CHAPARRAL

“There are four cornerstone reasons why Chaparral is “Leading By Design.” We’ve built our company around these time tested ideals. Yes, other boat builders share some of these same common denominators... the difference is nobody puts it all together like Chaparral.

Jim Lane, President and Buck Pegg, Founder, Chaparral Boats

DESIGN INNOVATION

We’re passionate about new product development at Chaparral. It’s the heartbeat of our company. Our professional engineering team doesn’t look at new boat projects as a job, but as a pursuit of excellence. Step onboard any Chaparral and marvel at the mixture of expert craftsmanship and high tech innovation. We could write volumes about our new boats, but far better than catalog hype, just let the facts speak louder than words. We’ve introduced 19 new boats in the last four years, three new boats this year alone. How does Chaparral’s new product development rate against rivals? Ask the experts. The fact is, in our 45 year history we’ve won an unparalleled 41 awards for product excellence including 12 Boat of the Year trophies. Case closed.

LEADING BY DESIGN

CUSTOMER SERVICE

From the integrity of the purchasing process, to working with a knowledgeable dealer, to providing outstanding service, Chaparral appreciates that time spent on the water is prime time for you. Customer service is a top priority at Chaparral. We want every aspect of your boat buying experience to be as high quality as our boats. So, how do we rate? At the top of the charts. Chaparral’s CSI score is 95%+. The marine industry average is 92%. An astonishing 90% of our domestic dealers have a CSI score between 90%-100%. Chaparral has earned the NMMA CSI Award for Excellence In Customer Satisfaction three years in a row and we’ve won in every segment of boats that we build: bowriders, deckboats, cuddy and express cruisers.

MISSION STATEMENT

Chaparral’s mission is to build world-class boats. We constantly strive to provide the best in Innovation, Quality, Value, Service and Business Integrity for our customers, dealers, suppliers and employees.

FINANCIAL STRENGTH

Is performance the way a boat handles in ever changing water conditions or the confidence of knowing your boat builder has the financial strength to service your future needs and maintain the highest quality standards? At Chaparral it’s both. Chaparral’s reputation for being among the best managed companies in the marine industry is well earned and time-tested. Our top management team has been in place from day one and steers a consistent, steady ship. Traded on the NYSE under the symbol MPX, our strong zero-debt balance sheet is a verifiable matter of public record...a claim most rivals can’t make. Today, more than ever, you’re not buying just a boat, you’re also buying a company. Choose wisely. Choose Chaparral.

WORLDWIDE DEALER NETWORK

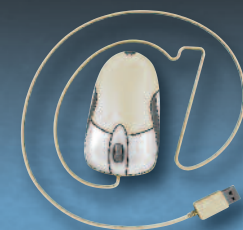

Your local Chaparral dealer is your link to our world headquarters in Nashville, Georgia. Chaparral’s dealer network spans the globe and ranks among the industry’s finest. Professional, knowledgeable and keyed into all aspects of owning a Chaparral, your dealer is dedicated to helping you create the ultimate boating lifestyle. Because nothing compares to the joy of family boating, your Chaparral dealer wants to get you on the water...and then provide a level of support and service that keeps you there. Our desire to build win-win relationships filters through every layer of our organization. Loyalty and experience are key. Many Chaparral dealers have been part of the family for more than 20 years, some have been with us almost from our start in 1965.

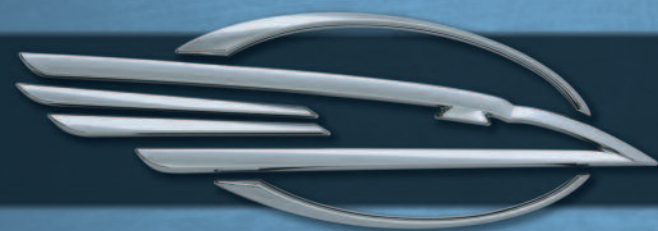

AN AWARD WINNING COMBINATION

In the battle of the trophy cases, what separates us from all the rest is the diversity of our awards. Chaparral's boats have been recognized for quality, design innovation, value, performance, customer service and as the Overall Boat of the Year. We've won at every length and in every segment.

We encourage you to visit our information-packed website and enjoy the Chaparral experience. Online, you can pinpoint your local dealer then click your way to pricing the boat of your dreams. We also keep you up to speed with the latest specifications and invite you to take a video ride in what might well be your next new sport boat purchase. Want to share boating insights with fellow owners? Our Owner's Club is the perfect on-the-water social forum.

CHAPARRAL

LEADING BY DESIGN

BOATING'S WORLD HEADQUARTERS

What started out more than 45 years ago as a small fiberglass fabrication shop in Southern Florida has grown to become one of the largest independent manufacturers of stern drive pleasure boats in the world. From our base of operations in Nashville, Georgia we have nearly 1,200,000 square feet under roof spanning more than 100 acres. Boats are our only business. Always have been. Centering our entire operation in one locale allows extremely high quality standards. And we can prove it. Chaparral has earned ISO 9001:2008 certification which ranks as the industry's highest standard. Buyers enjoy the confidence of knowing Chaparral maintains the most exacting and consistent quality and design manufacturing controls.

**SPORT BOATS
TOW BOATS
CRUISERS
SPORT YACHTS**

**A COMPLETE FLEET
FOR 2011**

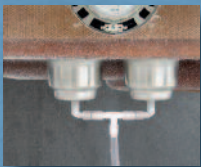

With 26 models ranging in length from 18- to 42-feet, Chaparral has the perfect boat your family's needs. In addition to the SSI, SSX, Sunesta and Xtreme entries included in this Sport Boat brochure, Chaparral also builds a line of top-rated Signature Cruisers along with a 420 Premiere Sport Yacht that was a Boat of the Year winner on the day it was launched. No matter what your budget, need for speed, or where you go boating, make Chaparral your boat of choice.

THE BEST SEAT IN THE HOUSE IS IN YOUR BOAT

Nobody does seat construction better than Chaparral. Our Dura Life Max bucket seats are supportive, comfortable, stylish and built to last. On select models our base bucket offers an underseat mechanism for effortless adjustments. Our innovative all new Premium bucket seat, standard on SSX and Xtreme models and optional on other boats, features handy lever controls in the armrests for easy movement fore and aft or swivel. Both seats feature a flip up front cushion for stand-up or sit down operation. In the up position, the cushion fits close enough to form an elevated bolster. Our bucket seats are designed with both lumbar support and spring cushioning for extra comfort. Select models also have stylish embroidered accents.

ALWAYS READY FOR A PARTY ON THE WATER

Conveniently located, our insulated ice chests keep cold drinks cold and have an integrated drain so you never have to deal with melted ice. Many boats also have a portable ice chest so it's easy to transport the party to the shore. Select models even have a drainage system in the stainless steel drink holders so condensation never seeps into the storage areas. Unlike rivals that just use molded fiberglass, our high-end cockpit wet bars feature durable and long-lasting solid surface countertops.

