# **Adventurer** *Truck Campers*

Discover Another World...

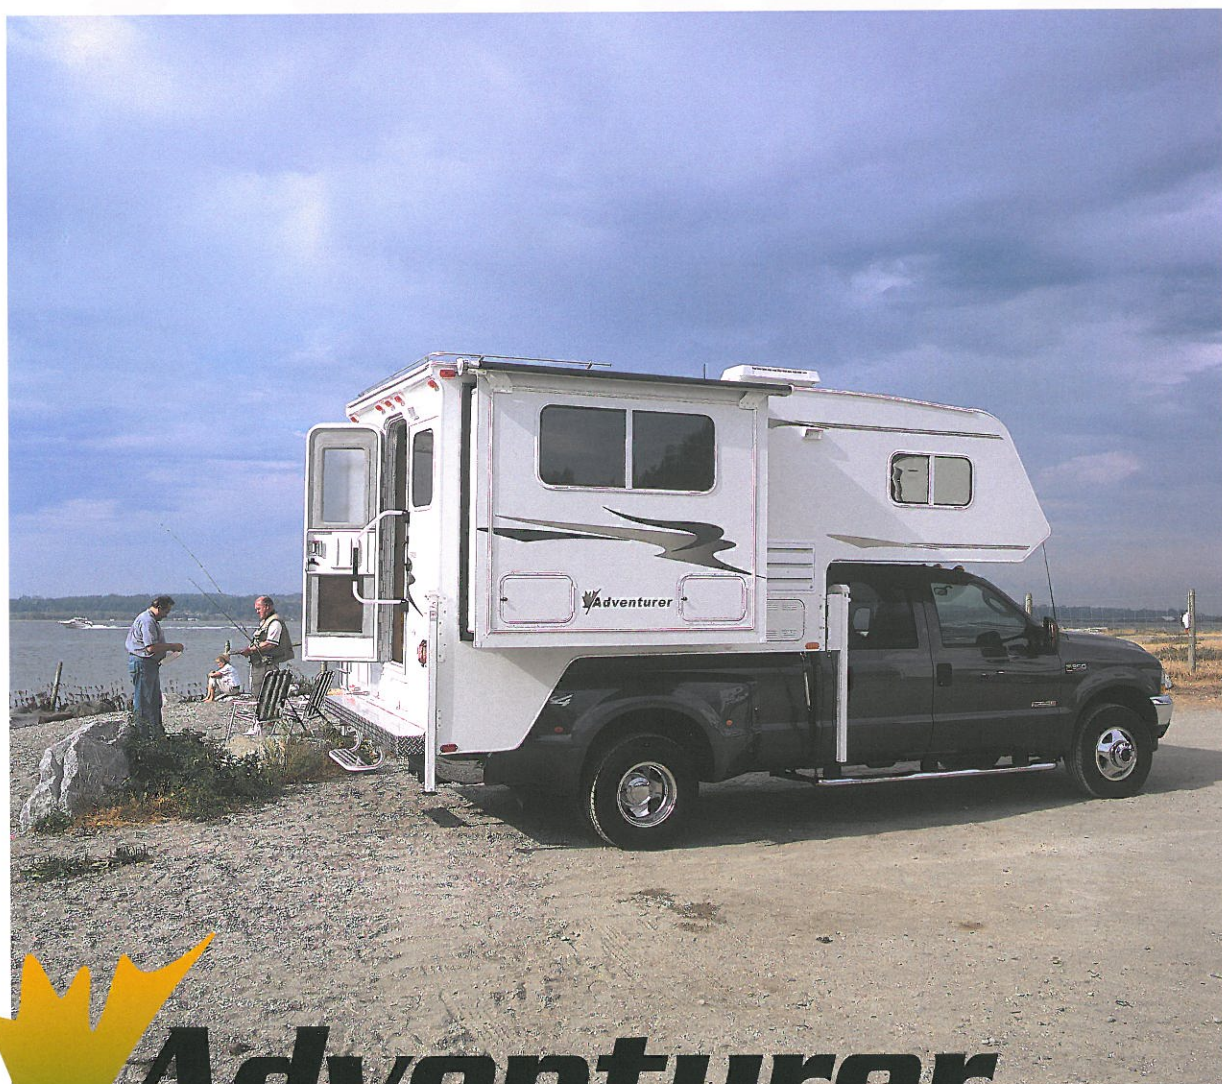

## *Places to go, things to do, experience...*

For over 35 years, Adventurer Manufacturing has continued to strive for 100% customer satisfaction. The company's success is due in part to the philosophy that has remained constant. James Epp, president of AML says, "Our company realizes the customer is the boss". We continue to take customer recommendations and incorporate them into our Adventurer products; satisfying their demands.

