

NEW 2020 HARLEY-DAVIDSON® MOTORCYCLES

Find your
own kind
of quiet.

TAKE A DEEP BREATH.

Relax. Imagine the sun on your skin, the wind on your face. The sights and sounds all scrambling to keep up. Feel the world melt away. Now, remember that feeling.

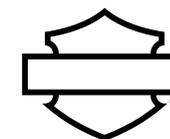

It's the same feeling we've been engineering into every Harley-Davidson® since 1903, continually crafting not just motorcycles but bikes that bring you balance. The more time you spend in the saddle, the more your thoughts dissolve, the more your muscles awaken - the more you exist in the now. Your mind cleared, but your body completely engaged.

And in today's world of phone dependency, tidal waves of technology and never-ending news cycles, everyone could use more of that feeling.

So, while we can go on and on about the thrills and chills of riding, the only way to really understand is to grip the handlebars, throttle up and return to the present.

Rip yourself out of the everyday, and experience rebirth on two wheels.

NEW 2020 RANGE

New rides. New *thrills*.

That's the great thing about true icons, they always know how to surprise you. And the 2020 Harley-Davidson® range gives you all the performance and power you expect, but with plenty you didn't.

Our range has grown to give you even more ways to expand your headspace. With all-new bikes, like the blacked-out Low Rider™ S, sublime Road Glide® Limited touring machine, and LiveWire™ – the first ever electric Harley-Davidson.

There's also new tech, such as Reflex™ Defensive Rider Systems advanced traction control, and H-D™ Connect, which gives you bike and journey stats straight to your smartphone.

That's not the whole story. This brochure is just a taste of what's new, but you can find out about all our models in the spec section at the back, dropping by your local dealer or checking out h-d.com.

So take time out to relax and explore our whole range. There's a new Harley-Davidson for every rider, but which ride is made for you?

THE ALL-NEW ELECTRIC

LiveWire™

The all-new LiveWire™ has arrived, marking the first electric bike in H-D history. This energized bolt of electric high-performance blends evocative design and cutting-edge tech to deliver you zen thrills with lightning quickness.

With its aggressive stance and twist-and-go throttle, this all-new Harley-Davidson® motorcycle is an electrifying experience.

Coupled with high-performance SHOWA® front and rear suspension and H-D®/Michelin® Scorcher® Sport tires and Brembo® Monoblock brakes with cornering-enhanced ABS and traction control, the LiveWire™ gives you the agility to whip through the city streets—as far as 146 miles [235km]* per charge.

A sleek touchscreen display and H-D™ Connect service** will keep you cool, calm and connected by allowing you to remotely connect from your smartphone to check bike vitals such as charging status and tire pressure and keeps everything safe and secure with stolen vehicle tracking and tampering alerts.

DIMENSIONS ¹	Length (mm /in)	2,135 [84.1]
	Seat Height, Unladen (mm /in)	780 [30.7]
	Weight, As Shipped (kg/lbs)	249 [549]

	Suspension	SHOWA® BFR™ Mono-Shock Rear Suspension
	Pistons	SHOWA® SSF-BP® Separate Function Front Fork-Big Piston
	Tires	H-D®/Michelin® Scorcher Sport 180mm Rear / 120mm Front
	Modes	Sport/Road/Range/Rain + 3 Custom Ride Modes

COLOURS ³	Reflex™ Defensive Rider Systems (RDRS)	Cornering Enhanced Antilock Braking System (C-ABS)
		Cornering Enhanced Traction Control System (C-TCS)
		Cornering Enhanced Drag-Torque Slip Control System (C-DSCS)
	Sotid	Vivid Black Yellow Fuse Orange Fuse

* Riding range estimates provided following the tests SAE J2982 and are based on expected performance of a fully-charged battery when operated under specified conditions. Actual range will vary depending on riding habits, ambient weather and equipment conditions. As measured using the MIC City and MIC combined (70 mph) tests.