CHAPARRAL

IT'S WHAT'S INSIDE THAT COUNTS

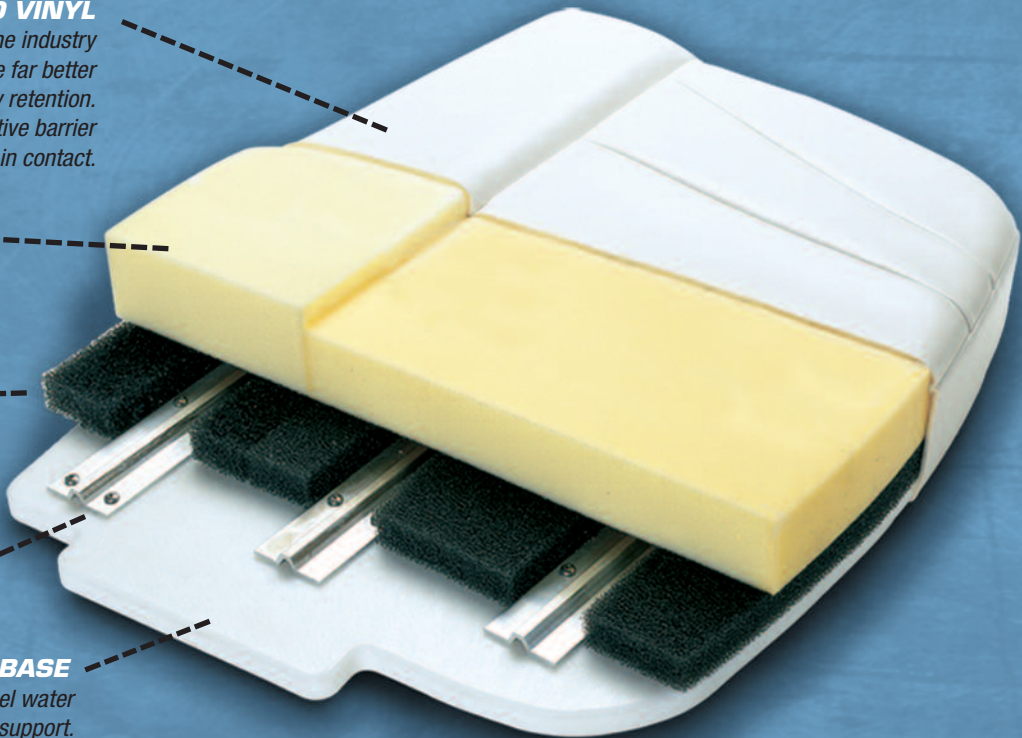

36 OUNCE DURA LIFE MAX EXPANDED VINYL
With 75% more UV protection than the industry standard, our 36-ounce expanded vinyl holds its shape far better than lightweight fuzzy back vinyls which lack memory retention. Finally, a 10 mill top coat provides a protective barrier against almost anything that comes in contact.

HIGH DENSITY FOAM
Our high density foam with mildew inhibitors is soft enough for a comfortable ride, yet sturdy enough to maintain its shape even over the long haul.

FLOW FOAM
We add a protective layer of flow foam between the structural foam and the seat base to create additional space for moisture to escape.

ALUMINUM SUPPORTS
Most forego the added expense of aluminum supports which improve seat life and enhance durability.

STARLITE SEAT BASE
High density Starlite composite seat bases repel water better than wood and provide superior support.

WINNING THE WATERSPORTS GAME

We understand that watersports rank high on the priority list for family boaters. In the cockpit, we do the competition one better with infloor wakeboard-sized ski lockers that have a drainage system to help divert water away from gear. Stainless steel gas assist supports allow one-handed access. Aft, our integrated swim platforms are among the widest and deepest on the water. Most of our boats have walk-thru access and a storage locker aft so equipment always stores within arm's reach. Our telescopic boarding ladders have a top rung grab handle, stow in a special platform compartment and are starboard mounted so the driver can always keep a watchful eye on anyone in the water. Finally, our custom wakeboard towers are strong, stylish and ready for all kinds of high flying action.

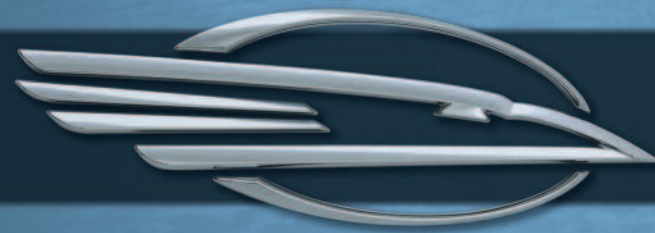

KEVLAR REINFORCED QUAD RADIAL LAMINATION

A noteworthy difference that distinguishes Chaparral from most rivals, is our boats are reinforced with Dupont™ Kevlar® for a strong, secure and quiet ride. Considered among the strongest composites available, Kevlar is used when lives are on the line in military applications and in the construction of bulletproof vests. That's right, they go to war with this stuff. Most builders shun the extra cost. We wouldn't have it any other way. With a Kevlar backbone, Chaparral's Quad Radial Lamination features a time-tested fiberglass-to-resin ratio that ensures optimum strength and weight efficiency. We also tie our stringers and bulkheads together for ultimate strength. On select models, closed cell foam is injected into all cavities under the floorboards for a quiet ride and added rigidity.

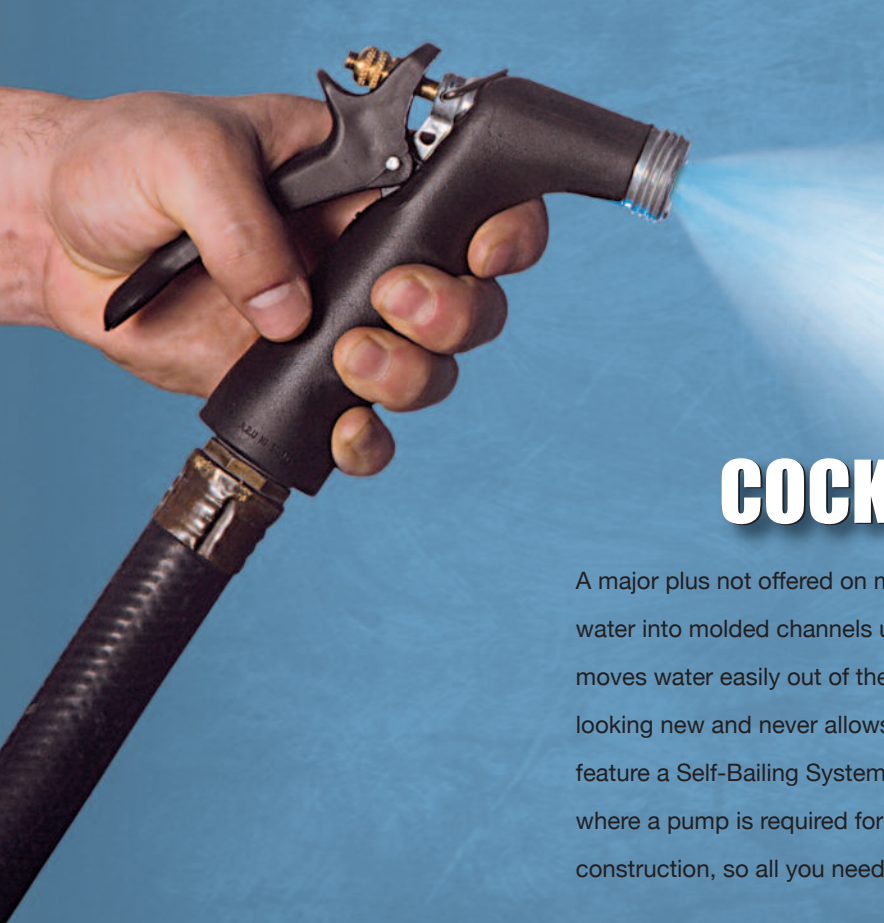

HARDWARE THAT'S BUILT TO LAST

Pay close attention when it comes to hardware because many builders take shortcuts in this all-important area. Not Chaparral. We use high quality stainless steel exclusively for our bow and stern eyes, latches, rails, grab handles, telescoping boarding ladders and ski eyes. All of our stainless steel cleats can accept full-sized dock lines. Furthermore, our aft cleats are positioned so you can cross tie without hull chaffing. Sparing no expense, all of our stainless fasteners are chrome plated for the ultimate in protection. Finally, our thru-hull fittings are electro-plated stainless steel, a substantial upgrade compared to plastic fittings.

CHAPARRAL

LEADING BY DESIGN

COCKPIT DRAINAGE SYSTEMS

A major plus not offered on most rivals, Chaparral's exclusive Cockpit Drainage System (CDS) routes water into molded channels under the seats, in the storage lockers and throughout the cockpit. CDS moves water easily out of the cockpit and overboard or to the bilge which helps keep your new boat looking new and never allows water to collect causing mildew and deterioration. Select models also feature a Self-Bailing System that automatically routes water directly overboard and not to the bilge where a pump is required for removal. All models are designed with a fiberglass innerliner cockpit construction, so all you need is a scrub brush and a hose when it's time to clean up.