Adventurer Manufacturing has a reputation for outstanding service, quality and value. This recognition was evident in the early years and today Adventurer continues to be in the forefront. To ensure AML will continue to thrive, a team of manufacturing specialists in design and construction have worked by founder Erdman Epp's motto, "Never be satisfied until good is better and better is best".

Adventurer Manufacturing Ltd. has changed its name from Western Canada RV Ltd. We appreciate all who have had a part in helping us expand from our regional operation to an international company.

# **Adventurer**

## *the Adventurer difference.*

Come on, pursue your passions, new world's are waiting. As a proud owner of an Adventurer camper, you can go almost anywhere you want, whenever you want.

With so many destinations, events and adventures to explore, people yearn to get away to the lure of the great outdoors. When you own an Adventurer camper you can take long journeys or shorter trips more often, capturing precious memories every mile of the way.

RVing allows you to really take a vacation, get away from the daily routines. Take a trip with friends and family or take that annual fishing or hunting trip with the guys. Rest...relax...and see new places.

The Adventurer dinette slideout design allows for significantly more storage space. Just push the button and the slideout models have plenty of space to seat four adults for your dining pleasure or for that game of monopoly.

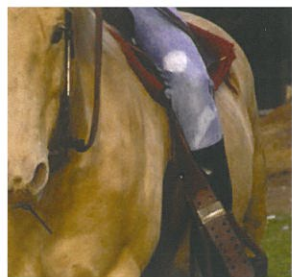

The overhead bed area has more headroom than the competition. From the youngest to the oldest, it makes getting in and out of bed an easy task. The extra head room is just what you need for the comfort of reading while relaxing in bed.

The 90FWS, 90RDS and the 104RDS have a large slide out tray to hold everything from fishing gear, skis and poles and whatever else you may want to put away.

**ANNIVERSARY**

*For the adventurer in you...*

Taking a trip exploring the national parks, enjoying nature and resting with an Adventurer camper will give you peace of mind, knowing that your camper is a surprisingly affordable way to get there more often.

Hook up your horse trailer and arrive in style. Those competitions can be stressful, but you can relax. Adventurer campers are famous for their value. The interiors are not only attractive but built to withstand the wear and tear of active outdoor living.

**Adventurer**

*be one - own one.*

Adventurer interiors feature cabinet doors that fit perfectly, windows that seal tight to keep the harshest weather outside.

All exterior storage compartments are finished with the same craftsmanship and attention to detail as the interior cabinets.

We believe that Adventurer truck campers are the best built camper on the market today. More room! More style than ever thought possible in a truck camper. Compare the quality and value. Choose one of ten floorplans at affordable pricing. Contact your authorized dealer for more information. Owning an Adventurer will be a decision you will never regret.

Helping you choose  
the camper unit for  
your needs and  
activities is what  
we do best.

Adventure

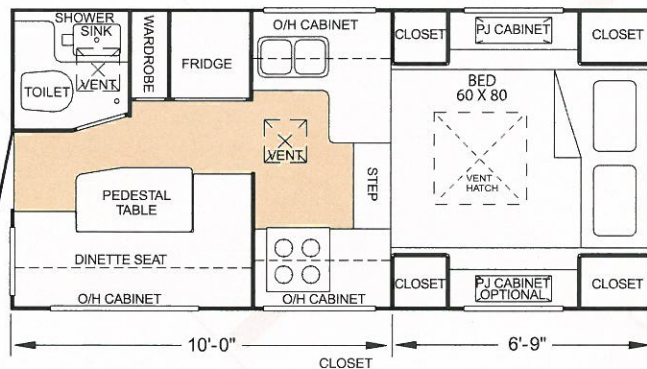

## 810WS

Conceived at our facility over 25 years ago, this is a floorplan the rest of the industry has often copied, but never perfected. In the Adventurer, you get the original design. It is also available with a short box option and installed generator. If you travel the back roads, you won't need anything else – you have all the comforts of home.

