## NMMA® 2024 CSI AWARD RECIPIENT FOR CUSTOMER SATISFACTION - PONTON BOATS INDUSTRY LEADING 15 CONSECUTIVE YEARS

**The Certified Advantage** The NMMA® Certified label on a G3 Boat lets you know it was built to meet and often exceed, strict quality and safety standards established by the U.S. Coast Guard and the American Boat and Yacht Council. These standards include 31 categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. As a result, U.S. Coast Guard statistics show NMMA® Certified boats have been shown to be safer than non-certified boats.

Boat smart from the start, take a boating safety course and get a free vessel safety check annually for your boat. For more information, contact United States Coast Guard at [www.uscgboating.org](http://www.uscgboating.org) or United States Power Squadrons, 888-for-usps. Follow all instructional materials and local and federal laws. Remember to always observe all applicable boating laws. Never drink and drive. Dress properly with a USCG approved personal flotation device and protective gear. Always use your stop switch lanyard. Operate within your capabilities, allowing extra time and distance for maneuvering. Always operate in a responsible manner, respecting the environment and others around you.