YOU'RE ALWAYS IN COMPLETE CONTROL

Our premium quality, glass-lens digital and analog gauges are designed for ultimate accuracy and are fog resistant. Aluminum faces and stainless steel bezels add a touch of class. Tilt steering ensures gauge visibility is never a problem and all boats feature high quality Power-On rocker switches with a precise, accurate and tactile feel. All switches are all clearly identified, feature red bar activation lights and illuminated icons for nighttime operation. A standard dimmer switch allows you to dial in precise lighting no matter what the hour. Finally, Chaparral relies exclusively on circuit breakers instead of bothersome fuses. Water resistant casings help withstand the rigors of the marine environment.

LEADING BY DESIGN

AT THE BOTTOM LINE CHAPARRAL DELIVERS AWARD WINNING PERFORMANCE

Extended V-Plane is a no-nonsense approach to bottom design. Unlike rivals that come up as much as two feet short in the critical area where the fiberglass meets the water, our award-winning Extended V-Plane running surface stretches full length. Especially in demanding and ever changing water conditions, a longer and wider running surface means smoother, more controlled performance. Extended V-Plane puts the all important area beyond the stern drive gimbal cut-out cavity to work so every inch of fiberglass you paid for is delivering the best ride possible. The added length acts like trim tabs, allowing our boats to stay on plane at slower speeds with improved fuel economy while towing wakeboarders. Additionally, you won't find a quicker planing V-bottom. Carve a hard turn and feel the chines, keel and strakes work in precision harmony to create the most controllable ride possible. Finally, no matter how many passengers are onboard, you'll enjoy added stability while wakeboarding, diving, fishing or swimming.

SPORT HELM

What are you looking for in a dash? No glare. Unique styling. Precision instrumentation. Clear legibility on night time cruises. Easy access to onboard accessories. Chaparral puts it all in your hands...and so much more. If you had to pin point the most distinct difference between Chaparral and our rivals it's our dash design. All SSI's come with a dimmer switch, Illuminated Power-On rocker switches, a sure grip steering wheel and high quality, glass-lens instrumentation. Circuit breakers, not fuses, mount under the dash and an MP3 holder is affixed to the gunwale. Optional Garmin electronics mount in the center of the dash.

MULTI-PURPOSE SUNLOUNGE AND WALK THRU TRANSOM

All SSI Wide Techs have an oversized multi-purpose sun lounge. A triple position lounge (shown) that either folds flat, angles into a chaise lounge or flips out of the way is standard on the 216/206 / 246 and optional on the 196. Additionally, all SSI Wide Techs (except 186) have walk-thru transom passageway that keeps footprints on the floor, not the upholstery. Sure footed non-skid is easier to clean than less expensive silica materials. Additionally, all of our walk-thru models have floor storage at the transom for convenient access to water sports equipment.

Oh So Many Reasons Why

RECESSED GUNWALES

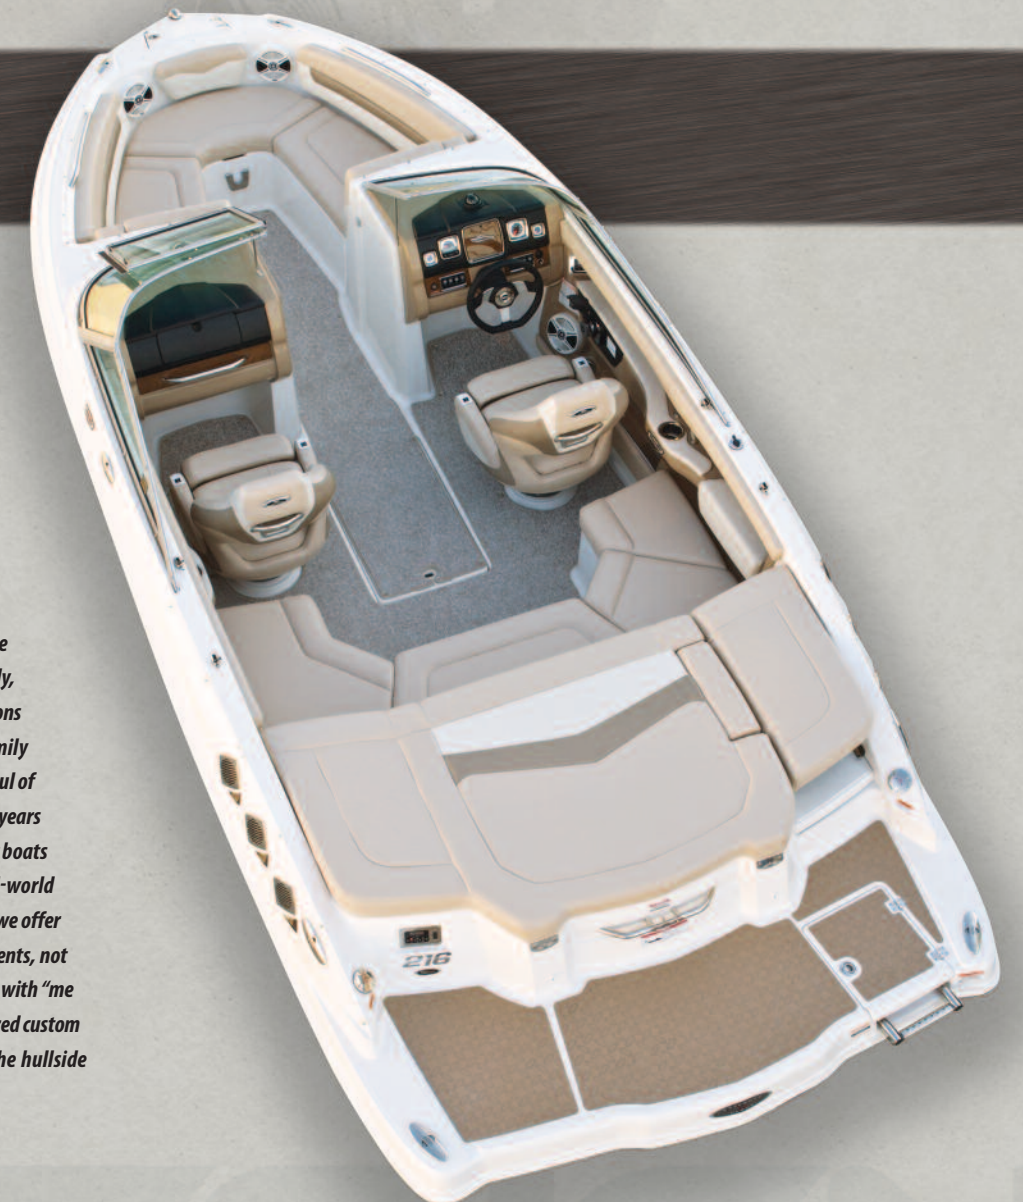

Goodbye carpet. Goodbye wood. Our recessed molded gunwales take the words "fit and finish" to a whole new level and add valuable space to the cockpit. Integrated drink holders and angled speaker mounts are a molded part of a gunwale. Full-length armrests and stainless steel grab handles are a comfort plus.

PATENTED WIDE TECH BOW DESIGN

So unique, it's patented, the difference between SSI Wide Tech and other twin tip bow designs is our style lines blend into the hullsides. Consequently, you can enjoy added room and still retain the performance benefits of a true V-bottom design. Not so on rivals where you have to live with a rough riding, poor handling tri-hull. SSI Wide Tech gives you a huge bow walk way, a well-placed anchor locker, extra wide bow seating and reassuring freeboard.

NEW DUNE AND DRIFTWOOD INTERIOR OPTION

All new for 2011, our head-turning Dune and Driftwood interior option is Chaparral at it's stylish best. The Dune interior includes three-tone tan upholstery with a color coordinated helm and matching side panels. The optional Driftwood package adds woodgrain accents on the dash. Additionally, when you select a Dune interior, the snap-in carpet and transom logo mat options are likewise color coordinated. SSI is the most award winning line of family bowriders in boating history. The fact is family bowriders are the heart and soul of Chaparral and our current generation of SSI Wide Techs reflect more than 40 years of experience and passion. No matter what the size, these award-winning sport boats embody the latest in design innovation, trend-setting technology and old-world craftsmanship. You've never seen anything like SSI WT for 2011. Inch for inch we offer some of the largest integrated swim platforms on the water. Stainless steel vents, not plastic, make a statement that we sweat the details to the max. Never content with "me too," the edgy Wide Tech style lines start in the bow, carry through to the full-sized custom windshield and finish at the sun lounge. Finally, the Chaparral name on the hullside ensures the ultimate boating experience.

