OPUS OFF ROAD

OP15

FULLY LOADED OFF-ROAD HYBRID CARAVAN

OFF-ROAD READY

- Independent trailing arm coil suspension with dual shock absorbers
- Lock'n'Roll articulating hitch with 360* rotation for flexible towing
- 2 all-terrain tires, 2 spares, alloy wheels & spare (265/75r/16 mud tires)
- Fully galvanized & welded chassis & drawbar
- Stone guard & underbody anti-chip protection with diamond plating
- 4x drop down heavy duty stabilizer legs & fulton tongue jack wheel

REENGINEERED SUSPENSION FOR INCREASED DURABILITY

The OP15 off-road suspension just got even tougher! OPUS increased the size of the gas struts and added even larger springs positioned vertically (instead of diagonaly) to remove the wear on your gas struts and interior gasket. This vertical positioning provides more off-road impact durability and for even rougher tow conditions.
