

THE ALL-NEW INDIAN SCOUT

BORN FROM ICONS
RIDDEN BY LEGENDS

2025 INDIAN 101 SCOUT

As America's First Motorcycle Company, we've been making iconic motorcycles since 1901. In 1919, we introduced the first Indian Scout, heralded for its legendary balance of power and control. Soon after we debuted the Indian 101 Scout, considered by many to be the most perfect motorcycle built.

Our founders were trailblazers, with a spirit of innovation that we've kept alive through evolution and respect for the history that got us here. Looking to that heritage for inspiration and the legendary riders who chose Indian Scout over the last hundred years, we introduce the all-new Indian Scout lineup.

1929 INDIAN 101 SCOUT

THE ALL-NEW INDIAN SCOUT CREATE STORIES WORTH SHARING

Indian Motorcycle's brand purpose is simple:
inspire the next generation of riders to pursue their dreams.
If you're on two wheels, you're with us. Period.

THE ALL-NEW INDIAN SCOUT PROVES THE BEST CAN GET EVEN BETTER

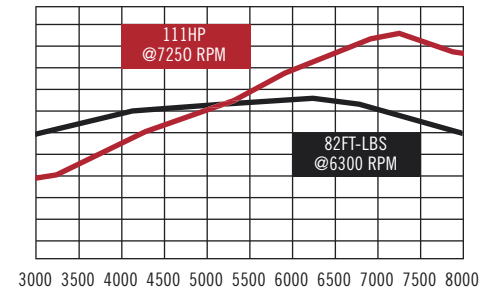

ICONIC AMERICAN DESIGN

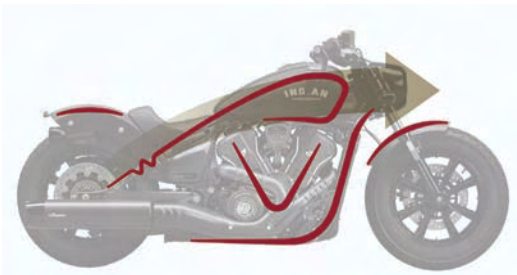

For over 100 years the Indian Scout has represented iconic American design, with a silhouette that shines with heritage and tradition. Leveraging the timeless style and perfect proportions that make up Scout's DNA, the all-new Indian Scout has been reshaped into the most beautiful and capable American mid-sized cruiser in the world.

THE ALL-NEW SPEEDPLUS 1250 V-TWIN

The completely redesigned SpeedPlus 1250cc liquid-cooled V-twin is at the heart of the all-new Scout. It features a 10% displacement increase and 14% more torque over the previous 1133cc Scout engine. And with 111hp in the 101 Scout, that's an 11% increase in power. To make all that power more usable, there's a flatter torque curve to deliver exhilarating seat-of-the-pants acceleration and a new slipper clutch for greatly improved clutch lever effort.

ICONIC SCOUT DESIGN STYLE

LEGENDARY BALANCE OF POWER AND CONTROL

When it comes to comfort and control, the combination of classic cruiser comfort and low center of gravity put the all-new Indian Scout in a class of its own. Low seat height with a narrow stand-over means it's easy for riders of all sizes to reach the ground. Perfect balance makes it effortless off the side stand and simple to maneuver at low speeds and more aggressive riding alike.

RIDER CENTRIC TECHNOLOGY

The all-new Indian Scout integrates new safety and convenience features today's riders demand. All models feature ABS braking, an easy-to-read fuel gauge, and LED headlight. Three ride modes, as well as traction and cruise control are available in the Limited trim, while Limited +Tech adds a keyless ignition, and all the amazing features that come with the 4-inch Display Powered by RIDE COMMAND and integrated RIDE COMMAND+ connected technology.

101 SCOUT

PREMIUM
AGILE
REFINED

Rooted in history as one of the greatest motorcycles ever made, the Indian 101 Scout is purpose built to be the highest performance Scout we've ever offered. With an all-new SpeedPlus 1250cc liquid-cooled V-twin sporting 111hp, color-matched quarter fairing, inverted adjustable front forks, dual disk Brembo® brakes and adjustable piggyback rear shocks, the Indian 101 Scout is packed with premium components that make a statement about your ability to go fast. Exacting attention to detail throughout completes the look, with 101 Scout badging and exclusive paint and graphics that will turn heads if anyone can catch it.

SCOUT BOBBER

STRIPPED
ICONIC
RAW

Stripped down with an aggressive stance and raw power, the Scout Bobber is the perfect expression of iconic bobber style. Blacked out front to back with chopped bobber fenders and headlight nacelle, it leans hard into a classic bobber vibe. A solo bobber-style seat reinforces a minimalist bobber aesthetic—without trading comfort—and firmly plants you in control under hard acceleration. Slammed suspension (2-inch rear travel and 4.7-inch front travel) creates a low stance for an aggressive, custom look. Bar End Mirrors give the bike a cut-down and clean look with improved visibility.

PURPOSEFUL
AGGRESSIVE

Inspired by history but redesigned for the style of today, the Sport Scout gives an aggressive spirit to the Scout lineup. Stylish gloss black 6-inch moto style risers with machined triples come standard for a menacing style that improves reach and control for aggressive riding. The quarter fairing gives the Sport Scout a stylish and custom look straight from the factory and the 19-inch front wheel adds to the aggressive nature of the Sport Scout. The solo sport seat keeps you planted and comfortable, to ride longer and harder, without compromising the bike's sleek style.

PROUD

When the goal is to hit the open road, we make sure no corners are cut or details overlooked. Built for any type of riding, saddlebags, wire wheels, windshield, and passenger pillion all come standard. The touring saddlebags are the largest we've ever offered on Scout, and allow you to effortlessly carry essentials and simple ease of use with a quick pull tab. The quick-release windshield comes off in seconds for a different look and to feel the wind when you want it. The 3-inch suspension travel gives increased comfort to ride longer and farther. Premium chrome finishes and flawless paint add to the timeless styling born of the Indian Scout's heritage.

SCOUT CLASSIC

GENUINE
AUTHENTIC
TIMELESS

A name that goes back over a century with an experience that lives up to the legacy. The Scout Classic is where heritage-inspired design meets the needs of today's American cruiser rider. Premium chrome, classic Indian Motorcycle flared fenders, and flawless paint will be sure to turn heads at every intersection. Wire wheels add to the timeless, authentic style. A low seat height and relaxed ergonomics makes for an easy, confident ride at every speed, whether you're commuting or going on a weekend trip.

TRIM LEVELS

The all-new Indian Scout sets the standard for American cruisers with the widest range of ride-enhancing technology riders demand. It's available in three trim levels—Standard, Limited, or Limited +Tech. The Standard trim level gives you all the essentials you need for hitting the road. For riders who demand more control over their ride, the Limited and Limited +Tech trim levels provide class-leading amenities and function.

Scout's next-gen electrical architecture means you can upgrade to any individual tech feature you want at any time.