246

If you seek the thrill of adventure, the relaxation of getting away, the pride of quality and the luxury of comfort, our all-new 246 SSi flagship is everything a super-sized family bow rider should be and much more. The goal here was seating capacity...and the 246 more than delivers in a big way. From the deep contours of the reclining bow seats to the wide open feel of the U-shaped aft couch, the 246 is the ideal mix of elegance and unleashed family fun. Boat of the Year for 2011? We wouldn't be surprised. Engine options from 260 to 320 horse propel a boat that can tame big water yet is cat-quick to plane, rock-solid in the midrange and exciting at top-end. Sporting a full list of standard equipment, the 246 lets you select from an options list that includes snap-in carpet, bow filler cushions, a swim platform logo mat, Premium bucket seats, a sound system upgrade, Driftwood interior and a wakeboard tower.

■ Step all the way up. The new 246 flagship includes a telescopic boarding ladder in the anchor locker. ■ The full-sized head features a handy storage cabinet and a fiberglass innerliner for a clean, easy to maintain fit and finish. A standard hanging rod allows neat storage of sportswear. Overhead lighting is also standard. Options include a Porta Pottie with or without a pump out and an opening portlight for added ventilation. ■ The custom molded dash features fog-resistant analog gauges, loom wrap wiring and an opening center section for stowing small items. A convenient glove box with a Chaparral logo is positioned in the middle of the dash when you order the optional digital instrumentation package (shown above). ■ Everywhere you look there's cargo space: Under the bow seats, along the gunwales, in a wakeboard sized floor locker, in the starboard console, under the cockpit seats and beneath the sun lounge which has a special compartment for a removable Igloo cooler.

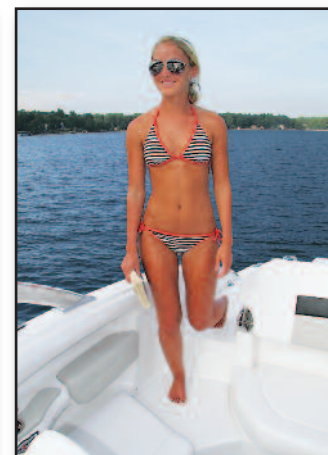

226

Chaparral's sensational 226 SSi is a mega dose of everything that makes our Wide Tech™ design stand out over all other family bowrider sport boats. Aft, a unique Oasis Lounge is a breakaway departure from the full-width sun pad offered on our other SSi Wide Tech offerings. The innovative three-position lounge is ideal for strapping on water sports equipment and also folds flat or converts to a chaise when you want to work on your tan. Up front, a wide walkway leads to adult-sized bow seats with storage underneath and an ice chest forward. Built to stay looking new for years to come, the 226 features fiberglass liner construction for precise fit and finish. Kevlar reinforcement adds strength. Key options include a bow filler cushion, snap- in carpet, a custom wakeboard tower and a swim platform logo mat.

■ Our Wide Tech bow design provides extra legroom, full backrest cushions, recessed drink holders and dry riding freeboard. There's also loads of room for carry-ons under all the bow seats. A standard cockpit table can be set-up in the bow or the main cockpit.

■ The best ergonomics in boating includes a line of sight compass, arm and foot rests and precision instrumentation to monitor all vital engine functions at just a glance. Illuminated accessory switches keep you up to speed day or night.

■ The infloor ski locker features an RTM lid that is hinged for one-handed access. Inside, a rubber mat protects your equipment investment.

■ A standard Oasis Lounge lets you choose your position: upright, chaise or fully reclined. Note the large oversized stainless steel grab handles and built-in drink holders.

■ A two-step walk-thru passageway at the transom includes a handy floor locker.

WIDE TECH 216

We didn't just push the design envelope with the 216 SSi, we ripped it to shreds with a bowrider that has become an icon in the marine industry. The 216 is a premier family sportboat with a connected-to-the-water feeling that turns everyday weekends into endless adventures. Featuring a smartly designed interior that looks good and functions even better, the 216 showcases Chaparral's superior fit and finish from bow to stern. Perfectly balanced and extremely efficient, the 216's Extended V-Plane running surface sips less fuel yet out performs leading rivals in this size range. A thorough list of standard equipment is highlighted by a large Bimini top with front windscreen that provides all weather protection. Under the gelcoat, Quad Radial Lamination and Kevlar reinforcement keep the strength up and the weight down.

■ The most user-friendly bow design in boating includes a forward anchor locker with mounting cradle, recessed speakers, hideaway drink holders, top-mounted rails, an insulated ice chest and storage under the port/starboard seats.

■ Recessed fiberglass gunwales are accented with padded armrests, stainless grab rails and drink holders. Our standard lumbar-supported bucket seats can be upgraded to our Premium option which has adjustment controls in the armrests.

■ Aft, the U-shaped cockpit seat extends full width and features easy-to-maintain molded under-seat storage along with best-in-class legroom.

■ A richly padded sun lounge easily converts to a chaise lounge by simply adjusting the standard three-position walk-thru cushion.

■ A heat retardant shield and acoustical foam line the engine hatch cover.

We know what you're thinking. Your eyes tell you everything about the 206 SSi is oh-so-right: Super-sized interior, exceptional performance and sophisticated features only Chaparral could dream into reality. Even the cushions on the standard three-position lounge mirror the provocative contours of the Wide Tech bow design. A can-do tow boat, buyers can select either 4.3L or 5.0L stern drive engine packages. As remarkable as the 206 is topside, it's even better in the areas you can't see. Premium Kevlar reinforcement creates a strong, quiet ride. Form-fitting bucket seats are built on a foundation of heavy-duty foam and won't break down. Additionally, our cockpit drainage system directs water away from storage areas and off the deck. Well equipped standard, key options include a wakeboard tower, Garmin GPS, bowrider filler cushion, snap-in carpet, a swim platform logo mat and a side-mount table that attaches fore or aft.

- Chaparral's Wide Tech hull design creates a spacious cockpit with storage under the seats and in the consoles. A molded bow door helps provide all weather protection.
- Padded armrests run the full length of the gunwales. Stainless steel grab handles are within reach of passengers whether you're seated on the L-shaped lounge or a bucket seat swiveled aft.
- An extra wide floor locker can stow wakeboards and includes a molded drainage system with a protective rubber mat.
- Aft, a hinged cushion folds out of the way for easy movement into the cockpit, lays flat to create a sun pad or can be angled for a chaise lounge backrest.
- Credit an innovative transom walk-thru design for eliminating the need to ever set foot on the upholstery.

196

With the 196 SSi, Chaparral attacks the family bow rider market with anything but the status quo. We took a completely different tact when it comes to bow design, windshield contour, cockpit width and transom styling. The pay off is a breakaway 196 that strikes a decisive balance between gutsy performance, innovative engineering and well thought out features. Clearly, no other sub-20-foot bow rider has as much storage space, legroom or a 9-passenger capacity plate. Inside, the interior screams, "Get in, and let's find some open water." Where the fiberglass meets the water, our fine-tuned Extended V-Plane bottom design is enhanced with Kevlar reinforcement for a silky smooth ride. So take your family for a test drive and take a hands-on preview of the phenomenal 196 SSi. See for yourself why Chaparral is Leading By Design.

LOA W/PLATFORM 19'6" (5.94M)

■ Fiberglass bow storage helps keep the 196 ship-shape. A molded insulated ice chest chills cold drinks as melted ice drains overboard. At the bow, a forward compartment with a locking cradle provides rattle-free anchor storage.

■ A molded bow door hinges into place to keep the wind at bay.

■ Attention to detail puts the 196 light years ahead of rivals. Our recessed fiberglass gunwales feature padded armrests, molded speaker grilles and inset grab handles.