** H-D™ Connect service will be provided for one year with the purchase of a new LiveWire™ motorcycle and available with a subscription charge following that first year. The H-D™ Connect service is not available in all markets. See dealer for details.

THE ALL-NEW

Low Rider™ S

The Low Rider™ style has been giving people a new perspective for decades. And this year, we're taking that thrilling perspective even further with the new Low Rider™ S.

You get the massive torque of a Milwaukee-Eight® 114 engine, the crisp handling of the Softail® frame and responsive premium suspension. The blacked-out finishes, the moto-style bars with four-inch risers and a mini speed screen will make you look just the way you feel while riding this laid-back machine that's sure to create a scene whenever it's stopped. But don't expect onlookers to linger long. All it takes is one twist of the throttle to send them to your rear-view mirror.

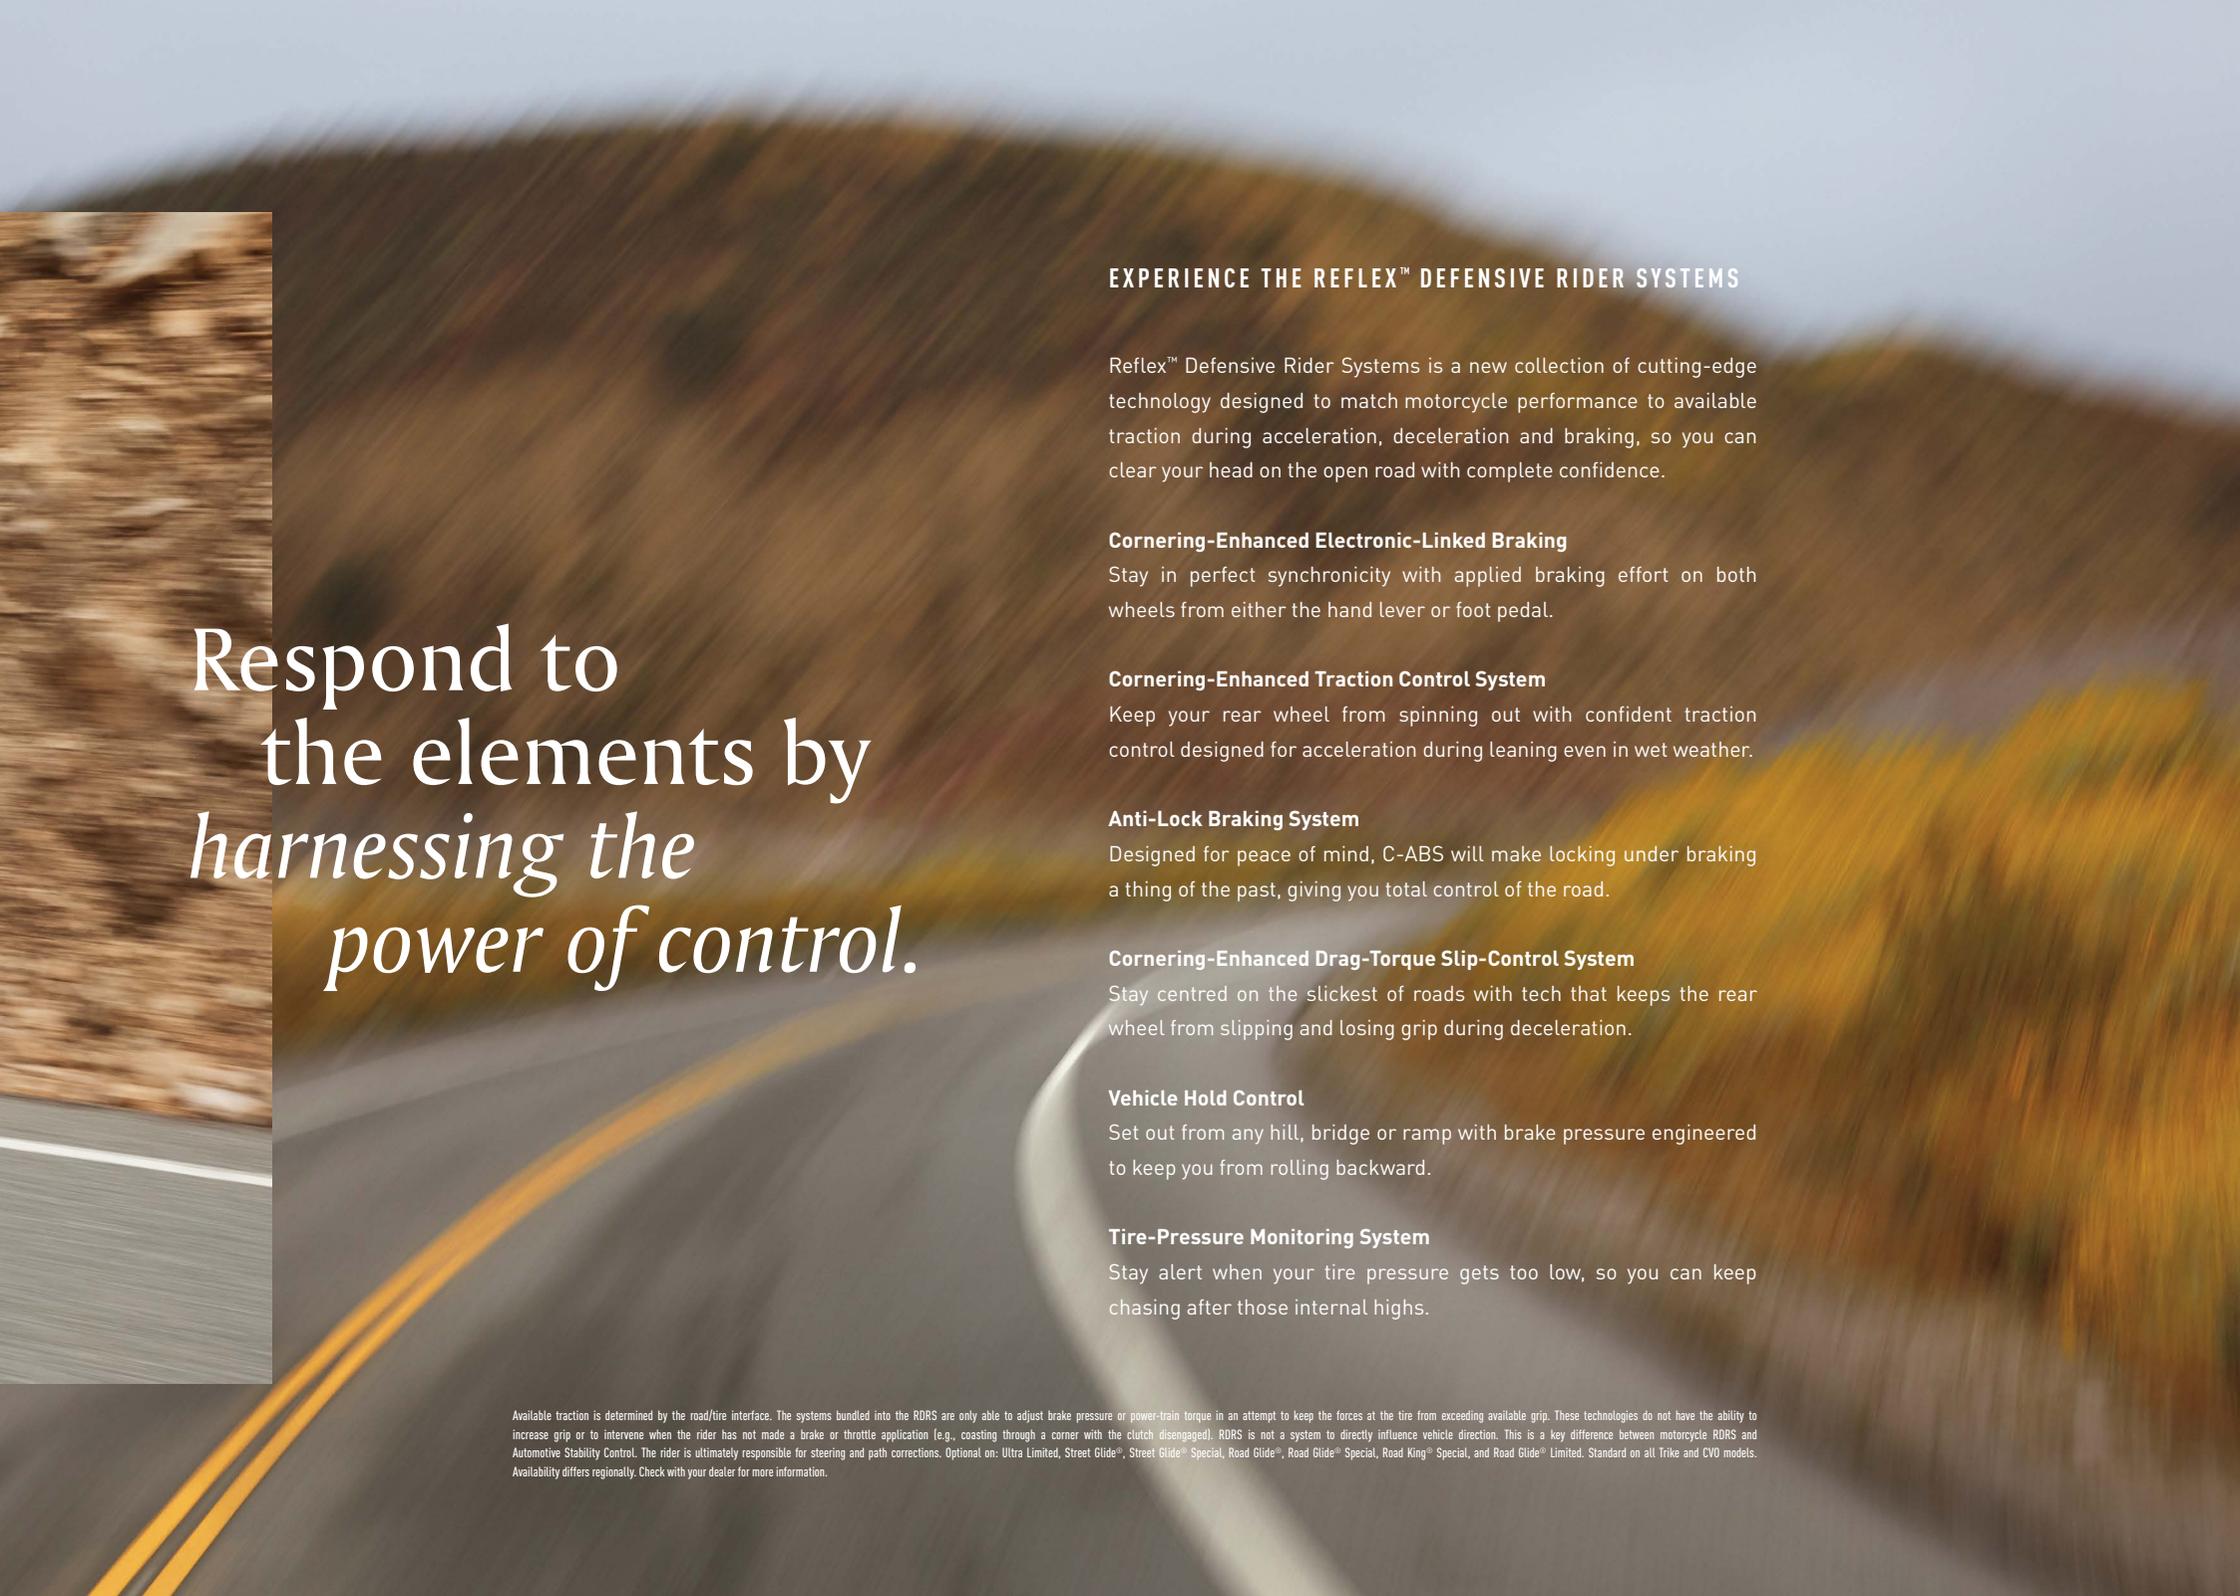

TOURING

Road Glide[®] Limited

The new Road Glide[®] Limited motorcycle will float you to bliss. The frame-mounted shark-nose fairing and 13.5-inch windscreen protect you from the wind while Slicer II Contrast Bright Wheels and new tank and front fender medallions