For over 50 years, we at Fleetwood have understood that people love the freedom and independence an RV provides. As a pioneer in the RV industry, Fleetwood is synonymous with outdoor recreation, and over the last half-century, we’ve grown to become the largest manufacturer of recreational vehicles in the world. This growth was inspired by the simple credo of Fleetwood’s founder—to build great value into practical products that work hard for the consumer—a philosophy fully embraced by every Fleetwood associate to this day.

Go to any campground, state park or auto race and chances are that there will be more Fleetwood RVs present than units from any other manufacturer. Over two million vacations a year are taken in Fleetwood RVs, vacations that represent the dreams of RV owners. That’s a great number of dreams to live up to. Yet, year after year, Fleetwood comes through.

That’s why we remain the number one RV manufacturer in the world—we make the dreams of our customers come true.
