LEPRECHAUN

Navigate Leprechaun's Curves with Ease

Modern and sophisticated, the Leprechaun combines hip, casually contoured styling with Coachmen's legendary attention to quality and detail. Curvacious cabinetry, furnishings and fixtures create a flowing interior living space. The resulting atmosphere is a versatile and inviting home base perfect for today's get-away-for-a-day tailgaters, and extended destination travelers. The new Leprechaun is impeccably styled and extremely livable.

Design and Technology

Progressive, forward-thinking design extends throughout Leprechaun's stunning interior spaces with cool ideas like Coachmen's "televator" – a clever space saving feature that allows you to stow a 20" flatscreen television under the bedroom vanity. The Intellitec® light switching system places control of lighting zones throughout the coach in one central location for convenient access. Push buttons glow – showing which lights are powered at a glance.

Styling

Leprechaun's modern styling showcases rich cherry or maple cabinetry with contemporary fabrics, cutting edge brushed metal accents and designer fixtures and hardware. Clean halogen lighting illuminates the entire coach. An elegant glass vessel sink sits on top of a seamless one piece countertop. Durable, wear and stain resistant Beauflor® flooring provides a beautiful slip resistant surface in the kitchen and bath area that's easy to clean.

The well-lit bathroom with contoured walls features a curved countertop, a stunning vessel sink with a designer faucet, ample storage and modern hardware. (Brazilian Cherry cabinetry shown)

The cedar lined wardrobe closet keeps your clothes smelling fresh.

LAKESIDE MAPLE

The sleek, relaxing master bedroom in the 320 DS features an angled, walk-around queen bed and a curved panel wall with metal accents. It's loaded with substantial storage space, plus an innovative built-in pop up "televator" housing a 20" LCD TV.

A spacious L-shaped sofa extends throughout the living area. The contemporary Euro chair with a fold-up tray is a handy place to read, craft or access a laptop. The coffee table height easily adjusts for multiple uses. (320 DS shown with Elantra soft touch decor and Brazilian Cherry cabinetry)

GVWR (Gross Vehicle Weight Rating): The maximum permissible weight of the unit, including the UVW plus all fluids, cargo, optional equipment and accessories. For safety and product performance, do not exceed the GVWR.

GCWR (Gross Combined Weight Rating): The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

IMPORTANT NOTE:

All capacities are approximate, and all dimensions are nominal. Coachmen motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load, and tow vehicle without exceeding the chassis weight capabilities. Customer may need additional braking capacity to tow loads greater than 1000 lbs. Seat belts should always be worn for passenger safety. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors. All Coachmen motorhomes are designed to ensure that the number of passengers allowed while the vehicle is in motion will always at least equal the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.
