

TRACKER[®] boats

Fish the Finest!

AMERICA'S BEST-SELLING FISHING BOATS

IT'S MORE THAN *A Boat* IT'S A TRACKER

Bass Pro Shops introduced the BASS TRACKER with high hopes and an idea. In 1978, Johnny Morris and his father, John A. came up with the idea to produce the first completely outfitted, ready-to-fish boat, motor and trailer package in the world. They wanted to deliver the best fishing boat on the water. Tracker revolutionized the market and for 47 years running, has remained the best-selling fishing boat on the water.

As is true with every item featured in the Bass Pro Shops catalog, our most important consideration is the quality of the product. Tracker has always maintained close relationships with anglers and designed boats to fit the needs of fisherman.

BASS TRACKER was the first major builder to engineer and produce a trailer purpose-built for each specific boat model. Our trailers are not only perfect companions for each TRACKER Boat, they are the strongest and finest made trailer for any aluminum watercraft.

Johnny and his dad pioneered the “total package” concept—an approach that incorporated the best products—with perfectly matched components—at every step. Only when they felt the complete BASS TRACKER package—boat trailer, outboard, depthfinder, trolling motor and other systems—were representative of their commitment to quality and performance did they concentrate on achieving the lowest possible selling price. At Bass Pro Shops, we don’t believe in cutting corners on quality to achieve a lower price—we use volume to help us reduce costs. Our Mercury® outboards are a good example. We buy them just like we buy tackle boxes, by the semi-truck load delivered directly from the manufacturer’s plant to our plants.

Today the company, known as the White River Marine Group®, is the largest boat manufacturer in the world. We operate eight modern state-of-the-art manufacturing plants, most right here in the Ozarks. By continuing to manufacture our boats, trailers and many component parts, we maintain superior quality standards while providing cost savings for the customer.

By eliminating several layers of middleman expense and streamlining operations, we can deliver our boat directly to the fisherman for less money than competitive builders must charge their dealers.

TRACKER® boats have always been designed with one specific purpose in mind: to be the best. You will not find a bass boat that moves better, is as stable, or that handles with as much finesse as a TRACKER. Performance and fishability are incorporated into every step of how we build, equip, and assemble them. We manufacture our TRACKER hulls to the highest aluminum standards, using the finest construction techniques in the industry.

Our materials are absolutely the best—and usually the most expensive.

The craftsmen who do the work are specialists who rank among the most qualified professionals in the marine industry.

When you buy a TRACKER, you’re buying a complete fishing machine. Each TRACKER is backed by not only meticulous testing, but a pedigree that has been revolutionizing the boat market and producing the finest boat on the water for more than four decades. It is for these reasons and many more that the TRACKER story is defined not simply by catching fish, but innovation, quality and the unending quest for excellence.

JOHNNY MORRIS
FOUNDER, BASS PRO SHOPS

Johnny Morris founded Bass Pro Shops® in 1972 to provide anglers a one-stop shop filled with great deals on the gear they needed. In 1978, he brought that legacy to the boating industry with the BASS TRACKER®, the industry's first boat, motor and trailer package. From there, he continued adding quality boat brands, including Nitro® in 1988, bringing an exciting new dimension of high-performance fishing to anglers.

“WE STRIVE DAILY TO BUILD A BETTER HIGH-PERFORMANCE FISHING BOAT AT A BETTER PRICE FOR BOTH TOURNAMENT PROS AND EVERYDAY ANGLERS.”

Johnny Morris

BACKED BY THE INDUSTRY LEADER IN BOATING

Because of that dedication, Bass Pro Shops is recognized as the world's premier outdoor retailer, and White River Marine Group® (WRMG), the parent company to TRACKER, is the world's largest boat builder. In addition to TRACKER, WRMG crafts an array of fishing and recreational boats and off-road vehicles in America's Heartland. Want to see your new TRACKER in person? Find them at hundreds of quality dealers around the world, including more than 130 Bass Pro Shops/Cabela's® Boating Centers™ and hundreds of quality dealers across North America. Many of those dealerships, including all of the Boating Centers, have a service center with factory-trained and certified technicians, so you're assured to have a full-service center nearby to keep you on the water.

Every location also follows our **NO HAGGLE NO HASSLE®** pricing policy where every model is priced at after-negotiation levels that are consistent across all media. This also means you'll find the same great prices at our dealerships as you will across our brochures, catalogs, ads and trackerboats.com. Whenever and wherever you shop, you'll get the industry's best value—all without having to bargain for the right price.

