

 **Adventurer**  
BUILDING QUALITY SINCE 1969

Since 1969, Adventurer Manufacturing's reputation has been built on a commitment to customer satisfaction. Our team of manufacturing specialists is dedicated to ensuring excellence in all areas of design, engineering, construction and assembly. Demonstrating a proven ability to listen and respond to our customers' needs, the company has grown from a small regional operation to an international industry leader, with an unrivalled reputation for outstanding service, quality and value.

## TRU-COMPOSITE™ CONSTRUCTION TCC™ ALUMINIUM

Lumber Core

Solid Foam Core

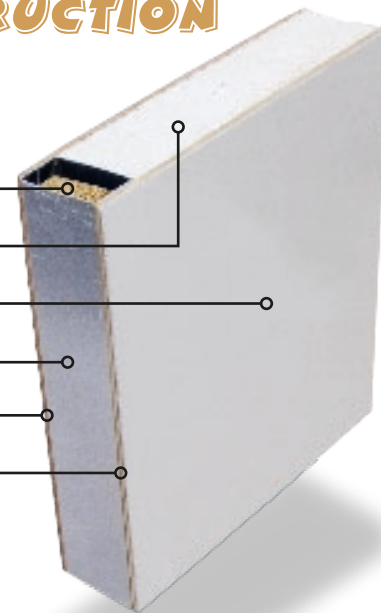

Filon™ Outer Shell

Aluminum Tube Frame

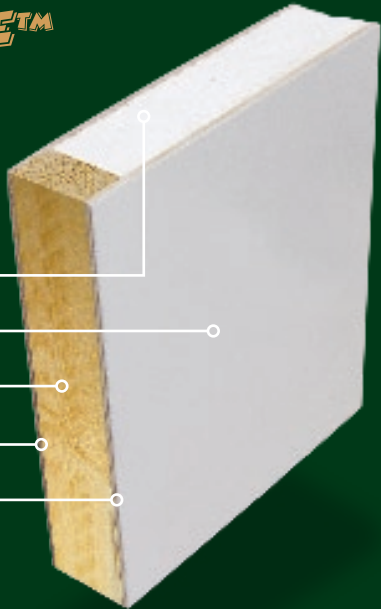

Inside Wall Surface

Luan Plywood

TCC™ Aluminum is used on the  
86SBS, 90FWS, 93FDS, 910FBS, 10T, and 106DBS

## TRU-COMPOSITE™ CONSTRUCTION TCC™ WOOD

- 
- Solid Foam Core
  - Filon™ Outer Shell
  - Wood Frame
  - Inside Wall Surface
  - Luan Plywood

Wood Framed TCC™ is used on the 76R, 80W, 85WS & 810WS

- 1 Our composite fiberglass walls are constructed by laminating a welded aluminum tube or wood frame between an outer Filon™ shell and an inner luan laminated wood panel. The void created by these two panels is filled with a solid styrofoam insulation.
- 2 All units use flush-frame safety glass radius windows with gusseted corners. Solar Reflective windows are standard on the 86SBS & up.
- 3 The heated enclosed holding tank area is insulated with reflectics. Heat ducts in the holding tank area ensure a warm area when the furnace is in operation, leaving the zone warm & dry at all times.
- 4 A sturdy powder coated aluminum ladder provides easy access to the roof.
- 5 Generous exterior storage space.
- 6 Tie-down brackets are bolted to the main wall and wing wall for extra reinforcement and strength.
- 7 Our jacks are bolted through the aluminum corners to achieve a strong and stable platform when the camper is not on the truck.
- 8 The Happi-Jac™ camper jack system continues our tradition of quality manufacturing. Providing over 34" of lift, the Happi-Jac™ screw jack safely raises and lowers the camper with ease, ensuring optimum efficiency and performance, while enhancing the look of your camper. The unique concave footpad design reduces movement and offers improved stability over convex footpads.
- 9 Stylish graphics enhance the look of all Adventurer Truck Campers.

## CROSS SECTION

Framing an Adventurer truck camper is a craft in itself. All materials are pre-cut and hand assembled without the use of jigs to provide a tighter, stronger fit at all of the joints.

- 10 All external walls are insulated with high density styrofoam insulation for heat retention and sound dampening.
- 11 Large emergency egress window.
- 12 Floor on overhead bed is bolted in place with 3/4" bolts on each side.
- 13 At Adventurer we manufacture our own Filon™ to exact specifications to ensure our products are always up to our high standards. We use only the best building materials, from aluminum tubing to quality solid wood cabinet doors; absolutely no particle board is used.
- 14 Aluminum framed composite panel roof is the same as in all exterior walls. E.P.D.M. rubber roof with a prorated 12 year warranty is available as standard equipment.
- 15 Moulded fiberglass nose caps are available.

For 2008, Adventurer has discontinued the use of heavy gauge aluminum on its truck camper exteriors. The entire line has been moved to our fiberglass Tru-Composite Construction. Smaller units use TCC™-Wood Frame, while larger ones use TCC™-Aluminum Frame.

## INTERIOR

Our attractive interiors and durable exteriors are built to withstand the rigors of outdoor living. The craftsmanship and attention to detail is evident in all aspects of an Adventurer. Quality cabinet doors that fit precisely, windows that seal tightly even in the most inclement weather, beautiful upholstery and furnishings, and extra storage compartments. All this plus more add up to what we believe, is the best value in the industry.

## **ADVENTURER 106DBS**

Adventurer has poured a lot of effort into creating the NEW 106DBS. Being the largest of the series, this 10'-6" floor plan will require a 1 ton long box pickup, and is chocked full of creature comforts. It features a dry shower, large dinette/fridge slide, storage to spare, and a large galley which makes food preparation a breeze. Be sure you have a look at this unit for the ultimate camping experience.

