Stirringly Sophisticated.

THE 2011 ANTHEM is a culmination of visionary design. It refines luxury and masters power, and it will definitely stir your emotions.

Anthem's uncompromising design combines a Cummins 450 HP engine with a Spartan tag axle chassis that will give you unbridled authority certain to appeal to your most powerful instincts.

Inside, Anthem radiates commanding elegance with solid hardwoods, fine Amish craftsmanship, weathered iron nickel fixtures and porcelain tile highlights that will leave you inspired. In short, Anthem is nothing less than idyllic.

ANTHEM®

Raised-panel, solid hardwood cabinetry, crown molding, a 40-inch LCD HDTV and a distressed Ultraleather hide-a-bed sofa are just a few of the many luxurious touches found in Anthem's living area.

STRENGTH

A structure's foundation should never be compromised, which is why Anthem is built on Entegra Coach's exclusive X-Bridge Spartan Mountain Master tag axle chassis. Ingeniously crafted with strength in mind, Anthem's fully integrated design provides superior support and stabilization, plus easy steering, smooth braking and a quiet, comfortable ride.

POWER

Boasting a Cummins ISL 450 turbocharged horsepower engine with Allison GEN 4 3000 MH six-speed transmission and electronic shifter, Anthem has power to spare, while its muffled Jake brake system provides quieter, more efficient braking.

YOUR ENTEGRA COACH DEALER

GROSS VEHICLE WEIGHT RATING (GVWR): The maximum permissible weight of the motor coach, including the Unloaded Vehicle Weight (UVW) plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the Cargo Carrying Capacity.

GROSS AXLE WEIGHT RATING (GAWR): The maximum allowable weight each axle assembly is designed to carry, as measured at the tires, therefore including the weight of the axle assembly itself.

GROSS COMBINED WEIGHT RATING (GCWR): The maximum allowable combined weight of the motor coach used as a tow vehicle and the attached towed vehicle.

It is important for your safety and enjoyment that you are aware of the weights and tow ratings of the RV you select. Consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Entegra Coach affixes a weight label to each RV which lists weight information for that vehicle. Refer to that label to verify the vehicle will meet your requirements. See specifications chart inside.

ENTEGR A
COACH®

A reputation for integrity isn't built overnight. It happens only after years of doing what you say you will do—and by practicing the Golden Rule.

Over the last 40 years, the Bontrager family has worked hard to establish a reputation of integrity in the RV business. Through ups and downs, successes and failures, these four decades have taught us the importance of doing our best to meet our customers' expectations. And that is why we are excited to introduce the finest line of RVs we have ever built—the motor coaches from Entegra Coach.

We believe Entegra Coach captures everything we stand for, from its structural quality and old-world craftsmanship, to unmatched customer service. We hope you'll take some time with your local dealer to understand why our family stands so strongly behind Entegra Coach.

Without compromise.
