# HORNNET

**proudly presents style and convenience never before seen at this price point**  
**22 FLOOR PLANS — ALL CAREFULLY DESIGNED FROM THE INSIDE OUT**

At Hornnet, we have exciting news.

For 2004, we have placed our emphasis on interior design and detail,

in order to make a time-honored RV brand even better than ever.

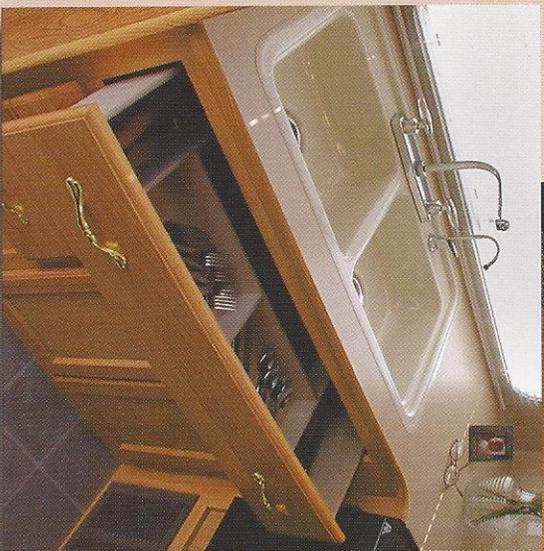

The closer you get, the more you see how every corner, every shelf, every

storage space has been planned to make life inside your Hornnet as comfortable and enjoyable as in the highest priced brands.

And, even though there's a Hornnet travel trailer or fifth wheel to please every

type of RV enthusiast, there is one thing each Hornnet has in common...It has been designed from the inside out.

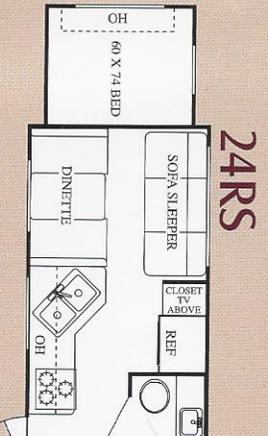

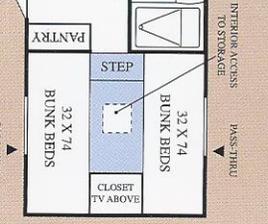

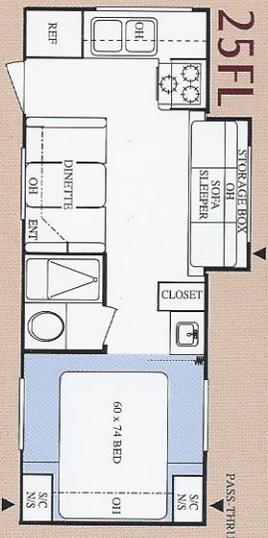

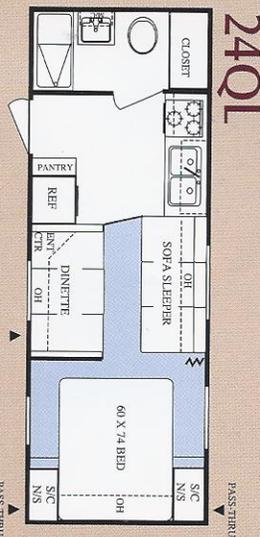

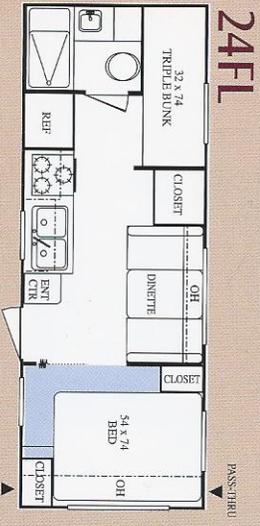

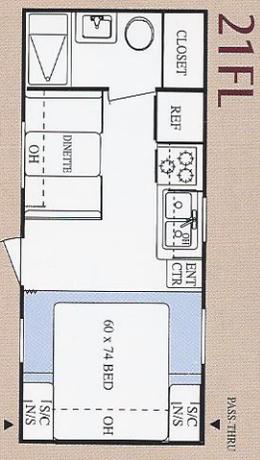

At left, the 275H Hornnet rear lounge floor plan in Canyon Green offers a spectacular view looking out from the full wall of windows. The slide-out room allows an open, spacious living area.

Two more views of the Hornnet kitchen show that the closer you get, the more wonderful details you will find. Hornnet's kitchens are all planned for easy, carefree living. Features like the utensil drawer under the double-bowl sink and the oversize countertop in the 245RK floor plan above have been designed for your relaxation. Hornet cabinetry is assembled with screws, never stapled, and features solid oak doors and drawer fronts.

# HORNET Lite

Hornet Lite, the easy-to-tow choice, has been designed especially for towing by today's half-ton pick-up trucks and most SUVs. Hornet Lite is built with the same high standards of construction used on regular Hornets.

## HORNET FIFTH WHEELS

Hornet's quality is unrivalled in any recreational vehicle product at this price point. While we have made major improvements in our interior styling for 2004, we have also continued to maintain high standards of Hornet construction, from our solid steel frames to our walkable roof decking. Exterior features like enclosed gooseneck frame rails, side mounted LP bottles with auto change, and a sleek 2004 profile enable Hornet Fifth Wheels to maintain our "designed from the inside out" concept in every phase of manufacturing.