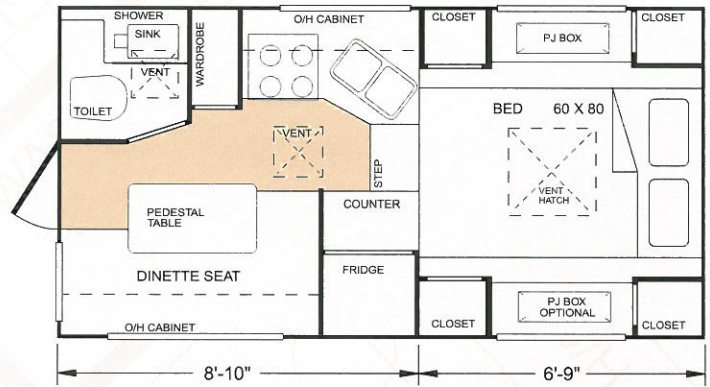

## 90RDS

With the simple push of a button expand your space with the power slide. This unit has a functional layout, modest weight, and a reasonable price. Add a generator and it's your home away from home. A great camper for the long or short box on super duty trucks.

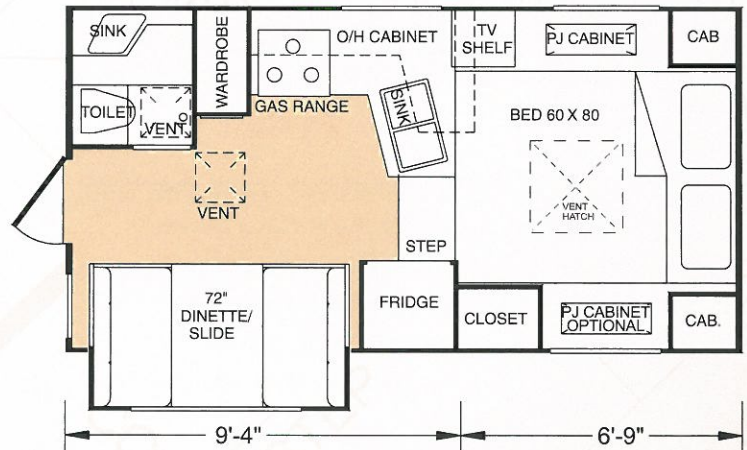

## 104DSS

A floor plan with rear bath and dry shower, aimed to please anyone looking for the ultimate camping experience. Generator-ready, this unit offers increased floor space with a power slide and generous storage inside and out. Optimal value to fulfill your needs.

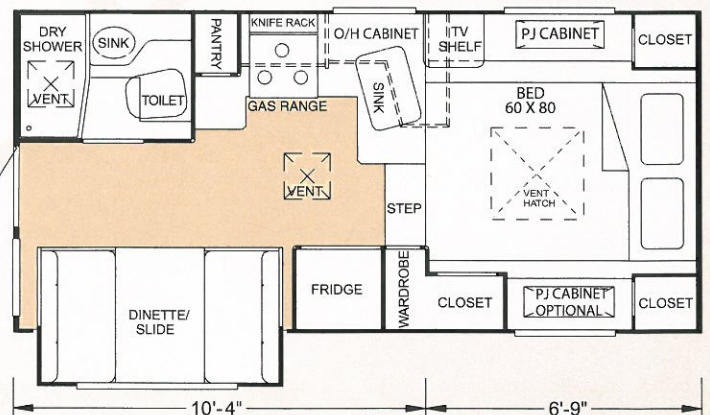

## 90FWS

This camper features a forward bath, in-floor tanks, a full side dinette, and over 20 cubic feet of outside storage. Dress it up and take it home with a smooth wall filon exterior, generator-ready, plus many more options to chose from. Fits the long or short box super duty trucks.

## 100WSB

The 100WSB features a tried and true design which includes a large L-shaped galley and generous storage space inside and out. With heated holding tanks, generator-ready, plus other options, you're ready for the great outdoors.