■ The best transom design on the water continues the cutting edge Wide Tech style lines across the sun pad and the integrated swim platform. The optional three position hinged sun pad cushion invites you to stretch out or kick back on a chaise lounge.

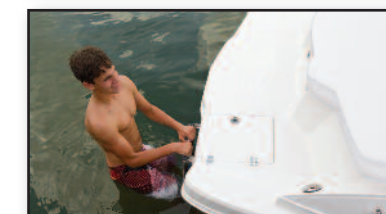

■ Talk about handy. Water sports equipment stows in a convenient full-sized hinged floor locker that is within arm's reach of the transom.

We've never liked the term "entry level" because frankly, it doesn't begin to fit the 186 SSi. A funny thing happens when you compare the room inside a Chaparral 186 SSi to other value-minded boats. There is no comparison. Ranked biggest in class, the amazing 186 SSi delivers space-efficient Wide Tech technology and Chaparral style at a price that lets you live large on a family-minded boating budget. Reassuring freeboard, stretch-out legroom and a spacious feel are extras usually found on boats two or three feet longer. Refusing to take shortcuts, the 186 features the same Kevlar reinforcement, 36-ounce Duralife MAX upholstery, full wraparound windshield, fiberglass innerliner construction and Diamond Lustre™ non-skid used on our bigger boats. Of course, one thing about the 186 that's not very big at all: the sticker price.

LOA W/PLATFORM 19'6" (5.94M) — BEAM 8' (2.44M) — FUEL 25 GAL (95L)

WEIGHT 2,850 LBS (1,293KG) — MAX. HP 225 HP (168KW) — DEADRISE 18 DEGREES

- With an unheard-of 9-passenger capacity, the 186 by far rates biggest in class.
- Easily wide enough to seat four adults, the full-width back seat combines with a richly padded sun deck to create your own personal outdoor tanning salon.
- Every inch of space is maximized. Cargo stows under the bow seats, along the gunwales, under the rear bench seat, and beneath the engine hatch. Hinged for one-handed entry, the floor locker stows wakeboards and features a gelcoated finish with a protective rubber mat. A molded drainage system prevents water build-up.
- Whether you step on board from the non-skid bow platform, from a gunwale step or the convenient aft boarding ladder, the 186 SSi Wide Tech invites family fun. Note the aft telescopic ladder stores in its own compartment and is mounted on the starboard side for added safety. A top-rung grab handle ensures secure boarding.

215

If you feel a boating weekend isn't complete unless you spend the night onboard, the 215 SSi is your reservation for a floating hotel room. Overnight, grab a siesta or stow oversized items inside a space-efficient cuddy cabin that features 52" of best-in-class sit-up headroom. Premium Kevlar reinforcement, closed cell injected foam and stainless steel hardware are a step-up in quality for this length. A fiberglass innerliner, Diamond Luster non-skid and a molded drainage system speed clean-up. Well equipped standard, the optional Explorer Package adds a high profile bow rail, opening portlights, pressure water with transom shower and a deck hatch cover. In addition to several engine options, the 215 comes standard with a driver's side bucket and a back-to-back lounge to port. A port swivel bucket can replace the lounge seat as optional equipment.

LOA W/PLATFORM 22' (6.71M)

■ A lockable double-wide entry door joins passengers in the cuddy cabin and cockpit and allows convenient access.

■ The helm features a tilt sport wheel, full instrumentation and Power On rocker switches. Molded dash steps, a walk-thru windshield and a stainless steel bow rail make deck access secure and easy for handling lines.

■ Ideal for light snacks, the wet bar includes a sink, stainless steel grab bar and a 12V power point. A lockable compartment houses a carry-on cooler.

■ In the cabin you'll find overnight provisions for two, plush pile carpet and backrest cushions with shelf storage. A square deck hatch is larger than on rivals and a hideaway porta pottie is standard. A removable table and a pump out head are optional.

■ The transom area features a lockable storage trunk, walk-thru access, a hideaway three step ladder with grab handle and an extended swim platform with non-skid.

CUSTOM VINYL

Our SSX Series features special Ozone vinyl that has a deep saturated color with a metallic finish while maintaining a soft leather-like feel. Accelerated light aging exceeds 1,000 hours (industry standard is 650). Embroidered logos accent the upholstery.

MULTI-PURPOSE SUN LOUNGE

Our multi-purpose sun lounges are yet another example of Chaparral's advanced engineering. The three position lounge can be used as a regular seat while cruising and then angled for a chaise or folded flat for an adult-sized sun lounge.

COCKPIT WET BAR

All of our SSX offerings are equipped with a cockpit wet bar that includes a sink, pull-out faucet, a solid surface countertop, storage and an ice chest. Both the 285 and 287 can be equipped with an optional stainless steel cockpit AC/DC refrigerator.

HIGH PERFORMANCE HELM

Get behind the wheel and feel the excitement. Many rate the SSX dash as the finest in boating. Digital gauges leave a clean, racy look. Anti-fogging lenses are distortion free even in bright direct light. All of the Power On rocker switches are illuminated, clearly marked and are inset for easy fingertip control. Circuit breakers are positioned at the base of the console. A flush mount stereo remote allows you to dial in your favorite tunes without any effort.

Once Experienced Never Forgotten

ENCLOSED FIBERGLASS HEAD

All of the offerings in our SSX fleet have an enclosed fiberglass head with excellent headroom that doubles as a private changing area. A porta-pottie is standard with pump out and Vacuflush upgrades available as optional equipment.

LADDER AND ANCHOR STORAGE

Even with a conventional V-bottom hull design, the flattened bow area has diamond non-skid and is wide enough for sure-footed passage. A forward locker houses a four-step telescopic ladder* and the anchor is supported in its own cradle for rattle-free operation.

*Except 285

SNEAK PREVIEW - 327 SSX

The bow rider has evolved. Chaparral's passion for innovation charts all new waters with the introduction of the revolutionary new 327 SSX. Slated for a mid model-year introduction, this phenomenal new entry is the first bow rider cuddy that doesn't have separate cabin compartments. Instead, our patented SSX Sport Cabin has a stepped cockpit sole that allows a full-beam cabin with overnight provisions for two, a 10,000 BTU AC system, enclosed head/shower, stand-up headroom, a spacious Salon with Ultraleather seating and a 26" LED HD television. Even with a full height cabin interior, the exterior design shows no compromises. Sleek to the eye with distinct hull accent lines, the 327 combines the amenities of a cruiser with the conveniences of a bow rider. Topside, you'll find a custom stainless steel windshield with an optional fiberglass hard top. The helm console is equipped with high tech extras including touch screen navigation, AC ventilation and joystick docking controls. A full service wetbar, 1600 watt audio system, dual passenger helm seats and our patented Powerslide rear sun lounge highlight a new boat that is proof positive that Chaparral is Leading By Design.

SS 287

Falling in love takes less than a minute when you step onboard the remarkable 287 SSX. The difference between Chaparral and rivals is crystal clear the instant you grab the wheel and roll the throttle forward. Award winning Extended V-Plane performance lets you cruise the shoreline or pursue distant horizons in a big water sportboat that mixes excitement with high class elegance. Inside, if you thought the bowrider area was spacious, the enormous U-shaped cockpit layout is even more inviting. Chaparral's high tech dash exudes power and sophistication. The instrument panel comes to life against a black panel display and signals our passion for advanced technology and innovative luxury. Attention to detail is so exact, even the windshield cap, ski pylon and drink holders are stainless steel. Chaparral's arsenal of performance upgrades includes standard trim tabs and optional Quick and Quiet exhaust.

■ Our high tech dash design features digital gauges set against a glare resistant black field. A Garmin 531 GPS is standard or you can choose the optional 541.

■ A unique dual-wide helm seat has separate flip-up front cushions for stand-up, sit down or bolster operation. Three tone vinyl is treated with a stain resistant top coat.

■ The galley is accented with a solid surface countertop, sink, faucet, insulated cooler, power point and extra storage. An optional high quality stainless steel refrigerator mounts under the galley and is a real plus on long weekends.

■ A multi-purpose aft seat can be angled to form an adult-sized sun lounge or a chaise. A protective stainless steel stern rail is optional. Storage space is built-in underneath.

