SASQUATCH XC®

Welcome to SasquatchXC, where innovation meets adventure in the creation of premium off-road camp trailers. As seasoned trailblazing explorers, we handcraft campers that redefine adventure.

WE'RE NOT JUST BUILDING CAMPERS; WE'RE BUILDING A MOVEMENT

At SasquatchXC, we craft the ultimate blend of capability and comfort for your overlanding and off-road adventures. Our campers provide a secure haven for all explorers looking to set up base camp in the wild. Our secret weapons? An in-house engineered independent coil-over suspension system, underneath a lightweight aluminum build, all backed by an industry leading warranty. Say goodbye to the sketchy situations that traditional RVs and poorly built off-road campers drag into the remote, rugged scene. While some prioritize flashy add-ons over solid construction, SXC is committed to intrinsic quality and lasting durability. Our products aren't mass-produced in a dull industrial park; they're hand-crafted and rigorously tested in the rugged terrains of the Rocky Mountains in Colorado and the New Mexico High Desert.

SXC

HIGHLAND 60

Our rugged yet refined off-road trailer designed to elevate your outdoor adventures. Unparalleled cab comfort and storage capacity ensure you're well-equipped for any journey. Built with zero wood construction, it offers enhanced durability and weather resistance. With its instant setup kitchen and superior off-road capability, it's tried and trusted for your next adventure.