in the blacked-out finish give this touring roadster the flash only the dual Daymaker™ Reflector LED headlamps can outshine. Feel the warmth from your fingertips to your soul with the heated hand grip. And put some miles between you and whatever you're leaving behind with the power of a chrome or blacked-out Milwaukee-Eight[®] 114 engine.

Respond to
the elements by
*harnessing the
power of control.*

EXPERIENCE THE REFLEX™ DEFENSIVE RIDER SYSTEMS

Reflex™ Defensive Rider Systems is a new collection of cutting-edge technology designed to match motorcycle performance to available traction during acceleration, deceleration and braking, so you can clear your head on the open road with complete confidence.

Cornering-Enhanced Electronic-Linked Braking

Stay in perfect synchronicity with applied braking effort on both wheels from either the hand lever or foot pedal.

Cornering-Enhanced Traction Control System

Keep your rear wheel from spinning out with confident traction control designed for acceleration during leaning even in wet weather.

Anti-Lock Braking System

Designed for peace of mind, C-ABS will make locking under braking a thing of the past, giving you total control of the road.

Cornering-Enhanced Drag-Torque Slip-Control System

Stay centred on the slickest of roads with tech that keeps the rear wheel from slipping and losing grip during deceleration.

Vehicle Hold Control

Set out from any hill, bridge or ramp with brake pressure engineered to keep you from rolling backward.

Tire-Pressure Monitoring System

Stay alert when your tire pressure gets too low, so you can keep chasing after those internal highs.

Available traction is determined by the road/tire interface. The systems bundled into the RDRS are only able to adjust brake pressure or power-train torque in an attempt to keep the forces at the tire from exceeding available grip. These technologies do not have the ability to increase grip or to intervene when the rider has not made a brake or throttle application (e.g., coasting through a corner with the clutch disengaged). RDRS is not a system to directly influence vehicle direction. This is a key difference between motorcycle RDRS and Automotive Stability Control. The rider is ultimately responsible for steering and path corrections. Optional on: Ultra Limited, Street Glide®, Street Glide® Special, Road Glide®, Road Glide® Special, Road King® Special, and Road Glide® Limited. Standard on all Trike and CVO models. Availability differs regionally. Check with your dealer for more information.

CUSTOM VEHICLE OPERATIONS

CVO Street Glide®

The CVO Street Glide® is the absolute pinnacle of H-D style, comfort and performance. The gargantuan Milwaukee-Eight® 117 V-Twin engine powers this balanced marriage of machinery and technology, while the BOOM! Box GTS infotainment system and headset make up the bike's communications centre.

New detailing includes Fugitive aluminium wheels, a low-profile, two-piece tank, custom-stitched seats and backrest covers, smoked mid-frame air deflectors and fairing-mounted mirrors. With additional premium features like H-D™ Connect and Reflex™ Defensive Rider Systems, this is a truly thrilling bike created for those looking to show off their two-wheeled transcendence.

*H-D™ Connect availability is standard for MY20 Touring models (except Road King®, Road King® Special, Electra Glide® Standard models and Freewheeler®) (in regions where available).

H-D™ Connect service will be provided for one year with the purchase of any new H-D Connect* applicable motorcycle and available with a subscription charge following that first year. The H-D™ Connect service is not available in all markets. See dealer for details.

