

05 Sundancer®

30V Blue Smoke with Concert Cherry

05 Sundancer | A class by itself.

If you're looking for Class A comfort and luxury in a Class C motor home, you've found it. The 2005 Itasca Sundancer feels like a Class A motor home thanks to amenities like a Sleep Number® bed by Select Comfort™ and a 24" flat-screen TV. This year we added an available front overhead bunk with a side-mounted 20" TV/DVD combo. It's all part of our SmartSpace™ design philosophy that makes the most of interior space with features that are functional and user friendly, putting the Sundancer at the top of its class in comfort and style.

► The Sundancer is very inviting with residential features and refinements such as the luxurious satin finish to the cabinetry. A single thermostat controls both heating and air conditioning, which can be enhanced with the available heat pump that helps warm the coach on cool mornings without starting the furnace. Satisfy any appetite with a home-cooked meal in the well-appointed galley. A microwave/convection oven and a sealed three-burner Amana® range/oven both come standard, along with a vented range hood. Solid-surface countertops, sink covers and a flip-up countertop provide ample workspace while the large two-door refrigerator/freezer and pantry (NA 31C) offer plenty of food storage.

The Benchmark™ full comfort dinette incorporates innerspring seat cushions that provide the look, feel and comfort of residential furniture. The seats also flip up to reveal spacious storage areas. The 2005 Sundancer is outfitted with additional seat belts, providing you with greater seating flexibility while traveling. There's even an anchor for a child safety seat.

Sit back and watch the big game on the 24" flat-screen TV (shown above). Add the available DVD/VCR combo and Deluxe Sound System with 5-channel QSurrond™ to experience movies with theater-quality sound. An available 300 watt inverter lets you enjoy the entertainment center even when shoreline or generator power is not available. If you select the available overhead bunk (left), a cabinet-mounted 20" TV/DVD combo is provided.

The ergonomic dash is accented by the available dash appliqué. Smart features like power door locks and power windows are at your fingertips. An auxiliary start switch is also close at hand to give you second life if your battery loses its charge. You'll appreciate automotive features like dual airbags and remote keyless entry for the cab doors and entrance door.

The bedroom slideout, on the 27P and 30V, creates a spacious area for a full-size wardrobe and a desk/vanity area. The desk/vanity area has a flip-up mirror and doubles as a desk or workstation.

The bedroom features Sleep Number bed by elect Comfort. Hand-held remotes on each side of the bed let you quickly and independently adjust the mattress firmness to your ideal level of comfort and support...your Sleep Number, which is the Key to a Perfect Night's Sleep!™

When you move between the cab and living area, you'll appreciate the all-new Trimline™ console. This Winnebago Industries® exclusive features two cup holders, a glove compartment and a storage compartment.

The available rearview monitor mounts neatly between the visors for improved visibility. A one-way audio feature helps for guided backing and maneuvering.

Stay in touch around the campsite using the available two-way radios. Each radio has up to a five-mile range and recharges from the coach batteries in the built-in charging station.

Our engineers worked closely with the manufacturer to create the RV Radio® designed specifically for RV use. It includes an AM/FM stereo, cassette/CD player and a built-in weather band for immediate weather updates at the touch of a button. Its large control knobs and buttons are easy to operate. New for 2005, you'll find a convenient steering wheel remote and a hand-held remote for operation when you're parked.

TRUELEVEL
HOLDING TANK MONITORING SYSTEM

Winnebago Industries exclusive TrueLevel™ holding tank monitoring system incorporates Mirus™ detector cell technology to ensure accurate fresh and waste water tank level readings every time. Mirus detector cells produce a micro-electrical field that detects liquid levels from outside the tank. No more probes to corrode or clog. Just true, accurate readings every time.

The Itasca Sundancer is equipped with the StoreMore® slideout system, featured on the 27P and 31C. You'll never have to crouch under the slideout to reach your gear because StoreMore compartments extend with the slideout for easy access. Each exterior compartment features a full-length valance panel door with a single-paddle latch for easy, one-handed opening.

Enjoy your favorite music outdoors when you use the available exterior entertainment center. An AM/FM stereo, CD player, remote, speakers, 12-volt DC powerpoint, AC receptacle, TV jack and table are all included. You'll also find a connection for a portable satellite dish in the electrical service compartment to expand your television options (portable satellite dish not included).

QuickPort

The exterior service center houses all of your service connections in one convenient location. It incorporates the QuickPort™ service connection hatch that keeps cords and hoses in order while allowing you to fully close the bay door.

EXTERIOR DESIGN

The available stylized aluminum wheels are the perfect blend of form and function. They strike a nice balance with the durable, smooth Thermo-Panel® sidewalls. Dual-glazed, thermo-insulated windows can also be added to help keep the motor home warm and cozy. If you like to bring along a car or trailer, you'll appreciate the 5,000-lb. towing capacity, 350-lb. vertical tongue-weight hitch.

- 1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
- 2 Sundancer floorplans feature a wide-body design — over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- 3 The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- 4 Not all items available in combination. See dealer for details.
- 5 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- 6 Actual towing capacity is dependent on your particular loading and towing circumstances which includes GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- 7 See separate chassis warranty details provided in owner's packet.
- 8 See your dealer for complete warranty information.
- 9 Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- NA Not Available
- S Standard
- O Optional

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

SUPER STRUCTURE

Not all motor homes are created equal. SuperStructure® is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum sub-structures, composite-design laminated floor risers, interlocking joint technology and Thermo-Panel® floor, roof and sidewalls to form an incredibly strong, durable vehicle body.

A Critical steel components are treated with an advanced electrodeposition coating process that provides superior corrosion protection.

B Laminated risers feature a welded aluminum core for superior strength and provide a stable base for floor structure and storage compartments.

C Storage compartments attach to outrigger assemblies so the weight of stowed items is carried and dispersed throughout the foundation substructure.

D The foundation substructure assembly is precision-aligned to maximize strength and cross-coach support as well as durability.

Interlocking joint construction utilizes advanced aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitor designs that require screws to carry the weight.

We invented Thermo-Panel® sidewall construction and, over the years, have perfected this innovative composite construction process. It combines an exterior fiberglass panel, high-density block foam insulation and welded aluminum support structures to create some of the strongest, most durable and lightweight sidewalls in the industry.

Built to a higher standard. The Sundancer features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

1-year-old Itasca fiberglass roof

1-year-old competitor's rubber roof

Committed to service. We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

Recognized quality. Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and sales and service support. Winnebago Industries has achieved the coveted Quality Circle award every year since its inception, the only RV manufacturer to do so.

WARNING: Joining WIT has been known to cause excessive fun. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
