SPARTAN ADVANTAGE

*What makes a Spartan a Spartan?
Rugged strength, comfortable operation,
and head-turning style. With its innovative
engineering and cutting-edge design, the
Spartan Mower is anything but basic.
Test drive one today and experience
the Spartan Advantage.*

**Model Shown: RZ-XD Blackout
Shown with Optional Accessories*

THE SPARTAN STORY

The story of any brand as part of the Intimidator Group begins with the dream of our founders, Robert and Becky Foster, who purchased their first business over 40 years ago. We've come a long way since our humble beginnings and are looking forward to continually changing the game.

01 // INTIMIDATOR GROUP ESTABLISHED

In 2013, the Fosters started Intimidator Group to pursue their dream of building the best side-by-side on the market that could excel at both work and play.

02 // ROBERT'S DREAM

From an early age, Robert possessed a love of engines, mechanics, and especially mowers. He brought that passion to life with the products developed by Intimidator Group.

03 // LAUNCHED SPARTAN MOWERS

With the vision of a superior mower, Robert went to work in his home garage and literally built the first Spartan Mower from the ground up. Spartan officially launched in October 2015 at the GIE+Expo in Louisville, Kentucky.

04 // PRODUCTION SPACE EXPANDED

The existing operating space was more than doubled in 2019 by the opening of a 200,000-square-foot manufacturing facility, the first of three planned expansions.

05 // EXPONENTIAL GROWTH

Over just a few short years, Intimidator Group grew to house five unique brands, employ approximately 550 people, and partner with more than 500 dealers across 39 US states, Ireland, Puerto Rico, and Australia.

06 // ACQUIRED BY THE TORO COMPANY

In January of 2022, The Toro Company purchased the Intimidator Group family of brands, allowing both companies—as well as all brands owned by TTC—to grow and thrive by sharing resources and technology.

07 // CONTINUED VISION

As we look to the future, the mission of Intimidator Group continues under the Toro umbrella, offering premium products that flaunt unparalleled strength, power, and performance—all while remaining affordable.

08 // BRAND EXPANDED

In 2024 the company announced the combining of UTVs and mowers under the Spartan brand umbrella. Now the best zero-turn mowers and farm and ranch side by sides are available from Spartan.

COMMUNITY FOCUSED MANUFACTURING

In Spartan-Owned 38-Acre Industrial Park

We're proud to build at our headquarters in Batesville, Arkansas where we provide quality jobs and support to our local community. We look forward to expanding our footprint on our site and bringing even more Spartan products to our customers.

EXPERIENCE THE SPARTAN ADVANTAGE

Take this list of Spartan Advantages and compare our mowers to any brand to see how they match up. Can the others offer as many advantages?

We Know You'll Be Impressed

REAR RADIAL TIRES

Performance starts with traction. Exclusive radial tires for better traction and a softer ride are on all RZ-XD, RT-HD, SRT, and KG models. Challenge our ride against others out there and see for yourself.

**KGZ-XD comes standard with tweels.*

UPGRADED HD FUSION WELDED FRAMES

Our frames on all Defender models and up are constructed from heavy-duty 3" x 1.5" 11-gauge tube steel. Spartan Mowers are built tough - there's no doubt about it.

7 GAUGE STEEL DECKS

Decks on Defender models and up are fabricated from 7-gauge steel. Check out the competition in the same category to see the difference.

RECEIVER HITCH

All RZ-HD models and up are equipped with a built-in 2" receiver hitch.

VIBRATION CONTROLLED DECK

Standard on RZ-HD models and up, the vibration controlled deck system with a one-piece idler pulley and shock absorber eliminates belt whip and reduces vibration.

PARKING BRAKE PEDALS

Another great feature that helps keep you in control is the foot controlled on and off parking brake that allows both hands on the steering arms.

**Standard on RZ-HD models and up.*

HILLSIDE / TRACTION

Spartan Mowers has engineered superior technology that combines perfect balance with superb incline control for a smoother, safer ride. Take it on an incline and feel the difference with GT Trac.

**Industry standard does not recommend mowing on inclines over 15 degrees.*

SPRING SUSPENSION

All SRT and KGZ models have rear traction enhancing custom Winimac® spring suspension for better grip and a smoother ride. This allows the radial tires to follow the contour of the riding surface.

FULL SUSPENSION SEAT

A 3" adjustable seat made with Dymetrol® material coupled with adjustable TecsPak® elastomers under the seat platform offers a ride that's above industry standard. We don't compromise on comfort.

**Standard on KGZ-XD, SRT series, RT-HD, RZ-XD, RZ-XD Blackout, and RZ-HD Blackout. Available upgrade on RZ-HD and RT-Pro.*

STRESS PADS

Rest your arms and wrists while mowing and, in turn, support your neck and shoulders.

**Standard on KGZ-XD and SRT-XD models. Available upgrade on the SRT-XDe, RT-Pro, and RZ series.*

LED LIGHT KITS

Customized LED headlights are standard for Spartan's RZ-XD Blackout, RT-HD, SRT, KG-XD, and KGZ-XD models. Mounted directly to the front of the mower, they're great for finishing the last few rows at dusk and lighting the way to the trailer or shed.

