IMPORTANT - PLEASE READ: Information published within this brochure reflects product design, fabrication, material, components and specifications at the date of printing. If your vehicle was manufactured before this brochure was published this information may not be accurate because vehicles assembled before the brochure was published may not have the same design, fabrication, materials, components and specification as represented in the brochure. If your vehicle was manufactured after this sales brochure was published the representations may not be accurate because, for product improvement reasons, we reserve the unilateral right, at any time, without prior notice, to make changes in product design, material, components and specifications. The date the brochure was published (i.e. "Julian date") is set forth on the last page of the brochure. IF CERTAIN INFORMATION PUBLISHED WITHIN THIS BROCHURE IS SIGNIFICANT TO YOUR PURCHASING DECISION, PLEASE CONSULT WITH YOUR SELLING DEALERSHIP TO CONFIRM THAT THE INFORMATION IS ACCURATE WITH RESPECT TO THE VEHICLE YOU ARE CONSIDERING PURCHASING. Photographs in the brochure may depict optional equipment or may only be available in certain floor plans. We reserve the right to make changes in prices and models and to discontinue models without notice or obligation. Components, appliances and the chassis may have been manufactured in a calendar year before the vehicle's designated model year. All capacities are approximate. The actual length of the vehicle may differ from that indicated in the brochure due to variances in the manufacturing processes and/or installed components. All dry weights are based on standard model features and do not include optional features or equipment. Components, appliances and features may differ to conform to local codes. Due to EPA environmental restrictions, engine power and torque ratings may change during any model year. The Thor Motor Coach logo and its design are registered trademarks. Other products and company names are trademarks and/or registered trademarks of their respective manufacturer. While the color of the motorhome's exterior and the interior fabrics depicted in this brochure are fair and reasonable depictions, the colors depicted may not be exact match of the actual colors because of variances in photo processing and printing. Component part and appliance manufacturers issue limited warranties covering portions of the vehicle not covered under the limited warranty we issue. To learn specific details regarding warranty coverage please consult your selling dealership or review the warranty packet inside the vehicle.

EVOLUTION

It's one of those things, it just made sense. We had so many requests from retail customers; we just had to do it. Thing is, it's not about creating a new class for Thor Motor Coach; it's all about you, our "Ultimate Boss". You're probably reading this brochure wondering what the A.C.E. is, and why would you care. We think you are going to care, because we have taken our retail customers feedback and built a motorhome that can satisfy the wants and needs of the Class A motorhome and Class C motorhome buyer. The A.C.E. is an evolution of what customers want...

This is the story of the

DECOR OPTIONS

CHANGING EXPECTATIONS

Ever drive West in the late afternoon? The A.C.E. **windshield** is designed to help eliminate heat and keep the sunlight out of your eyes. Minimizing the driver's blind spots is another goal, so the **floor level cockpit window** makes driving safer. A quick peek out the window can alert the driver of a dog, bicycle or child on the outside of the coach which could be easily missed in the rear view mirrors.

"Camp-Sense" basement storage properly locates major storage compartments on the passenger side, under the patio awning, keeping it dry and easily accessible. The storage boxes in the basement are "skid resistant" limiting sliding and shifting during transit. A "MEGA" storage basement area with large, side-opening doors allows easy access from either side of the coach.

PET-STATION

Motorhomes and pets are a great combination. The bathroom has a multi-purpose drawer located under the shower, and includes a FDA approved pet food liner, which can be removed for cleaning or to use the drawer for storage.

EXTRA WIDE

The extra wide entry door area hides numerous storage spots, including a "Mud Room" to store dirty shoes. A drawer and nook in the steps are great for storing tools without having to track through the coach. Nothing is harder to do than get two arms of groceries into a coach with a narrow entry, so the additional space added to the A.C.E. will be especially welcomed.

FUNCTION

A convenient **utility closet** is located right inside the door, so coats and brooms can be stored out of the way. The TV location on top of the closet provides a great viewing atmosphere for every seating position and the overhead bunk. The TV swivels, so the family chef can follow along with his or her favorite celebrity chef!

WORK STATION

Whether using the **lap-top** while on the road, or looking for a stable place to finish the next Sudoku puzzle, the passenger side of the dash converts to a **workstation** with a flip of the lid. An electrical outlet for 110V or 12V is hidden behind the lid to plug in any electronic device.

CONVERSATION

Ever feel alienated while driving? The **conversation mirror** lets the driver monitor what's happening in the living area providing an overall safer environment. Moms and Dads will be able to keep an eye on the kids ensuring no one is walking around while driving.

CAMPERS CORNER

The "Camper's Corner" keeps all the waste disposal systems and LP appliances in a one spot, at the rear of the drivers side, well away from the camping area. The water heater and furnace is located "Below-floor" which makes sense, because it keeps hot exhaust away from kids and pets. Also, by keeping the main LP appliances below floor any noise intrusion is greatly reduced on the inside of the coach.

EASY ACCESS

A "wide-opening" front hood on the A.C.E. makes other motorhomes look foolish. You don't need to be a contortionist if the wiper fluid needs refilled, motor oil needs topped off or brake fluid needs checked.

ROOM TO GROW

Check-out the space in the kitchen. The microwave, sink and oven are all within arms reach. An ingenious **slide-out pantry** is tucked away and can be extended to provide additional counter space. The **kitchen drawers** open towards the living area, so when cooking, the utensils can be easily accessed.

KITCHEN-TASTIC

The **wrap-around dinette** is so inviting, whether dining or just relaxing. Look down below and notice the floor in the dinette is also linoleum, so if that glass of grape juice gets spilled, it's easy to clean-up and look mom....no stain!

"LIVING" ROOM

The leatherette **sofa** converts from a comfortable seating area to a sleepable **bed**. The secret...No big gap in the mattress area like the less expensive jack-knife sofas in other coaches.

HIBERNATION

The **Electric Overhead Bed** drops into place, without taking away from the living room seating. There is still plenty of head room above the **front captain's chairs**, maximizing seating area and allowing full access to the passenger side computer workstation.