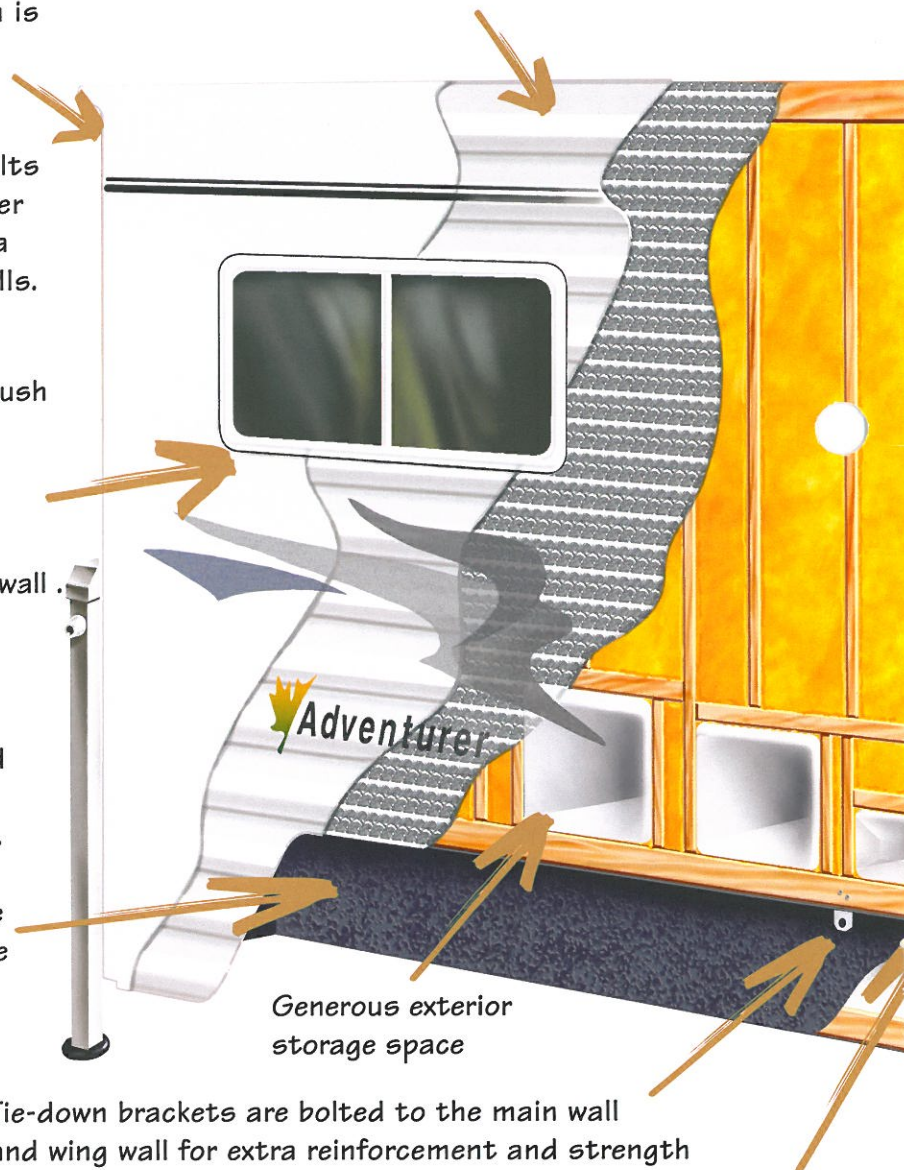

*Framing an Adventurer truck camper is a craft in itself. All materials are pre-cut and hand assembled without the use of jigs to provide a tighter, stronger fit at all of the joints.*

Our optional fiberglass side wall is constructed with two layers of 1/8" luan. The laminated luan is strategically staggered under the fiberglass so that the seams do not show through. This results in a flatter and smoother wall while providing extra strength to the side walls.

.025 Profiled aluminum exterior with baked enamel finish is standard

All of our units use flush frame safety glass radius windows with gusseted corners providing additional strength to the side wall.

The enclosed and heated holding tank area is insulated with reflectics. The heat ducts in the holding tank area ensure a dry climate, leaving the area dry at all times.

