

# WAVERUNNER

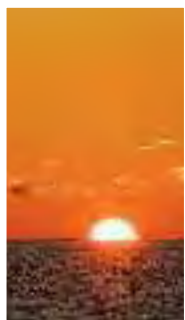

# WAVERUNNER

Industry leaders in reliability, durability and performance, Yamaha WaveRunners are designed to truly fit your needs. Raising the bar across the board, our stylish PWC's offer enhanced fuel economy, unparalleled luxury and innovative features, giving you the ride of a lifetime.

Yamaha is the only PWC manufacturer in the world utilizing nanotechnology, and therefore able to bring you the most precisely crafted, highest quality PWC's available. Our new flagship models, the FX Cruiser Super High Output and the FX Super High Output are representations of the pinnacle of modern engineering and human intuition.

We've won more Watercraft of the Year awards than any other manufacturer. You can trust Yamaha to keep you and your family safe on the water.

# SUPERCHARGER

Yamaha's 1.8-litre Supercharged, Super High Output engine is the largest ever in a PWC and 300cc's larger than any other model. Compact and lightweight, it's also 45 pounds lighter and packed with power to provide the best acceleration and top speed ever offered in a WaveRunner.

## SIMPLE GEAR DRIVE

We've achieved greater durability, serviceability and all-over quietness thanks to the use of a simple gear assembly which transmits drive force to the compressor. Open the throttle and you'll be impressed with the smooth, whisper quiet, linear powerband.

## ECONOMY

This engine was purpose built for the marine environment and is the largest displacement engine ever installed in a personal watercraft. It is also the only engine in the high-performance, four-stroke category optimized to run on regular unleaded fuel.

# NanoXcel TECHNOLOGY

With the use of nanotechnology our engineers were able to develop an incredibly strong, yet lightweight material called NanoXcel. This material is exclusive to Yamaha and enables us to make the hulls and decks of our 2008 FX models 25, that's right, 25 percent lighter than standard Sheet Moulding Compound (SMC). We are the only manufacturer in the personal watercraft industry with full-scale high-compression moulding capabilities. Therefore, the power-to-weight ratio has been significantly improved, resulting in increased responsiveness, acceleration and top speed.

Every Yamaha hull and deck is constructed to exact tolerances, maximizing strength and durability. Laser-guided water jets and advanced robotics ensure every Yamaha hull and deck is engineered with extreme precision.

2008 WAVERUNNER

# FX CRUISER

## SUPER HIGH OUTPUT

The new flagship of our cruiser series, the FX Cruiser SHO is the most lavish PWC ever designed. Boasting exclusive Yamaha features like Cruise Assist, No Wake Mode and our fatigue-reducing three-point contact system, this WaveRunner is as good as it gets. But you don't have to give up power and performance for comfort. The FX Cruiser SHO is powered by Yamaha's new 1812cc supercharged four-stroke engine that delivers incredible acceleration and top-end speed, enhanced by the industry's first and only high-compression moulded performance hull.

## KEY FEATURES

**The FX Cruiser SHO is powered by a 1.8-litre supercharged Yamaha marine engine.** This 1812cc, four-stroke engine is the industry's largest displacement motor to date. It is also the only engine in the high-performance category optimized to run on regular unleaded fuel.

**Electronic Fuel Injection (EFI):** Four electronically controlled fuel injectors supply an optimum air/fuel mixture, resulting in smooth, high output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Corrosion Protection System:** Sacrificial zinc anodes protect the engine from harmful galvanic corrosion. Stainless steel fasteners provide a long service life. Cases, cylinders and heads are specially treated to provide a barrier between corrosion and engine parts.

**Reverse with Traction Control Technology:** Another industry first. Maintains perfect RPMs for manoeuvring the watercraft in reverse.

**Four-step Adjustable Tilt Steering System:** Adjusts the steering column angle from 55 degrees to 35 degrees.

**Quick Shift Trim System (Q.S.T.S.):** Mechanically operated, offers instant change in the attitude of the watercraft while underway allowing for tighter turns or quicker acceleration on plane. Q.S.T.S. offers 24 degrees of total trim range.

**NanoXcel Hull and Deck:** The world's first hulls and decks manufactured with nanotechnology. Yamaha's NanoXcel ultra-light, super strong material

reduces hull, deck and liner weight by 25 percent and increases acceleration, top speed and handling. NanoXcel offers a smoother, shinier finish, reducing water surface tension providing a more responsive ride.

