

08 TOUR

**SMARTSPACE**  
WEB

### EXTEND YOUR STAY.

The 2008 Winnebago Tour® is built for the long haul and features the all-new Maxum™ Chassis. The lowered-rail design of the Maxum Chassis was developed by Freightliner® with input from Winnebago Industries® engineers and allows for a cavernous basement for enhanced cross-coach storage as well as a lower center of gravity that provides improved ride and handling. Choose from

four models with over 7'2" of headroom, including the 40KD and the new 40WD with standard king-size bed slideouts. Each floorplan offers a variety of SmartSpace™ features that make the most of the available space. Travel in style and comfort in a Winnebago Tour.

## INDOOR FUN

The Tour makes in-home entertainment a memorable part of every trip. The 40KD features a 32" TV while the 40WD boasts a 37" LCD HDTV that provides amazing clarity for your favorite movies. The 40FD and 40TD offer the exceptional viewing angle of a standalone entertainment center with a 30" or available 37" TV. You can even add an electric fireplace. The Home Theater Sound System comes standard and includes a DVD player. An available King-Dome® in-motion satellite system\* lets you enjoy satellite programming whenever you travel (NA 40WD).

Precise climate control is provided by floor-ducted heating and ceiling-ducted TrueAir® residential central air conditioning. For added thermal efficiency, dual-glazed, flush-mounted windows come standard. Day/night pleated shades offer full control over light and privacy levels. The hoop-base lounge chair on the 40FD and 40TD can be moved anywhere in the coach when you're not driving.

The 8,000-watt Cummins Onan® Quiet Diesel™ generator provides electrical power when an outside source is not available. Use the 2,000-watt inverter/charger to save fuel when you don't want to start the generator.

\*Satellite TV requires a receiver and programming subscription. See your dealer for details.

**WEB** Select a Key Feature

The **WEB** icon designates a Winnebago Industries Key Feature. For further in-depth information and photos, use the Drop-down Menu or click on the 'Key Features' page at [winnebagoind.com](http://winnebagoind.com).

**ULTRALEATHER** Custom Stitchcraft furniture is available in UltraLeather™ for the ultimate in style and comfort. Ceramic tile flooring looks great and is easy to keep clean.

**EURO CHAIR** Relax and recline while you read a book or watch TV in the plush Euro Chair with ottoman, available on the 40FD and 40TD.

**WEB** **REST EASY**  
This multi-position lounge converts from a sofa to a recliner to a comfortable bed at the touch of a button.

#### FULL-EXTENSION DRAWER SLIDES

Drawers are sized to maximize storage, hold tight with positive latches and open fully for easy access to stored items.

#### CHEF-APPROVED

The distinguished look of the Tour comes through in the Corian® solid-surface countertops, stylish cabinets with hidden hinges and satin nickel hardware. Recessed fluorescent lighting highlights this upscale look and feel. On the 40KD you'll find three large drawers in the cabinet below the sink.

All floorplans come with a double-bowl sink that includes a pullout sprayer and a separate faucet for the Aqua-Pure® water filtration system. Standard appliances include a four-door refrigerator/freezer with icemaker, a range with a solid-surface cover and a 30-inch residential microwave/convection oven.

Dine in style at the spacious dining table. You can also choose the new dining table/buffet (40FD and 40KD) or the BenchMark® full-comfort dinette that converts into a bed (NA 40WD).

Cleanup has never been easier with the available Dirt Devil® central vacuum system. It includes a powered brush head, attachments and a 30' hose. There is also a vacpan at the base of the galley cabinets that whisks away sweepings.

**WEB titanium TOUCH™** The refrigerator features Titanium Touch stainless finish doors, a Winnebago Industries exclusive, which have the look of stainless steel, resist fingerprints and are warmer to the touch than traditional stainless steel. As an added benefit, you can even use your favorite kitchen magnets.

**CENTRAL VACUUM** The available Dirt Devil® central vacuum system has connections inside and outside the coach for quick and easy cleanups.

