

Adventurer

Truck Campers

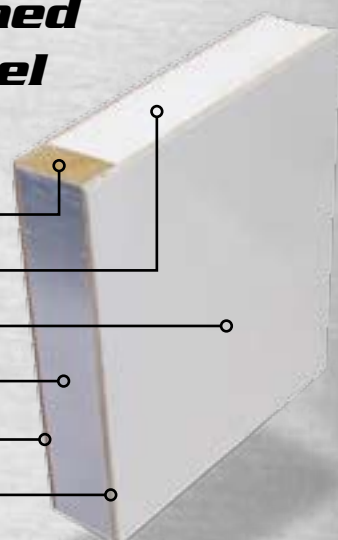

Since 1969, Adventurer Manufacturing's reputation has been built on a commitment to customer satisfaction. Our team of manufacturing specialists is dedicated to ensuring excellence in all areas of design, engineering, construction and assembly. Demonstrating a proven ability to listen and respond to our customers' needs, the company has grown from a small regional operation to an international industry leader, with an unrivalled reputation for outstanding service, quality and value.

Aluminum Framed Composite Panel Construction

- 
- Lumber Core
 - Solid Foam Core
 - Filon® Outer Shell
 - Aluminum Tube Frame
 - Inside Wall Surface
 - Luan Plywood

All units 9' and larger are built using our Aluminum Framed Composite Panel Construction process.

Cross Section

Framing an Adventurer truck camper is a craft in itself. All materials are pre-cut and hand assembled without the use of jigs to provide a tighter, stronger fit at all of the joints.

- 1 Our composite fiberglass walls are constructed by laminating a welded aluminum tube frame between an outer Filon™ shell and an inner luan laminated wood panel. The void created by these two panels is filled with a solid styrofoam insulation.
- 2 All units use flush-frame safety glass radius windows with gusseted corners. Solar Reflective windows are standard on the 810WS & up.
- 3 The heated enclosed holding tank area is insulated with reflectics. Heat ducts in the holding tank area ensure a warm area when the furnace is in operation, leaving the zone warm & dry at all times.
- 4 A sturdy powder coated aluminum ladder provides easy access to the roof.
- 5 Generous exterior storage space.
- 6 Tie-down brackets are bolted to the main wall and wing wall for extra reinforcement and strength.
- 7 Our jacks are bolted through the aluminum corners to achieve a strong and stable platform when the camper is not on the truck.
- 8 The Happi-Jac™ camper jack system continues our tradition of quality manufacturing. Providing over 34" of lift, the Happi-Jac™ screw jack safely raises and lowers the camper with ease, ensuring optimum efficiency and performance, while enhancing the look of your camper. The unique concave footpad design reduces movement and offers improved stability over convex footpads.
- 9 Stylish graphics enhance the look of all Adventurer Truck Campers.
- 10 All external walls are insulated with high density styrofoam insulation for heat retention and sound dampening.
- 11 Large emergency egress window.
- 12 Floor on overhead bed is bolted in place with 3/4" bolts on each side.
- 13 At Adventurer we manufacture our own Filon™ to exact specifications to ensure our products are always up to our high standards. We use only the best building materials, from aluminum tubing to quality solid wood cabinet doors; absolutely no particle board is used.
- 14 Aluminum framed composite panel roof is the same as in all exterior walls. T.P.O. rubber roof with a prorated 12 year warranty is available as standard equipment.
- 15 Moulded fiberglass nose caps are available.

Our attractive interiors and durable exteriors are built to withstand the rigors of outdoor living. The craftsmanship and attention to detail is evident in all aspects of an Adventurer: quality cabinet doors that fit precisely, windows that seal tightly even in the most inclement weather, beautiful upholstery and furnishings, and extra storage compartments. All this plus more add up to what we believe, is the best value in the industry.

106DBS

The 106DBS is aimed to please anyone looking for the ultimate camping experience. This unit packs the most floor space possible into the back of a pick-up. With a dry shower, dinette power slide, and generous storage, the 106DBS offers you the best in the truck camper market.