**Multi-function Electronic Information Centre:** Get a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, battery voltage, overheat warning, hour meter, check engine light with self diagnostic function and the industry's only audible warning system. Exclusively on our Cruiser models, compass direction, air temperature, water temperature and fuel consumption rate are also included.

**Industry's First Remote Controlled Transmitter:** Activate or Deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Top speed is reduced by nearly 30 percent when activated.

**Yamaha Security System:** Ensures no one starts the FX Cruiser SHO without your permission.

**Foot Chocks:** The foot chocks, Cruiser seat and handlebars create a three-point contact system to reduce tension on the driver's arms and legs.

**100 Litres of Total Storage:** Large cooler, rear storage and glove box.

**Large Boarding Platform with retractable step** for easy re-boarding.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

**Cruise Assist:** The first of its kind in the industry, Yamaha's exclusive Cruise Assist lets you set and hold a specific engine speed, which can easily be raised or lowered with the touch of a button.

**No Wake Mode:** When activated, this Yamaha exclusive moves the engine's RPMs to an optimal speed for efficiently navigating through a no-wake zone.

2008 WAVERUNNER

# FX SUPER HIGH OUTPUT

Powered by Yamaha's new 1.8-litre, supercharged four-stroke engine, the FX SHO delivers unparalleled acceleration and speed. Offering the most astute consumers breathtaking sports car styling and exhilarating performance, the new flagship of the FX series is the most advanced PWC on the water. The FX SHO features Yamaha's all-new, revolutionary NanoXcel hull and deck, EFI, tons of storage room and many other luxuries to make life on the water more convenient. There's no more feature-packed, stylish, exciting PWC than the Yamaha FX SHO available – meet the new leader in high performance.

## KEY FEATURES

**The FX SHO is powered by a 1.8-litre supercharged Yamaha marine engine.** This 1812cc, four-stroke engine is the industry's largest displacement motor to date. It is also the only engine in the high-performance category optimized to run on regular unleaded fuel.

**Electronic Fuel Injection (EFI):** Four electronically controlled fuel injectors supply an optimum air/fuel mixture, resulting in smooth, high output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and steer the watercraft while decelerating.

**Independent Water-jacketed Exhaust Manifolds with Collector:** Keep noise and heat under control while achieving high power.

**Corrosion Protection System:** Sacrificial zinc anodes protect the engine from harmful galvanic corrosion. Stainless steel fasteners provide a long service life. Cases, cylinders and heads are specially treated to provide a barrier between corrosion and engine parts.

**Electronically controlled, Variable Ignition Timing:** For exact ignition advance control at all throttle positions and RPMs.

**155mm Hyper-flow Jet Pump Propulsion:** Three-blade stainless steel impeller maximizes water flow for high performance. FX pump configuration provides excellent hook-up and smooth acceleration.

**Reverse with Traction Control Technology:** Another industry first. Maintains perfect RPMs for manoeuvring with the watercraft in reverse.

**Four-step Adjustable Tilt Steering System:** Adjusts the steering column angle from 55 degrees to 35 degrees.

**Quick Shift Trim System (Q.S.T.S.):** Mechanically operated, offers instant change in the attitude of the watercraft while underway allowing for tighter turns or quicker acceleration on plane. Q.S.T.S. offers 24 degrees of total trim range.

**NanoXcel Hull and Deck:** The world's first hulls and decks manufactured with nanotechnology. Yamaha's NanoXcel ultra-light, super strong material reduces hull, deck and liner weight by 25 percent and increases acceleration, top speed and handling. NanoXcel offers a smoother, shinier finish, reducing water surface tension providing a more responsive ride.

**Stepper Draft V-Hull with Integrated Bow Spray Guard:** For excellent manoeuvrability, handling and comfort.

**Multi-function Electronic Information Centre:** A quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, battery voltage, overheat warning, hour meter, check engine light with self diagnostic function and the industry's only audible warning system.

**Industry's First Remote Controlled Transmitter:** Activate or deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Allows top speed to be reduced by nearly 30 percent.

**Yamaha Security System:** Ensures no one starts the FX SHO without your permission.

**Foot Chocks:** The foot chocks, seat and handlebar, create a three-point contact system to reduce tension on the driver's arms and legs.

**100 Litres of Total Storage:** Large cooler, rear storage and glove box.

**Large Boarding Platform with Retractable Step** for easy re-boarding.

**Glove Box with Self-Draining Beverage Holders:** An industry first!

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

**Cruise Assist:** The first of its kind in the industry, Yamaha's exclusive Cruise Assist lets you set and hold a specific engine speed, which can easily be raised or lowered with the touch of a button.

