- the GVWR. CW (Curb Weight): The weight of the unit without factory or dealer installed options, plus allowance for the weight of full fuel capacity. The "payload capacity" for all other fluids, cargo, occupants, optional equipment and accessories can be determined by subtracting the CW from the GVWR. GCWR (Gross Combined Weight Rating): The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle. This includes the weight of both the unit and tow vehicle. Mider Widths: Numerous Georgie Boy floorplans feature the "wide body" design concept, which gives you significantly enhanced interior living space and innovative floorplans. In making your purchase decision, you should be aware that a few states restrict access on some or all roads within the state to vehicles with a maximum 96" width, although special road usage permits may be available. Vehicles up to 102" in width are permitted in the vast majority of states. You should confirm the road usage laws in the states of interest to you before making your purchase decision. IMPORTANT NOTE: All capacities are approximate, and all dimensions are consubed to a subtraction and the conduction of the subtraction and the
- you before making your purchase decision. IMPORTANT NOTE: All capacities are approximate, and all dimensions are nominal. Georgie Boy motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load, and tow vehicle without exceeding the chassis weight capabilities. Consumer may need additional braking capacity to tow loads greater than 1,000 pounds. Seat belts should always be worn for passenger safely. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors. All Georgie Boy motorhomes are designed to ensure that the number of passengers allowed while the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.

You've decided to travel. Freedom has never meant more to you. You've planned for this day, and now it's here. At Georgie Boy, we've been in the recreational vehicle business since 1968. Our goal is to design and build motorhomes that can keep up with the explorer in you. This means working hard to ensure that every detail of your new Georgie Boy is right – before you turn the key. Of course, our commitment to quality also means a few late-night trips to the coffee maker.