3 CONVENIENT WAYS TO SHOP

DEALER LOCATIONS

You can reach one of our knowledgeable representatives to have all your TRACKER questions answered, order a boat and arrange pick-up at your local dealer.

CALL US 855.630.2711

Your local Bass Pro Shops, Cabela's or TRACKER dealer can assist you with a purchase.

The TRACKER PROMISE

THE BEST FACTORY WARRANTY IN ALUMINUM BOATS

At TRACKER® Boats, we go to great lengths to ensure every model is quality crafted with the best materials, processes and components to last you for years to come. We're so confident in the quality, we back every all-welded model with the TRACKER Promise—the best factory warranty in aluminum boats.

- ✓ Limited lifetime structural & deck coverage
- ✓ 5-year non-prorated bow-to-stern coverage
- ✓ 3-year coverage on powdercoat adhesion
- ✓ 3-year warranty on factory-installed trolling motor and fishfinder
- ✓ Provisions for transfer to a second owner

RECOGNIZED FOR EXCELLENCE IN CUSTOMER SERVICE

For the TWELFTH consecutive year, TRACKER® Boats has been honored with the Customer Satisfaction Index (CSI) Award for excellence in customer satisfaction from the National Marine Manufacturers Association® (NMMA®).

This recognition reflects thousands of boat owners reporting satisfaction ratings of 90 or higher on a 100-point scale. It's a standing tribute to the dedication our craftspeople, designers and sales consultants have to providing families the best aluminum boats on the water.

Boats may be shown with optional accessories.

Long-Lasting BEAUTY

THE TOUGHEST, BEST-LOOKING FINISH IN ALUMINUM BOATS NOW EVEN TOUGHER!

When we introduced the DIAMOND COAT™ powdercoat finish in 2014, it was an industry-first. Now, with the introduction of DIAMOND COAT™ 3.0, we've made it even tougher, setting a new standard in overall durability and impact resistance in aluminum boats.

So, what exactly goes into making the industry's leading finish?

Every TRACKER boat undergoes a five-stage wash to reveal the flawless bare aluminum hull. Next, a team of state-of-the-art robots work in tandem with skilled craftsmen to apply the color powder, ensuring every inch is evenly covered. The powder electrostatically bonds to the aluminum, yielding a deep, rich color with incredible protective properties.

Since inception, we've taken this tested and proven method, and made it even better by updating the formula. The result is an even harder, yet more flexible, surface that results in less wear and tear and longer-lasting good looks through regular use.

It's not the conventional approach, but it's the best because it's longer-lasting, better looking and more environmentally friendly than traditional methods.

You'll understand when you see these boats in the showroom.

DIAMOND COAT 3.0 FINISH VS. CONVENTIONAL PAINT

- ✓ 3x harder & 4x thicker
- ✓ 10x more corrosion resistance
- ✓ 20x longer-lasting color
- ✓ 70% longer-lasting shine
- ✓ 5x stronger adhesion to metal
- ✓ 50% smaller carbon footprint

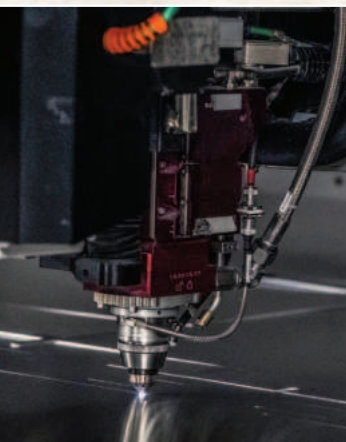

ENHANCING ALL THAT BEAUTY ...

*The toughest, most
environmentally-friendly
finish available in aluminum
boats today.*

INVESTED *In* QUALITY

From the beginning, TRACKER® Boats has always invested in the best and latest technology and equipment to ensure we're creating the best boats possible using the most efficient and economical methods. This lets us offer an even greater value to our customers.

Our Lebanon, Mo., plant is stocked with state-of-the-art equipment that is run by skilled and dedicated craftsmen who are guided by Lean Sigma principles. This ensures that we're creating less waste, are more efficient, and keeping our costs down so we can pass the savings along to you.

Each TRACKER is born from a roll of marine-grade aluminum that's rolled out and cut with surgical precision by laser and plasma cutters. The peerless accuracy of these machines gives every part a better fit, which results in a higher quality and more solid boat. The transom, hull, and stringers are all robotically welded together for the utmost in accuracy which also ensures smooth assembly and greater quality.

