TRAILER

READY FOR AN EPIC

ESCAPE

When our founders started refurbishing old fiberglass trailers in 1993, they were focused on one thing: the confidence of owners, their family, and their friends to escape carefree.

WHEN YOU BUY AN ESCAPE, YOU'LL FIND OUT WHY OUR OWNERS ARE SO CONFIDENT.

With an ultra-tough exterior, ultra-customizable interior, and engineering designed to be light enough to tow with an everyday SUV and pickup, our trailers are built to be reliable, comfortable, and durable.

How do we make sure we deliver on this promise of confidence? You can only buy directly from us, not a third-party dealer.

That way, we're sure every trailer sent out is worthy of the **Epic Escapes** it will be a part of.

We put so much care into every trailer because your adventures should be complimented, not bogged down, by your trailer. If that sounds good to you, get ready to

MAKE ANYWHERE HOME

IT'S TIME TO *ESCAPE CAREFREE*

You'll often hear people say "form over function", or vice versa.
We disagree. Why not have both?

Escape Trailers are light on their axles, mini-fortresses on the outside,
and feel like cozy cabins on the inside. Function or form?
When you've been doing this as long as we have,
you don't need to choose between the two.

THIS IS NOT YOUR TRADITIONAL DEALER EXPERIENCE.

We design, build and stand behind our trailers - and we want you to hear about the **real experiences** of other owners as part of your buying journey. Our customers value quality, low

maintenance and customization, making the decision to invest in an Escape an informed one. With our leak-resistant, single-piece fiberglass shell trailers, we provide a product tailored to the high standards our customers.

These aren't sales pitches; these are real life experiences.
