## PERFORMANCE

Villagio's cutting-edge design starts with an aerodynamic Sprinter chassis built on an all-steel, lightweight frame powered by a state-of-the-art Mercedes-Benz Turbo diesel engine delivering impressive power with exceptional fuel mileage. The Sprinter chassis utilizes Adaptive ESP®, an advanced system engineered to maintain stability and vehicle control by adjusting to road conditions, keeping you and your passengers safe. A shorter wheel base gives the Villagio more maneuverability than larger coaches, allowing you to turn around, even in tight spaces.

Renegade boasts a powerful line up of the finest, high performance luxury motorhomes.