Together, the combined efforts of our teams and equipment are what have made TRACKER boats the most popular, feature-packed, and highly acclaimed boats on the water. The TRACKER difference is truly one you can see and feel.

BUILT WITH AN UNWAVERING COMMITMENT TO **RUGGED DURABILITY AND A PERFECT FIT AND FINISH**

All TRACKER Mod V boats feature a two-piece hull, much like our Deep V models have for years. The pieces are welded together, just like the rest of the boat.

— **ROBOTICALLY-WELDED STRINGER**

The stringer provides the backbone for the boat, so it needs to be as strong as possible. We don't cut corners with it—instead, we use robots to weld it together. The result is a solid substructure that evenly absorbs impacts and smooths out shocks for years to come.

— **ROBOTICALLY-WELDED TRANSOM**

The transom carries the outboard and needs to be built stout for years of use. Our transoms are reinforced and robotically welded to the hull for maximum strength.

— **ALL-WELDED HULL**

100% welded, 0% riveted. That's the guarantee with every single TRACKER Mod V hull. We further enhance the strength with chine braces and half-round supports. Then, we weld the stringer and transom to the hull itself to form a tough, one-piece structure throughout. Finally, every hull is injected with sound deadening, insulating, and super buoyant flotation foam that unitizes the whole hull interior.

Crafted For EXCELLENCE

THE FINEST RIDING, SHARPEST LOOKING BOATS ON THE WATER.

Mod V stands for Modified V, and it indicates a hull design with a sharp V at the bow that transitions to a flatter surface aft. This helps the boats plane faster and handle well while still being able to take on moderate chop with ease. They're great for small-to-moderate-sized bodies of water due to their ability to get into tight places and smoothly traverse skinny water.

In addition, TRACKER Mod V boats come complete with everything you need to get on the water and start fishing.

Every single TRACKER Mod V model comes factory-rigged with a Mercury® outboard, custom-matched trailer, fishfinder, Minn Kota® trolling motor, aerated livewell, plentiful storage for rods and tackle, folding fishing chairs and more! Most also include the VERSATRACK® accessory-mounting channels, a sleek helm and raised fore and aft decks. So whether you're teaching your kids the joys of catching crappie or reeling your way to the top of the club tournament standings, you'll have quality features at your fingertips the whole way.

Boats may be shown with optional accessories.

SHARED FEATURES

Some of our features are so good that we had to share 'em across every Mod V TRACKER. You'll find these standard niceties across the board.

A RIDE SO SMOOTH, IT'S GUARANTEED

TRACKER PRO TEAM™ models take the performance design a step further with the exclusive REVOLUTION™ hull design. These models feature a 16° bow deadrise to cut through the waves, and then a flatter 10° transom angle for planing. This is combined with the POWER-TRAC™ set-back transom, which delivers undisturbed water to the prop to optimize holeshots and top-end performance.

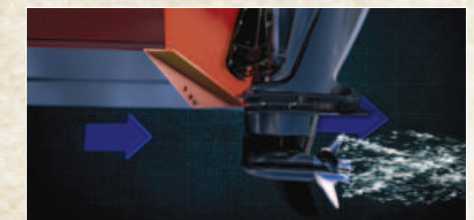

The result is a ride so amazing, we back it with the SMOOTH RIDE GUARANTEE™—if your PRO TEAM doesn't provide the smoothest ride in an aluminum boat, just return it within 30 days for credit toward any TRACKER of equal or greater value.

- THE ONLY PERFORMANCE PROMISE IN THE INDUSTRY -
If your PRO TEAM doesn't provide the smoothest ride in an aluminum boat, return it within 30 days for credit toward any TRACKER of equal or greater value.