CUSTOM VEHICLE OPERATIONS

CVO Tri Glide[®]

The most-requested model in the history of Custom Vehicle Operations is here and overflowing with features to lose yourself in. Dive into the 117-cubic-inch Milwaukee-Eight[®] power. See it all with the new Daymaker™ LED headlamp. Take hold of the custom Kahuna™ collection grips, levers, pegs and floorboards. Stay connected with top-of-the-line BOOM! Box GTS infotainment, a premium sound system and the BOOM! Audio 30K Bluetooth[®] headset to communicate with your bike, your passenger and other riders. And keep your ride safe, sound and always ready to go with the Reflex™ Defensive Rider Systems and smartphone-linked H-D™ Connect.

Balance it all on new 19-inch front wheels, 18-inch Tomahawk™ contrast cut rear wheels and the choice of two premium custom paint finishes. The CVO Tri Glide[®] doesn't just have everything you want - it makes you feel everything you need.

CUSTOM VEHICLE OPERATIONS

CVO Ultra Limited

The air is rare where the CVO Ultra Limited rides, propelled by its monumental Twin-Cooled™ Milwaukee-Eight® 117 engine. With custom wheels, heated grips, exclusive blaze-red rocker boxes, Kahuna™ Collection shifter pegs and a premium BOOM! Box GTS infotainment system with BOOM! Audio 30K Bluetooth® headset, this bike brings an unparalleled level of class to the Grand American Touring tradition.

A night-cutting Daymaker™ Adaptive LED headlamp, H-D™ Connect and electronic Reflex™ Defensive Rider Systems make for safe travels at any hour your soul calls out for a ride, and a spacious Tour-Pak® carrier atop roomy saddlebags lets you take what you need to stay out as long as you need.

Paint

Your choice of paint is a reflection of your inner spark. When the light catches it just right, you can see someone's soul in the choice of finish. Fortunately, the Harley-Davidson Motor Company is renowned for the depth, richness and longevity of its colour. This year, we've added new solid colours, new two-tones and nine expansive, new finishes for CVO models so you can shine as bright as you want to. The information printed in this brochure reflects product design, fabrication and component parts at the date of printing.

IMPORTANT - PLEASE READ:

The information printed in this brochure reflects product design, fabrication and component parts at the date of printing. 1. Vehicles depicted may differ from vehicles manufactured and delivered. Specifications and prices listed may differ from specifications and prices of vehicles manufactured and delivered. All product descriptions (including depictions, specifications, dimensions, measurements, ratings and competitive comparisons) are based on the information available at the time of publication. Although such descriptions are believed correct, errors and changes can occur and complete accuracy cannot be guaranteed. Harley-Davidson may make changes and at any time to prices and specifications and may change or discontinue models without notice and without incurring any obligation. Attention: Vehicles in the configurations shown and many of the accessories described in this catalog may not be available for sale or use in some locations. Please check with your dealer for complete product details and the latest information. All models feature 6-speed transmission (Sportster® models are 5-speed) and carbon fiber belt final drive; multi-plate clutch with diaphragm spring in oil bath; and two-year, unlimited mileage warranty. 2. The combined fuel economy numbers were derived using a combination of estimated city and highway values. Fuel economy estimates are derived from US EPA exhaust emission certification data on a sample motorcycle from the corresponding family under ideal laboratory conditions. Your actual fuel economy will vary depending on your personal riding habits, road and driving conditions, vehicle condition and maintenance, tire pressure, vehicle configuration (parts and accessories), and vehicle loading (cargo, rider and passenger weight). Break-in mileage may vary. 3. Availability of colours may vary from dealer to dealer.

HARLEY — DAVIDSON®

We care about you. When riding your Harley-Davidson® motorcycle, be sure to ride safely, respectfully and within the limits of the law and your abilities. Always wear an approved helmet, proper eyewear and protective clothing and insist your passenger does, too. Never ride while under the influence of alcohol or drugs. Know your Harley® motorcycle, and read and understand your owner's manual from cover to cover. Sign up for a Harley-Davidson® Riding Academy course. [Call 1-800-444-9227 for a course near you.] Harley Owners Group® and H.O.G.® are among the trademarks of H-D U.S.A., LLC. Third-party trademarks are the property of their respective owners.
