

# **05 Horizon** | Join the Evolution.

We're proud to boast the Horizon as our flagship Itasca coach. It all started with the creation of the Evolution<sup>™</sup> Chassis. Built in a close partnership with Freightliner,<sup>®</sup> it combines a powerful diesel engine with versatile, one-piece, formed-rail construction for a chassis that is strong, smooth and loaded with storage space. The Horizon comes in five distinct floorplans, including two with quad slideouts, and is loaded with high-end amenities like stainless steel appliances. Factor in our SmartSpace<sup>™</sup> philosophy that incorporates functional and user-friendly features to make the most of the available space and you'll quickly fall in love with the Itasca Horizon.

S Most Horizon models have two living room slideouts, allowing space for a legless dining table and our most comfortable Stitchcraft furniture. The plush couches and chairs can be upholstered in soft UltraLeather HP<sup>™</sup> for a more upscale look and feel. A sophisticated Euro Chair by Flexsteel® is a standard item on the 36RD and available in several other models. The interior cabinetry has solid wood doors and drawers with a highly durable, catalyzed protective finish that will look great for years to come. To keep you comfortable, dualglazed windows, floor-ducted heating and TrueAir® residential central air conditioning all work together for superior climate control. A heat pump is also provided to help keep the coach warm without using the furnace.

**Discriminating motor** coach enthusiasts appreciate elegant touches like the ceramic tile floorcovering, textured glass shower door, skylight and Corian<sup>®</sup> solid-surface countertops in the Horizon bathroom. The flexible showerhead includes a shutoff valve to conserve water and a Moen Posi-Temp<sup>®</sup> valve which regulates a consistent water temperature as you shower, even when water pressure fluctuates. The 10-gallon water heater can operate on 110-volt AC or LP gas.

The Horizon is stacked with the latest in digital entertainment. A 24" Sony® flat-screen TV, DVD/VCR combo, amplified antenna and video selection system all come standard. A 27" Sony flat-screen TV comes standard in the 40AD and 40FD with a stand-alone hardwood entertainment center. Five recessed speakers and two subwoofers deliver theater-quality sound from the QSurround™ amplified sound system. Passengers can watch TV on the road when you select the digital in-motion satellite dish. A 2,000 watt inverter/charger is included to power your appliances when a shoreline or generator power source is not available.

The bedroom in the 40KD is so roomy, you can choose the available king-size Sleep Number<sup>®</sup> bed. With a rear slideout on every model, there's plenty of room for a full wardrobe and a 20" flat-screen TV. There's even a Sharp® LCD screen on the 36RD. The front DVD and VCR components are wired to the bedroom TV and a sensor in the TV cabinet lets you control them with the bedroom remote. An Audiovox® rear stereo system is also included for your listening pleasure.

Sleep better in a Sleep Number® bed by Select Comfort.<sup>™</sup> A hand-held remote on each side of the bed lets you guickly and independently adjust the mattress firmness to your ideal level of comfort and support...your Sleep Number, which is The Key to a Perfect Night's Sleep!™

Portsmouth Oak

Concert Cherry Honey Cherry

Washed Maple

(40KD) Glass Block with Honey Cherry

The available combination washer/ dryer features multiple wash, time and temperature cycles to accommodate most fabrics. A galley with solid-surface countertops provides plentiful workspace for even the most extravagant meals. You can cook almost anything in the high-end stainless steel appliances like the 30" microwave/convection oven or available G.E. Advantium<sup>TM</sup> Speedcook oven. The standard refrigerator/freezer comes with a convenient slideout pantry. Upgrade to the four-door refrigerator/ freezer with icemaker for even more cold storage. Cleanups are easy in the large stainless steel sink with Moen<sup>®</sup> faucet/pullout sprayer. Save even more time by adding an available dishwasher (NA 36GD). A separate faucet provides clear, delicious Everpure<sup>®</sup> filtered water.

The expandable dining table seats up to four people and features a legless design to give diners more space.

The 40AD comes with a unique buffet built into the dining table for extra storage. For more versatility, choose the multi-function table, which seats up to four and doubles as a computer desk (not shown).

The Rest Easy<sup>®</sup> multi-position lounge provides unmatched seating flexibility and comfort. At the press of a button it transforms from a couch into a relaxing recliner with a pullout ottoman. Press the button again to make a comfortable bed. You can upgrade your Rest Easy with UltraLeather HP<sup>™</sup> for an upscale look.

Residential innerspring cushions make the available BenchMark<sup>™</sup> full comfort dinette our most popular dinette ever. The seats flip up for easy access to the large storage space and quickly convert into a comfortable bed. A child safety seat anchor is also included.