**No Wake Mode:** When activated, this Yamaha exclusive moves the engine's RPMs to an optimal speed for efficiently navigating through a no-wake zone.

2008 WAVERUNNER

# FX CRUISER

## HIGH OUTPUT

The most fuel-efficient watercraft in the industry, Yamaha's FX Cruiser High Output was built for long-distance touring, high-excitement water sports and endless hours of family fun. Underneath the exclusive Cruiser seat with hip bolsters, the automotive-inspired dash and the beautifully finished body, you'll find the compact, lightweight Yamaha MR-1 High Output marine engine. Adjustable tilt steering lets you customize handlebar positioning and raised foot chocks add to your comfort. You'll also find the industry's only remote-controlled security system with Low RPM Mode. This is one full-featured ride.

## KEY FEATURES

**The FX Cruiser HO is powered by a Yamaha MR-1 Four-Stroke Engine.** This 1052cc, four-cylinder, four-stroke engine delivers more power in a lighter package than any other full-size, four-stroke normally aspirated watercraft in the industry.

**Electronic Fuel Injection (EFI):** Delivers smooth, high power output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Reverse:** Back up off your trailer or out of tight spots where you cannot turn around easily.

**Five-step Adjustable Tilt Steering System:** Adjusts the steering column angle from 55 degrees to 35 degrees.

**Quick Shift Trim System (Q.S.T.S.):** Mechanically operated, offers instant change in the attitude of the watercraft while underway allowing for tighter turns or quicker acceleration on plane. Q.S.T.S. offers 24 degrees of total trim range.

**NanoXcel Hull and Deck:** The world's first hulls and decks manufactured with nanotechnology. Yamaha's NanoXcel ultra-light, super strong material reduces hull, deck and liner weight by 25 percent and increases acceleration, top speed and handling. NanoXcel offers a smoother, shinier finish, reducing water surface tension providing a more responsive ride.

**Multi-function Electronic Information Centre:** Get a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, battery voltage, overheat warning, hour meter, check engine light with self diagnostic function and the industry's only audible warning system. Exclusively on our Cruiser models, compass direction, air temperature, water temperature and fuel consumption rate are also included.

**Industry's First Remote Controlled Transmitter:** Activate or deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Top speed is reduced by nearly 30 percent when activated.

**Yamaha Security System:** Ensures no one starts the FX Cruiser HO without your permission.

**Foot Chocks:** The foot chocks, Cruiser seat and handlebars create a three-point contact system to reduce tension on the driver's arms and legs.

**100 Litres of Total Storage:** Includes a large cooler, rear storage and glove box.

**Large Boarding Platform** for re-boarding stability.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

2008 WAVERUNNER

# FX HIGH OUTPUT

The FX series pioneered the four-stroke revolution, and the 2008 FX High Output is no exception. Our most popular FX model attracts performance junkies with its sports car styling and performance. The ultra-compact, fuel-efficient 1052cc Yamaha MR-1 High Output engine delivers unequalled power and speed, while the Yamaha-exclusive NanoXcel high-compression moulded hull creates an exciting, performance-driven ride complemented by super-responsive, nimble handling. You'll be amazed at the muscle-car performance our FX High Output WaveRunner offers every time you get on the water.

## KEY FEATURES

**The FX HO is powered by a high output Yamaha MR-1 four-stroke engine.** This 1052cc, four-cylinder engine delivers more power in a light package than any other full-size, four-stroke normally aspirated watercraft in the industry.

**Electronic Fuel Injection (EFI):** Delivers smooth, high power output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Reverse:** Back up off your trailer or out of tight spots where you cannot turn around easily.

**Five-step Adjustable Tilt Steering System:** Adjust the steering column angle from 55 degrees to 35 degrees.

**Quick Shift Trim System (Q.S.T.S.):** Mechanically operated, offers instant change in the attitude of the water while underway allowing for tighter turns or quicker acceleration on plane. Q.S.T.S. offers 24 degrees of total trim range.

**NanoXcel Hull and Deck:** The world's first hulls and decks manufactured with nanotechnology. Yamaha's NanoXcel ultra-light, super strong material reduces hull, deck and liner weight by 25 percent and increases acceleration, top speed and handling. NanoXcel offers a smoother, shinier finish, reducing water surface tension providing a more responsive ride.