#### TABLE/BUFFET

The new dining table/buffet offers an elegant place to dine and additional storage on the 40FD and 40KD.

## SLEEP WELL

Sleep in perfect comfort every night on the available Sleep Number® bed by Select Comfort™. A ceiling fan helps keep you cool while a rear slideout provides the spacious feel you need to relax.

Watch your favorite programs on the standard 20" LCD TV (27" on 40WD). It is pre-wired to the available satellite dish and is connected to the rear stereo system with CD/DVD player, AM/FM stereo, alarm clock, headphone jack and an MP3 input. Abundant storage in the wardrobe and bedroom cabinets lets you plan for extended trips.

Morning showers are more refreshing thanks to a handheld showerhead and the Moen Posi-Temp® valve that maintains a consistent temperature, even if water pressure fluctuates.

sleep  number.  
by SELECT COMFORT

**WEB SLEEP NUMBER BED**  
The Sleep Number bed by Select Comfort has digital hand controls that let you quickly and independently adjust each side of the bed to your ideal level of comfort and support. Your Sleep Number—The Key to a Better Night's Sleep.™

**BEDROOM SINK**  
A bedroom sink and vanity cabinet in the 40KD provides added convenience and features a solid-surface countertop, sink and medicine cabinet.

**WASHER/DRYER**  
There is no need for a laundromat with the available combination washer/dryer featuring multiple wash, time and temperature cycles.

## EVERYTHING AT HAND

Driving is more enjoyable in the Tour where everything you need is at your fingertips. It starts with the SmartWheel™ steering wheel that tilts and telescopes into perfect position for any driver. To your left you'll see the handy touchpad control for the Allison® 3000 MH six-speed automatic transmission. The turn signals activate the available side-view video cameras to aid you through turns and maneuvers.

You'll always be comfortable while you drive, thanks to a six-way power pedestal that adjusts the seat to your body. Power sunvisors, individual map lights and an available GPS system all make the trip more fun.

The RV Radio® includes AM/FM stereo, CD player, a weather band and an auxiliary iPod/MP3 input. For added convenience, the RV Radio comes with a handheld remote and a steering wheel remote.

Upgrade your RV Radio with the available Sirius® Satellite radio package, which comes with a complimentary six-month subscription. Sirius brings you 130 channels of crystal-clear programming. This package is also iPod ready so you can listen to, and control, your iPod through the dash stereo.

**DASH** Designed for your driving comfort, the driver's area puts you in command of your travels.

**KEYLESS REMOTE** Lock and unlock entrance and storage doors at the touch of a button.

**WEB TRUELEVEL** Eliminate tank-level guesswork with our exclusive TrueLevel™ holding tank monitoring system. It incorporates detector cells that determine liquid levels from outside the tank. No probes means no more corrosion, just accurate readings, time after time.

**WEB POWERLINE** This energy management system monitors electrical usage and automatically cycles appliances on and off to prevent power overloads.

**WEB TRUEAIR** The residential central air conditioning system features a Coleman-Mach® cooling unit in the basement that cools 40 percent faster and runs 10 percent quieter than roof-pod units. A heat pump comes standard so you can take the chill out of a cool morning without starting the furnace.

### WEB 3 position controls

Raise and lower the hydraulic jacks from any of three convenient locations. Do the job from the driver's seat or step outside and use the controls at the entrance door or service center to monitor the jacks as you lower them. No hassle. No guesswork. Just a level coach at your convenience.

## SMART STORAGE

The Tour makes life easier with Smart Storage™ features designed to hold extra gear more conveniently. These features include a folding step ladder that fits into a sleek storage sleeve and side-hinged compartment doors that open wide for easy loading and unloading.

The Tour offers incredibly spacious pass-through storage with Smart Storage features that let you customize the space to best fit your needs. Movable panels in the main compartment can be adjusted to accommodate your storage needs on each trip. Each model includes four additional storage bins to help keep you organized. A 90" compartment tray that slides out both sides of the coach is also available to make access even easier.