■ The enclosed fiberglass head ranks best-in-class and features teak and holly flooring, elegant cabinetry, a solid surface countertop and a ventilating opening portlight.

SS 285

Part performance boat, part penthouse suite and all Chaparral, our classic 285 SSX is the perfect answer if you long for a sport boat that can split time between cruising and heart pounding performance. Sporting 5'3" of welcome headroom, the cabin is more refined, classy and detailed than rival cuddys in this class. In the cockpit, a U-shaped lounge, well stocked wet bar, reversible aft seat and comfortable dual wide helm bolster say comfort in a big way. Combine molded dash steps with a transom walk-thru and you will enjoy free passage bow to stern. Key options include a 5,000 BTU air conditioning system, transom shower, elevated forward bow rail and a windlass. An optional Overnight Package includes shore power with 50' cord, DVD, 15" flat screen TV with dockside cable antenna, stainless steel AC/DC cockpit refrigerator, stainless steel cabin microwave, battery charger/converter and a corrosion protection system.

■ Laid-out for entertaining, the cockpit includes a standard insert table with built-in drink holders. The cockpit galley features a solid surface countertop, ice chest, sink, wand faucet, under counter storage and pressure water.

■ A reversible three position aft seat converts to an angled chaise or a flat sun lounge. A wraparound protective stainless steel stern rail is optional.

■ The huge integrated swim platform features a telescopic ladder, stainless steel walk-thru gate and a handy under-seat storage area where the inset table is stowed.

■ The galley features a solid surface countertop, cedar lined clothes closet, storage and an opening screened port. Shown with microwave included in Overnight Package.

■ A clever design innovation, the dinette backrest cushions are removable and form the V-berth, eliminating the need for stowing separate filler cushions. A sturdy removable cabin table with a protective edge guard is standard.

SS 267

Introduce yourself to the 267 SSX, a rare mix of performance and comfort in one exhilarating package. The boat's classic characteristics—contoured bow, flowing style lines, deep-V running surface and bold graphics—are enhanced by a cockpit layout that showcases the latest in innovative design. The waparound windshield, complete with custom supports and a stainless steel cap, polish off the 267's distinct high performance look. Custom cockpit touches include expanded vinyl upholstery that has metallic highlights and a leather-like feel. Tuned in, if the optional thru-hull exhaust doesn't send a clear signal you own an SSX, the high quality sound system certainly will. A triple position reversible rear seat connects everyone onboard with the party in the water. A handy jump start system, blue LED interior lighting and an electric engine hatch are standard equipment extras you expect from Chaparral.

DEADRISE 22.5 DEGREES

■ An engineering marvel, many consider our SSX dash design with its digital instrument cluster, switch panels and space age styling the best in performance boating. ■ The head features a solid surface countertop, wood cabinet, storage, stainless steel sink, mirror and an opening portlight standard. ■ The wet bar is equipped with a solid surface countertop, molded sink, separate cooler, drink holder, power point, grab bar and an accessible compartment for the removable ice chest. ■ Storage space is never in short supply onboard this yacht certified sport boat. Hinged bow cushions allow one-handed access and won't blow out while trailering. Stow large items in the huge compartments under the cockpit seats. Amidships, the floor locker has a hinged lid for easy access and includes a molded drainage system and protective rubber mat. Within arm's length of the swim platform, the aft lounge hinges up for stowing watersports equipment and fenders. The integrated swim platform includes a hideaway three-step ladder, UL approved non-skid and can be equipped with an optional logo mat.

ENCLOSED FIBERGLASS HEAD

If an enclosed head and a private changing area are a must, Sunesta is your boat. Our enclosed fiberglass heads dominate rivals in comfort, appointments, style and ease of maintenance. There are a boat load of reasons the head on a Sunesta is rated best-in-class.

ONBOARD STORAGE

From the huge wakeboard sized in-floor ski locker to the enormous compartments under the seats, there isn't a line of bowriders on the water today that can match the cargo space on a Sunesta.

SPORT DASH AND ERGONOMIC HELM

Sunesta is performance personified. The black non-glare dash features digital instrumentation with fog-resistant lenses and stainless steel bezels. A power plug allows you to charge electronics. All electrical connectors are triple-O-ring sealed and water tight. A dimmer switch controls instrument lighting and all accessory switches glow when activated. Breakers are located in the console storage area for easy servicing.

The Sun Never Sets On A Sunesta

COCKPIT GALLEY

Life has a completely different taste when you're onboard a Sunesta. All our cockpit wet bars have a solid surface countertop, sink, trash receptacle and storage underneath. Ready for prime time, the 284/264 both have a standard slide-out cooler and can be equipped with an optional grill (dual battery required). Finally, all Sunestas have L-shaped cockpit seating that is enhanced with a removable side-mount dinette table (standard 284/264, optional 244/224).

NEW DRIFTWOOD INTERIOR OPTION

Just introduced, our eye-catching new Driftwood interior option includes a three-tone tan interior and a custom dash with woodgrain accents. And when you step up to the Driftwood package the snap-in carpet and transom logo mat options are color coordinated to match. Driftwood for 2011, it's Chaparral at its elegant best. What's the first thing you notice about a Sunesta sport deck? In a word: Size. Our premium line of family bowriders does everything in a big way. From the huge bow walkway, to the best-in-class head design, to the endless storage, to the spacious seating capacity, Sunesta is pleasure boating with a capital "P". Sunesta also showcases the absolute best our Wide Tech technology has to offer. No other line of boats does pleasure boating with so much room...and so much style.

PATENTED WIDE TECH HULL DESIGN

When you think of Sunesta, think of a boat that's sleek to the eye yet deeper, wider and longer than comparably sized rivals. So revolutionary it's patented, our award-winning Wide Tech hull design means more storage space, more legroom and, most importantly more style. And you get it all without sacrificing even an iota of ride control. Nothing on the water today brings more to the boating game than Wide Tech technology.

TRANSOM LOUNGE

A stroke of design genius, our aft platform lounge is perfect for linking everyone in the water to those in the boat and an ideal launching pad for watersports. A Power Slide version—standard 284 and optional on all others—lays flat at the push of a switch.

Imagine a sportdeck so advanced nothing in its class can match its features, style and quality. A boat so advanced it ran away with Boat-of-the-Year honors the first time it hit the water. We went beyond innovative with our Sunesta flagship. From the huge multi-purpose bow area, to the entertainment-minded cockpit, to the most incredible transom design in boating, everything that goes into the Sunesta lifestyle gets bigger and better on the 284. Consider the sound system. Four triaxial speakers, a 320 watt amp, a 10" subwoofer and 6 months free Sirius Satellite activation are all standard. Enjoy stand-up headroom under an optional black or white arch tower that includes overhead lights, a tow pylon and a Bimini. Targeted for any waterway your adventuresome spirit takes you, the 284 comes standard with trim tabs to level out the ride and adjust for shifting weight loads.

LOA W/PLATFORM 28'4" (8.64M)	BEAM 9' (2.74M)	FUEL 105 GAL (397L)
WEIGHT 6,400 LBS (2,903KG)	MAX. HP 430 HP (321KW)	DEADRISE 22 DEGREES

■ Complementing our square-bezel digital gauges and premium rocker switches, a 531 Garmin GPS is included standard. ■ By far the roomiest and highest quality head design in family boating. Upgraded Pump-out, VacuFlush and macerator options are available. ■ Some would call it a wet bar but you'll call it a cockpit galley beyond compare. Features include a solid surface countertop, sink with a pull-out wand, a trash receptacle and a party-sized slide-out cooler. Add an optional grill and enjoy gourmet cuisine all weekend long. ■ Every seat is designed with total comfort in mind. Upfront, the starboard bow seat electrically slides out to create a dual wide seat. Remove the optional center cushion, add a side mount table and enjoy dinette conveniences. Premium bucket seats with handy adjustment controls in the armrests are optional. Aft, the L-shaped lounge is inviting at mealtime. Optional on all other Sunestas, the 284's standard Power Slide aft seat lets you sit, recline or lay out.