**Multi-function Electronic Information Centre:** Provides the operator a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, overheat warning, hour meter, check engine light with self diagnostic function.

**Industry's First Remote Controlled Transmitter:** Activate or deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Top speed is reduced by nearly 30 percent when this feature is activated.

**Yamaha Security System:** Ensures no one starts the FX HO without your permission.

**100 Litres of Total Storage:** Includes a large cooler, rear storage and glove box.

**Comfortable Two-piece seat:** Ergonomically designed and contoured for added support. The extra long seat is easily removed for quick access to the engine and cooler.

**Extra Large Boarding Platform with Retractable Re-boarding Step:** Provides re-boarding stability.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

2008 WAVERUNNER

# VX CRUISER

The most affordable Cruiser in our family, the VX Cruiser was the best-selling PWC in the industry in 2007, and it's easy to see why! The entry-level cruiser that feels like a million bucks features many luxurious comforts and makes both the shortest trips and those long aqua-adventures a breeze. The VX Cruiser's high-compression moulded hull adds to its unique capabilities, coming with high-performance sponsons that create a rousing, confident ride. Passenger handholds, a cruiser seat and an extra large re-boarding platform add function, comfort and style to the excitement.

## KEY FEATURES

The VX Cruiser is powered by a **Yamaha MR-1 four-stroke engine**. Compact, ultra-lightweight, four-cylinder, 1052cc, DOHC, 20-valve, liquid-cooled engine pumps out class-leading performance.

**Electronic Fuel Injection (EFI):** Delivers smooth, high power output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Reverse:** Back up off your trailer or out of tight spots where you cannot turn around easily.

**Multi-function Electronic Information Centre:** Provides the operator a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, overheat warning, hour meter, check engine light with self diagnostic function.

**Industry's First Remote Controlled Transmitter:** Activate or deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Top speed is reduced by nearly 30 percent when this feature is activated.

**Yamaha Security System:** Ensures no one starts the VX Cruiser without your permission.

**70.8 Litres of Total Storage:** Includes a large bow storage locker and glove box.

**Extra Large Boarding Platform** for re-boarding stability.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

2008 WAVERUNNER

# VX DELUXE

Yamaha's multiple-award-winning VX Deluxe took the industry by surprise. Featuring class-leading performance and luxury features at thousands less than competitor's, nothing can match it. Powered by a lightweight, clean-burning Yamaha 1052cc marine engine, it's built for low maintenance and long life. It also features the most fuel-efficient engine in the industry and an electric throttle, unheard-of in its class. Featuring amenities such as remotely controlled security, dual concave mirrors and a reverse gear, it's easy to see why recreational riders love the Yamaha VX Deluxe. Comfortable and stylish without compromising on performance, our VX is the perfect choice for those who won't settle.

## KEY FEATURES

**The VX Deluxe is powered by a Yamaha MR-1 four-stroke engine.** Compact, ultra-lightweight, four-cylinder, 1052cc, DOHC, 20-valve, liquid-cooled engine pumps out class-leading performance.

**Electronic Fuel Injection (EFI):** Delivers smooth, high power output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Reverse:** Back up off your trailer or out of tight spots where you cannot turn around easily.

**Stepper Draft V-Hull with Integrated Bow Spray Guard:** For excellent manoeuvrability, handling and comfort.

**Multi-function Electronic Information Centre:** Provides the operator a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, overheat warning, hour meter, check engine light with self diagnostic function.

**Industry's First Remote Controlled Transmitter:** Activate or deactivate the digital Yamaha Security System and Low RPM mode from up to 30 feet away, with the simple push of a button.

**Low RPM Mode:** Top speed is reduced by nearly 30 percent when activated.

**Yamaha Security System:** Ensures no one starts the VX Deluxe without your permission.

**70.8 Litres of Total Storage:** Includes a large bow storage locker and glove box.

**Comfortable One-piece Seat:** Ergonomically designed and contoured for added support. The extra long seat is easily removed for quick access to the engine compartment.

**Extra Large Boarding Platform** for re-boarding stability.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

## 2008 WAVERUNNER

# VX

The number one choice for PWC rental operations around the world, the Yamaha VX offers not only an unparalleled starting price point, but unequalled reliability, durability and fuel economy. The VX may be an entry-level craft, but with its high-compression moulded hull complete with an integrated bow spray guard, comfortable three-person seat and swim platform designed for easy reboarding, you'd never know it. Boasting a lightweight, clean-burning, 1052cc marine engine, this PWC isn't lacking in power or style. Yamaha's VX is the most value-packed PWC available.

