6'8" CEILING HEIGHT IN BEDROOM

Komfort's fifth wheel bedroom design includes two industry firsts! An innovative, laminated, crowned ceiling design and the cedar suite full walk-in closet.

The arched ceiling design provides for more headroom than any other product in its class, a full 6'8". Plus, increased headroom in the bedroom allows our slide rooms to be taller than most competitors.

The cedar suite walk in closet utilizes the entire front cap area to create the largest amount of hanging space, a dedicated shoe rack, shirt wardrobes and sliding drawers. Plus, the storage area is prepped for a washer and dryer.

Stacked Rail Chassis

1" Thick Insulated Baggage Doors with Slam Latch Hardware

Komfort fifth wheels feature a stacked rail chassis design. This chassis design uses double I-beam frame rails to increase the amount of storage space under the bath/bedroom deck. Many models feature an amazing 150 cubic feet of storage - almost 60% more than the competition!