SUNESTA 264

The 264 Sunesta invigorates all your senses. Your eyes see the innovation of an award winning design, your hands feel the quality and your ears hear the quiet sound of a well made boat. If boating is your passion, the 264 can match your heartbeat for heartbeat. A Yacht Certified passenger capacity means unlimited fun for everyone. Attention to detail shines through and our new Driftwood interior option says class with a capital "C". A must-have list of optional equipment includes a Power Slide transom seat (shown opposite page) and a grill in the cockpit wet bar. With engine options up to 400 horsepower, the 264 can tackle offshore conditions, yet remains carefree on lakes and rivers. Optional thru-hull exhaust allows you to turn the performance volume up or cruise in quiet luxury. Stain-resistant DuraLife Max upholstery, a self bailing cockpit and a molded drainage system are all designed to take your cares away.

■ Up front the bow is engineered with reclining seats with fold out armrests, under-seat storage, stainless steel rails, recessed hardware and an insulated forward ice chest. The anchor locker also houses a telescopic four step ladder.

■ A huge gourmet quality wet bar includes a solid surface countertop, stainless steel grab rail and counter insert, trash receptacle, and slide-out storage space for the oversized 54-quart carry-on cooler.

■ The non-glare dash features digital instrumentation, high quality Power On rocker switches, a stereo remote and tilt wheel. Garmin 531 or 541 GPS options are available.

■ You won't find a head with more headroom and appointments. Standard features include a solid surface countertop, wood cabinet, stainless sink and faucet. Pump out porta-pottie, VacuFlush and macerator options are available. Teak and holly flooring is optional.

■ Order the Driftwood option package and the transom logo mat can be color coordinated

SUNESTA 244

Step onboard the stunning 244 Sunesta and you've arrived at the intersection of innovation, luxury and performance. You demand the best and the 244 delivers with a king-sized 14-passenger capacity. Chaparral's premium line of family runabouts features the finest enclosed head on the water, a clever aft facing transom seat and more storage space than you ever thought possible in a 24-footer. Inside, your comfort headquarters includes mood-setting lighting and L-shaped lounge seating. A full-height sport windshield surrounds a helm complete with digital gauges and a premium sound system. A DC power plug charges your cell phone and the USB and MP3 jacks tune in your personal music collection. Engineered with a self bailing cockpit and a fiberglass innerliner, the 244 is easy to maintain and built for the long haul. Key options include bow and transom showers and a sure-footed logo mat on the integrated swim platform.

LOA W/PLATFORM 24'4" (7.42M) — BEAM 8'6" (2.59M) — FUEL 60 GAL (227L)

WEIGHT 4,400 LBS (1,996KG) — MAX. HP 320 HP (239KW) — DEADRISE 20 DEGREES

■ An optional filler cushion converts the bow area to an adult-sized sun lounge. The anchor locker includes a rattle-free locking cradle and a ladder. Flush mount hardware and a retractable navigation light encourage safe passage.

■ The optional side mount table works in either the bow or the L-shaped seating area.

■ Multi-function, nitrogen-filled digital gauges provide precision accuracy. To help keep you on course, Garmin GPS is available as optional equipment.

■ The privacy head is all fiberglass and features a standard lockable door, lighting, opening screened port and a porta-pottie. Optional maple cabinetry adds a solid surface countertop, storage and a stainless steel sink. Shown with optional VacuFlush.

■ Oversized items stow in a huge console cargo area. A hideaway bow door provides all weather protection and stows flush to the helm. A second smaller door provides dry storage and an ideal place for the optional side mount table.

SUNESTA 224

The action-packed 224 mixes the roominess of a deck boat with the zest of a sport boat for those that yearn to live life Sunesta style. Nothing sizes up to the 224 when it comes to performance, storage space and features. Enjoy enormous storage areas under the seats, in the starboard console and in a floor locker that is wide enough to stow wakeboards. Onboard, three easy-to-reach ice chests will help quench any thirst. Ideal for light snacks, the wet bar is accented with a solid surface countertop, sink with pull-out wand faucet, a portable cooler, trash chute, a DC power plug and a stainless grab handle. Want to beat the heat? An oversized, color coordinated Bimini top has you covered in typical Sunesta style. Built with the same bottom and powertrain as our pro-level Xtreme tow boats, the 224 is a first rate water sports ride. Key options include a wakeboard tower, swim platform logo mat and premium bucket seats.

LOA W/PLATFORM 22'4" (6.81M)

BEAM 8'6" (2.59M)

FUEL 50 GAL (189L)

WEIGHT 4,000 LBS (1,814KG)

MAX. HP 300 HP (224KW)

DEADRISE 18 DEGREES

■ The anchor and a telescopic four step ladder stow securely in the bow. Chaparral's Wide Tech hull design keys the 224's huge 12-passenger capacity and easy-entry bow access.

■ Digital instrumentation, Power-On rocker switches, a custom tilt wheel and a dimmer switch are all standard. A 531 or 541 Garmin GPS chartplotter is optional.

■ Perfect for enjoying water sports, the aft-facing transom lounge includes stainless steel cup holders and grab rails with a storage area under the seat cushion. An optional Power Slide seat converts to a multi-purpose sun lounge with the mere push of a switch.

■ Unexpected at this length, the changing room has a lockable privacy door. An optional porta-pottie (shown) is available with or without a pump out and includes a portlight.

■ The walk-thru transom has a stainless steel gate. Shown with optional logo mat.

CUSTOM TOWERS AND XTREME GRAPHICS

We've got a tower for every need. Different styles for different models. Our custom wakeboard towers are premium quality and include billet badging and fixed or rotating racks. A full-sized, color coordinated Bimini is standard equipment. A wide array of head-turning graphics separate Xtreme from the pack.

Tow Boat Deluxe

DEEP V WIDE TECH HULL AND DUAL PROP STERN DRIVE PROPULSION

The fact is an old-fashioned V-drive doesn't hold water compared to the benefits of a deep V Xtreme with its dual prop stern drive propulsion. Xtreme doesn't just have a performance advantage over the inboards, it dominates with speeds up to 20 percent faster while using less fuel. And there's no comparison when it comes to rough water ride control. Ever try to back up an inboard? Forget it. A stern drive powered Xtreme provides maneuverability in both directions with power assisted steering the inboards don't offer. Finally, thanks to stern drive trim, you can easily pull up on a sandy beach and set up base camp for the weekend. Not so with an inboard where you have to be mindful of costly dinged props and bent prop shafts.

TRANSOM LOUNGE

The swim platform on your new Xtreme will certainly be the busiest place on the water. Our low profile integrated platform puts you close to the water and ready for action. The oversized design features a three step telescopic boarding ladder that stows in its own compartment, an aft facing transom lounge and a sure-footed rubber logo mat. If you like to split time between water sports and soaking in the sun, the upgraded automatic Power Slide Transom lounge is included standard on the 264 and optional on the 244 and 224.

GPS SPEED CONTROL

Wakeboarding goes high-tech. Whether you opt for Mercury's Smart Tow or Volvo's Zero Off, the onboard electronics on an Xtreme remember everyone's ideal speed and maintain it for consistent pulls.

ONBOARD BALLAST

We take the business of building a professional quality tow boat seriously and equip our boats accordingly. On board ballast and a trimable outdrive allow you to fine tune the wake height and ramp to each rider's desire.

PREMIUM SOUND SYSTEM

Who cares if it defies logic, the truth is you wakeboard better when you're tuned in. Optional on some models, standard on others, our Xtremes are available with either two or four Wet Sounds tower speakers. The base system rocks, but you can take it up a notch with a 10-inch subwoofer combined with a high quality, hard-driving 450 watt JL amplifier.

