WHEELBASE	— 55.5 inches
RAKE	— 25.5°
TRAIL	— 4.0 inches
SEAT HEIGHT	— 31.1 inches
FUEL CAPACITY	— 4.5 gallons
CURB WEIGHT	— 414 pounds (Includes all standard equipment, required fluids and full tank of fuel)

FEATURES & BENEFITS

DOHC TWIN-CYLINDER ENGINE

The 471cc parallel-twin engine features a dual overhead cam design that's versatile, approachable, and famously reliable. It has robust low-end torque and high-rpm horsepower.

Showa® SFF-BP FORK

A top-notch 41mm inverted Showa Separate Function Fork — Big Piston (SFF-BP) front end provides the rigidity needed for precise steering and feedback.

SLIPPER ASSIST CLUTCH

The slipper clutch improves power delivery, reduces clutch-lever pull effort by 45 percent, and helps prevent rear-wheel hop during hard deceleration.

ANTI-LOCK BRAKING SYSTEM

Our Anti-Lock Braking System is standard, providing confident stopping power and added assurance in challenging conditions, such as wet roads or loose gravel.