Select the available Euro Chair with accompanying ottoman (standard on 36RD) and it will quickly become your favorite place to read or watch a movie (NA 40KD).

#### Coleman-Mach Auto: "Fron Code", | [Bas Heat Auto: "Fron Code",

**TRUEATRA** RESIDENTIAL CENTRAL AC

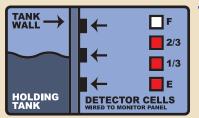

Escape from the summer heat and into the precision climate control of TrueAir® residential central air conditioning. Powered by

a Coleman®-Mach® central cooling unit, TrueAir offers superior environmental control throughout the coach. The cooling unit is located in the basement to provide a lower vehicle profile, reduce noise and eliminate roof runoff from A/C condensation. This location is also much easier to service and provides a lower center of gravity than roof pod units. The standard insulated power roof vents and a heat pump help warm your coach on cool mornings, without using the LP furnace.

Keep your electrical systems running smoothly even when operating your central air conditioning on 30-amp. shoreline power. The PowerLine® energy management system monitors

onboard 110-volt electrical usage to automatically minimize the nuisance of tripped campground circuits by controlling the operation of postponable electrical loads during periods of heavy usage. As demand is lowered, PowerLine automatically returns power to secondary appliances and systems.

### TRUELEVEL

Winnebago Industries' exclusive TrueLevel™ holding tank monitoring system incorporates Mirus™ detector cell technology to ensure accurate fresh

and waste water tank level readings. Mirus detector cells produce a micro-electrical field that detects liquid levels from outside the tank. No more probes to corrode or clog. Just true, accurate readings time after time.

# **ONE PLACE**<sup>™</sup>

The OnePlace<sup>™</sup> systems center brings important and frequently used switches into one central location so you can quickly check and operate multiple systems.

You're in command behind the wheel of a Horizon. Controls are placed for your convenience, such as the touchpad transmission built into the trim panel. The steering wheel has both tilt and telescoping adjustments to fit your driving preference and the dual-glazed cab windows slide open for your comfort. Dash instruments include an electronic compass with outdoor thermometer and a rearview monitor with one-way audio for worry-free backing. Other thoughtful features include map lights and bus-style power sunvisors.

Stay informed and entertained. Winnebago Industries® engineers worked

closely with the radio manufacturer to create a radio specifically for motor home applications with large buttons and knobs that are easy to use. The RV Radio® includes an AM/FM stereo, CD player, cassette deck and a weather band. A steering wheel remote lets you change channels or tracks easily and you can enjoy the RV Radio when parked with a separate hand-held remote. Power your RV Radio from your coach batteries when parked thanks to the radio power switch.

SIRIUS Upgrade your listening choices with a Kenwood Sirius® Satellite receiver. High-altitude satellites deliver 100 channels of crystal-clear digital programming anywhere in the U.S. with no signal fades. (Sirius Satellite Radio programming is complimentary with your first year of ownership).

Collect, analyze and save vehicle data with the available TripTek™ computer. Information displayed in your color rearview monitor includes: distance to destination, time to destination, distance traveled, time elapsed, fuel economy and a handy pre-trip checklist.

One key opens most everything thanks to the innovative KeyOne System. The Horizon also includes a touch pad entry and a keyless remote for the entrance door and storage compartments. The remote even activates the patio light and map lights so you won't have to fumble through a dark coach to find a light switch.

Anti-lock air brakes are standard on every Horizon. The accelerator and brake pedals adjust to accommodate most drivers.

RVers are falling in love with two-way radios and now they're available with every Horizon. The set of four radios recharges from the house batteries using the built-in charging station. Nickel metal hydride batteries provide up to 15 hours of standby time and 90 minutes of talk time on a single charge.

Comfortable travel starts with a comfortable chair. Covered in soft UltraLeather HP<sup>™</sup> and mounted on powered, six-way pedestals, the high-back cab seats are perfect for a long day on the road. Both chairs swivel and recline, while the passenger seat has a footrest for extra comfort. At the touch of a button, a stepwell cover slides in front of the passenger seat to create a flat floor.

# **SMART STORAGE**

When you see Smart Storage,<sup>™</sup> you know you've found a more convenient and functional way to store your gear.

The front driver-side slideout of every Horizon features Winnebago Industries' innovative StoreMore<sup>®</sup> slideout system. StoreMore compartments are nicely lit and large enough to accommodate bulky or odd-shaped items. Best of all, they extend with the slideroom for easy access. StoreMore can also be found on the front passenger-side slideout of the 36RD and 40FD.