## KEY FEATURES

**The VX is powered by an inline four-stroke Yamaha engine.** Compact, ultra-lightweight, 110-horsepower, four-cylinder, 1052cc, DOHC, 20-valve, liquid-cooled engine pumps out class-leading performance.

**Electronic Fuel Injection (EFI):** Delivers smooth, high power output with low fuel consumption and low exhaust emissions.

**Slant Detection Switch:** Electronic switch cuts engine and oil pumps immediately if watercraft becomes overturned, protecting motor from water ingestion.

**Yamaha Engine Management System (Y.E.M.S.):** Integrated, computerized management system controls and adjusts ignition timing, fuel injection mapping, engine diagnostics and Off Throttle Steering (OTS). OTS activates when you release the throttle and attempt to steer the watercraft while decelerating.

**Progressive V-Hull with Integrated Bow Spray Guard:** For excellent manoeuvrability, handling and comfort.

**Multi-function Electronic Information Centre:** Provides the operator a quick read on speed, RPM, fuel level, low fuel warning, low oil pressure warning, overheat warning, hour meter, check engine light with self diagnostic function.

**70.8 Litres of Total Storage:** Includes a large bow storage locker and glove box.

**Comfortable One-piece Seat:** Ergonomically designed and contoured for added support. The extra long seat is easily removed for quick access to the engine compartment.

**Extra Large Boarding Platform** for re-boarding stability.

**Yamaha's Trademarked Visibility Spout:** A waterspout from the rear of the craft allows you to be seen by other boats.

## ACCESSORIES & APPAREL

### A. Waverunner Cover

Because your WaveRunner is such an important investment, you want to keep it looking its best. Yamaha's durable, high-quality covers are designed to help protect your WaveRunner's appearance. Each cover features superior construction and materials to help provide long life, as well as a custom fit. Attractive matching colours and graphics provide a stylish accent. Features Yamaha's Vacu-Hold® design, which creates a vacuum inside the cover during transit to draw the cover down snugly on your WaveRunner. Benefits include reduced deck abrasion, reduced air-induced stress on the seams, and aerodynamic drag. Constructed of ultra-durable SurLast™ fabric for the ultimate protection against fading and the elements. It is also non-abrasive, water-repellent, and provides UV, mildew, and rot resistance. Additional features include a handy convenience zipper for access to the fuel tank cap, as well as front and rear eyelet access holes for mooring and trailering needs.

 Blue **MAR-RPFLT-BL-24 \$22.95**  
**48"**  
 Black **MAR-RPFLT-BK-48 \$31.95**  
 Blue **MAR-RPFLT-BL-48 \$31.95**

### C. Deluxe Wakeboard/Kneeboard Ski Rope Combo

A multipurpose 4-in-1 ski rope designed to be easily adjustable to the correct length for the desired towing activity – the best rope Yamaha offers. Features a single 13-inch ski handle with extended moulded end caps and finger protectors, and constructed of four colour-coded, 16-strand removable sections. Comes with a handy wrap that helps keep the rope neatly coiled when stored.

**MAR-SKIRO-PD-LX \$84.95**

### D. Wakeboard Rope

This wakeboard rope has a head turning 15", "Squid"-patterned, EVA-wrapped grip with a floating aluminum core. The 5/16", 16-strand, UV-treated, low-stretch PE rope has three sections for wakeboarding: 45, 55 or 65 feet. Full-length finger guards help create a comfortable split finger grip. A Rope Keeper is included for tangle-free storage.

**MAR-DLX WK-RP-06 \$49.95**

### E. Dual Rider Tow Rope

This tube tow rope has two sections, giving you the option to be either 50 or 60 feet behind the boat depending on wake and water conditions. The pre-stretched, UV-resistant, 7/16"-diameter, 16-strand rope exceeds the 2,375-lb break strength required by the WSIA for 2-rider tubes. A Rope Keeper is included for convenient storage.

**MAR-TUBER-OP-06 \$21.95**

### F. Wakeboard

This board has a versatile shape designed to provide a superb ride for a wide variety of riders. This board is 137cm in length and has 2 moulded-in fins on each end to provide additional stability. The bottom of the Yamaha wakeboard uses a continuous rocker to make for consistently smooth transitions into the wake every time. Custom Yamaha graphics for style. Bindings sold separately.

