The vagabond life. Going where you want to go and doing what you want to do, when you want to do it. It’s life close to nature and close to loved ones. It’s that relaxed cup of coffee by the lake. And it’s life in one of the best motorhomes ever built — DayBreak by Damon.

A DayBreak motorhome is amazingly affordable — with an array of standard features and a flair for style unmatched by anything else in its price range. It’s richly appointed with a long list of amenities you would typically find on higher-end vehicles. And with all of this value, DayBreak is a big, full-size, full-throttle wide-body with all the power and performance you’re ever likely to need.

If you’re thinking of jumping on board the RV experience and leaving boredom behind, DayBreak is the perfect place to start. DayBreak is even more value-packed for 2008. Here are just a few of the highlights: A new floorplan with a king-size bed and a 26” LCD TV; two new décor packages — Morro Cove and Redwood Creek (along with popular Hickory Pointe from last year); a beautiful streamlined front cap; and a one-piece tinted windshield that improves the driver’s vision and safety and provides a panoramic view of the road. A bigger 7” backup monitor system is also new for 2008, as are new furniture and valance packages. Big, beautiful faux leather captain’s chairs recline and swivel for added comfort — a great standard feature.

Life Begins at DayBreak.

A. The living is easy in the vast DayBreak interior. The wide-body style is open and airy, plus the spacious slideouts give you even more “living” room.

B. Beautiful hardwood cabinets highlight the gourmet kitchen. Notice all of the storage space.

C. New captain’s chairs are contemporary, comfy and adjust to your most comfortable driving position. All controls are easy to see and operate. There’s a stereo, AM/FM/CD player, MP3 compatible, to keep you entertained. And the backup monitor and camera increase safety and driver confidence.
Standard features add value to your motorhome. And DayBreak is as good as gold when it comes to standards — offering more than just about any competitive model in its price range.

THE GOLD STANDARD.

The side-mounted patio awning offers a cozy courtyard area that’s a welcome respite from the hot summer sun. Automatic leveling jacks with added touchscreen controls assure trouble-free operation. The heavy-duty trailer hitch lets you haul 5,000 pounds of whatever — fishing boat, trailer, even a “dinghy” car. An AM/FM radio and CD player in the dash area is MP3 ready. Plus the 27” color TV and (new this year) Toshiba® DVD package with player and control center let you enjoy your favorite shows and movies whenever the mood strikes you.

A. The bunk beds are a terrific family option — especially if your family is a big one with small ones. These beds, plus the master bedroom, mean you can sleep four comfortably. And that doesn’t include Damon’s Dream Dinette that easily converts to a full-size bed for even more cozy sleeping options.

B. You’ll find more storage in the solid wood lower cabinet drawers.

C. And even more storage outside in the huge pass-through storage compartments.

D. Lots of beautiful wood, and storage, too, in the generous bathroom.

E. You’ll find a handy giant pantry next to the refrigerator double doors which include natural panel solid wood fronts. Pantry doors offer convenient full extension glides so you can see what’s in the way back (which is usually what you’re looking for).

F. The LCD TV in the bunk area will keep the kids entertained and occupied.
There is really no comparison between DayBreak and the competition. DayBreak is simply head and shoulders above everybody else. Just check out the paint package, the décor treatments and especially the floor plans and you’ll agree.

**Décor**

Several treatments, including a few new ones, make our décor packages harder than ever to choose. Everything is coordinated — fabrics, flooring, rich hardwood cabinetry and window treatments — to harmonize with DayBreak’s surroundings and present a tasteful, timeless environment.

**Floor Plans**

Just take a look at all of our floor plan options, especially the new 3578 plan with a king-size bed and LCD TV. You’ll love it. All are smartly designed to provide the most spacious comfort and unsurpassed motorhome living.

**Paint**

DayBreak’s exterior paint package offers a wonderfully fluid, sweeping appearance. The bold, clean graphics are contemporary and eye-catching — far beyond what the competition offers.

**Beyond Comparison.**

When we design motorhomes, we always design more standard features and value into them than our competitors. “Value by Design” we call it. It’s our guiding principle, our way of doing business. When we offer more of your favorite amenities standard, we become more efficient. Construction is more streamlined. And you get more motorhome. For less.

“Value by Design.” It’s more than a golden thread, more than a slogan; it’s our way of delivering more motorhome and value for less money, by design.

Damon has a golden thread that weaves its way into everything we do.