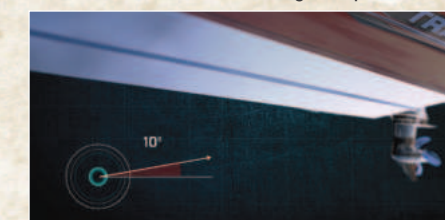

★★★ TRACKER REVOLUTION HULL

16° bow deadrise to cut through chop

POWER-TRAC™ set-back transom

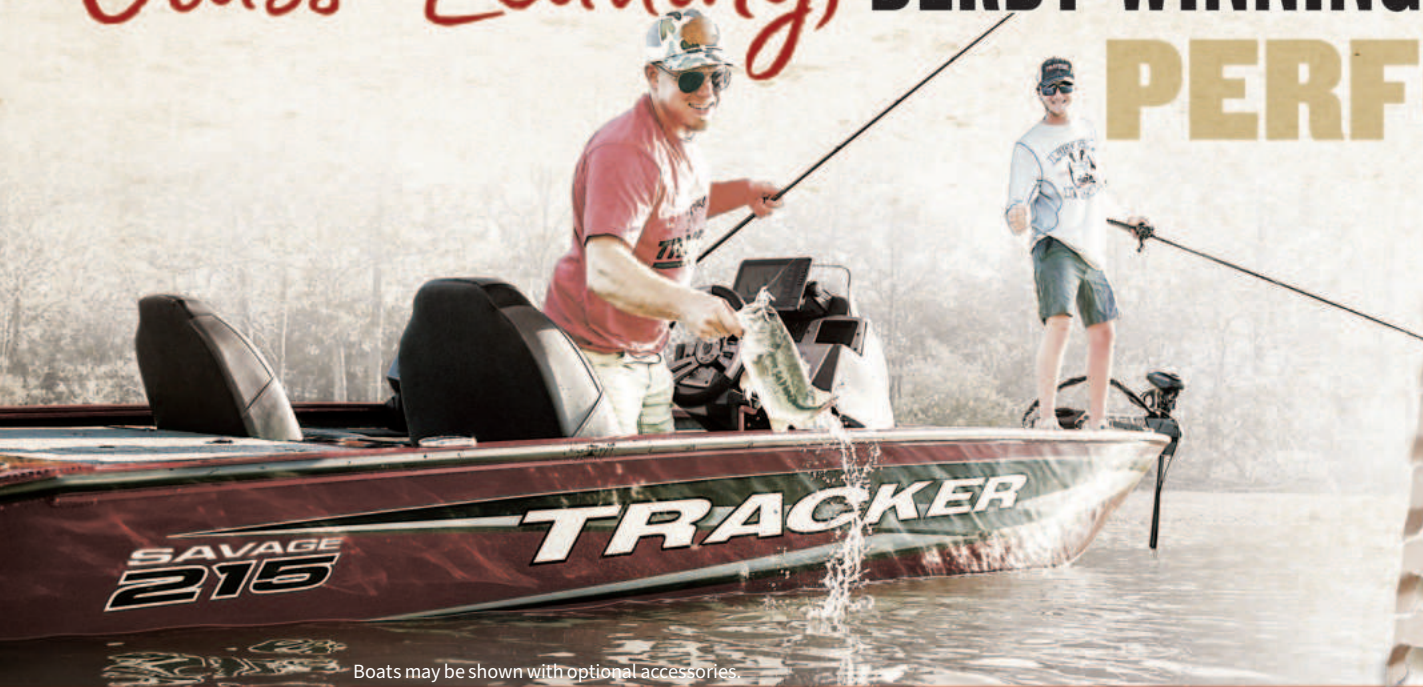

10° deadrise at the transom for stability

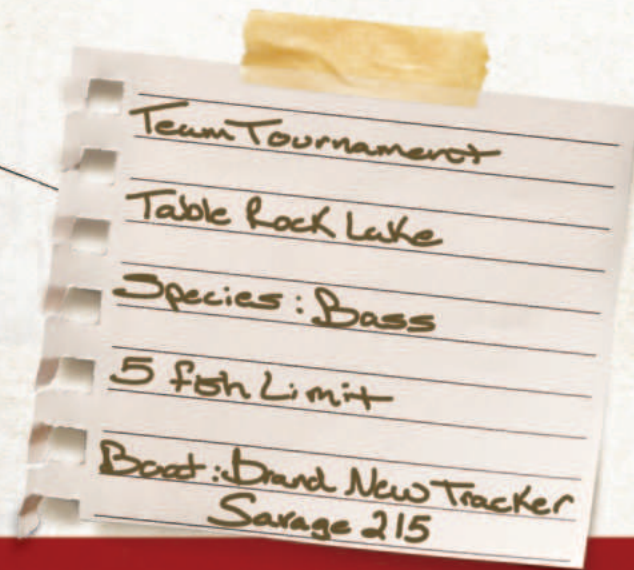

Reverse chines along hull sides to deflect spray

MOD V BASS BOATS

A TRACKER Mod V bass boat is many things to a whole lot of people. Heck, TRACKER is America's No. 1 selling fishing boat brand, and we've earned this honor by delivering the highest quality, best value boat, motor, and trailer package on the water. From the brand-new tournament ready SAVAGE 215 with its fire-breathing Mercury® V8 to the family-friendly BASS TRACKER Classic XL with its legendary layout and easy fishing, the TRACKER Mod V bass boat lineup has something to offer anglers of every stripe. And no matter which TRACKER you choose, rest assured knowing that you're getting a superior fishing machine at the best possible price from the world's largest boat builder. That means you'll get the easiest, most hassle-free shopping experience combined with the most expansive network of service centers anywhere. We're all about keeping things simple so you can enjoy the things that really matter, whether that's whiling away weekends with family, or punishing the competition on the tournament trail. TRACKER has got you covered.