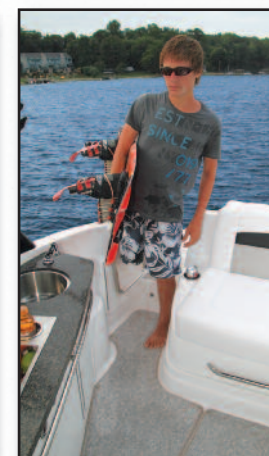

XTREME 264

There are tow boats and then there's a giant sized step up to the phenomenal 264 Xtreme. The sickest of the sic and the holy grail of wakeboard boats, the 264 Xtreme is a tow boat supreme and a pleasure boat beyond compare. Add a 26' centerline length to Chaparral's extra steep 22 degree bottom and stern drive power and you've got Tsunami-sized wakes to launch off. There's nowhere the 264 can't go, no watersport it can't tow. Power options from 320- to 430-horse provide arm wrenching pulling power while a perfectly balanced CG keeps everything level at wakeboard speeds. The 264's no holes barred list of standard equipment includes a Power Slide transom seat, custom embroidered upholstery, a high watt sound system, a custom arch tower with swivel racks and dual infloor storage lockers.

LOA W/PLATFORM 26'4" (8.03M) — BEAM 8' 6" (2.59M) — FUEL 80 GAL (303L)

WEIGHT 5,800 LBS (2,631KG) — MAX. HP 430 HP (321KW) — DEADRISE 22 DEGREES

- We defy you to find a serious wakeboard tow boat with more cargo space. Equipment stows under all the bow seats. Additionally, the infloor lockers in the bow and amidships are wide enough for wakeboards, drain overboard and feature secure locks.
- High-tech digital gauges and positive-feel accessory switches keep you up to speed. Smart Tow or Zero Off GPS speed controls are standard. A Garmin GPS is optional.
- A huge cockpit wet bar is the perfect party starter. A grill is optional.
- Rated best in class, the fiberglass head has a cabinet, sink, lockable door, porta-pottie and a portlight. Pump-out, VacuFlush and macerator options are available.
- We extend the standard sure-grip logo mat on the swim platform through the walk-thru passage so you feel secure in even the most slippery situations. Snap-in carpet is available as optional equipment.

XTREME 244

It's time to come clean. Three years ago we turned the wakeboard world upside down with our deep-V, stern drive powered 244 Xtreme and frankly many in the old-guard didn't have too many kind words to say. Suffice it to say we don't have a single letter in our Customer Service files that tells the story of a 244 Xtreme buyer abandoning ship and going back to an inboard. For good reason. Time tested, the 244 is on par with it's inboard rivals in all wake categories and when it comes to ride comfort, passenger appointments and overall quality our Xtreme mega machine wins hands down. Equipped for battle, the 244 is a state-of-the-art tow boat. The maxed out standard equipment list includes all the good stuff: ballast, speed controls, an array of sic tatto graphics, a rockin sound system and a premium custom tower.

LOA W/PLATFORM 24'4" (7.42M)

BEAM 8' 6" (2.59M)

FUEL 60 GAL (227L)

WEIGHT 4,700 LBS (2,132KG)

MAX. HP 320 HP (239KW)

DEADRISE 20 DEGREES

■ Who said a tow boat couldn't be a "pleasure" boat? Retractable boarding ladders with top rung grab handles are positioned fore and aft so the 244's dry riding free-board never intimidates.

■ Multi-function, nitrogen-filled gauges provide precision digital accuracy. Either Smart Tow or Zero Off speed controls are standard. Garmin GPS systems are optional.

■ Inboard rivals don't even offer a wet bar. The 244 comes standard with a solid surface countertop, sink, trash chute and storage.

■ It doesn't get any better than this. The aft lounge is perfect for cinching up equipment. Dual fuel fills are welcome dockside. Stereo and drive tilt remotes are within easy reach and a three step ladder aids boarding. A platform logo mat is standard.

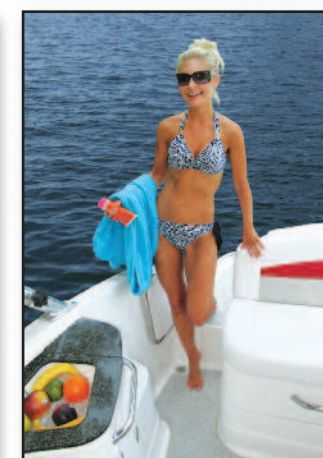

■ Perfect for all-day wakeboard trips. A lockable door adds privacy and is the ideal changing room. Porta-pottie standard. A portlight aids ventilation.

XTREME 224

Here's the deal. By now you've keyed into the fact that there isn't a serious tow boat that can match our 224 Xtreme wake for wake, or, more importantly, feature for feature. Do your own head-to-head comparison and you'll find there is no comparison. Consequently, if the only thing keeping you from the wakeboard ride of a lifetime is value, the 224 Xtreme can be outfitted to fit any budget. Buyers can now pick from an ala carte menu of more than 30 custom options and enjoy the same ride and same pulling power as our maxed out 244 Xtreme. You can also opt for either the Pro Wakeboard or Pro Arch Tower Packages and take to the water in a fully loaded dream-come-true tow boat that won't disappoint. No matter how it's decked out, the 224 is the best value in the highly competitive world of tournament-quality tow boats.

LOA W/PLATFORM 22'4" (6.81M) — BEAM 8' 6" (2.59M) — FUEL 50 GAL (189L)
 WEIGHT 4,150 LBS (1,882KG) — MAX. HP 300 HP (224KW) — DEADRISE 18 DEGREES

- Chaparral's patented Wide Tech design is key to the 224's huge 12-passenger capacity. Storage is available under the seats with an insulated ice chest forward.
- Most tow boats feature awkward bench seating. Our Premium swivel buckets are more supportive, add legroom and offer a secure, custom fit. Fingertip adjustment controls for swivel and fore/aft adjustments are via levers in the armrests.
- Nothing tastes better than an energizing pick-me-up from the cockpit wet bar.
- Ask and ye shall receive. Mindful of every wakeboarder's needs, the integrated transom is close to the water, includes a retractable ladder and a logo mat is standard.
- A wide, sure-footed transom walk-thru is another noteworthy pleasure boat advantage the 224 Xtreme enjoys over its outdated inboard tow boat rivals.

XTREME 204

Everything that makes our Xtreme Series the fastest growing line of wakeboard tow boats gets even more affordable with the 204. No rival in this size range even comes close to the 204's legroom, storage capacity, transom access or user-friendly ergonomics. Furthermore, swivel bucket seats offer much easier observation aft than a head-twisting side couch. The 204 is a wakeboard marvel and carries a bottomline sticker price that's even more amazing than the way it performs. Credit Chaparral's deep-V hull and stern drive powertrain for a wake that will have you doing flips. Topside, an innovative optional arch tower is equipped with LED lights and a pylon to keep the rope clear of the cockpit. With a big 10-passenger capacity, you never have to worry about leaving anyone or any accessory on the dock. Aft, the 204 wins the integrated swim step game with a three step boarding ladder and a huge platform for launching into your favorite watersport.

LOA W/PLATFORM 20'6" (6.25M)

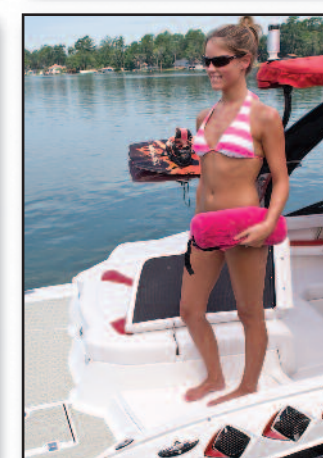

BEAM 8'4" (2.54M)

FUEL 35 GAL (132L)

WEIGHT 3,550 LBS (1,610KG)

MAX. HP 270 HP (201KW)

DEADRISE 18 DEGREES

■ Everywhere you look there's cargo space including in oversized console lockers accessible from the bow. Note the full-height protective windshield.

■ A stereo remote, digital gauges, sure grip steering wheel and Power On rocker switches are all standard. Serious wakeboarders will want to add Smart Tow or Zero Off as an option so you can dial in specific speed settings for a custom ride.

■ Hinged for one-handed access, the in-floor locker includes a molded drainage system so water won't puddle. A protective mat safeguards your equipment.

■ The starboard cushion on the sun deck lays flat for tanning, adjusts to create a chaise lounge or folds out of the way for easy passage to the integrated swim platform.

■ You can transition from the Wide Tech bow area to the huge swim platform without ever setting foot on the upholstery.
