Storage Cover

OPUS
OFF-ROAD

OFF-ROAD & OFF-GRID READY

The OP4 features an upgraded, all-terrain chassis with Off-Road 15" tires and independent coil suspension, perfectly suited to follow you wherever you want to go. With 40 gallons of water on-board, and 3-4 days of built in battery life (with solar power options), you can get off the grid while still living luxuriously. Our 2023 Model includes an upgraded front tool box to provide additional space for larger fridges, a rack-mounted hot water shower & shower tent and an upgraded annex using 300D Nylon tent material which is lighter-weight and dries faster making packing away easier than ever before.

OUTDOOR COOKING EXPERIENCE

The OP4 stainless steel kitchen slides out to a fully-functioning off-grid outdoor cooking experience so you never miss a moment of the action. Includes a 4-burner stove with wind guards, stainless steel chopping board, sink with running water, LED outdoor cooking light and a 12v electric fridge.

COVER OPTIONS

The 2023 models include the option for an AIR Canopy or AIR Annex. Both options connect directly to the AIR tent and can be packed-down with your camper during travel and storage.

AIR ANNEX

The new lightweight AIR Annex includes two extra bedroom pods and an extended living area. This option takes an additional 2 - 3 minutes to inflate with your on-board air compressor. With a fully enclosed living space and a large protective floor, the AIR Annex adds space to sleep an additional 4 adults.

AIR CANOPY

The AIR Canopy is a lighter option to the full AIR Annex. Extending the full width of your camper, the AIR Canopy takes an additional 90 seconds to inflate and provides full kitchen coverage for protection from rain and sun.

AIR BEAM TECHNOLOGY

The OP4 features our innovative, multi-award winning AIR OPUS tent, which allows you to effortlessly set up your tent at the touch of a button. Our patented AIR Inflation technology incorporates a built-in compressor which inflates the tent in just 2 minutes. The AIR tent frame is built to withstand rough weather conditions while providing you with a bright, spacious, comfortable living space.