Boat: Tracker
Pro Team 175 Crappie Edition

Boats may be shown with optional accessories.

MOD V MULTI-SPECIES

Whether you're after crappie, bream, perch, or catfish, the TRACKER Mod V Multi-Species lineup has the features, versatility, and capability to get you on your quarry and rack up a limit in no time. Every model is built using our unique build processes that blend the talents of skilled craftsmen with state-of-the-art robots to create rugged, durable designs made to deliver years of reliable performance. Each receives premium, marine-grade components that are proven in the harshest environments. Inside, each Mod V Multi-Species rig carries a world of gear in clever, intuitive storages, offers the perfect blend of performance and economy, and serves as a rock-solid foundation for every outing. We're so confident in every boat that rolls off the line that each is backed by the TRACKER Promise, the best warranty in the business. We're in the business of helping you make memories, and confident peace of mind goes a long way toward finding success on the water.

MOD-V LINEUP

TRACKER® aluminum Mod V bass and panfish boats feature a variable hull angle that is sharper at the bow to slice through chop, but flatter aft to improve planing and stability at rest. PRO TEAM™ models take performance a step further with our exclusive REVOLUTION™ Hull—a variable deadrise is combined with a set-back transom for a fast, dry and smooth ride, all backed by our SMOOTH RIDE GUARANTEE™.

In addition, every model comes as a complete ready-to-fish package with a custom-fit trailer, Mercury® outboard, Minn Kota® trolling motor, fishfinder and an aerated livewell.

DEEP V MULTI-SPECIES BOATS

When you live and fish where the waves can kick up in a hurry, you need confidence underfoot, whether you're in 10 feet of water or 100 feet. That's why every TRACKER Deep V is made the way you'd make it: Overbuilt with an abundance of strength, power, and safety—with top-tier fishing layouts and features. Part of being big-water worthy is utmost safety. Every part of a TRACKER Deep V is robotically cut from a roll of heavy-duty aluminum then robotically welded to form the foundation of our unshakable strength. A world of foam flotation is injected into every hull, delivering maximum buoyancy and shock-absorbing insulation. The cockpits have been tailor made by our legendary walleye anglers who are more than a little serious about fishing. Make better days on the water with the solid strength and confidence found in a TRACKER Deep V.

DEEP-V LINEUP

TRACKER® Deep V models are built to provide the toughness and wave-slicing performance needed to take on bigger waters. They feature a sharp deadrise at the bow that transitions to a moderate angle aft—the result is a boat that will cut through larger waves while still providing stability at rest.

In addition, they are designed with deep, comfortable cockpits for safety in rough waters. They also come factory rigged with a Minn Kota® trolling motor, aerated livewells, Lowrance® fishfinder, Mercury® outboard and custom-fit trailer. The Combo models also add in family-friendly and watersports-centric features.

Go Big
NOT HOME.

**WHEN THE WATERS GET ROUGH,
ANGLERS NEED A BOAT THEY CAN TRUST.**

Our anglers trust our aluminum Deep Vs to get them to their fishing spot safely and smoothly. And once you're there, TRACKER Deep Vs provide everything you need to reel in a mess of walleye, muskie or whatever other big-water beast you're seeking.

Onboard every model, you'll find a huge aerated livewell to keep your catch healthy, or to keep your live bait perky. There's also plentiful rod and gear storage (below decks and above) to ensure you can take all the tackle you need and have it ready at a moment's notice.

Rounding out the entire package is a Lowrance® fishfinder, movable fishing chairs, VERSATRACK® accessory-mounting channels and Minn Kota® trolling motor. All riding on a custom-matched, ready-to-roll trailer.

Whether you're headed out for fishing or fun—or both!—TRACKER Deep Vs will keep you safe the entire time.

**A RIDE SO SMOOTH, IT'S
GUARANTEED**

TRACKER Deep V boats are designed to be the smoothest-riding, most comfortable boats on the water. Each is designed for maximum stability and strength that translates into rock-solid rigidity that you can count on in all conditions. Every weld, brace, and ounce of foam inside these hulls is made to deliver unwavering confidence and a ride so smooth that we guarantee it.

