Dynamic

Expect More

We are committed to providing you with the best toy hauler in the market today. Every single Thunderbolt floor plan is carefully designed and engineered for functionality and feature content. The latest materials and complementary design finishes are implemented throughout every fifth wheel. The 375AMP (left) exhibits this commitment with a highly functional kitchen layout and angled entertainment center so that no matter where you are on the main floor, you won’t miss a minute of the action.

The 415AMP galley (below) showcases the latest trends including solid hardwood cabinet doors, residential appliances, and contrasting cabinet finishes.

The 415AMP kitchen is open for entertaining and boasts a huge countertop workstation, residential size microwave, island sink, and optional 110V residential Whirlpool refrigerator.

Bathrooms feature plenty of storage, a medicine cabinet, and a full size shower with triple glass door (select models).
First Class

Because you’ve earned it

You work hard, you play hard too...you deserve nothing short of the best. Thunderbolt owners are discerning buyers. Most of them have considered the alternatives and chosen, not settled on, a Thunderbolt fifth wheel.

Our interior designers work diligently to provide you with warmer interior lighting, today’s contemporary fabrics, and stylish decor features. Our focus has always been on designing a fifth wheel you’ll be proud to own.

Combinations of wood styling and bead board panels in the entertainment center combine to add to the residential quality you expect in an XLR. Enjoy the large HD TV with soundbar for the latest in streaming capabilities. The electric fireplace takes the edge off of a cool night without firing up the furnace.

The 401AMP surpasses all expectations with generous countertop space, wrap around seating, abundant storage, a 12 cu. ft. refer, and full view sliding glass door...all standard!

60/40 Stainless steel undermount sink with industrial style pull down faucet accommodates large pots for preparing meals away from home. Standard solid surface countertops stand the test of time.

You can fit your entire wardrobe into this cavernous front closet. Full length mirrors take the guess work out of looking your best (select models).
EXCLUSIVE

In a class all by itself

The 385AMP is an innovative and exclusive floor plan. This gorgeous layout is the only front living room in the industry that offers you the ability to transport your toys. We’ve conveniently left enough space in the rear bedroom to bring along a golf cart, ATV, or single motorcycle.

No toys...no problem. The rear master suite’s french doors open up to a private porch where you can enjoy your coffee in the morning while you overlook the lake.

During the day, this room doubles as a lounge area or perfect spot for the family pets to hang out. Remove the cushions and bolsters before lowering your King bed down for the night.

At the end of the day, the custom designed murphy bed easily converts into the King master bedroom complete with his & hers nightstands.
This large U-shaped kitchen has more than enough space. When guests arrive, the tiered countertop is perfect for serving snacks and drinks. The flow of the 385AMP is perfect for large groups because while guests are in the kitchen, others can still be part of the conversation in the raised front living room.

The 385AMP kitchen includes functional drawer and cabinet placement, residential microwave, and a 21 cu. ft. residential refrigerator with 1,000W inverter.

The amount of storage in this bathroom is amazing...massive drawers and a generous wardrobe closet are surrounded by huge overhead cabinets. The premium shower surround and glass doors enhance the elegance of this floorplan.
Thunderbolt puts you in control.

Whether you just want to connect with nature, or stay in touch with friends and family back home, we’ve got you covered.

If your goal is to find a spot away from it all and relax, our amenities allow you to be fully self-sufficient while you “unplug.”

Or, if you’re one who can’t leave home without it, our electronics packages, technology features, and extra gadgets will keep you connected.

The Thunderbolt bedroom is a perfect retreat with warm earth tones, and a cool gel, memory foam mattress. King beds (select models) let you recharge for whatever tomorrow brings.
This optional Garmin RV 760PRO GPS and Trip Planner includes an easy to read 7” display, wireless back-up camera, and syncs with a smart phone via Bluetooth.

The pop-up charging station is recessed into your countertop. It’s ready at a moment’s notice to charge your smartphone or fire up the blender for a chocolate malt.

The custom entertainment centers offer you the latest in connectivity with specific locations designed for your personal audio/video equipment. Our soundbar includes bluetooth audio and streaming capabilities for the living room. Additional stereo systems control the exterior speakers and rear living zones.

The powerful Dyson cordless vacuum stores out of the way and is perfect for quick clean ups inside the RV.

The optional Level Up hydraulic auto leveling system is powerful and easy to use. In less than a minute, your Thunderbolt is level and ready to use.
FLEXIBILITY

No, we can’t put our feet behind our head but our multi-zone living is just as impressive.

XLR Thunderbolts offer today’s buyers something traditional fifth wheels can’t - flexibility. We don’t restrict you to one particular use. The rear living space of your Thunderbolt could be a garage, a bunkhouse, dining room, game room, man cave, kennel, mobile office, or anything else you can come up with.

Game nights after dinner or playing cards to pass the time while the rainstorm passes...whatever you need it for, Thunderbolt adapts.

Kids love the extra space you can create just for them. Our queen “bunkbeds” are even large enough for grandma and grandpa to come along.

BRING IT! Our interior bed height is maximized so you can load your off road vehicles, motorcycles, dirt bikes, golf cart, or whatever else you like to ride.

Our additional rear half bath means your sleep isn’t interrupted by late night bathroom visits (select models).

The optional cargo bath upgrade (select models) converts the half bath into a second full bathroom combo.
Optional VIP Party Deck includes aluminum rails, awning, and his/hers XLR zero-gravity chairs.

The optional Three Season Patio Door lets air in, keeps pests out, and also helps keep the air conditioning or heat inside where it belongs.

The doors quickly swing out over the ramp to make loading and unloading a breeze.

Whether it's tailgating, eating dinner outside, or just enjoying some quiet time, the VIP party deck provides endless possibilities and sets up in just minutes.
Frameless tinted safety glass windows provide a sleek design and withstand exposure to the elements over time.

Equa Flex Suspension creates a smoother ride...for you AND your Thunderbolt.

The industry’s first 5,000 lb tie down system are steel reinforced to insure your cargo stays where it should.

Tread Lite “Maintenance Free” aluminum steps make getting in and out a breeze.

*Foil Insulation is included in the Extreme Weather Package option.

Our name says it all - **Xtended Living and Recreation.**

Thunderbolt toy haulers are bold, luxurious and loaded for adventure. Floorplans are carefully planned to create plush, well appointed, living spaces that flow from room-to-room with contemporary appeal. With double and triple slide-outs, 12’ to 16-1/2’ garages, and a 102” widebody design with vacuum bonded aluminum construction, the choice of rock-solid configurations is up to you.

Life is easy with XLR.

---

**Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:**

1. Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
2. Purchasing locally allows customers to establish meaningful relationships with a dealer; enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
3. Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
4. Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

---

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!