10T

If you like camping and need an extra bed in a camper, you will love the Adventurer 10T. This truck camper's revolutionary fold-out section adds a bed and 27 square feet to the unit so you can sleep six. Perfect for the family with the crew cab truck, and the extra toys.

93FDS

New to the Adventurer line is the 93FDS, that is built using our new aluminum framed composite panel construction process. It includes a full wall dinette and fridge slide-out, that greatly increases the floor space. The much larger bathroom is bright and airy and topped with a large skylight.

90RDS

The highly economical 90RDS features an efficient layout and modest weight. A power slide expands your living area with the simple push of a button. Adding a generator will increase its flexibility even more.

90FWS

The 90FWS offers a forward bath, in-floor tanks, a full facing side dinette, and over 20 cubic feet of outside storage. This slick camper is designed to fit a 3/4 ton or larger truck.

89WS

Built on the same floor plan as the 810WS, the deluxe model includes a few extras such as a larger 6 cubic foot fridge, and a 25,000 BTU furnace. A fully installed generator, with short box option is also available.

810WS

Designed over 25 years ago at our manufacturing facility, the 810WS has often been copied by others in the industry but never successfully duplicated. Only Adventurer Manufacturing can claim the original design. A fully installed generator, with short box option is also available.

85WS

The 85WS sports the ideal floor plan for those weekend escapes. This unit has it all – full bathroom, generous storage, and even with the extra options, it is still light and economical.

810W

The 810W features a very functional floor plan at a great price. This truck camper is perfect for venturing off the beaten path whether it's hunting, fishing or just enjoying the less travelled roads.

80W

The 80W is a popular competitor in the half-ton truck market. An added washroom in this 8 foot camper increases the comfort and convenience for your camping experience; a value leader while still keeping a reasonable price.

80HL

This truly lightweight unit with a very affordable price tag is built specifically for the person who has the basics in mind.

76R

The 76R is our smallest truck camper. It is lightweight, very sturdy, small enough to fit in the import truck boxes, yet seems larger than any other import camper on the market today. This Adventurer provides plenty of room for those weekend get-a-ways.

BUILDING QUALITY SINCE 1969

3-year Limited Structural Warranty

All Adventurer products are warranted to be free of defects in materials, or workmanship, for 36 months from date of delivery to the original purchaser and will be repaired or replaced, within this period, at the discretion of the manufacturer at approved service centres.

Any component carrying its own guarantee shall be covered under the conditions and terms of its manufacturer. This warranty does not cover damage caused by misuse, accident, alteration, improper maintenance or rental. Contact your dealer for details.

Notice

Adventurer Manufacturing Ltd., whose policy is one of continuous improvement, reserves the right to change any of the specifications without prior notice and without incurring any obligation. If you have any questions about our product line, please don't hesitate to contact your nearest dealer.

When purchasing an Adventurer Truck Camper, there are a few important factors to consider:

How much weight will your truck handle? The payload capacity is usually posted in the glove box on most trucks. What is your (GVWR) Gross Vehicle Weight Rating, and (GAWR) Gross Axle Weight Ratings? These are usually posted on the driver's side door post.

As the owner, it is your responsibility not to exceed the weight specifications of your truck when purchasing a truck camper. Always think safety first before loading a camper on your truck. We recommend that you have a set of AIR BAGS installed.

If you need service on your Adventurer while away and you are not near an Adventurer dealer, just stop in at any reputable RV service center and have them contact Adventurer for authorization to repair your unit under warranty.

OUR MISSION STATEMENT

Our mission is to be industry leader in manufacturing recreational vehicles and associated products throughout North America, and as a team do everything possible to ensure our customers' vacation dreams are realized.

To succeed in our mission, we apply the corporate standard established by Erdman Epp, Founder of Adventurer Manufacturing Ltd. His rule is short, simple, and successful:

"We're never satisfied until good is better... and better—best!"

The result of our total commitment to this principle is the Adventurer Series—made for the adventurer in you, as you explore God's beautiful creation.