**Available upgrade on all other models.*

12V OUTLET

Our convenient console is not only a place for your phone but also has an outlet to charge it or other 12V items.

**Storage pocket not included on Defender or Shield models.*

ADJUSTABLE ARMS

Adjustable steering arms come standard on the Shield, Defender, RT Series, SRT Series, and KGZ-XD.

**Available upgrade on RZ-HD and RZ-XD.*

ENHANCED XTF DECK SYSTEM

Our Xtreme Turf Flow (XTF) decks have been designed to meet spring, summer, and fall mowing conditions everywhere. This enhanced system is available on all Defender models and up.

EZ DEBRIS REMOVAL

Our belt covers are open in all directions, allowing for easy removal of accumulated debris to help keep your machine cleaner after each use.

ANTI-SLIP MAT

All models are equipped with a rubber anti-slip foot mat that helps reduce vibration to the operator's feet.

RESILIENT BUSHINGS

Special resilient bushings on the mower stabilizing arms reduce the shock and damage to the mower if it hits curbs, stumps, or other debris.

DESIGN & STYLE

Our passion for the muscle cars of the late '60s has fueled the design of Spartan Mowers. Mow in style and turn heads with its sleek profile.

KEY PAD

The convenient keypad console offers personalized start code, engine hour display, PTO clutch hours, and oil change life. The new RZ-XD Blackout and KGZ-XD models have an upgraded keypad with multiple start options and a fob to bypass start code.

AMERICAN MADE

All Defender models and up are fabricated and assembled with US and global parts at our facility in Batesville, Arkansas. We're proud of our hardworking staff and community.

HIGH QUALITY PARTS

Our RZ-HD models and up feature the same high quality components across the lineup. Regardless of machine size, all Spartans have heavy-duty DNA.

BUILT TOUGH TO LAST

We've upgraded our spindles on all RZ-Pro models and up.
See the new features and benefits below to help you conquer your next turn at the lawn.

1

Robustness & Durability

Larger die-cast aluminum housing utilizing six mounting fasteners distribute force more effectively across the spindle improving impact resistance and increased spindle life.

2

Improved Element Resistance

Spindle assembly utilizes application-specific, 100% sealed bearings with included top shield to help prevent water intrusion.

3

Incorporated Blade Fastener Lock

Spindle assembly includes a proprietary blade fastener locking mechanism that prevents the blade mounting fastener from gaining torque during use and on hard impacts.

4

Maintenance Free

Having 100% sealed bearings eliminates the need for grease and provides less maintenance on the mower.

5

Improved Bearing Alignment

Manufactured with precise bearing alignment, this allows for less heat which increases functionality and improves the overall life of the bearings.

**Model Shown: SRT-XDe*

**Model Shown: KGZ-XD*

SPARTAN MOWERS COMFORT FEATURES

All Spartan Mowers have many of these comfort features as standard or available options.

Front and Rear Radial Tires

Radial tires are designed for maximum traction while also providing a softer, smoother ride. Because the side wall has more flex, lower air pressure may be used.

**Front and rear radials: SRT-XD and SRT-XDe; Rear radials: RZ-XD, RT-HD, KG-Pro, and KG-XD*

TecsPak® Under Seat Adjustable for Weight

TecsPak® under the seat are easily adjustable for 100-300lb operator weight to provide a smoother ride. This highly engineered elastomeric product absorbs more energy per unit of weight and volume than other models.

**RT-HD, SRT-XD, SRT-XDe, and KGZ-XD*

360-Degree Seat Plate Dampens Shock From All Directions

Three neoprene mounting points allow the seat to “float” and absorb shock from 360 degrees.

**RZ-XD Blackout, RT-HD, SRT-XD, SRT-XDe, and KGZ-XD*

Ultra-Premium Dymetrol® Seat

The high performance Dymetrol® fabric works like a spring and is comfortable, lightweight, and durable.

**RZ-XD Blackout, RT-HD, SRT-XD, and SRT-XDe*

Adjustable 3” Travel Seat

Dial on front of seat is easily adjustable for operator’s weight and allows for 3 inches of vertical travel.

**RZ-XD Blackout, RT-HD, SRT-XD, SRT-XDe, and KGZ-XD*

Rear Suspension with Springs

Custom Winamac® Coil Springs allow up and down deflection and slight movement of tire tread to increase traction and provide a softer ride.

**Exclusive to all KGZ and SRT Models*

Suspension Forks

Standard on the SRT-XD and KGZ-XD models, and are optional for the RZ-HD and up. Suspension forks are adjustable for superior ride and comfort.

KGZ-XD

THE ULTIMATE MOWING MACHINE

Get ready to mow with the baddest mower on the market. The KGZ-XD will turn heads and drop jaws. Even with its good looks, it is still a heavy-duty machine, perfect for the those who want to mow in comfort.