Corners built to last are reinforced with galvanized metal and 1 1/2" aluminum angle for bolting the jacks in place

All cabinets are attached by placing screws through the main wall & roof members into the main cabinet members providing a much stronger cabinet attachment.

Large Emergency Escape Hatch

Aluminum roof is standard build with a Limited Lifetime Warranty.

*Optional Rubber roof with a prorated 12 Year Warranty is available.*

*Optional moulded fibreglass nose caps are available on 80HL and up*

*Optional Reflectics Wrap provides the unit with extra insulation (Aluminum exterior only)*

Adventurer uses only the best building material, 100% kiln dried spruce and plywood. To make it the best wood framed camper on the market, absolutely no particle board is used.

Floor on overhead bed is bolted in place with 3 1/4" bolts on each side

Floors, underbunk, walls and roof are insulated with high density fibreglass insulation

Rubberized undercoating in all critical areas provides longevity to the unit

Adventure

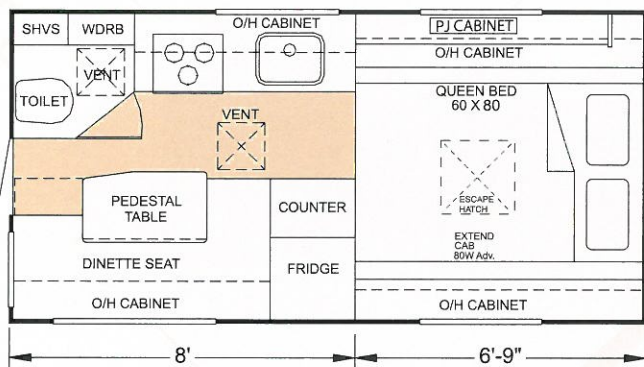

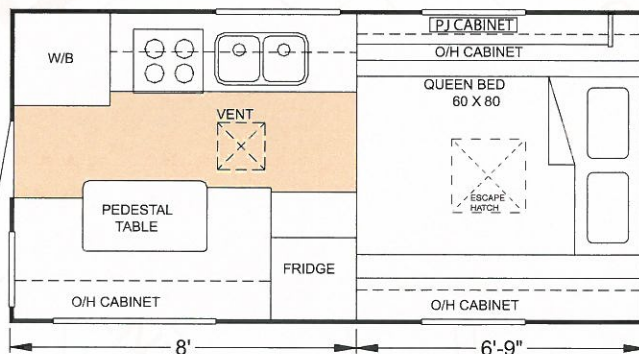

### 76R

Small enough to fit the import short boxes yet seemingly larger than any other import camper on the market.

### 80HL

Built specifically for the person who has the basics in mind without compromising quality or structure. Truly a lightweight unit with an affordable price tag.

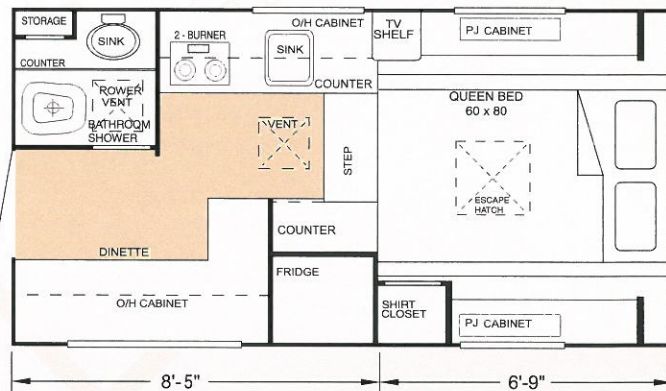

### 80W

The 80W is a popular camper in the half-ton truck market. The added washroom in this 8 foot camper increases the comfort and convenience of your camping experience while keeping the weight and price light.

