

READY TO RIDE!

For 2026, the CB300R is the same light, narrow, nimble bike with the same proven Honda quality, now with an MSRP of \$650 less. Nothing changed except the price, because we want you carving corners with more cash in your wallet. A perfect first bike and an effortless commuter, the CB300R is agile, approachable, and above all, fun.

FEATURES & BENEFITS

CAFÉ STYLE

Taking its styling cues from our CB1000R, the CB300R offers a fresh, contemporary take on the modern street bike with its angular lines and minimalist design.

COMPACT ENGINE

The compact single-cylinder engine is a jewel with a free-revving, responsive nature. It works extraordinarily well in real-world road-riding conditions, providing plenty of power around town and on the highway.

OPEN RIDING POSITION

Great handling starts with a superior chassis, so we use a special light and strong frame construction. This gives the lightweight naked bike the perfect combination of nimble handling and athletic comfort.

STANDARD ABS

Standard ABS helps you make controlled stops in less-than-ideal conditions, such as wet pavement, providing added confidence whether riding for fun or commuting.