**MAR-WAKEB-RD-07 \$357.95**

### G. Deluxe Wakeboard Bindings

Our deluxe adjustable bindings were designed with ease of entry in mind. The unique combination of the heel and toe overlay into one allows for both style and adjustability. The front lace design allows for quick entry/release and accommodates a wider variety of foot sizes. These bindings will not only feel good in the water, but also offer simple function at a more affordable price. Accommodates most foot sizes.

**MAR-BINDI-NG-07 \$199.95**

### H. Kneeboard

This Yamaha kneeboard is lightweight, stable and responsive. Its traditional V-shape design provides fast responses, smooth fluid turns and big air off the wake. The contoured EVA kneepad has deep knee wells and reinforced toe areas. The 3" wide adjustable strap is cushioned for comfort.

**SBT-KNEEB-RD-08 \$399.95**

### I. Towable Deck Tube

This 58" round deck tube is one hot ride, built to last and a great value. The rugged, 30-gauge PVC bladder is completely covered by a double-stitched 840-denier nylon cover. Two topside neoprene panels are strategically placed for comfort. It's equipped with four deluxe handles with neoprene knuckle guards, a convenient Quick-Connect for easy hook-ups and a Boston valve for quick inflating and deflating. Also offers a boarding strap for easy boarding from the water. Designed for 1 or 2 riders up to a total of 340 lb.

**MAR-DTUBE-58-06 \$199.95**

**J. Handlebar Pack**

Mounts easily on the handlebars. Offers convenient storage area for sunglasses, extra wrist lanyards, etc. Features include easy-to-use hook-and-loop fastened straps for easy installation and removal. A heavy-duty waterproof storage pocket has been integrated into the Handlebar Pack for keeping selected items (such as wallets, keys, etc.) dry and handy. Fits all WaveRunner models

**Black MWV-HPACK-00-00 \$64.95**

**K. Multi Colour Registration Kits**

Contains four fuel-resistant stickers of each letter (A-Z) and numbers (0-9).

**Forest Green MAR-TEBKG-20-12 \$27.95**  
**Brown/Black MAR-BRBKG-20-89 \$27.95**  
**White/Black MAR-WHBKG-20-19 \$27.95**  
**Silver/Black MAR-SIBKG-20-16 \$27.95**

**L. Deluxe Registration Kits**

Contains four of each letter (A-Z) and numbers (0-9).

(inside colour/outside colour)

**Tan/Green MAR-REGKT-DX-07 \$18.95**  
**Tan/Burgundy MAR-REGKT-DX-08 \$18.95**  
**Tan/Maroon MAR-REGKT-DX-09 \$18.95**  
**White/Silver MAR-REGKT-DX-10 \$18.95**

**M. Lift Harness**

Our new lift harness is very useful in moving even the heaviest Yamaha WaveRunner. The brackets grip tight and are vinyl coated to help protect the finish. The two large stainless steel D-rings can be easily connected to a davit or other suitable lifting mechanism. Double-layer, high-strength webbing has superior UV and saltwater resistance. The harness is just the thing for dealership use as well as for owners who need to lift their WaveRunners. Rated up to 1100 lb.

**MWV-WVLFTHR-ES \$249.95**

**N. Deluxe WaveRunner Stand**

This new premium WaveRunner stand has been specifically developed for our current heavier models. This stand boasts a 1200 lb. capacity rating, 6-inch swivel casters for easy movement, a pair of braking casters, 19-inch load height, long 57-inch bunks for stability, and a black powder-coated steel tube frame with caster reinforcements. This stand will look great in the showroom, and will be a workhorse in the Service Department or garage.

**MWN-WDLX-ST-ND \$373.95**

**O. WaveRunner Pro Lanyards with Whistle**  
 Marine grade webbing with neoprene liner. Very comfortable and it floats for your convenience. Includes wrist strap, coiled cord, and clip for stop switch.

Fits all WaveRunner models (not suitable for Yamaha Boats)

**Red (Shown) MWV-PROLN-YD-RD \$29.95**

**D**ue to Yamaha's ongoing commitment to product improvement, we reserve the right to change without notice, equipment, materials or specifications. Your Yamaha dealer is the best source for up-to-date product information. Read and follow the operation and maintenance guidelines provided by Yamaha in your owner's manual. Always observe all applicable boating laws. Never drink or take drugs and ride. Dress properly with a CCG-approved personal floatation device. Persons under the age of 16 years cannot operate a personal watercraft without exception. Yamaha recommends all riders take an approved safety training course. All information, specifications and appearance of Yamaha products contained in this brochure are subject to change without notice. Some US models shown.