Electrical and plumbing connections can be found in one convenient location with color-coded labels for easy hookups and quick connections. There is even a clip for your gloves so they are always within reach when you need them. The service center also includes a filter for the full-coach water filtration system and a hookup for a portable satellite dish.

Additional enhancements include standard electric patio and entrance door awnings, plus a screen door.

**EXTERIOR ENTERTAINMENT CENTER** Your exterior entertainment center can be enhanced with a 19-inch LCD TV and DVD player.

**WEB**  **SMART STORAGE** The new Maxum Chassis has a lowered-rail design that allows for more Smart Storage features. Movable panels inside the storage bay let you customize the storage space for your needs.

**SERVICE CENTER** The QuickPort® service connection hatch is fast and simple, allowing the bay door to close while your hookups are connected. The QuickConnect® coupling valve on the sewer hose makes for quick and clean hookups and has its own storage holster.

# MAXUM CHASSIS

WEB

## LEAVE NOTHING BEHIND

The Maxum Chassis™ offers up to 220 cubic feet of exterior coach storage so you can load up with everything you need for weeks on the road. The secret is its revolutionary lowered-rail design. This all-new feat of chassis engineering repositions the chassis frame rail increasing the cross-coach storage height for the most efficient use of space. Combined with Winnebago Industries'® Smart Storage™ philosophy, you get taller compartment openings, larger pass-through compartments, and a storage capacity that no other chassis in its class can match.

## ENJOY THE RIDE

Winnebago Industries worked closely with Freightliner® to combine our exclusive SuperStructure® with the XCL Chassis to create a stronger, stiffer chassis for a whole new level of travel comfort. The Maxum Chassis eliminates much of the road vibration with a combination of innovative structural design and shock-absorbing components like rear air suspension. Take a ride in the Winnebago Tour® and feel how the Maxum Chassis with its lower center of gravity, rigid framework and 55° wheel cut delivers the smoothest ride and handling ever.

## THE MAXUM ADVANTAGE

- 32,350 GVWR
- 400-hp ISL Cummins® clean air diesel engine
- Touchpad shifter
- Allison® 6-speed transmission
- 10,000-lb. hitch<sup>6</sup>
- 4-wheel ABS anti-lock brakes
- NeWay® air suspension
- Engine compression brake
- 55° wheel cut
- Michelin® tires

THE LEADER AT EVERY TURN™

3-Year/50,000-Mile Limited Warranty (including towing and roadside assistance)—more than 400 North American service locations, 60 Freightliner® RV Oasis locations and a 24/7 help line add up to a commitment you can count on.

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Tour floorplans feature a wide-body design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

**BUILT BY WINNEBAGO INDUSTRIES.  
BUILT TO LAST.**

Winnebago motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 49-year history of motor home innovation to the design and construction of every motor home. It's all a part of SuperStructure<sup>®</sup>, our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

**SOLID FOUNDATION** Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

**INTERLOCKING JOINTS**

The floor, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

**E-COATING** Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for superior corrosion protection.

**THERMO-PANEL<sup>®</sup> SIDEWALLS** Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

**ATTENTION TO DETAIL** Whether it's sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and barcoding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Winnebago motor home provides you with years of pleasure.

**STRONG AS STEEL** Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

1-year-old Winnebago fiberglass roof

1-year-old competitor's rubber roof

**FIBERGLASS ROOF** The Tour features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

**TAKE A TOUR** We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our factory in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

**RECOGNIZED QUALITY** The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

**COMMITTED TO SERVICE** We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
  - RV Technical Assistance Hotline
  - Emergency Trip Interruption
  - Nationwide Trip Routing
  - RV Service Appointment Assistance
  - Emergency Message Service
  - Fee-Free Travelers Cheques
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

**WIT CLUB** Winnebago owners are like family. Joining the Winnebago-Itasca Travelers is a great way to meet and travel with other Winnebago enthusiasts. Members enjoy:

- Caravans and rallies
- Local and state group activities
- RV travel benefits
