WaveRunner
2013 WAVERUNNER RANGE

WaveRunner

THE ADVENTURE STARTS HERE

The Yamaha WaveRunner line-up for 2013 offers a range of new ways to hit the water.

A host of technical and design improvements have been combined to maximise fun on the water and ease of use for the ultimate riding experience.

FX Series	Luxurious, technologically advanced and feature-rich	Page 4
FZ Series	The race-inspired ultra high-performance series	Page 8
VX Series	The perfect culmination of comfort and affordability	Page 10
SuperJet	The best selling stand-up among all personal watercraft	Page 13

LUXURY PERFORMANCE

High performance and rider comfort with no compromise. The FX Cruiser SHO is Yamaha's flagship cruiser model, delivering exhilarating performance and the very best in rider features.

Engine + Drivetrain

Displacement: 1,812cc
4-stroke, 4-cylinder, DOHC
Intercooled Supercharger
Electronic Fuel Injection
155mm High Pressure Pump

Hull + Deck

NanoXcel Hull and Deck
Black coloured hull
70 litre fuel capacity
125.5 litres of storage

Features

Quick Shift Trim System
Cruise Assist
No Wake Mode
Security Mode
Low RPM Mode
Remote Transmitter
Multifunction Display Panel

FX CRUISER SHO Dimension: L3.56m x W1.23m x H1.23m | Dry Weight: 387kg | 1-3 Persons | Colour: Carbon

Low RPM Mode
Remote Transmitter
Extended Rear Platform
Two Tone Step-Up Seat
Reboarding Step

A little more luxurious, and a lot more sporty.

VX Hull constructed with exclusive lightweight NanoXcel material + 1.8L High Output Engine = a high performance, nimble and great value muscle craft. Easy and exciting to ride.

VX1BR Dimension: L3.27m x W1.17m x H1.16m | Dry Weight: 330kg | 1-3 Persons | Colour: Velocity Yellow or Deep Blue

Engine + Drivetrain

Displacement: 1,052cc
4-stroke, 4-cylinder, DOHC
Electronic Fuel Injection
155mm High Pressure Pump

Hull + Deck

Black coloured hull
60 litre fuel capacity
57.0 litres of storage

Features

Reverse
Low RPM Mode
Security Mode
Remote Transmitter
Extended Rear Platform
Convex Dual Mirrors
Digital Meter
Reboarding Step
Cruiser Seat

Discover the joys of cruising.

The fuel efficiency and extended cruising range of the VX Cruiser provides the freedom of riding through the weekend with ease and comfort.

VX CRUISER Dimension: L3.27m x W1.17m x H1.16m | Dry Weight: 340kg | 1-3 Persons | Colour: Silver Metallic

The fun never ends.

Sharp looks and sharp performance makes the VX Deluxe one of Yamaha's most popular WaveRunners worldwide.

Engine + Drivetrain

Displacement: 1,052cc

4-stroke, 4-cylinder, DOHC

Electronic Fuel Injection

155mm High Pressure Pump

Yamaha Motor Finance

Yamaha Motor Finance (YMF) provides real value to customers looking to finance a new Yamaha. Apart from competitive repayment on loans we offer the following benefits to our customers:

- Lock in your rate for up to five years
- Flexible repayments
- No account keeping fees
- A time saving application and contract process
- Finance insurance and accessories into the one loan.

How do I get started?

Simply talk to your local Yamaha Dealer. We will get back to you within one working day allowing you to get your new Yamaha sooner. (Finance is TAP, conditions apply)

It's fast, easy, and it lets you get on your Yamaha NOW!

Specifications are subject to change without prior notice.

Use this guide to find the Yamaha WaveRunner model with the specific features that you are looking for.

***1 5-Position Quick Shift Trim System (Q.S.T.S.)**

QSTS allows for bow up or down adjustment to suit the water conditions for rider preference for better performance and comfort.

***2 Yamaha Engine Management System (Y.E.M.S.)**

An integrated, computerized management system that controls and adjusts such functions as ignition timing, fuel injection mapping, engine diagnostics and O.T.S.

***3 Cruise Assist / No Wake Mode / Reverse Traction Control**

The Cruise Assist eliminates the bother of constant throttle work to maintain a steady speed, which is something you will really appreciate in long-distance cruising. You simply set your desired speed with a finger-tip control switch, and it is easy to cancel. Simply returning the throttle lever to the position where it was set cancels it. In No Wake Zones like harbours or thoroughfares with a speed limit, just select the No Wake Mode and let control system keep you just at the speed limit automatically. Reverse traction control manages engine RPM to prevent over-revving when running in reverse.

***4 Security Mode / Low RPM Mode / Remote Transmitter**

With the click of a remote transmitter, you can easily reduce top speed and RPMs. The push of another

button gives you the ability to disable the ignition, preventing an accidental start-up or an unauthorised joyride.

***5 Yamaha Sound Suppression System (Y.S.S.S.)**

The Airbox Baffle keeps intake/exhaust noise at minimum levels. (Combined with the exhaust baffles and hull construction, the noise level intensity is reduced up to 70% over previous models.)

***6 NanoXcel Deck & Hull**

The newly developed super-lightweight hull material NanoXcel achieves a revolutionary reduction in relative weight without sacrificing strength and production efficiency. And by using it in the hull, deck and other main parts of the craft it has been possible to achieve a 25 kg reduction in weight compared to the conventional materials.

***7 Adjustable Tilt Steering**

FX Cruiser SHO, FX SHO, FX Cruiser High Output, FX High Output : 55° to 40°, 4-Position.

YAMAHA

GO THE DISTANCE

Before Riding

- Read the instruction materials and understand it fully.
- Everyone must wear a PFD and a wetsuit bottom.
- Do NOT ride after the consumption of alcohol.
- Driver must attach the engine stop switch cord (lanyard).

Proper Riding

- Scan constantly for people, objects and other watercraft.
- Keep a safe distance away from people, objects, other boats and PWC.
- Do not follow directly behind personal watercrafts or other boats.
- Do not go near others to spray or splash them with water.
- Keep away from intake grates. Items such as long hair, loose clothing, or PFD straps can become entangled in moving parts resulting in severe injury or drowning.
- Don't release throttle when trying to steer.

- Ride within your limits and avoid aggressive manoeuvres to reduce the risk of loss of control, ejection, and collision.
- Do not jump wakes or waves.
- Do not apply throttle when there are people at the rear of the WaveRunner.

Rules and Manner

- Understand maritime traffic rules.
- Do NOT drive early in the morning or areas with many residents.
- Stay away from operating fishing boats or fixed fishing nets.
- Do NOT enter a bathing beach area.
