---

**FLUSH FLOOR Slide out rooms**

- **The SuperNova includes flush floor slides for a clean residential look and feel.**

- **Dual metal H-Ducted air conditioning system eliminates mildew causing condensation and is wrapped in foil bubble insulation for improved climate control.**

- **Stain Resistance - Fiberglass Flexroof is designed to resist staining and maintain its quality appearance.**

- **Structural Integrity - Unlike conventional EPDM rubber root membranes, Flexroof is a structural component of the roof system.**

- **Textured Fiberglass - Helps dissipate heat and prevents tree limbs from tearing or scratching your roof.**

Our residential style cabinets are constructed of solid hardwood doors and fronts that are pre-drilled and screwed, then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading, and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.