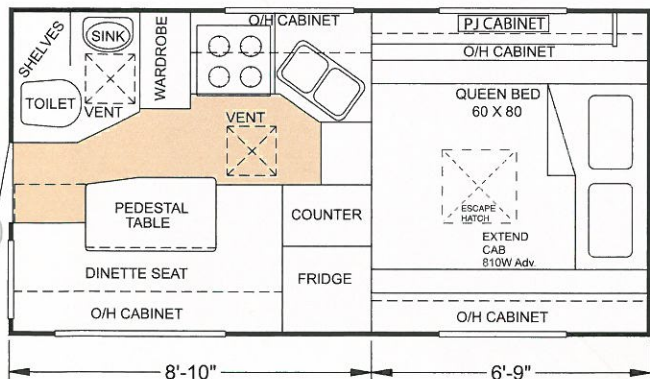

### 85WS

The 85WS is a camper for those who require a fully self-contained unit that fits on the lighter duty truck. The weight makes this the ideal unit and comes with a price that is very affordable.

### 810W

Functional floorplan at an affordable price summarizes the 810W. Perfect for adventuring off the beaten path whether it's hunting, fishing or just enjoying the less travelled roads. The 810W is also available in a short box version.

## *Freedom, flexibility and fun...*

*"...the reason people hit the road in RV's is the same today as it ever was: People love their freedom".*

David Woodworth, RV Historian

We all love our freedom...The kids have grown up and have campers of their own. It is just the two of you and you are going to retire in style. Enjoy your golden years...continue on the adventuresome highway. There is no time like the present.

Mount the Adventurer camper onto your truck with ease and get away at a moments notice. No flights to catch, no lost luggage, just load your favorite gear and head out onto the highway...

 **Adventurer**

## *the Adventurer difference.*

Adventurers commitment to manufacturing quality campers is visible with the Happijac camper jack system. Providing over 34" of lift, the Happijac screw jack can easily and quickly raise and lower the camper with complete control and efficiency. The Happijac

ensures optimum performance in strength and safety while enhancing the look of your camper. The unique concave footpad design reduces movement and provides greater stability than convex footpads.

The Adventurer camper units provide you with the freedom and control of the convenience and comforts of home. Escape in style. Discover that perfect place before anyone else does  
*...discover another world.*

Compact, yet the 85WS  
camper provides you  
with the amenities and  
the comforts of home.

Choose from any of our colour coordinated interior fabric combinations.

Carpet - Toledo II  
Lino - Vermont Slate

Median Shell Green

These fabrics are carefully chosen by our interior designer, providing you with a durable fabric used specifically for industrial applications.

Santa Maria Plum

## *Make an informed decision...*

When purchasing an Adventurer Truck Camper, there are a few important factors to consider:

How much weight will your truck handle? The payload capacity is usually posted in the glove box on most trucks. What is your (GVWR) Gross Vehicle Weight Rating, and (GAWR) Gross Axle Weight Ratings? These are usually posted on the drivers side door post.

As the owner, it is your responsibility not to exceed the weight specifications of your truck when purchasing a truck camper. Always think safety first before loading a camper on your truck. We recommend that you have a set of AIR BAGS installed.

Adventurer makes no warranty with the performance or reliability of your truck when carrying an Adventurer truck camper. Consult your authorized Adventurer Dealer for additional information.

If you need service on your Adventurer while away and you are not near an Adventurer dealer, just stop in at any reputable RV Service Center and have them contact Adventurer for authorization to repair your unit under warranty.

## *when buying your truck & camper*

### **3-Year Limited Structural Warranty**

All Adventurer products are warranted to be free of defects in materials, or workmanship, for 36 months from date of delivery to original purchaser and will be repaired or replaced, within this period, at Adventurer service centres.

Any component carrying its own guarantee shall be covered under conditions and terms of its manufacturer. This warranty does not cover damage caused by misuse, accident, alteration, improper maintenance or rental. Contact your dealer for details.

### **Notice**

Adventurer Manufacturing Ltd., whose policy is one of continuous improvement, reserves the right to change any of the specifications contained in this brochure without prior notice and without incurring any obligation.

If you have any questions about our product line, please don't hesitate to contact your dealer.

## **Adventurer** Manufacturing

Our vision is to manufacture affordable products that can compete in durability, design and features with recreational vehicles costing far more.

To succeed in our mission, we apply the corporate standard established by Erdman Epp, Founder of Adventurer Manufacturing Ltd.

His rule is short, simple, and successful:  
"We're never satisfied until good is better...  
and better - best!"

The result of our total commitment to this principle is the Adventurer Series  
- made for the adventurer in you,  
as you explore God's beautiful creation.