SHARED FEATURES

Some things are too good not to share. You'll find these features across all TRACKER Deep V models.

- | | |
|----------------------------------|------------------------------------|
| 1 Aerated Livewell | 5 Mercury® Outboard |
| 2 Rod Storage | 6 Minn Kota® Trolling Motor |
| 3 Moveable Fishing Chairs | 7 Custom-Matched Trailer |
| 4 Lowrance® Fishfinder | |

**ALL-WELDED
CONFIDENCE
IN BIG, ROUGH WATER**

A 35° angle at the bow cuts through waves and reverse chines deflect water down for a dry, smooth ride in rough water. We use thick aluminum on the hull—.100 gauge or .125 gauge, depending on the model. And unlike some competitors, we use the same thickness in the hull sides as we do the bottom to ensure maximum durability.

- THE ONLY PERFORMANCE PROMISE IN THE INDUSTRY -
If your TARGA or PRO GUIDE doesn't provide the smoothest ride in an aluminum boat, return it within 30 days for credit toward any TRACKER of equal or greater value.

WE'VE BEEN BUILDING CUSTOM-MATCHED BOAT TRAILERS FOR MORE THAN 45 YEARS.

Every Mod V, Deep V and GRIZZLY package comes standard with a factory-matched, custom-built trailer.

Just like the boats riding on them, TRACKER trailers are built extra tough for years of use. Each one features our exclusive GALVASHIELD® Impact corrosion resistance—the pretreated steel tubing and long-lasting powdercoat paint will stand up to corrosion and chipping for many miles and years. We also weld—that's right, weld, not bolt—our trailer frames together to create a unitized, heavy-duty structure.

It's a quality so high, we're not afraid to back it with an industry-leading three-year warranty.

3-YEAR WARRANTY PROTECTION

Our GALVASHIELD tubing, with its baked-on powdercoat finish, offers industry-leading warranty protection against failure due to corrosion.

ALL-WELDED CONSTRUCTION

The all-welded construction of our trailers means there are no bolts to loosen over time, maximizing durability. And each trailer is custom built for each boat model, making the fit as impressive as the construction.

HUBS & BRAKES

Long-lived, easy-to-lubricate hubs, included on all TRACKER® trailers, keep your ride smooth and your mind at peace, delivering years of reliable performance. Most boat and trailer packages offered by TRACKER Boats are available with brakes as an option. State towing regulations vary regarding vehicle weight rating and requirements for brakes on boat trailers. Check the brake requirements for your state.

LOW-MAINTENANCE HUBS

Our hubs make maintenance easy. Just inject grease into the fittings to deliver lubrication to both inner and outer wheel bearings.

SURGE BRAKES

Most TRACKER trailers are available with optional drum surge brakes that stop quickly and won't engage when backing.

Boats may be shown with optional accessories. Previous model year shown.

WE HAVE *You* COVERED

CUSTOM-CRAFTED AND MATCHED TO YOUR BOAT.

At TRACKER® Boats, we offer a number of cover options to meet your needs to protect you and your boat on or off the water. Choose from mooring covers, bimini tops and more. Each one is custom-fitted to the boat it'll ride on, ensuring a quality cover and protection from the elements for years to come.

MOD V COVERS

DEEP V COVERS

BIMINI TOP

Get out of the sun and into the shade of a custom-matched TRACKER Bimini top. In addition to being long lasting, these tops are easy to put up and pull down.

FRONT CURTAIN

Protect yourself and your passengers from the elements with a curtain. It's roomy enough for easy movement in the cockpit. Available for all WT and Combo models.

FULL ENCLOSURE

For colder climates, the full enclosure provides complete protection from the elements.

It's More **THAN A BOAT.** **IT'S A TRACKER.**

A boat is simply defined as “a small vessel propelled on water by oars, sails or an engine.”

That definition doesn't quite fit TRACKER to a T, though. These aren't just formed pieces of metal floating on the water.

They're the means to teaching grandkids the joy of fishing. The way to pass on your love for the outdoors and share the importance of conservation to the next generation. The way to get away from the world for a day—or two—of fishing with your buddy or spouse. A way to get the kids to happily put away the electronics to pick up a rod or hop on a wakeboard.

It's family and fishing memories that will never fade.

And that's why, it's more than a boat.

It's a TRACKER.