**Storing your gear is even easier with pullout trays.** Select the new exterior entertainment center with a 24" flat-screen TV (left) w/DVD (20" on 36RD & 40FD) or choose the exterior entertainment center featuring a large storage slide-out box (above) with an upper shelf and a fold-down door – another example of Smart Storage.

### SMART STORAGE

Smart Storage makes better use of storage space. The available folding ladder (NA 36RD) comes in handy for washing windows and caring for your coach. It collapses completely to fit perfectly into the pullout holder when not in use. Straps and attachment points keep the auxiliary air hose, tire and awning tools neatly tucked away.

A convenient service center places plumbing and electrical connections in one location, including the QuickConnect™ coupling valve for fast, clean hookups. For added convenience, QuickConnect has its own holder when not in use. We also eliminated the frustration of wrestling cords and hoses through a tiny access hole with the innovative QuickPort<sup>™</sup> service connection

hatch. You can even rinse off at the exterior wash station. Powered reels for the hose and power cord are also available.

**Experience the Evolution.** Winnebago Industries engineers worked closely with Freightliner to create the Evolution<sup>™</sup> Chassis exclusively for this motor home application. Evolution represents the next generation of diesel pusher technology with one-piece formed steel chassis rails that are 25% thicker than traditional raised rails for added strength and performance. Formed rails also provide increased midsection storage, better weight distribution and improved floorplan flexibility.

#### The ultimate performance.

Evolution Chassis delivers an unsurpassed driving experience with a powerful 350-hp Caterpillar® diesel engine or a 400-hp Cummins® diesel engine on larger models. Every Horizon comes equipped with independent front suspension and an impressive 56° wheel cut for a smooth, luxurious performance.

#### Other Evolution features:

- 10,000-lb. hitch
- Engine exhaust brake
- Engine compression brake with 400-hp
- NeWay<sup>®</sup> rear air suspension
- Allison<sup>®</sup> 3000 MH 6-speed transmission
- Dual fuel fills

### **EXTERIOR DESIGN**

Drive in style. Choose from three full-body paint schemes to give your Itasca Horizon a style all its own.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- 2 Horizon floorplans feature a wide-body design over 96." In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- 3 The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading vour motor home.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). 4 Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- 5 Not all items available in combination.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- 7 See separate chassis warranty details provided in your owner's packet.
- 8 See your dealer for complete warranty information.
- 9 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- NA Not Available
- **S** Standard
- **0** Optional

Winnebago Industries'® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

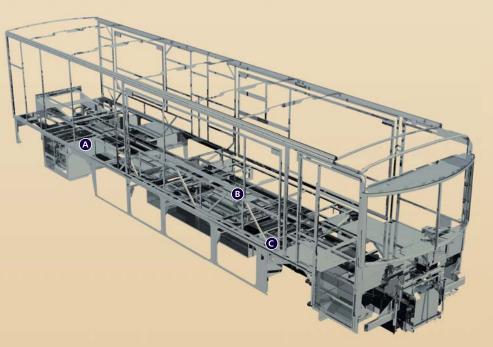

**Not all motor homes are created equal.** SuperStructure<sup>®</sup> is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum sub-

structures, composite-design laminated floor risers, interlocking joint technology and Thermo-Panel<sup>®</sup> floor, roof and sidewalls to form an incredibly strong, durable vehicle body.

Caminated risers feature a welded aluminum core for superior strength and provide a stable base for the floor structure and storage compartments.

Critical steel components
 are treated using an advanced
 electrodeposition coating process
 that provides superior corrosion
 protection.

**C** The foundation substructure maximizes longitudinal and cross-coach support.

Committed to service. We back our motor homes with the industry's best service after the sale. • 12-month/15,000-mile basic limited warranty

- 12-month/15,000-mile basic innited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof
   skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

WARNING: Joining WIT has been known to cause excessive fun. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:

Caravans and rallies

manufacturer to do so.

• Local and state group activities

Recognized quality. Recreation Vehicle

Dealer Association members annually rate RV

manufacturers on the quality of their products, and sales and service support. Winnebago

Industries has achieved the coveted Quality Circle

award every year since its inception, the only RV

• RV travel benefits

Interlocking joint construction utilizes advanced aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof,

making a stronger and more durable body than competitor designs that require screws to carry the weight.

We invented Thermo-Panel<sup>®</sup> sidewall construction and, over the years, have perfected this innovative composite construction process. It combines an exterior fiberglass panel, high-density block foam insulation and welded aluminum support structures to create some of the strongest, most durable and lightweight sidewalls in the industry.

**Built to a higher standard.** The Horizon features a crowned, onepiece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

1-year-old Itasca fiberglass roof

1-year-old competitor's rubber roof
