Paseo

Why Paseo?

- Optional exclusive removable bike rack
- Large 12V refrigerator with separate freezer
- Ford® Transit chassis with EcoBoost® engine, lane keeping alert, and SYNC® 3
- High efficient Truma Combi™ Eco Plus Heating System with (2) 850-watt elements
- Optional exclusive movable ladder and rack system
- Powered armless patio awning with LED lighting
- Optional heated electric drainage system
- Designed and insulated for extended seasons
- Optional 100-watt solar panel battery charger
Take the Scenic Route

The all-new Winnebago® Paseo™ is a first-of-its-kind Class B coach built on the world-renowned Ford® Transit van chassis. It looks sharp, has a spacious interior, and boasts the power and fuel economy of a Ford EcoBoost engine. The Paseo was consciously designed for a leisurely lifestyle while making the most of the available space. The rear third of the coach is completely transformable to your needs with the help of a specially-designed Flex Bed System that offers multiple sleeping and daytime configurations. Be one of the first to experience the fun, flexible, fuel-friendly Class B Paseo from Winnebago.

The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle Award to manufacturers that provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer that has received this award every year since its inception.
The rear of the Paseo is an innovative living space designed for total day and night comfort. The dinette configuration presents you with two plush bench seats facing an oversized table that seats four for dinner with plenty of elbow room. The table can be lowered out of the way if you just want to relax and watch TV. At night, the dinette converts into a full bed. Above your head, a row of cabinets takes advantage of hidden wall cavities to maximize your storage space. They are adorned with sliding doors in your choice of a Washed Maple or Coffee-Glazed Vienna Maple wood finish that glide smoothly with a touch.
Our galley engineers worked overtime selecting appliances and crafting a cooking space that encourages eating healthy on the road. This includes a two-burner range top, compressor-driven refrigerator/freezer, microwave/convection oven, and a Corian® countertop with a flip-up extension. A large 26-gallon fresh water holding tank keeps you going strong when you’re living off the grid. The inclusion of the Truma Combi™ Eco Plus heating system allows you to travel all year round using a combination of LP and electricity that is over 90% efficient.
By moving the bath forward in the coach, we’ve avoided protruding wheel wells to create a spacious bath with an elegant curved sliding door. The fold-down sink over the toilet creates further space making this one of the most efficient bathrooms in its class. Catch up on sleep on the Flex Bed System when your day of adventure comes to a close.
As the first touring coach of its kind to be built on the Ford Transit chassis, you’ll be the first to experience the power and acceleration of the Ford 3.5 liter EcoBoost V6 engine in a touring coach. Inside, Ford’s SYNC® 3 voice-activated technology activates the dash touchscreen with controls for the phone, stereo, and navigation functions. The passenger seat rotates to face a discreetly located flip-out table that is perfectly sized for a laptop or a quick meal on the go.
The Paseo is ready for your next adventure with accessories designed for an active lifestyle, such as an available bike rack that folds neatly against the back wall when not in use. The available roof rack expands your storage capabilities and includes a new movable ladder for loading and unloading. At the end of the day, pull out a chair, extend the new armless awning with a wind sensor, and relax with a cold beverage as you listen to your speaker system that pairs with your Bluetooth® phone. You can also take advantage of additional innovations such as the rear screen wall and the running boards with ground lighting.
**48P**

A fabulous rear dinette/sleeping area is the highlight of an all-new floorplan that also features one of the largest bathrooms in its class.

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at Winnebagolnd.com.
Choose from three fabric collections and two wood finishes.

Holding tank flushing system

Optional Equipment
Heated drainage system

Safety
LP, smoke, and carbon monoxide detectors
10 BC fire extinguisher
Ground fault interrupter
High-mount brake lamp

Warranty
12-month/15,000-mile basic warranty

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.

2. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

3. Capacities shown are tank manufacturer’s listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

4. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.

5. See separate chassis warranty.

6. See your dealer for complete warranty information.

Not all items available in combination. See dealer for details.
