving habits and fine-tunes shift positions accordingly for maximum performance. A touchpad control makes changing gears as easy as pushing a button.

ENJOY ELECTRICAL POWER wherever you are. Your Horizon comes with a standard LP-powered 6,500 watt Onan® Marquis Gold™ generator or an available 7,500 watt Onan Quiet Diesel™ generator (shown here).

THE FULL-WIDTH MUD GUARD protects against flying debris and helps keep your Horizon clean. A trailer hitch comes standard with an impressive 10,000-lb. towing capacity.

THE SERVICE CENTER is easy to access and includes an exterior wash station for rinsing off dirty equipment or sandy feet. The major plumbing connections are housed in a separate compartment that is heated for seasonal use.

A SET OF FOUR AVAILABLE TWO-WAY RADIOS gives you the freedom to communicate around the campground or when you're out on day trips. Each 14-channel radio has a two-mile range and provides up to 15 hours of standby and 90 minutes of talk time per charge with nickel metal hydride batteries. A built-in charging station is included.

ONE KEY opens most everything thanks to the innovative KeyOne™ System. The Horizon also includes a power door lock and power storage compartment locks with a keyless remote for your convenience.

ANTI-LOCK AIR BRAKES are standard on every Horizon. Experience maximum brake feel and control thanks to a treadle-style brake pedal that is mounted solidly to the steel cab deck.

WARRANTY

- 12-month/15,000-mile basic limited warranty.
- 36-month/36,000-mile warranty on structure.**
- 10-year limited parts & labor warranty on roof skin

- The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.
- Horizon® floorplans feature a wide-body design — over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- Your motor home's load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Not all items available in combination. See dealer for details.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Standard
- Optional
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, UAWR and GCWR as well as adequate trailer brakes. Please refer to your vehicle's operator's manual for further towing information.
- See your dealer for complete warranty information.
- Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.
Not all motor homes are created equal. Take a closer look and you'll see there is much more to an Itasca Horizon than a long list of standard features and compelling floorplans. Beneath it all, you'll find a SuperStructure™ foundation of strength and durability.

SuperStructure is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures, composite-design laminated floor risers, interlocking joint technology and Thermo-Panel® floor, roof and sidewalls to form an incredibly strong, durable vehicle body.

LAMINATED RISERS
feature a welded aluminum core for superior strength and provide a stable base for the floor structure and storage compartments.

THE FOUNDATION SUBSTRUCTURE
assembly is precision-aligned to maximize longitudinal and cross-coach support as well as strength and durability.

CRITICAL STEEL COMPONENTS
are treated using an advanced electrodeposition coating process that provides superior corrosion protection.

STORAGE COMPARTMENTS
attach to outrigger assemblies so that the weight of stowed items is carried and dispersed throughout the foundation substructure.

INTERLOCKING JOINT CONSTRUCTION
utilizes advanced aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitor designs which rely on screws to carry the weight.

WE INVENTED THERMO-PANEL SIDEWALL CONSTRUCTION
and over the years have perfected this innovative composite construction process. It combines an exterior fiberglass panel, high-density block foam insulation and welded aluminum support structures to create some of the strongest, most durable and lightweight sidewalls in the industry.

BUILT TO A HIGHER STANDARD.
The Horizon features a crowned, one-piece fiberglass roof backed with a 10-year limited parts and labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive modes which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

COMMITTED TO SERVICE.
We back our motor homes with the best service after the sale in the industry:
- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts and labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

RECOGNIZED QUALITY. Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and sales and service support. Winnebago Industries has achieved the coveted Quality Circle award every year since its inception, the only major motor home manufacturer to do so.

ALL MOTOR HOMES ARE NOT CREATED EQUALLY.
Learn more about what sets Winnebago Industries apart. Ask your dealer for this guide. It will help you learn what makes Winnebago Industries motor homes distinctly superior to other brands.

WARNING: JOINING WIT HAS BEEN KNOWN TO CAUSE EXCESSIVE FUN.
Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:
- Caravans and rallies
- Local and state group activities
- RV travel benefits
