Dear Friend,

Here at Fleetwood RV, we have more than 200 people working on research and development. But we get our best ideas when we hit the road in our recreational vehicles. Talking to people like you and noticing for ourselves little ways to make RVing more comfortable, more convenient and more fun.

If I had two pieces of free advice to give a friend in the market for a recreational vehicle, the first would be to get a Fleetwood RV. Not because we need to sell one more. Heck, we sell more than anyone else. But because I know we build the best product out there for the money.

Second, really think about your dealer. He has to be someone you trust for advice, service and accessories. Only the best get to be Fleetwood dealers in the first place. Then we work with them to continually improve customer satisfaction. That’s why nine out of 10 owners would recommend their Fleetwood RV to a friend, and nine out of 10 would also recommend their Fleetwood RV dealer.

I hope that helps. And I also hope I see you out there, somewhere in this beautiful world, enjoying your new Fleetwood RV while I’m out there doing the same.

Sincerely,

John C. Crean