## **ADVENTURER 910FBS**

This newest and largest in the Adventurer nine foot range is the 910FBS. This unit looks fabulous trimmed in the new contemporary decor package. The slide includes a large horseshoe dinette, refrigerator, and an optional fold-down dinette bed that sleeps one. Rear and side windows in the galley, further open up and brighten the unit interior. Under the dinette, is a huge secure storage compartment that fits items up to 80" long; it can be accessed from inside or outside the slide. The 910 is designed to fit on a long box pickup.

## **ADVENTURER 10T**

The 10T is truly a family sized truck camper. Its revolutionary fold-out tent section adds a bed and 27 square feet to the unit, to bring its sleeping capacity to six. Perfect for the family with a crew cab truck, and the extra toys. This camper is also available without the fold-out tent section.

## **ADVENTURER 93FDS**

Classic in its style, the 93FDS replaces the venerable 90RDS, but with many refinements. The full rear bath has been redesigned, and is topped with a large, bright, and airy skylight. The full-wall slide now includes the dinette and 6 cu ft refrigerator thus greatly increasing floor space.

## ADVENTURER 90FWS

First in line for the 9 foot series, is the 90FWS. It features a forward bath, full side dinette, updated decor, and over 10 cu ft of external storage. Designed to fit a ¾ ton or larger truck, the luxury model's large dinette and ample cab over afford a higher level of comfort.

## ADVENTURER 80W

The 80W is the shortest and most popular contender in the half-ton truck market. It uses our TCC™-Wood construction and boasts a 5 cu ft fridge for 2008 TCC™ Models. The rear bath, kitchenette, and ample cab-over make for a comfortable and convenient camping experience. The 80W is a value leader in its class.

## ADVENTURER 810WS

We designed the 810WS over 25 years ago at our manufacturing facility; It has been often copied by others in the industry, but only Adventurer can claim the original design. This Luxury camper has been significantly upgraded to include our new interior decor, larger 6 cu ft fridge, and a 25,000 BTU furnace. A fully installed generator with short box option is available.

## ADVENTURER 76R

This camper is the smallest in the Adventurer line and is designed to fit onto the smaller import pickup and get into those tight outdoor places. You can go anywhere as it is lightweight and quite spacious for its size, and uses our TCC™-Wood process. Loaded with features like beautiful maple cabinets, kitchenette, and space to sleep 4, the 76R provides plenty of room for those weekend get-a-ways. It can be adapted to fit full size ½ ton trucks with the factory lift kit.

## ADVENTURER 86SBS

The 86SBS is the first and smallest slide unit in our series of truck campers. Start with an 8'-6" length, add a full wall slide with horseshoe dinette, toss in a full bathroom, large closet, and ample space. Top that off with Adventurer's TCC™-Aluminum process and serve with a 3 year fully transferable structural warranty.

## ADVENTURER 85WS

Next in the 8 foot series is the 85WS. Also built using our TCC™-Wood construction, this deluxe model sports a full bathroom, generous storage, and even with extras, it is still light and economical.

# FABRIC

All Adventurer units will now include a major decor update. Our aim is to modernize the interior look of our truck campers, to complement the structural changes that we have made. The new decor package will introduce a beautiful, clean, contemporary look that is more pleasing to the eye. Interiors are much brighter than other units on the market; cabinets, fabrics, and counter tops work to complement each other and gives the customer the flexibility to accessorize where needed, thus giving a more homey feel.

Big Sur

Espresso

Summit

AML takes great care in trying to provide accurate weight information on its units by weighing each camper individually. Weights in this brochure are approximate. Please check the wardrobe or closet for an accurate unit dry weight with factory installed options at time of manufacture.

## BUILDING QUALITY SINCE 1969

### 3-year Limited Structural Warranty

All Adventurer products are warranted to be free of defects in materials, or workmanship, for 36 months from date of delivery to the original purchaser and will be repaired or replaced, within this period, at the discretion of the manufacturer at approved service centres.

Any component carrying its own guarantee shall be covered under the conditions and terms of its manufacturer. This warranty does not cover damage caused by misuse, accident, alteration, improper maintenance or rental. Contact your dealer for details.

### Notice

Adventurer Manufacturing Ltd., whose policy is one of continuous improvement, reserves the right to change any of the specifications without prior notice and without incurring any obligation. If you have any questions about our product line, please don't hesitate to contact your nearest dealer.

## When purchasing an Adventurer Truck Camper, there are a few important factors to consider:

How much weight will your truck handle? The payload capacity is usually posted in the glove box on most trucks. What is your (GVWR) Gross Vehicle Weight Rating, and (GAWR) Gross Axle Weight Ratings? These are usually posted on the driver's side door post.

As the owner, it is your responsibility not to exceed the weight specifications of your truck when purchasing a truck camper. Always think safety first before loading a camper on your truck. We recommend that you have a set of AIR BAGS installed.

If you need service on your Adventurer while away and you are not near an Adventurer dealer, just stop in at any reputable RV service center and have them contact Adventurer for authorization to repair your unit under warranty.

## OUR MISSION STATEMENT

Our mission is to be industry leaders in manufacturing recreational vehicles and associated products throughout North America, and as a team do everything possible to ensure our customers' vacation dreams are realized.

To succeed in our mission, we apply the corporate standard established by Erdman Epp, Founder of Adventurer Manufacturing Ltd. His rule is short, simple, and successful:

"We're never satisfied until good is better... and better—best!"

The result of our total commitment to this principle is the Adventurer Series—made for the adventurer in you, as you explore God's beautiful creation.
